Volunteer to be an FDC Speaker Host

Volunteers provide an invaluable service to the Florida Dental Convention. Speaker Hosts will be responsible for introducing the speaker, making announcements in front of the course, passing out and collecting surveys, and contacting convention staff if AV assistance is needed.

Volunteering has its perks!

- All Speaker Hosts receive a \$20 lunch voucher for Exhibit Hall concessions.
- Lecture Speaker Hosts receive free course tuition for the hosted course.

Volunteer today at education.floridadentalconvention.com

Join Us!

On behalf of the Florida Dental Association (FDA) and the Committee on Conventions and Continuing Education, we are excited to invite you and your team to join us for the 2023 Florida Dental Convention (FDC) “Launching Dentistry Forward!” This year’s program offers a dynamite lineup of continuing education (CE). We remain committed to high quality lectures, cutting edge workshops and a state-of-the-art Exhibit Hall. As a reminder, pre-registration is FREE for all FDA member dentists! As you explore the program, we hope you grow ever more excited to join us June 29-July 1, 2023.

Dr. Kaycee Wilcox, 2023 scientific program chair, has created an out-of-this-world lineup for you and your dental team. FDC2023 contains some of the nation’s top speakers, presenting cutting-edge information to help you, your team, your practice and your patients thrive. Thursday and Friday mornings will open with dynamic and energetic keynote speakers to get you ready for a day of learning. You won’t want to miss Marvelous Mark presenting “Opportunity Rocks” and Dr. Kelly Tanner reminding us to “Override Your Autopilot.”

This year will feature a comprehensive mini-residency focused on sleep appliances, as well as intensive full-day workshops about 3D-printing technologies and their applications for your practice. Clinically, you will find an abundance of five-star speakers including Dr. Mia Geisinger, Dr. Waji Khan, Dr. Steve Carstensen, Ms. Judy Kay Mausolf, Dr. Michael Pikos, Dr. Lee Ann Brady and a galaxy full of many more.

The Exhibit Hall has been designed to cater to all of your comprehensive dental needs. The Exhibit Hall will be open Thursday, 11 AM-6 PM; Friday, 8:45 AM-6 PM; and Saturday, 9 AM-2 PM. This allows you time to visit the more than 300 exhibiting companies. There will also be a reception in the Exhibit Hall on Thursday from 4-6 PM that is included for registered attendees! Non-FDA members and team members can visit the Exhibit Hall for FREE with an Exhibit Hall Only registration.

We know you come for the CE, but we hope you will stay for the FUN! As always, FDC will host phenomenal parties for you to enjoy time with your colleagues, friends and family. Dance your heart out at “Live at FDC” with a live band for all ages on Thursday from 8-11 PM. On Friday night, bring your space gear for an “Out of this World” experience at the space-themed party where you can enjoy a galaxy of cosmic treasures and treats! Those 18 and older who like to keep the party going can continue on to “The After Party” for a club-like experience with a DJ jamming from 10 PM-1 AM. These events are FREE for all registered attendees and your badge is required for entry.

FDC is the premier educational and social dental event of the year! Have a look at all we have to offer you, your team, your family and guests to make the most of your stay. Secure your hotel room early and register now to get your first choice on your preferred courses and event tickets before they sell out. Come join us – FDC2023 will be *stellar*! We will #FDCYouSoon.

AUGER, MS. AMBER

NEW DENTIST RECOMMENDED

PROGRESSIVE PERIODONTAL THERAPY: A COMPREHENSIVE APPROACH TO PERIODONTAL MANAGEMENT | C02

9 AM-12 PM | PERIODONTICS | CE CREDITS: 3

AUDIENCE: DENTISTS, HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$0	\$0	\$49
NON-MEMBER DENTIST	\$49	\$49	\$59
HYGIENIST	\$0	\$0	\$59

Identifying disease at its earliest stages is essential to prevent the progression of oral and systemic diseases. Proper classification of patient risk factors and potential rate of progression enables the dental hygienist's role to be fully maximized. This creates a practice in complete alignment with elevated care, results in raving patients and a thriving practice. During this course, attendees will evaluate communication techniques to increase patient acceptance, review new and innovative ways to improve the chairside experience for both the patient and the clinician and identify best practices for power instrumentation and the latest hand scaling techniques.

This lecture is fully sponsored by

BARTON, DR. JOSEPH

RESTORATIVE AND MATERIAL OPTIONS WHEN TREATING TMD PATIENTS | C16

2-4 PM | OCCLUSION | CE CREDITS: 2

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$0	\$0	\$49
NON-MEMBER DENTIST	\$49	\$49	\$59
TEAM MEMBER	\$49	\$49	\$59
DENTAL STUDENT	\$49	\$49	\$59

This lecture will give an overview of the different materials used throughout the process of diagnosing and treating patients with temporomandibular disorders (TMD). How technology can be utilized during this process also will be integrated into the lecture. The treatment sequence used to diagnose and treat TMD patients will be demonstrated through case examples.

This lecture is fully sponsored by

BELKNAP, DR. AUSTIN

NEW DENTIST RECOMMENDED

ORAL PATHOLOGY CLINICAL CASES | C29

2:30-3:30 PM | ORAL MEDICINE | CE CREDITS: 1

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$0	\$0	\$29
NON-MEMBER DENTIST	\$29	\$29	\$39
TEAM MEMBER	\$29	\$29	\$39
DENTAL STUDENT	\$29	\$29	\$39

How are your clinical diagnostic skills of oral mucosal lesions? This lecture will discuss common mucosal lesions intended for general dentists and hygienists to enhance their clinical recognition of mucosal lesions. The lecture will entail several clinical examples of mucosal lesions of the oral cavity with a variety of entities ranging from benign to malignant. During this course, Dr. Belknap will review the clinical presentation and attendees can become more comfortable recognizing these oral lesions. Each case will have a multitude of clinical intra-oral photographs.

BERMAN, MR. SHAY KAPLAN, MR. JASON

GROWING YOUR PRACTICE WITH DIGITAL MARKETING AND HOW TO AVOID LEGAL PITFALLS WHILE DOING SO | NC03

2-5 PM | ADMINISTRATION | CE CREDITS: 0

AUDIENCE: DENTISTS, ASSISTANTS, PRACTICE ADMINISTRATORS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$0	\$0	\$49
NON-MEMBER DENTIST	\$49	\$49	\$59
TEAM MEMBER	\$49	\$49	\$59
DENTAL STUDENT	\$49	\$49	\$59

Starting a practice from scratch, acquiring a practice or giving your existing practice a much-needed boost — they all come with unique goals and pain points. But what they all have in common is the need for a solid growth strategy! In this course, you'll hear from Shay Berman, a marketing expert and owner of the 5X Inc. 5000-ranked marketing agency, Digital Resource, as well as Jason Kaplan, Palm Beach Law Group's senior healthcare attorney specializing in dental practices. Together, they'll walk you through what it takes to grow your practice at any stage (SEO, internal practice marketing and more) and avoid legal pitfalls (how to open a practice, business structure and more) that practice owners may encounter. Attendees will walk away equipped with the information needed to make educated decisions about future-proofing their practices!

This lecture is fully sponsored by

THURSDAY, JUNE 29**BRADY, DR. LEE ANN****MASTERING ANTERIOR IMPLANT AESTHETICS | C03**

9 AM-12 PM | IMPLANTS | CE CREDITS: 3

AUDIENCE: DENTISTS, LABORATORY TECHNICIANS,
DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
LABORATORY TECHNICIAN	\$49	\$49	\$69
DENTAL STUDENT	\$0	\$0	\$0

Although implant dentistry is considered one of the most predictable treatments offered, guaranteeing optimal anterior implant aesthetics is tricky and often feels challenging to create predictably. This lecture will look at the steps in differentiating high-risk versus low-risk anterior implant cases when it comes to final aesthetics. Dr. Brady will showcase how to optimize the aesthetic outcomes starting with presurgical augmentation, fixture position and advanced implant prosthetic techniques to make success predictable.

This lecture is partially sponsored by

**BRADY, DR. LEE ANN****ANTERIOR IMPLANT PROSTHETIC TECHNIQUES WORKSHOP | W08**

2-5 PM | IMPLANTS | CE CREDITS: 3

AUDIENCE: DENTISTS, LABORATORY TECHNICIANS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$399	\$479	\$499
NON-MEMBER DENTIST	\$479	\$499	\$519
LABORATORY TECHNICIAN	\$189	\$229	\$259

This workshop will focus on advanced implant prosthetic techniques to overcome the greatest risk factor: poor gingival aesthetics. Dr. Brady will discuss the role of emergence profile, tissue support and tissue maturation in predictable outcomes, and look at how to transfer this information precisely to the lab. Attendees will fabricate a custom implant screw-retained provisional and then duplicate it to create a custom impression coping for perfect soft-tissue aesthetics. *Attendance is limited to 25.*

Participant Requirements: Loupes

This workshop is partially sponsored by

The equipment for this workshop is partially sponsored by

**BRAUN, DR. JAMES****NEW DENTIST RECOMMENDED****DIRECT COMPOSITE RESTORATIONS WORKSHOP: VERSATILITY, PREDICTABILITY, LONGEVITY AND BEAUTY | W01**

9 AM-12 PM | ADHESIVE | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16

**BRAUN, DR. JAMES****YOUR DENTAL LAB AND CAD/CAM CROWNS: THE BEST THERE IS | C17**

2-5 PM | AESTHETIC | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, LABORATORY TECHNICIANS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
TEAM MEMBER	\$49	\$59	\$69

The advent of CAD/CAM dentistry ushered in a renaissance of premier all-ceramic crowns. Experienced dental labs now offer these to your clinical practice. Dr. Braun will discuss how to establish a list of specific products, steps for tooth shade lab communication and how to differentiate options of various cement categories for ceramic substrates. Attendees will leave this lecture with an understanding of lab-produced all-ceramic crowns and the importance to their practice.

NEW DENTIST RECOMMENDED

MAGNIFYING THE FINE POINTS: IMPORTANT CONSIDERATIONS CONCERNING DSO'S | NC01

9-10 AM | FINANCIAL | CE CREDITS: 0

AUDIENCE: DENTISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$0	\$0	\$29
NON-MEMBER DENTIST	\$29	\$29	\$39
DENTAL STUDENT	\$0	\$0	\$0

This lecture will describe the current Dental Service Organization (DSO) space in a way that is understandable for practice owners. There are many positive results that can come about when engaging in a practice transition involving a DSO, but you must also understand the various aspects of this type of transaction in order to prepare for a successful transition. This course will magnify all the advantages and disadvantages so attendees can make the best decision for themselves.

