Course Description

This is a one day live conference on home dialysis sponsored by the Icahn School of Medicine at Mount Sinai. Practitioners, researchers, clinician-scientists and registered nurses who are experts in the field of kidney disease will discuss current developments in the field of Peritoneal Dialysis and related dialysis modalities. The topics will range from nutritional management of patients with kidney disease to organizing a successful PD program. Patients will also be participating in this conference and will give their perspective of whether or not peritoneal dialysis is the right choice for them.

The conference is designed for health professionals involved in established PD programs, as well as those working in new and developing programs. Both researchers and clinicians will find sessions of interest to them.

Conference Objectives

Participants will be able to:

- Review the patient's perspective on choosing home dialysis.
- Compare PD catheter complications across dialysis programs.
- Describe the importance of insertion, placement and maintenance of PD catheters.
- Organize a successful Peritoneal Dialysis Program.
- Summarize the current status of home dialysis in the United States

Target Audience

This activity has been designed for nephrologists, internist, PCPs, nephrology nurses and other allied health care clinicians exposed to patients with kidney disorders.

Accreditation

This activity has been planned and implemented The Icahn School of Medicine at Mount Sinai is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.
