## Welcome note

The Liver Transplant Symposium 2015, organized by the National University Centre for Organ Transplantation (NUCOT) in partnership with the International Liver Transplant Society (ILTS), will be held in Singapore from 6 - 8 November 2015.

This year's theme, "Pushing Boundaries, Transforming Lives", crystalizes how advancing knowledge and expertise by the multi-disciplinary transplant community can further improve the care and outcomes of our patients.

Our international faculty of world-renowned key opinion leaders will discuss state of the art topics with a special focus on best practices in South East Asia that will appeal to both senior clinicians and trainees alike.

On behalf of the organizing committee, we look forward to welcoming you to Singapore and to The Liver Transplant Symposium 2015.

## Program Synopsis 7-8 November 2015

The Liver Transplant Symposium 2015 scientific programme will feature state-of-the-art topics and discuss the latest evidence in transplant surgery, transplant hepatology, anaesthesia and critical care, immunosuppression, transplant infectious diseases, interventional radiology and pathology; reflecting the multi-disciplinary nature of liver transplantation.

## Hands-on workshops 6 November 2015

### *Liver Transplantation Surgical Workshop*

Khoo Teck Puat Advanced Surgery Training Centre  
National University Hospital Singapore

### *Anaesthesia Simulation Workshop*

Centre for Healthcare Simulation  
National University of Singapore

#### Key Highlights

- Provides participants with the concepts of surgical techniques in liver transplantation
- Demonstrates standard approaches to liver transplant surgery via video demonstration
- Allows participants to perform liver transplantation using animal hands-on dissection

#### Who should attend

- Surgical trainees & surgical fellows
- Residents around the region
- Surgeons/Physicians

#### Key Highlights

- Increases familiarity with the conduct of liver transplant anaesthesia, including reference to unique pathophysiology of liver transplant patients
- Provides an insight into haemodynamic monitoring and coagulation management
- Discuss the potential complications arising during liver transplant anaesthesia and surgery
- Improves interdisciplinary communication and teamwork

#### Who should attend

- Senior anaesthesia residents and clinical fellows
- Junior consultant anaesthetists
- Anaesthetic nurses or assistants

## Call for Submission

**We invite submissions for our inaugural NUHS – ILTS Travel Grant essay competition. Winners of the competition will be awarded travel grant & free symposium access to The Liver Transplant Symposium 2015.**

**Deadline for submission: 15 September 2015.**

**Online Submission at: [www.livertransplantsymposium.com](http://www.livertransplantsymposium.com)**

## About NUCOT

The National University Centre for Organ Transplantation (NUCOT) is the specialist centre for adult and paediatric transplantation in the National University Hospital (Singapore). NUCOT consists of a multi-disciplinary team of medical specialists and allied healthcare professionals dedicated to providing seamless and comprehensive treatment and care for organ transplant patients.

Established since 2008, NUCOT is now a major referral centre for complex tertiary care for transplant patients, with patients being referred from overseas centres such as Brunei, Cambodia, India, Indonesia, Malaysia, Myanmar, Middle East and Vietnam. In addition to its clinical services, NUCOT is a key driver of training and research in transplantation in the region. It frequently hosts international fellows for specialty training in liver and kidney transplantation.

For more information about NUCOT, please visit [www.nuh.com.sg/nucot](http://www.nuh.com.sg/nucot).