NEW DENTIST RECOMMENDED

WAIT, I STILL FEEL THAT! PROBLEM-SOLVING THE DELIVERY OF LOCAL ANESTHESIA | C04

9 AM-12 PM | ANESTHESIA | CE CREDITS: 3

AUDIENCE: DENTISTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
HYGIENIST	\$49	\$59	\$69
DENTAL STUDENT	\$0	\$0	\$0

This lecture is designed for dentists and dental hygienists who wish to expand their understanding of the delivery techniques of local anesthesia and solve some of the difficulties that arise in obtaining profound anesthesia in the oral cavity. Updates on local anesthetic pharmacology and review of the anatomical landmarks essential for effective and safe delivery of local anesthesia form the foundation for this lecture. A wide range of both maxillary and mandibular techniques will be emphasized, including discussion of mandibular infiltration injections, the Gow-Gates and Akinosi mandibular division nerve block techniques and techniques for recognizing and anesthetizing accessory nerve pathways. Use of anesthesia delivery assistance devices also will be discussed. In addition, the controversy surrounding the use of 4% anesthetic agents (articaine and prilocaine) for mandibular block anesthesia injections, and management of possible complications as will injuries related to the delivery of oral local anesthesia, such as hematoma, paresthesia and trismus will be addressed.

WORKSHOP FOR LOCAL ANESTHESIA | W09**

2-5 PM | ANESTHESIA | CE CREDITS: 3

AUDIENCE: DENTISTS, HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$329	\$359	\$379
NON-MEMBER DENTIST	\$359	\$379	\$409
HYGIENIST	\$329	\$359	\$379

This workshop is designed for dentists and dental hygienists who wish to expand their understanding of delivery techniques of local anesthesia and to solve some of the difficulties that arise in obtaining profound anesthesia in the oral cavity. This hands-on workshop is an opportunity to develop and practice clinical techniques with special emphasis on the mandible, including the Gow-Gates and the Vazirani-Akinosi mandibular division block techniques, tips and tricks for conventional inferior alveolar regional nerve blocks and single tooth anesthesia without a nerve block injection. A complete maxillary division block will also be presented. Each technique will first be described and discussed with slides and demonstrated on skulls. Attendees will then work in pairs to identify intraoral landmarks and needle insertion points on each other. No actual injections will be administered in this workshop. *Attendance is limited to 20.*

Participant Requirements: Two anesthetic injection syringes. Loupes with headlamp are highly recommended.

CLARK, DR. ASHLEY**ORAL PATHOLOGY FOR THE DENTAL HYGIENIST | C05**

9-11 AM | ORAL PATHOLOGY | CE CREDITS: 2

DENTIST - FDA/ADA MEMBER	\$0	\$0	\$49
NON-MEMBER DENTIST	\$49	\$49	\$59
DENTAL STUDENT	\$49	\$49	\$59

Plan to attend this lecture and panel discussion about planning your future! This informative course will guide new dentists through several case studies which will aid in the creation of a successful strategy. Attendees will learn techniques to successfully navigate student loans, associate positions and ensure a positive transition to the lifestyle they've been dreaming of while also understanding the unique differences between corporate dentistry versus practice ownership. Learn how to find and acquire the right practice and how to build a successful budget. During this course, attendees will dive deep into the end-to-end process of starting a practice, understand the "dos and don'ts" of starting a practice from scratch, recognize the different types of due diligence when purchasing a dental practice, and have the opportunity to ask questions of subject matter experts and peers in a panel format. Becoming a practice owner can be the most rewarding experience of your career, both personally and financially. The great news is that owning a practice can happen as early as 12 months out of dental school with the right planning and an experienced team to help you.

This lecture is fully sponsored by **BANK OF AMERICA**

DAW, MS. KAREN

COMPLY WITH ME: TAKE OSHA TRAINING AND INFECTION CONTROL TO NEW HEIGHTS | C19

2-5 PM | STATE MANDATED | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
TEAM MEMBER	\$49	\$59	\$69
DENTAL STUDENT	\$49	\$59	\$69

Is there anything this good safety training can't do? Does it: Fulfill the annual OSHA training requirement? Yup! Give CE credit for Infection Control? Totally! Protect the team? So safe! Breathe freshness into your compliance program? Like cotton sheets drying in a mountain breeze! And if you need more convincing, you'll have the tools to keep your safety program humming like a finely tuned sports car. Even if you think you've heard it all before, you've never heard it the way Ms. Daw, "The OSHA Lady," delivers safety training for dental professionals. With a fresh, fun and efficient approach, Ms. Daw will keep things moving, always grounded in real-world examples of what can go wrong (sometimes in a matter of seconds) if you let our guard down. Complacency is the enemy in infection control and safety; Ms. Daw's in-depth, informative course will put principle into practice by taking an unexpected, engaging approach to compliance training topics like hand hygiene, instrument sterilization and PPE. Leave the OSHA and CDC blinders on the shelf for a little while, and let Ms. Daw guide your team through an entertaining, interactive and potentially life-saving course exclusively tailored for dental healthcare professionals. *Ms. Daw offers a repeat of this course (C33) on Friday, June 30 from 9 a.m. to 12 p.m.* **This lecture satisfies the DANB infection control requirements.**

DONAWA, MS. MEGAN

INSURANCE BASICS FOR THE CLINICAL TEAM | C06

9 AM-12 PM | ASSISTING | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89

TEAM MEMBER	\$49	\$59	\$69
DENTAL STUDENT	\$49	\$59	\$69

Want to increase your communication, case acceptance and patient education? This lecture is a super basic insurance focused overview for clinical team members. Although insurance is not your main role as a clinician, it is important to have the basic knowledge to use for fantastic patient care. With proven techniques, this lecture will be a helpful resource for the entire clinical team and a great refresher for administrators, too. Let's make your day flow more efficiently and skip unnecessary headaches!

GALLER, DR. DAVID

NEW DENTIST RECOMMENDED

HAVE YOU EVER HAD A POSTERIOR OPEN BITE DURING CLEAR ALIGNER TREATMENT? | C20

2-4 PM | ORTHODONTICS | CE CREDITS: 2

AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99

Clear aligner treatments are becoming widespread and common in the offices of general dentists and orthodontists. While yielding amazing results, there are times when an iatrogenic posterior open bite can be created during treatment. Learning to identify the causes and how to prevent an iatrogenic posterior open bite will allow the practitioner to gain greater confidence when recommending clear aligner treatment to their patients.

The Dawson Academy's timeless principles remain the foundation of quality care dentistry. True long-term success, otherwise known as predictability, in restorative care is the merger of aesthetic, functional and phonetic parameters. The foundation of The Dawson Academy's philosophy is a complete understanding of how the TM joints, muscles, proprioceptive input, lower anterior teeth, upper anterior teeth, lower posterior teeth and upper posterior teeth are designed to function in harmony with one another.

In this course, a sharpened eye has been placed on The Dawson Academy's Concepts of Complete Dentistry and how to implement this knowledge into your practice after attending. With a collection of take-home resources and checklists, attendees will learn the requirements for occlusal stability to improve your practice—from examination and records to treatment planning to practice management—as you envision yourself in the top 10%.

Added material in this occlusion-focused course includes patient communication, case acceptance, converting to a fee-for-service model and more. Examples will be presented for both analog and digital workflows—with bonus content catered to implementation and business management. Attendees will understand how integrity and fulfillment are intertwined to

create the most efficient and predictable outcomes and results. This course will give you an insight and understanding that will change not only how you practice and manage, but your enjoyment of practice as well. A one-hour break for lunch will be provided each day of this course.

HOBBS, DR. HANA**NEW DENTIST RECOMMENDED****LASER THERAPY IN TREATING PERIODONTAL DISEASE | C07**

9 AM-12 PM | PERIODONTICS | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, DENTAL STUDENTS

At least 80% of adults have at least one chronic condition and 68% have two or more. What is the underlying cause of this malady? Chronic inflammation. Chronic Inflammation has been shown to contribute to Alzheimer's disease, inflammatory bowel disease, colon and pancreatic cancers and more. Oral inflammation is often overlooked as a potential risk factor. This lecture will explore the link between inflammation, chronic disease and oral health.

Does it seem that even though fewer people report cigarette smoking the use of other tobacco products is increasing? Today, an increasing number of high school students vape rather than smoke regular cigarettes. Many partake in multiple forms of tobacco, including hookahs and spit tobacco. Flavored products add to the appeal. This lecture will examine the changing trends in tobacco and nicotine use and how it is impacting oral and systemic health.

TEAM MEMBER	\$49	\$59	\$69
DENTAL STUDENT	\$49	\$59	\$69

The short answer is YES! This lecture will discuss solutions for challenges that are commonly seen by practicing dentists, such as fractured cusps, deep decay and crowns placed too far subgingivally. With a combination of case examples and radiographs, this lecture will offer solutions to help you overcome those issues. Dr. Kohner will review diagnostic decisions for both aesthetic and functional procedures, including how biologic width influences daily restorative decisions. This lecture targets dentists looking to both save more teeth and improve restorative results, as well as include indications and contraindications. The attendee will learn to coordinate with periodontists and laboratory technicians to create a TEAM approach. This lecture will be thought-provoking in showing how even compromised teeth can become excellent restorative candidates, and not be turned into an implant. *This is a two-part course (C09 and W07) that is best attended as a full-day experience for comprehensive learning. You must register and pay for both courses for the full-day experience. However, attendees may choose to take the lecture course only.*

KOHNER, DR. JAMES**CROWN LENGTHENING WORKSHOP | W07**

1:30-5 PM | PERIODONTICS | CE CREDITS: 3.5

AUDIENCE: DENTISTS, ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16

NON-MEMBER DENTIST	\$449	\$499	\$529
ASSISTANT	\$189	\$199	\$229

This workshop will provide detailed, yet straightforward instructions for proper flap, bone contouring and suturing methods to accomplish successful functional crown lengthening and, in turn, successful restorations. Learn to be comfortable managing both soft- and hard-tissues to accomplish improved restorative results. Biologic width and ferrule will be emphasized, as well as management of furcations. This will allow attendees to perform some crown lengthening surgery if they choose or make more informed referrals if they prefer. In this workshop, attendees will do flap surgery and suturing on pig jaws and practice the required osseous recontouring on models. Two engaging videos will be shown highlighting the technique of a precise, solid rationale. *The lecture, "Crown Lengthening: Can it REALLY Enhance Restorative Results?" (C09), is a prerequisite for this workshop. You must register and pay for both courses for the full experience. Attendance is limited to 25.*

Participant Requirements: Loupes

Is endodontics a dying profession? Endodontics will never be a dying profession if clinicians concentrate on what they went into this profession to do: SAVE TEETH! Clinicians must be able to provide a wide variety of services to patients to maintain their natural dentition. The natural healing ability the tooth has when compared to implants cannot be ignored and the aim must be to maintain the natural dentition whenever possible and only choose implants when all other options have been considered. In treatment planning, options that save the natural dentition even if it is considered "non-traditional" treatment must be considered. Get back to the thought processes before the day-and-age of implants and realize that when done properly by specialists, implants are an excellent and predictable ALTERNATIVE treatment option. Think outside the box to save more teeth because there is "nothing like the natural tooth."

