

Thursday 2 March 2017	
08:30	Registration & coffee
09:00	Welcome and Introduction, Mr Christoph Lees, Imperial College London
LATE FETAL GROWTH RESTRICTION & STILLBIRTH	
09:15	Optimum fetal growth Professor Gerry Visser, Professor of Obstetrics, University Medical Centre, Utrecht, The Netherlands
09:45	WHO's fetal growth standards: one size fits for all? Professor Kurt Hecher, Chairman, Dept. of Obstetrics and Fetal Medicine University Medical Center Hamburg-Eppendorf, Germany
10:15	Preventing stillbirth: Understanding established and novel risk factors Dr Alexander Heazell, Senior Clinical Lecturer in Obstetrics, University of Manchester
10:45	When should we induce to prevent stillbirth? Professor Jim Thornton, Professor of Obstetrics & Gynaecology, University of Nottingham
11:15	Coffee Break
FETAL NEUROLOGY	
11:45	Fetal CNS Imaging: Lessons from MERIDIAN Professor Paul Griffiths, Professor of Radiology, University of Sheffield
12:15	A systematic fetal CNS evaluation by ultrasound Professor Laurent Guibaud, Paediatric and Fetal Imaging, Hopital Femme Mère Enfant, Université Claude Bernard Lyon 1, France
12:45	The CNS & genetic conditions Dr Sue Holder, Consultant Clinical Geneticist, Kennedy Galton Centre
13:15	Lunch
CARDIAC CONTROVERSIES	
14:00	Why is detection in screening so low? Dr Julene Carvalho, Consultant Fetal & Paediatric Cardiologist, The Royal Brompton & St George's Hospitals
14:30	Fetal cardiac conduction and tachy-arrhythmias explained Dr Vicky Jowett, Consultant Paediatric and Fetal Cardiologist, QCCH & The Royal Brompton Hospital, Imperial College
15:00	Paediatric and fetal cardiac intervention Professor John Simpson, Professor of Paediatric and Fetal Cardiology, Evelina Children's Hospitals
15:30	Tea Break
INTRAPARTUM ULTRASOUND	
15:50	Ultrasound in the second stage of labour-why do it Professor Torbjørn Moe Eggebo, Director, National Center of Fetal Medicine, St Olavs Hospital, Norway
16:20	Intrapartum ultrasound: How to do it Dr Sana Usman, Clinical Research Fellow, QCCH, Imperial College
16:50	A predictive model for labour outcome Dr Christoph Lees, Head of Fetal Medicine, Centre for Fetal Care, QCCH, Imperial College
17:20	Drinks Reception, kindly sponsored by Samsung / MIS Healthcare

Friday 3 March 2017	
08:00	<i>Samsung Breakfast Symposium</i>
	FETAL SCREENING
09:00	First trimester ultrasound in an era of NIPT Dr Katia Bilardo, <i>Head Fetal Medicine and Prenatal Diagnosis, UMCG University Medical Centre Groningen, The Netherlands</i>
09:30	Models for PET & IUGR prediction Dr Asma Khalil, <i>Subspecialist in Maternal and Fetal Medicine, St George's Hospital</i>
10:00	The place of aspirin in prophylaxis of PET and IUGR Dr Shireen Meher, <i>Honorary Lecturer in Obstetrics, University of Liverpool</i>
10:30	Screening for PTB: fibronectin & cervical length Professor Phil Bennett, <i>Director of Institute of Reproductive & Developmental Biology (IRDB), Imperial College London'</i>
11:00	<i>Coffee Break</i>
	MATERNAL CARDIOVASCULAR CHANGES
11:30	The maternal venous system in health & disease Dr Wilfried Gyselaers, <i>Obstetrician Perinatologist, Hasselt University, Belgium</i>
12:00	Why does cardiovascular function matter in pregnancy? Professor Ian Wilkinson, <i>Professor of Therapeutics, University of Cambridge</i>
12:30	Pregnancy with congenital heart disease: fetal outcomes Professor Mark Johnson, <i>Professor of Clinical Obstetrics, Chelsea & Westminster Hospital, Imperial College</i>
13:00	<i>Lunch</i>
	EXPERIMENTAL FETAL MEDICINE
13:45	Hypoxia & fetal autonomic responses Professor Dino Giussani, <i>Professor of Paediatric Surgery, Department of Physiology Development & Neuroscience, University of Cambridge</i>
14:15	The potential use of high intensity focused ultrasound (HIFU) in complex and monochorionic pregnancy Dr Caroline Shaw, <i>Honorary Clinical Research Fellow, Imperial College</i>
14:45	Stem cells for fetal haematological conditions Dr Anna David, <i>Consultant in Obstetrics and Maternal Fetal Medicine, University College London Hospital</i>
15:15	<i>Tea Break</i>
	FETAL THERAPY
15:30	Medical treatment for NAIT Professor Dirk Oepkes, <i>Leiden, Netherlands</i>
16:00	Is there still a place for fetal shunting? Professor Mark Kilby, <i>Professor of Maternal & Fetal Medicine, Birmingham Women's Hospital</i>
16:30	Fetal blood transfusion: why, where, when? Professor Basky Thilaganathan, <i>Director of Fetal Medicine, St George's University Hospital</i>
17:00	<i>End of meeting</i>
