Audience and Overview

With the significant incidence and prevalence of cardiac and vascular disease in the United States, health-care professionals must stay abreast of the developments within this field. Open to all members of the interdisciplinary team, Penn State's Dimensions in Heart and Vascular Care 2015, is designed to highlight the numerous dimensions and advances within the field of heart and vascular care.

This meeting is designed to impact practice, explore evidence-based research, and demonstrate cutting-edge techniques that can be directly applied to the learner's clinical and academic practice.

Objectives

Upon completion of this activity, participants should be able to:

Integrate advancements in telemonitoring to facilitate in the management and treatment of those patients living with complex heart and vascular disease

Emphasize the importance of implementing nationally recognized quality-based practices to enhance patient care and outcomes

Assess the latest techniques, technologies, and therapies for structural heart disease, heart failure and vascular disease

Recognize the importance of the multidisciplinary team approach to the care and management of the patient living with heart and vascular disease

Credit

AMA

Penn State College of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Penn State College of Medicine designates this live activity for a maximum of *5.75 AMA PRA Category 1 Credit(s)TM*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Patient Safety/Risk

This program includes *5.75 hours of patient safety/risk management education* as required by the Pennsylvania State Board of Medicine. Please see the program schedule for the topic marked with a "†."

It is our policy to ensure balance, independence, objectivity, and scientific rigor in all of our educational programs. Faculty and course directors have disclosed relevant financial relationships with commercial companies, and Penn State has a process in place to resolve any conflict of interest. Complete faculty disclosure will be provided to program participants at the beginning of the activity.