DENTIST - FDA/ADA MEMBER	\$0	\$0	\$49
NON-MEMBER DENTIST	\$49	\$49	\$59
PRACTICE ADMINISTRATOR	\$49	\$49	\$59

Cybersecurity is more than just keeping your patients' data safe. It's about securing your practice and its future while building and maintaining your patients' trust. The financial cost of an attack can be overwhelming. Furthermore, research suggests that 65% of individuals whose data is exposed in a breach lose trust in the organization that held that data and 80% of those individuals will leave the business or organization. Another important, and perhaps obvious, reason cybersecurity is essential for your dental practice is HIPAA compliance. The Health Insurance Portability and Accountability Act (HIPAA) requires that insurers, as well as dental and medical practices and providers, put measures in place to ensure the safety and security of personal and private information as it relates to healthcare data. In this course, you will understand what cybersecurity threats exist and what to do to protect your practice and patient data.

PEARSON, MS. LIZ

WHAT THE SCIENCE REALLY SAYS ABOUT EATING FOR A LONG, HEALTHY AND HAPPY LIFE | C11

9-11 AM | NUTRITION | CE CREDITS: 2

AUDIENCE: ALL ATTENDEES

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
TEAM MEMBER / GUEST	\$49	\$59	\$69
DENTAL STUDENT	\$49	\$59	\$69

Hundreds of years ago, Hippocrates said, "Let food be thy medicine and medicine be thy food." Today, researchers say, "unhealthy diets pose a greater risk to health, well-being and risk of death than any other risk factor in the world." What you eat profoundly impacts your productivity and energy levels, the strength of your immune system, your ability to maintain a healthy body weight, how fast you age, how long you live and even how deeply you sleep at night. Making wise food choices, however, isn't easy. Lifestyles are busy and ultra-processed foods bombard you at every turn. Ever-changing and contradicting nutrition headlines make it equally challenging to make sense of what you should and shouldn't eat. Getting to the truth really matters. This engaging, science-based and inspiring lecture will be about choosing nutritious, health-protective, all-star foods and minimizing your intake of foods most harmful to health so that you can live the longest, happiest and healthiest life possible. It's about "letting food be thy medicine, and medicine be thy food."

PEARSON, MS. LIZ

EATING TO OPTIMIZE BRAIN HEALTH, GUT HEALTH AND MENTAL HEALTH | C27

2-3:30 PM | NUTRITION | CE CREDITS: 1.5

AUDIENCE: ALL ATTENDEES

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$49	\$59	\$69
NON-MEMBER DENTIST	\$59	\$69	\$79
TEAM MEMBER / GUEST	\$29	\$39	\$49
DENTAL STUDENT	\$0	\$0	\$0

The two most common psychological disorders in the world are depression and anxiety. Their impact on happiness and well-being is tremendous. Although all mental health disorders are extremely complex in their causation, a compelling and growing body of research says diet plays a significant role in their prevention and treatment. Certain nutrients and dietary patterns promote a healthy brain, as well as a healthy gut microbiome — both of which are critical to mental well-being. In contrast, a lack of specific nutrients and an excess of unhealthy, processed foods can greatly harm mental health. This insightful, research-based and very timely presentation will be about optimizing mental health, and significantly reducing the risk of depression and anxiety, with food.

PERALTA, DR. JOSE

COMMUNITY HEALTH CARE AND THE IMPACT IN OUR SOCIETY | C13

10:30 AM-11:30 AM | SPECIAL INTEREST | CE CREDITS: 1

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16

NEW DENTIST RECOMMENDED

CLEAR ALIGNER FUNDAMENTALS WORKSHOP | W05

9 AM-5 PM | AESTHETIC | CE CREDITS: 7

AUDIENCE: DENTISTS, ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$1,799	\$1,899	\$1,999
NON-MEMBER DENTIST	\$1,899	\$1,999	\$2,019
ASSISTANT*	\$199	\$219	\$229

Participants will attend this full-day, hands-on workshop to learn clear aligner fundamentals, optical scanning, digital orthodontic record making and fundamentals of the digital workflow for clear aligner treatment. Clinical photography will be incorporated to allow participants to return to their office and begin utilizing the digital workflow within their practices. The participant will have hands-on experience of bonding engagers and performing interproximal reduction to feel comfortable to return to their practice and begin treatment. Participants also will have the opportunity to explore the business skills necessary to incorporate clear aligners into their practices. A one-hour break for lunch will be provided during this course. Attendance is limited to 30. *Paid team member learning is a co-learning experience with a paid doctor attendee.

Participant Requirements: Loupes, if desired.

The equipment for this workshop is partially sponsored by

ALL ATTENDEES	\$0	\$0	\$29

Trust your gut! Do what feels right! Trusting your intuition and making decisions on autopilot could lead to devastating results in your relationships. Your autopilot of comfort is adapted from ancestral fight or flight. Today's world is whizzing with technological advances that may hinder our connection with ourselves and others. Our ability to communicate and problem-solve intensifies how we understand and process information. To solve mental blind spots in communication and improve relationships, we must debias our thoughts to strengthen relationships. Join Dr. Tanner to understand!

TANNER, DR. KELLY**THE ART OF LISTENING: DENTAL PROFESSIONALS' PRINCIPLES FOR SUCCESS | PM02**

9-11 AM | PRACTICE MANAGEMENT | CE CREDITS: 2

AUDIENCE: ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
TEAM MEMBER	\$49	\$49	\$59
DENTAL STUDENT	\$0	\$0	\$0

Effective communication is crucial for the success of dental professionals in any role. Dental professionals take classes on public speaking, but not listening. Don't you agree that it is more important to be interested than interesting? This lecture will discuss principles of emotional intelligence that are essential to communication, building trust, conflict management and influential negotiation.

This lecture is partially sponsored by  ICD
INTERNATIONAL COLLEGE OF DENTISTS

TANNER, DR. KELLY**WHY EMOTIONAL INTELLIGENCE IN DENTISTRY MATTERS | PM03**

2-4 PM | PRACTICE MANAGEMENT | CE CREDITS: 2

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
TEAM MEMBER	\$49	\$59	\$69
DENTAL STUDENT	\$0	\$0	\$0

In an environment where COVID-19 and social factors affect the lives of dental professionals, you may be conflicted about what to believe, and feel unable to find your ground inside and outside of the workplace. As health care providers, all aspects of social and emotional awareness are integral to your ability to connect for career and self-fulfillment. This lecture will help you understand the importance of emotional intelligence in dentistry; understand how to identify blind spots; and help understand how to rewrite feelings and reverse triggers. All will increase your impact personally and professionally.

This lecture is partially sponsored by  ICD

CLEAR ALIGNER FUNDAMENTALS WORKSHOP (W05)

THURSDAY, JUNE 29 | 9 AM-5 PM | CE CREDITS: 7
TRACK: AESTHETIC | AUDIENCE: DENTISTS & ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$1,799	\$1,899	\$1,999
NON-MEMBER DENTIST	\$1,899	\$1,999	\$2,019
ASSISTANT*	\$199	\$219	\$229

Participants will attend this full-day, hands-on workshop to learn clear aligner fundamentals, optical scanning, digital orthodontic record making and fundamentals of the digital workflow for clear aligner treatment. Clinical photography will be incorporated to allow participants to return to their office and begin utilizing the digital workflow within their practices. This course aims to describe the procedures related to intraoral optical image production. Participants will actively utilize intraoral scanners to become comfortable with scanning techniques and will have hands-on experience of bonding engagers to feel comfortable to return to their practices and begin treatment. Participants also will have the opportunity to explore the business skills necessary to incorporate clear aligners into their practices. A one-hour break for lunch will be provided. *Paid team member learning is a co-learning experience with a paid doctor attendee. *Attendance is limited to 30.*

Participation Requirements: Loupes, if desired.

Dr. Melissa Shotell earned her dental degree from Nova Southeastern University College of Dental Medicine and master's degree in orthodontics and dentofacial orthopedics from Loma Linda University. She completed her general practice residency at the Ohio State University. Dr. Shotell has a private practice in Sonora, CA.

THURSDAY, JUNE 29**URSITTI, DR. VICTORIA**

NEW DENTIST RECOMMENDED

**TREATING TONGUE AND LIP TIE IN NEWBORNS AND INFANTS
WORKSHOP | W06**

9-11 AM | PEDIATRIC | CE CREDITS: 2

AUDIENCE: DENTISTS, ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$499	\$549	\$579
NON-MEMBER DENTIST	\$549	\$579	\$609
ASSISTANT	\$189	\$229	\$259

As many as 5% of babies are born with tongue and lip ties. Often, these ties are excessive enough to affect a baby's ability to breastfeed, which could lead to issues with appropriate weight gain. This frustrating situation for both babies and parents can be easily diagnosed and confidently treated by releasing the tie with a simple frenectomy. In this workshop, attendees will be introduced to the concept of laser frenectomies to help alleviate these difficult challenges and restore the baby's ability to efficiently feed. Laser frenectomies have become an increasingly popular method to treat tongue and lip ties, and if done correctly, can be part of one's armamentarium to treat conditions associated with tongue and lip ties. Preoperative diagnostic criteria, treatment methods and proper safety precautions along with postoperative instructions and follow-up will be discussed. *Attendance is limited to 15.*

*Participant Requirements: Loupes***URSITTI, DR. VICTORIA**

NEW DENTIST RECOMMENDED

**CROWNS AND NEW RESTORATIVE MATERIALS FOR PRIMARY
TEETH | C28**

2-4 PM | PEDIATRIC | CE CREDITS: 2

AUDIENCE: DENTISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
DENTAL STUDENT	\$0	\$0	\$0

Long gone are the days of "Let them fall out ... they're just baby teeth!" Current theories, new attitudes, improved materials and evidence-based procedures now encourage dental clinicians to re-examine how to best treat young patients with bioactive and interim restorative materials, stainless steel and composite crowns and immediate space maintenance for early childhood caries. This lecture will discuss the various materials and proper diagnosis for restorations, posterior/anterior crowns and immediate space maintenance. New bioactive materials, silver diamine fluoride, restorative crowns for both posterior and anterior teeth and immediate space maintenance for primary tooth loss will be discussed.

VAUGHN, MS. JESSICA**THE DIGITAL ASSISTANT: SCANNING AND DESIGNING 101
WORKSHOP | W11**

2-5 PM | ASSISTING | CE CREDITS: 3

AUDIENCE: ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
ASSISTANT	\$339	\$379	\$399

This workshop is for digital assistants who are ready and eager to learn how to take digital scans and design and will include the A-to-Z of digital scanning. Items such as how to properly start and maintain the scanner, starting a case, scanning the patient, designing the case and even sending the case to the lab will be discussed. All participants will have the opportunity to not only scan on typodonts but also each other as well! Proper PPE will be provided. Not only will this allow the doctor to be more productive in the office, but it also will build a stronger relationship between the patient and the assistant. *Attendance is limited to 30.*

VELAZQUEZ, MS. JANET**ADDRESSING THE GAPS COSTING YOU THOUSANDS! | NC04**

4-5 PM | COMMUNICATION | CE CREDITS: 0

AUDIENCE: DENTISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$0	\$0	\$29
NON-MEMBER DENTIST	\$29	\$29	\$39
DENTAL STUDENT	\$29	\$29	\$39

Hidden areas of lost revenue exist in every dental office. In this course, Ms. Velazquez will examine the importance of well-defined operational processes and systems. Attendees will learn how minor adjustments can protect them as a business owner and boost their bottom line! Leave this course with an understanding of the correlation between intentional workflows and the power of elevated communication as it relates to revenue opportunities.

VERSHL, MR. MIKE**ADVANCED CARDIAC LIFE SUPPORT RENEWAL | AC3-4**

COURSES & WORKSHOPS

ALPHABETICAL BY SPEAKER'S LAST NAME

AUGER, MS. AMBER

WHAT LIES BENEATH: TREATING PERIODONTAL DISEASE SYSTEMICALLY | C45

2-4 PM | PERIODONTICS | CE CREDITS: 2

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
TEAM MEMBER	\$49	\$59	\$69
DENTAL STUDENT	\$0	\$0	\$0

During the last ten years, there has been a focus on the oral and systemic health link. This course is designed to equip dental hygienists with the skills to implement a comprehensive approach to treating patients while they are chairside. Ms. Auger will review risk assessments and clinical cases to provide a practical approach to implementing science-based literature that is both effective and feasible for the current demands in practices.

BOISVERT, MS. SUE

PREVENTION OF MEDICAL ERRORS | RM1-4

2-4 PM | STATE MANDATED | CE CREDITS: 2

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16

This lecture will address basic patient safety strategies, Florida-specific requirements and common sources of dental risk and liability. The course will include dental closed claims data, case studies, audience participation and some humor. Just because it's mandatory doesn't mean we can't have some fun! Ms. Boisvert offers a repeat of this course (RM5-6) on Saturday, July 1 from 2:30-4:30 p.m. **This lecture satisfies the Florida Board of Dentistry's continuing education requirement for medical errors.**

This lecture is fully sponsored by  THE DOCTORS COMPANY

BRADY, DR. LEE ANN

NEW DENTIST RECOMMENDED

POSTERIOR PREPARATION DESIGN WORKSHOP | W13

9 AM-12 PM | RESTORATIVE | CE CREDITS: 3

AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$399	\$479	\$499
NON-MEMBER DENTIST	\$479	\$499	\$519

Highly skilled professionals, like musicians and athletes, spend most of their life practicing. While dentists are most certainly highly skilled professionals, most of what is done in the office is not "practice," but performance. When was the last time you picked up a typodont and a handpiece and practiced? Practice doesn't just improve efficiency; it also improves effectiveness. The preps learned in dental school may not be getting you the best from today's materials. This hands-on workshop will give attendees the opportunity to see and do several preparations on bi-layered teeth that realistically mimic natural teeth. Posterior preps will be discussed and then completed by every attendee. *Attendance is limited to 20.*

The failing dentition and atrophic mandible and maxilla pose a significant surgical challenge when clinicians are planning implant-supported prosthetic rehabilitation. For the last 30 years, surgeons have been compensating for the lack of bone height and width with block bone grafting techniques and sinus lift treatments. With the many changes in dental implant surgery and prosthetic advances, angled implants have revolutionized implant-supported total rehabilitation. Higher comfort for the patient with higher aesthetic results that save time and money are only a few of the advantages brought by these treatments into modern dentistry. There now are a multitude of alternatives. By anchoring in the mandibular alveolus and maxillary piriform, buttress and alternatively the zygomatic bone, the various long and angled dental implant systems now can provide an immediate loading protocol. This dramatically shortens time-to-teeth for increased patient satisfaction and allows patients suffering from severe maxillary bone loss to return to a normal quality of life. This workshop is designed for dental professionals and experienced clinicians who want to gain understanding and clinical experience in full-arch implant rehabilitation with conventional and zygomatic implants as a graftless solution in less time than anticipated. By attending this workshop, attendees will learn how to deliver an immediate implant-retained, full-arch aesthetic hybrid restoration after the surgery and how to manage the final prosthesis for excellent long-term results. A one-hour break for lunch will be provided during this course. *Attendance is limited to 25.*

*Participant Requirements: Loupes**The equipment for this workshop is partially sponsored by***BROWN, DR. RONNI**

Do you wonder whether your treatment plan is based upon fact, fiction or, perhaps, something in-between? Do you know where to get credible evidence to guide your treatment recommendations? Are you having difficulty trying to "keep up" with the abundance of scientific literature that exists today? Throw your dental journals away and discover online resources to access the most current scientific information within minutes! Learn how to integrate "real" evidence into your clinical practice to improve treatment outcomes for your patients. In this interactive course, attendees will learn what evidence-based dentistry is, why it should guide treatment decisions and how it can improve clinical outcomes. Attendees will learn how to find scientific evidence online, maintain currency with scientific literature and discuss evidence with patients. Long-standing opinions regarding clinical issues will be discussed and weighed against the scientific evidence.

Substance abuse is at an all-time "high" in this country with an estimated 1 out of every ten Americans addicted to prescription or illicit drugs. As a dental professional, you must awaken to the reality that many of your patients have substance-use disorders and that your examination findings of advanced caries, severe hyposalivation and poor plaque control are often the effects of depressant, stimulant and opioid abuse. Learn how to recognize the clues of substance abuse from a routine dental examination, discuss your concerns and suspicions with patients, develop and deliver safe and effective dental treatment, and manage pain with non-opioid medications. Note: Course content does not include marijuana. **This lecture satisfies the Florida Board of Dentistry's continuing education requirement for Safe and Effective Prescribing of Controlled Substances.**

CARSTENSEN, DR. STEVE

DENTAL SLEEP MEDICINE INTENSIVE: A TWO-DAY MINI-RESIDENCY | MRO1

FRIDAY, JUNE 30-SATURDAY, JULY 1 | 9 AM-5 PM, BOTH DAYS

SLEEP DISORDERS | CE CREDITS: 14

AUDIENCE: DENTISTS, ASSISTANTS, PRACTICE ADMINISTRATORS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$1,199	\$1,299	\$1,399
NON-MEMBER DENTIST	\$1,299	\$1,399	\$1,499
TEAM MEMBER*	\$199	\$219	\$229

Dr. Carstensen will cover the basics of sleep, why breathing disorders matter and what the dental team can do to truly make a difference. Pediatric airway problems are different than adult sleep-related breathing disorders and require unique approaches to help families, so Dr. Carstensen will talk about how to start early in life. Using technology to score treatment effectiveness is part of every practice. Since each dental practice is a business, getting paid is a critical part of success. Each participant will experience taking a proper bite registration to begin patient treatment and understand why that position is chosen. Interim professional appliances are important to therapy so each participant will make one for themselves. Overnight, between the days, some attendees will be able to experience an objective monitor for all course attendees to discuss the second day. A one-hour break for lunch will be provided both days of this course. *Paid team member learning is a co-learning experience with a paid doctor attendee. Attendance is limited to 30.

DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
TEAM MEMBER	\$49	\$59	\$69

Currently, the diagnosis and treatment of cracked and fractured teeth is largely symptom-based and is, therefore, often a sad, end-stage diagnosis. The fracturing process is one of dentistry's last great mysteries and is poorly understood throughout the generalist and specialist dental communities. In this engaging and entertaining lecture, attendees will learn to understand and diagnose pathologic cracks utilizing magnification and other modalities to treat long before symptoms arise or the tooth becomes unsalvageable. Dr. Clark will teach routine identification of early cracks and teach the Clark Class II saucer shaped nonretentive preparation and Fissurotomy Class I that are a significant departure from the GV Black preparations that are a leading cause of cracked teeth. He will share his published approach to diagnosis based on 16X magnification, step-by-step predictable treatment, endodontic and periodontal implications and when to extract.

CLARK, DR. DAVID ROE, DR. JENNIFER

21ST CENTURY COMPOSITES: STOP LAYERING AND START INJECTING | C46

Dentists know sleep apnea therapy can vastly improve patients' quality of life; however, many dental practices find it difficult to incorporate these services in a way that is streamlined, impactful and profitable. Sleep apnea therapy offers dental practices the unique opportunity to improve the overall health of patients, diversify services and expand profit margins. Additionally, these services can help reduce the patient's risk for heart attacks, strokes, diabetes and Alzheimer's disease. This specialized course is designed to give your practice a leg up when integrating these services into your practice. Attendees will leave with the knowledge and skills necessary to incorporate sleep apnea services as an integral part of their practice.

FRIDAY, JUNE 30**DASSANI, DR. MEGHNA****UNDERDIAGNOSED AND OVERMEDICATED: CLEARING THE AIR ABOUT SLEEP APNEA IN KIDS | C47**

Pediatric sleep dentistry services have the ability to change the life of a child. Children suffering from sleep disordered breathing face a myriad of associated health and behavioral concerns including snoring, headaches, mouth breathing, nightmares, bed-wetting, mood changes and poor concentration. Parents are often unaware that their child is living with unidentified sleep apnea and of the long-term impact that this could have on their child's life. Offering pediatric sleep apnea services gives your team the opportunity to play a pivotal role in a child's development.

DAW, MS. KAREN**COMPLY WITH ME: TAKE OSHA TRAINING AND INFECTION CONTROL TO NEW HEIGHTS (REPEAT) | C33**

9 AM-12 PM | STATE MANDATED | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, LABORATORY TECHNICIANS, DENTAL STUDENTS

Is there anything this good safety training can't do? Does it: Fulfill the annual OSHA training requirement? Yup! Give CE credit for Infection Control? Totally! Protect the team? So safe! Breathe freshness into your compliance program? Like cotton sheets drying in a mountain breeze! And if you need more convincing, you'll have the tools to keep your safety program humming like a finely tuned sports car. Even if you think you've heard it all before, you've never heard it the way Ms. Daw, "The OSHA Lady," delivers safety training for dental professionals. With a fresh, fun and efficient approach, Ms. Daw will keep things moving, always grounded in real-world examples of what can go wrong (sometimes in a matter of seconds) if you let our guard down. Complacency is the enemy in infection control and safety; Ms. Daw's in-depth, informative course will put principle into practice by taking an unexpected, engaging approach to compliance training topics like hand hygiene, instrument sterilization and PPE. Leave the OSHA and CDC blinders on the shelf for a little while, and let Ms. Daw guide your team through an entertaining, interactive and potentially life-saving course exclusively tailored for dental healthcare professionals. *This course is a repeat of Ms. Daw's course (C19) on Thursday, June 29 from 2 to 5 p.m. This lecture satisfies the DANB infection control requirements.*

DEMEOLA, MR. MICHAEL**THE EPIDEMIC OF DENTAL EMBEZZLEMENT: DIAGNOSIS, TREATMENT AND PREVENTION | NC09**

AUDIENCE: ASSISTANTS, PRACTICE ADMINISTRATORS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
TEAM MEMBER	\$49	\$59	\$69

"You're not the sort of dental assistant that can train their doctor with a mere lifting of an eyebrow. You'll have to work at it." (Infamous words from How to Train your Dragon, of course)! It's so easy for your doctor to get tunnel vision throughout the day – like they're wearing loupes 24/7. As a dental assistant, it's your job to clear that tunnel to the best of your abilities so you can deliver smooth and effective patient care. Dental assistants are internally connected to the doctor's behavior and tendencies more than most team members, and that's the beauty of four-handed dentistry. During this lecture, Ms. Donawa will discuss the best ways to plan and organize your work lifestyle as a dental assistant. With these skills you'll be able to stay ahead of schedule, take control of your patient care, experience less stress and gain more mental clarity. Be prepared to learn how to channel your mind into the thoughts and behaviors of your dentist so you can gain better control of managing the workday and atmosphere of your office.

This dynamic and energizing lecture will emphasize the interdisciplinary team approach to ultimate patient care. Defining your practice and developing effective strategies for patient communication to enhance case presentation and case acceptance is the key to differentiating your practice in today's challenging economic environment. Emphasis will be placed on elevating the entire dental team as a key partner in care from tooth preservation to tooth replacement. A highlight of this course will be discussing numerous advancements in treatment modalities for periodontal, regenerative and implant therapies that all have a significant impact on comprehensive care dentistry. Building a solid foundation is essential to your patients' long-term success!

Numerous advancements in treatment modalities for periodontal, regenerative and implant therapies have had a significant impact on comprehensive care dentistry. This dynamic and energizing lecture will provide a clinical and evidence-based review of the various innovations in hard- and soft-tissue regeneration, periodontal plastic surgical procedures, implant site development and implant therapies. The role of biomimetic agents, such as enamel matrix derivative, leukocyte-platelet rich fibrin and platelet derived growth factors, in tissue engineering will be explored. A myriad of case presentations and treatment modalities for tooth preservation to tooth replacement will be highlighted. Comprehensive treatment planning, proper case selection and excellent surgical and restorative execution are paramount to achieving optimal functional and aesthetic results.

HYGIENIST	\$29	\$39	\$49

Dental professionals have found that there are two main challenges for caregivers providing daily oral hygiene in long-term care facilities: finding time to do it, and knowing how to do it. When it comes to knowing how to do it, the solution is easy: educate the caregivers. However, caregiver turnover in long-term care is often high and it can leave you feeling like you are educating a revolving door. In some facilities, it is hard to keep up with educating the caregivers. When it comes to the caregiver finding time to perform oral hygiene, it is only one of their many important daily tasks. Dr. Fukuoka and a work group that included faculty from Idaho State University Dental Hygiene Program, the Idaho Oral Health Program, the Idaho Healthcare Association, and Dr. Paul Glassman formalized the concepts of assisted oral hygiene and guided oral hygiene. Dr. Fukuoka and her team of assistants, hygienists and certified nursing assistants developed a documentation system called "The Your Special Smiles Oral Hygiene Ability Spectrum." This lecture will discuss Assisted Oral Hygiene, Guided Oral Hygiene and this new documentation system.

Dental offices and dentistry are unique stressors to the mind and body. Come listen to Dr. Galler breakdown every part of the office dysfunction in a comical way, as you will be sure to laugh and cry. Every dentist has fears and insecurities that erode their quality of life and can lead to depression or early death. Dental staffs likewise share in this phenomenon, and can often feel overwhelmed or unappreciated. Your eyes will be opened to how all dentist offices and staffs face the same challenges and anxiety. This lecture will explore the inner workings of a dental office and its personnel. In this laugh-a-thon lecture, Dr. Galler will review all the crazy idiosyncrasies of dentists. Attendees will take a patented 13-question quiz during the lecture to see if they suffer from mild, moderate or severe anxiety. Bring the whole team and laugh, learn and grow into a dental team that doesn't let the minutia of daily dental stress get them down. Burn out of dentists and team members is on the rise across the country. Learn to recognize the signs and how to not become cynical and start despising work all while laughing. Dr. Galler will provide insight into why dental offices are high stress, strategies for successful communication skills, stress reduction and teamwork.

This workshop will teach you the advantages of piezo surgery and how it can distinguish your practice. Piezo surgery technology allows extraction of broken teeth and roots with maximum preservation of the extraction socket. The piezo surgical unit acts as a powered Periotome that serves the periodontal ligament around the tooth until complete avulsion. Traditional methods of root tip extraction involve a lot of bone removal with an imprecise and rotating high speed rotary bur. Piezo surgery allows for a more efficient, cleaner and safer root tip extraction method. Learn to perform piezo surgery techniques for clinical scenarios including atraumatic extraction, socket prevention and crown lengthening in this hands-on workshop. *Attendance is limited to 20.*

ARE YOU READY FOR OWNERSHIP OR RETIREMENT? START PLANNING TODAY! | NC10

2-5 PM | FINANCIAL | CE CREDITS: 0

AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$0	\$0	\$49
NON-MEMBER DENTIST	\$49	\$49	\$59

Thinking about practice ownership or retirement? Whether you are ready to transition now or in five years, this crash course presented by some of the top professionals in their respective fields will teach you the ABCs and 1-2-3s of what dentists need to know to confidently put together a successful practice transition plan. During this lecture, attendees will receive insight on important considerations, including market conditions and trends, legal review and buyer strategies when planning the next step in their careers. This lecture will detail the process of buying and selling dental practices. The speakers will review how to properly structure a practice to reduce tax liability, examine non-compete agreements, discuss purchasing issues, compare real estate versus leases and explain dental board compliance. Attendees will have the opportunity to ask questions and surround themselves with peers who may be facing the same reality.

KAMP, MR. MARVELLESS MARK

NEW DENTIST RECOMMENDED

OPPORTUNITY ROCKS! KEYNOTE | NC05

7:45-8:45 AM | ENRICHMENT | CE CREDITS: 0

AUDIENCE: ALL ATTENDEES

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
ALL ATTENDEES	\$0	\$0	\$29

Back by popular demand! Rock and roll is simple and your business principles should be, too! Marvelless Mark has broken down rock star success into four easy chords so you can lead, perform and engage like a rockstar. During this one-of-a-kind keynote session, you will develop a rockstar mindset that will allow you to achieve boldly — and get energized out of your mind! That's the rockstar result. Marvelless Mark, author of the acclaimed business book, "Opportunity Rocks," combines years of entrepreneurial success to show how any business can be transformed from garage band to legend using his proven strategies. Marvelless Mark will show you how to be a business rockstar and have a blast doing it! **Come early – The first 500 attendees through the door will get a pair of drumsticks!**

KHAN, DR. WAJI**IMPLANT-SUPPORTED REMOVABLE PROSTHETICS: STRATEGY AND STRUCTURE | C37**

9 AM-12 PM | PROSTHODONTICS | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
TEAM MEMBER	\$49	\$59	\$69
DENTAL STUDENT	\$0	\$0	\$0

Dental implants have revolutionized the replacement options that are available for complete and partial edentulism. A clear majority of patients seek to augment the retention and stability of their dentures. Many times, this is the primary reason they come to the dental office seeking dental implant solutions. However, there are a few limitations that one must be aware of and these can be described as structure and functional synergies. Another way to describe it is strategy and structural matches which must be observed to prevent failure. This lecture is designed primarily to discuss options for dental implants and removable prostheses and indications, relative contraindications and absolute contraindications for these designs.

Budget-Friendly Hotel Option

Visit hotel.floridadentalconvention.com or call 407.390.1532 to make your hotel reservation today.

FDC2023 offers a budget-friendly room block at the Fairfield Inn & Suites conveniently located 1.5 miles from the Gaylord Palms Resort & Convention Center. The room rate is \$124 per night including free self-parking and breakfast. Shuttle service to the Gaylord Palms is not available.

DENTAL SLEEP MEDICINE INTENSIVE: A TWO-DAY MINI- RESIDENCY (MR01)

FRIDAY, JUNE 30 & SATURDAY, JULY 1

9 AM-5 PM , BOTH DAYS / CE CREDITS: 14

TRACK: SLEEP DISORDERS

AUDIENCE: DENTISTS, ASSISTANTS, PRACTICE ADMINISTRATORS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$1,199	\$1,299	\$1,399
NON-MEMBER DENTIST	\$1,299	\$1,399	\$1,499
TEAM MEMBER*	\$199	\$219	\$229

Take the information you find in this intensive, two-day mini-residency in dental sleep medicine home to your practice and put it to work! Dr. Carstensen will cover the basics of sleep, why breathing disorders matter and what the dental team can do to truly make a difference. Pediatric airway problems are different than adult sleep-related breathing disorders and require unique approaches to help families, so Dr. Carstensen will talk about how to start early in life. Using technology to score treatment effectiveness is part of every practice. Since each dental practice is a business, getting paid is a critical part of success. Each participant will experience taking a proper bite registration to begin patient treatment and understand why that position is chosen. Interim professional appliances are important to therapy so each participant will make one for themselves. Overnight, between the days, some attendees will be able to experience an objective monitor for all course attendees to discuss the second day. A one-hour break for lunch will be provided both days of this course. *Paid team member learning is a co-learning experience with a paid doctor attendee.

Attendance is limited to 30.

The equipment for this mini-residency is partially sponsored by

Steve Carstensen, DDS

earned his dental degree from Texas A & M University Baylor College of Dentistry. He is a diplomate of the American Board of Dental Sleep Medicine and chief dental editor of the Dental Sleep Practice Magazine. He is also visiting faculty at The Pankey Institute and a guest lecturer at Louisiana State University School of Dentistry. Dr. Carstensen has a private practice in Bellevue, WA.

FRIDAY, JUNE 30**KHAN, DR. WAJI****TREATMENT PLANNING DENTAL IMPLANTS: CASE PRESENTATION STRATEGIES TO INCREASE TREATMENT ACCEPTANCE | C78**

2-5 PM | IMPLANTS | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
TEAM MEMBER	\$49	\$59	\$69
DENTAL STUDENT	\$0	\$0	\$0

This lecture will empower attendees to create a community of practice within their office. Team members will learn to understand the role which strategy, structure, internal referral, external referral, marketing materials, treatment planning, financial arrangements, mentorship programs and public implant seminars play in helping to educate and inform their patient base about dental implants and how this can relate to increasing case acceptance by patients. At the end of this course, attendees will be able to identify ways to improve their practice and make it run more efficiently.

KOHNER, DR. JAMES**SOFT-TISSUE GRAFTING THAT WILL ENHANCE RESTORATIVE RESULTS | C38**

9 AM-12 PM | PERIODONTICS | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, LABORATORY TECHNICIANS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
TEAM MEMBER	\$49	\$59	\$69

Learn evidence-based solutions for the types of soft-tissue challenges that you face on a daily basis, such as how to cover those exposed roots and predictably stop, or prevent, recession. In this course, methods will be illustrated to solve those problems and enhance your restorative results by using both free-gingival and connective-tissue grafts. Gain peace of mind knowing the gingiva stays in place at the margins of newly placed aesthetic crowns. The grafting of extraction sockets also presents an opportunity for improved restorative options and will be touched on as an augmentation option. This course also is appropriate for hygienists so they can better understand the potential for root coverage options. *This is a two-part course (C38 and W19) that is best attended as a full-day experience for comprehensive learning. You must register and pay for both courses for the full-day experience. However, attendees may choose to take the lecture course only.*

KOHNER, DR. JAMES**SOFT-TISSUE GRAFTING AND SUTURING WORKSHOP | W19**

1:30-5 PM | PERIODONTICS | CE CREDITS: 3.5

AUDIENCE: DENTISTS, ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$399	\$449	\$479
NON-MEMBER DENTIST	\$449	\$499	\$529
ASSISTANT	\$189	\$199	\$219

Frustrated by recession around recently placed crowns or unsightly recession in the aesthetic zone? Learn practical techniques for placing the two different soft-tissue grafts that were discussed in the Dr. Kohner's lecture "Soft- and Hard-Tissue Grafting That Will Improve Your Restorative Results" (C38). See how gingival grafts can predictably stop or prevent that recession, and how connective tissue grafts can be used to cover exposed roots. Both grafts will be discussed and illustrated to show how they will directly enhance your restorative results. After step-by-step techniques are shown, participants will do the two grafts, including practicing stable suturing methods, on pig jaws. Two surgical videos will be shown to illustrate the technique before the exercise. *The lecture, Soft- and Hard-tissue Grafting that Will Improve Your Restorative Results (C38), is a prerequisite for this workshop. You must register and pay for both courses for the full-day experience. Attendance is limited to 30.*

Participant Requirements: Loupes

KUGEL, MS. CONNIE**ULTIMATE TOOTH WHITENING | C39**

9-11 AM | HYGIENE | CE CREDITS: 2

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
TEAM MEMBER	\$49	\$59	\$69

Tooth whitening is easy, rewarding and profitable. Most dental hygienists don't think they need a whitening refresher course, but do you know how to answer your patients' questions about tooth whitening: How long does it last? Can it hurt my teeth? What about sensitivity? And your own questions: How does tooth whitening work? Should I offer chairside or take-home materials? What about a combination of chairside and take-home? Are they worth it? Do the over-the-counter whitening products work? How does "whitening toothpaste" work? Let's talk about the advantages and disadvantages of tooth whitening!

PRACTICE ADMINISTRATOR HIGHLIGHTS

As a practice administrator, you spend most of your day working with patients to ensure they begin and end their appointments happy. Boost your expertise in the areas that you spend most of your days – communication, scheduling and billing.

KUGEL, MS. CONNIE****NEW DENTIST RECOMMENDED****BIOACTIVE DENTISTRY — PREVENTION TO RESTORATION | C49**

2-5 PM | DENTAL MATERIALS | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS,
DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
TEAM MEMBER	\$49	\$59	\$69
DENTAL STUDENT	\$0	\$0	\$0

This lecture will cover everything from prevention to restoration, highlighting the new class of bioactive/biomimetic materials. The presenters will review techniques and tools to enhance prevention and long-term maintenance of your patient's dentition, and ways to prevent the need for future restoration. Questions are arising as to the longevity and appropriateness of the current resin material systems and the new generation of bonding agents. Researchers have begun to develop advanced acid-base restorative alternatives to help with the limitations seen with restorative and luting needs. This lecture will discuss many of these new preventive and restorative materials and how they can help produce better, more long-lasting bioactive and protective restorations, as well as improve bonding results.

LAWSON, DR. NATE**NEW DENTIST RECOMMENDED****MATERIALS AND TECHNIQUES TO IMPROVE POSTERIOR
COMPOSITE | C50**

2-5 PM | DENTAL MATERIALS | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89

ASSISTANT	\$49	\$59	\$69
DENTAL STUDENT	\$0	\$0	\$0

Posterior composite restorations remain the bread-and-butter procedure of many general dentists. Although this procedure may seem trivial, there are many clinical factors which lead to a long-lasting restoration, including diagnosis, isolation, caries removal, cavity preparation, use of liner, matrix and wedge placement, bonding technique, composite placement, finishing and polishing. This course aims to review the techniques for each of these steps based on current evidence.

LIMOSANI, DR. MARK**ENDODONTIC DIAGNOSIS AND TREATMENT PLANNING
USING CBCT — A PRACTICAL WORKSHOP FOR THE GENERAL
PRACTITIONER | W21**

2-5 PM | ENDODONTICS | CE CREDITS: 3

Improving your communication techniques can result in a higher-performing team and better patient relationships. Learning to elevate communication will enable the dental team to openly communicate, prevent breakdowns, resolve conflict, and build trust and respect. This lecture will illuminate the skills needed to communicate positively and effectively with different and even difficult personalities. Discover formats to hold positive, effective and efficient huddles and team meetings. Learn the steps to address and resolve conflict and establish protocols that eliminate gossip. Transform attitudes from toxic to tremendous and, ultimately, create a positive environment where every team member and patient will look forward to coming into the office. As a communications expert, Ms. Mausolf will share how attendees can elevate the level of communication in their lives.

Success is measured by a healthy bottom line, a united leadership front and a cohesive team. Building a high-performing team is a necessary step for enabling business success. Success also is a feeling of working in an enjoyable environment and knowing you did your best at the end of the day. In this lecture, Ms. Mausolf will share her R.I.S.E. philosophy, a concept for best practices that helps the entire team think and act differently, communicate more effectively, work together better and make healthy decisions, ultimately resulting in a growing business. Attendees will learn how to build a united leadership team, develop performance standards and uncover behaviors that inspire a culture of appreciation and celebration. Ms. Mausolf will also outline how to understand the individual's role in establishing trust, accountability and respect. Come learn the R.I.S.E. implementation process and get set up for success!

DENTAL STUDENT	\$0	\$0	\$0

Research indicates that an overwhelming percentage of patients find dental care to be an anxiety-producing experience. At the same time, dentists and dental teams are frustrated when techniques that comfort one patient backfire on another. This lecture will explore the four types of underlying dental fears and the impact on a patient's personality. Skills to identify these fears and alternatives to treat the patient's fears will be discussed.

SHANAWANY, MR. RIAD**COMPLETE HOLISTIC FINANCIAL AND WEALTH MANAGEMENT FOR YOUR DENTAL PRACTICE | NC07**

9 AM-12 PM | FINANCIAL | CE CREDITS: 0

AUDIENCE: DENTISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16

DENTAL STUDENT	\$49	\$49	\$59

Dentists may face greater challenges than many investors, and they are now operating in an environment of great industry and financial changes. Keeping up with the ever-evolving regulations affecting the dental industry and dental practices may take up a significant amount of time, leaving you little time to assess changing tax laws and keep up with rapidly shifting financial markets. During this lecture, attendees will learn about the special challenges dentists face as investors due to higher liability risks, complex financial situations, large student loan debt and above-average incomes.

This lecture is fully sponsored by

3D PRINTING WORKSHOP FOR THE EVERYDAY DENTIST | W16

9 AM-5 PM | DENTAL MATERIALS | CE CREDITS: 7

AUDIENCE: DENTISTS, ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$799	\$899	\$999
NON-MEMBER DENTIST	\$899	\$999	\$1,099
ASSISTANT	\$799	\$899	\$999

In this full-day 3D printing hands-on workshop, attendees will learn what 3D printing is, how it is used in dentistry and get to experience the workflows, materials and design themselves. This workshop will start off with an overview of the dental indications for 3D printing followed by a simple four-step workflow for success in your practice come Monday morning. Overview of design for nightguards, surgical guides and flippers will be shown as well as hands-on learning with the printers and materials themselves. The full-day workshop will wrap up with an understanding of post processing and how to successfully implement this into a busy practice. A one-hour break for lunch will be provided during this course. *Attendance is limited to 30.*

TEAM MEMBER	\$339	\$369	\$389

Today's dental plans have added more benefits for patients with systemic issues because the marketplace has spoken. Data shows that 56% of health insurers believe they will be bigger in the market as dental is absorbed into overall health insurance. Dental plans have been brought on as partners to health insurance as two products with shared or separate premiums. The biggest change recently includes adding Medicare Advantage Plans. This deep dive will help participants understand the proper way to choose which way to bill. Even if your office is a fee-for-service office, you want to control the billing since the doctor's National Provider Identifier is on every claim form. *Attendance is limited to 45.*

Participant Requirements: Laptop computer and a copy of one redacted patient chart information the attendee wants to bill to medical.

Dental professionals continue to be at the highest risk for musculoskeletal disorders (MSD) due to maintaining awkward prolonged positions and placing undue stress on their bodies. Frequently, the common areas discussed are related to the upper body. But, in fact, the abnormal postures and seating positions can affect hips, legs and the feet/ankle, causing issues at work or play. This physical therapist-dental hygienist duo will provide important knowledge about common lower body injuries and disorders that dental professionals may encounter and, more importantly, provide prevention strategies to keep you working pain-free!

FRIDAY, JUNE 30**WILLIS, DR. DEBRA****R-EFDA WORKSHOP: DO YOU HAVE THE HANDS? | W17**

9 AM-12 PM | RESTORATIVE | CE CREDITS: 3

AUDIENCE: ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
ASSISTANT	\$279	\$299	\$329

Are you a new or aspiring Restorative Expanded Functions Dental Assistant (R-EFDA)? Dr. Willis designed this workshop to encourage dental assistants to become more valued members of the dental team by increasing their knowledge and skill with this hands-on experience. Materials and methods, aesthetic considerations, occlusal concerns, patient acceptance strategies, teamwork and common pitfalls when using sealants, amalgams and composites will be reviewed. Participants will learn the latest techniques then use prepared models to place a sealant, two amalgams and two composites. Emphasis will focus on maintaining excellence, fun and enthusiasm for learning, and to enjoy long-term patient and personal satisfaction in your new restorative career. *Attendance is limited to 20.*

WILLIS, DR. DEBRA**IT'S NOT ILLEGAL: INCORPORATING R-EFDA IN THE OFFICE | C53**

2-4 PM | ASSISTING | CE CREDITS: 2

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
TEAM MEMBER	\$49	\$59	\$69
DENTAL STUDENT	\$49	\$59	\$69

Do you know that assistants may place restorations under the dentist's direct supervision? Dr. Willis will present ways to incorporate the new Restorative Expanded Function Dental Assistant (R-EFDA) into your practice. Attendees will learn about the new laws and scope of practice for the R-EFDA, hear ideas for team selection and team building, gain tips for patient acceptance, see examples of incentives and scheduling strategies and recognize the positive impact highly-skilled and well-trained R-EFDA team members can have toward a productive and passionate practice!

BLESSING, DR. TRACY

LEVEL ONE BOTULINUM TOXIN: HOW AND WHY TO INCORPORATE IT INTO YOUR DENTAL PRACTICE | W22

8 AM-5 PM | BOTULINUM TOXINS/DERMAL FILLERS | CE CREDITS: 8
AUDIENCE: DENTISTS, ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$1,899	\$1,999	\$2,019
NON-MEMBER DENTIST	\$1,999	\$2,009	\$2,029
ASSISTANT*	\$189	\$199	\$219

This workshop will introduce botulinum toxin type A and focus on the cosmetic and therapeutic uses to provide comprehensive patient care and total facial aesthetics in the dental practice. The workshop will include a review of pertinent facial anatomy and muscle physiology, as well as botulinum toxin's mechanism of action. Specific areas of treatment will be explained and demonstrated. The integration of botulinum toxin in a dental environment will be discussed, from the patient consultation to the evaluation and diagnosis, and finally, to the treatment with before-and-after case presentations.

Detailed information will be provided concerning the safety and risk concerns when using botulinum toxin, along with the management and treatment of complications, dilution protocols, sterile injection techniques and proper placement for desired outcomes. During the workshop, attendees will gain valuable insight about on how to incorporate botulinum toxin into their dental practice. The potential for practice growth and profitability will be explored, as well as implementation with staff training and incorporation into treatment plans.

In the afternoon hands-on portion of the workshop, attendees will have the opportunity to diagnose, map and treat a model patient with one-on-one mentored instruction. Upon completion of the full-day workshop, attendees will have the confidence and skills to implement botulinum toxin treatments into their dental practice. A one-hour break for lunch will be provided during this course. *Attendance is limited to 20. *Paid team member learning is a co-learning experience with a paid doctor attendee.*

Participant Requirements: Attendees must provide proof of current professional liability insurance two weeks prior to attend with the expiration date included. The Florida Dental Association (FDA) assumes no liability if a participant is refused coverage by an insurer for any reason or is unable to obtain materials for use in practice. Attendees must bring their own model patient. This is a teaching course so please advise your model patient that they must be available for approximately 3-4 hours in the afternoon. You and your team member may serve as patients. The FDA does not provide model patients.

BOISVERT, MS. SUE

PREVENTION OF MEDICAL ERRORS (REPEAT) | RM5-8

2-4 PM | STATE MANDATED | CE CREDITS: 2
AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$69	\$79
NON-MEMBER DENTIST	\$138	\$138	\$158
TEAM MEMBER	\$69	\$69	\$79

This lecture will address basic patient safety strategies, Florida-specific requirements and common sources of dental risk and liability. The course will include dental closed claims data, case studies, audience participation and some humor. Just because it's mandatory doesn't mean we can't have some fun! *This course is a repeat of Ms. Boisvert's lecture (RM1-4) on Friday, June 30 from 2:30-4:30 p.m. This lecture satisfies the Florida Board of Dentistry's continuing education requirement for medical errors.*

This lecture is fully sponsored by  **THE DOCTORS COMPANY**

BROUMAND, DR. VISHTASB

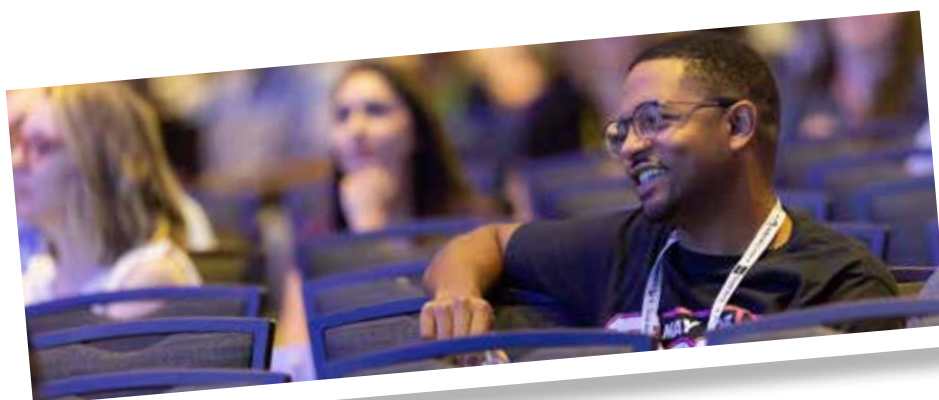

MASTERING CONVENTIONAL FULL-ARCH SURGICAL TECHNIQUES FOR PREDICTABLE IMPLANT OUTCOMES WORKSHOP | W23

8 AM-12 PM | ORAL SURGERY | CE CREDITS: 4
AUDIENCE: DENTISTS, ASSISTANTS, LABORATORY TECHNICIANS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$399	\$449	\$479
NON-MEMBER DENTIST	\$449	\$479	\$499
TEAM MEMBER	\$399	\$449	\$479

This workshop will offer a comprehensive, detailed, step-by-step lecture that will cover the implant surgical and presurgical planning, surgical procedures and restorative protocols including multiple techniques commonly used to place and restore full-arch implants. The lecture will be followed by a hands-on portion where attendees will be able to place full-arch implants on plastic skulls. This workshop is a great opportunity to master full-arch surgical techniques that can be implemented in the office on Monday. *Attendance is limited to 25.*

The equipment for this workshop is partially sponsored by

SATURDAY, JULY 1**BROUMAND, DR. VISHTASB****DIGITAL IN-OFFICE IMMEDIATE FULL-ARCH PROVISIONALS WORKSHOP | W27**

1-5 PM | PROSTHODONTICS | CE CREDITS: 4

AUDIENCE: DENTISTS, ASSISTANTS, LABORATORY TECHNICIANS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$699	\$799	\$899
NON-MEMBER DENTIST	\$799	\$899	\$999
TEAM MEMBER	\$699	\$799	\$899

This hands-on workshop will be a comprehensive, detailed, step-by-step course on restoring full-arch hybrid implant cases using a completely digital workflow. Dr. Broumand will teach digital restorative protocols, including intraoral scanning, photogrammetry, 3D printing of temporary teeth followed by staining and glazing of the teeth. All participants will discover how to restore full-arch implant cases in the maxilla and mandible using digital dentistry. This simple digital workflow will eliminate messy denture conversions and all participants and their team will actually do the step-by-step process to make it happen at their office without a dedicated in-house lab technician. *Attendance is limited to 20.*

PRACTICAL ABUSE EDUCATION FOR THE DENTAL PROFESSIONAL | DV1-4

2-4 PM | STATE MANDATED | CE CREDITS: 2

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, LABORATORY TECHNICIANS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
TEAM MEMBER	\$69	\$79	\$89

During this course, attendees will gain an understanding of the importance of the oral health care team in recognizing abuse, and their responsibilities as mandated reporters according to Florida law. Additionally, attendees will study the various maxillofacial, oral, head, neck and body injuries that are generally associated with human physical abuse, including child, spousal, elder and abuse of the disabled. Attendees will learn the various types of abuse that may present, including physical, emotional, sexual and financial as well as neglect. At the conclusion of this course, attendees will understand the behaviors that are common in abuse victims and offenders, and will learn how their examination can aid in a complete investigation. Attendees will gain an understanding of the psychological, patient management and treatment considerations of both the abused patient and the abuse survivor. **This lecture satisfies the Florida Board of Dentistry's continuing education requirement for domestic violence.**

DENTAL STUDENT	\$0	\$0	\$0

Silver diamine fluoride and silver modified atraumatic restorative therapy (SMART) restorations have been growing interest in dentistry. Many courses exist where these topics are discussed. What is it YOU want to talk about? Dr. Fukuoka will have topics on a slide, and attendees will pick which ones to discuss. For the duration of this lecture, attendees will choose topics and have open discussion until the time runs out. Open discussion and attendee participation will be encouraged.

This lecture is partially sponsored by

FUKUOKA, DR. BROOKE

WE CAN TREAT YOU HERE OR THERE, WE CAN TREAT YOU ANYWHERE! UTILIZING TELEDENTISTRY AND PORTABLE EQUIPMENT TO EXPAND ACCESS TO CARE | C68

1-2 PM | HYGIENE | CE CREDITS: 1

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$49	\$59	\$69
NON-MEMBER DENTIST	\$59	\$69	\$79
TEAM MEMBER	\$29	\$39	\$49
DENTAL STUDENT	\$0	\$0	\$0

This lecture is designed for those who are interested in learning about portable dentistry and teledentistry. Dr. Fukuoka will discuss the benefits and challenges of both portable dentistry and teledentistry. She will review the basic equipment needs and precautions that are easily overlooked and will discuss agreements with facilities and what is recommend for those agreements. When time and technology permit, Dr. Fukuoka will conclude allowing one attendee to use an intraoral camera on the screen as a live teledental example.

This lecture is partially sponsored by

KILLER SMILE? THE ORAL-SYSTEMIC CONNECTION | C57

9 AM-12 PM | HYGIENE | CE CREDITS: 3

AUDIENCE: DENTISTS, HYGIENISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
HYGIENIST	\$49	\$59	\$69
DENTAL STUDENT	\$49	\$59	\$69

Dental professionals know that dental care is essential for oral health, but that it can also impact the systemic health of patients. It is even true that individuals who floss and maintain good oral health live, on average, six years longer than those who do not! Further, patients are bombarded with headlines linking oral health, including oral bacteria and inflammation, with systemic diseases and conditions such as diabetes, obesity, osteoporosis, adverse pregnancy outcomes, rheumatoid arthritis and cardiovascular diseases. Furthermore, emerging research has shown an association between periodontal health and certain cancers, kidney disease, dementia/Alzheimer's disease, anxiety and depression, and even COVID-19 disease severity. Many of these connections are influenced by common inflammatory burdens, microbiome dysbiosis and its effects systemically, and the systemic effects of anti- and pro-oxidative forces in the body. This lecture will review the associations between periodontal diseases and systemic health, the mechanisms of these interactions and the impact of periodontal care on overall health and wellness.

GUMMING UP THE WORKS? EXCESSIVE GINGIVAL DISPLAY AND SMILE AESTHETICS | C69

2-5 PM | AESTHETIC | CE CREDITS: 3

AUDIENCE: DENTISTS, HYGIENISTS, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
TEAM MEMBER	\$49	\$59	\$69
DENTAL STUDENT	\$0	\$0	\$0

A smile is a universal greeting and translates into all languages! Smiling individuals are judged as more pleasant and trustworthy and the act of smiling actually releases endorphins that improve the mood of the person who smiles! Psychologists and scientists agree that the simple act of a smile can positively transform a person's life, as well as the lives of others. Hence, the smile can be considered a critical component to one's overall happiness and is fundamental to perceived beauty. Dentists are trained to create, maintain and protect the ideal smile, but what should your goals be in achieving that "gold standard" of beauty?

The essential components of an ideal smile involve the relationship between three primary components: the teeth, the lip framework and the gingival scaffold. While beauty may be in the eye of the beholder, factors that allow assessment of overall smile aesthetics include tooth width/height ratio; shape; position; quality of restoration and general arrangement of the dentition, especially of the anterior teeth; upper lip position; buccal corridor; visibility of teeth; and amount of gingival display. Excessive gingival display, or a "gummy smile", can affect the aesthetic perception of a patient's smile and negatively influence their self-perception, self-esteem and social behaviors. Furthermore, excessive gingival display is often multifactorial and comprehensive, multidisciplinary treatment is required. This lecture seeks to present data about ideal gingival display, which can vary based upon individual characteristics, the underlying etiologies for excessive gingival display, the potential multidisciplinary treatment options to reduce gingival display and to allow dentists to create a personalized road map to help their patients achieve a vibrant smile.

HOW TO MAKE A PERFECT PROVISIONAL CROWN WORKSHOP | W30

2-4 PM | RESTORATIVE | CE CREDITS: 2

AUDIENCE: DENTISTS, ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$379	\$399	\$419
NON-MEMBER DENTIST	\$399	\$419	\$429
ASSISTANT	\$379	\$399	\$419

This hands-on workshop is designed to help assistants and other clinical support staff make perfect provisional crowns by gaining familiarity with various provisional materials. There are many pros and cons with each specific provisional material, so you will get a better understanding for them all. The information presented will teach attendees how to become confident in their provisional crown abilities and teach them how to be efficient in their treatment. Attendance is limited to 20.

Participant Requirements: Loupes, eye protection and lab jacket or scrub top.

The equipment for this workshop is partially sponsored by

DENTAL STUDENT	\$49	\$49	\$59

Uncover, identify and discover the biggest challenges in dentistry areas that prevent maximizing cash flow and ways to improve your bank accounts. During this course Mr. Hiers will present the real life success stories about your peers so you can learn how to overcome poor insurance reimbursements, ways to stop tax surprises and discover additional strategies to become financially stronger.

This lecture is fully sponsored by  FOUR QUADRANTS
The Multi-Million Dollar Secret for Dentists

HUFF, MS. KAY**THE FEARLESS DENTAL TEAM | C58**

9 AM-12 PM | ADMINISTRATION | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, LABORATORY TECHNICIANS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
TEAM MEMBER	\$49	\$59	\$69
DENTAL STUDENT	\$49	\$59	\$69

In this course, attendees will learn the importance of how team members and systems need to be in sync and work together productively. Dentists and their team members will gain the confidence to let their voices be heard and express themselves in a fearless atmosphere by having a clear understanding of what needs to be accomplished.

KHAN, DR. WAJI**PLATELET RICH FIBRIN (PRF) FOR REGENERATION APPLICATIONS FOR DENTAL IMPLANTS, AESTHETICS AND HAIR GROWTH | C59**

9 AM-12 PM | ORAL SURGERY | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, PRACTICE ADMINISTRATORS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
TEAM MEMBER	\$49	\$59	\$69
DENTAL STUDENT	\$0	\$0	\$0

Have you ever wondered what Platelet Rich Fibrin (PRF) is? The answer is a matrix concentrate of autologous platelets, leukocytes and fibrin. Gain predictable regeneration and accelerated healing for an overall increase of treatment success with Dr. Khan's course on PRF applications to various implant surgical procedures. The benefit of using PRF in wound healing is that it is a second-generation platelet concentrate which can enhance both soft- and hard-tissue healing. Its advantages over platelet-rich plasma include: ease of preparation, ease of application, minimal expense and lack of biochemical modification (no bovine thrombin or anticoagulant is required). This considerably reduces the biochemical handling of blood as well as risks associated with the use of bovine derived thrombin. PRF also contains physiologically available thrombin that results in slow polymerization of fibrinogen into fibrin which results in a physiologic architecture that is favorable to wound healing. Attend Dr. Khan's lecture to learn how PRF facilitates better healing, predictable grafting and subjectively less pain. *This is a two-part course (C59 and W28) that is best attended as a full-day experience for comprehensive learning. However, attendees may choose to take the lecture course only.*

3D PRINTING WORKSHOP FOR THE EVERYDAY DENTIST (W16)

FRIDAY, JUNE 30 | 9 AM-5 PM | CE CREDIT: 7

TRACK: DENTAL MATERIALS | AUDIENCE: DENTISTS & ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$799	\$899	\$999
NON-MEMBER DENTIST	\$899	\$999	\$1,099
ASSISTANT	\$799	\$899	\$999

In this full-day 3D printing hands-on workshop, attendees will learn what 3D printing is, how it is used in dentistry and get to experience the workflows, materials and design themselves. This workshop will start off with an overview of the dental indications for 3D printing followed by a simple four-step workflow for success in your practice come Monday morning. Overview of design for nightguards, surgical guides and flippers will be shown as well as hands-on learning with the printers and materials themselves. The full-day workshop will wrap up with an understanding of post processing and how to successfully implement this into a busy practice. A one-hour break for lunch will be provided during this course. *Attendance is limited to 30.*

DIGITAL SMILE DESIGN WORKSHOP (W24)

SATURDAY, JULY 1 | 8 AM-12 PM | CE CREDIT: 4

TRACK: RESTORATIVE | AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$499	\$539	\$559
NON-MEMBER DENTIST	\$539	\$579	\$599

Digital smile design is one of the greatest keys to closing more aesthetic cases, understanding and treatment planning them appropriately, and delivering amazing results. This workshop will go through an overview using exocad software to show what can be done with digital mockups. Using photography, intraoral scans and trial smiles, you can simulate exactly what a patient could get with cosmetic dentistry and show them, not only digitally, but how to transfer that to the patient's mouth. Attendees will learn how to transfer digitally-designed smiles to the patient's mouth and how to use those for fabricating long-term temporaries that could be preprinted. This workshop will leverage the fundamentals of solid smile design with the future of cosmetic dentistry. *Attendance is limited to 30.*

Participant Requirements for both workshops: Laptop Computer

The equipment for both workshops are partially sponsored by

exocad

SprintRay

Dr. Richard (Sully) Sullivan earned his dental degree from the University of Tennessee College of Dentistry. He is an instructor at 3D Dentists and has a private practice in Brentwood, TN.

SATURDAY, JULY 1

KHAN, DR. WAJI**PLATELET RICH FIBRIN (PRF) FOR REGENERATION APPLICATIONS FOR DENTAL IMPLANTS, AESTHETICS AND HAIR GROWTH WORKSHOP | W28**

1-5 PM | ANESTHESIA | CE CREDITS: 4
AUDIENCE: DENTISTS, ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$399	\$449	\$469
NON-MEMBER DENTIST	\$449	\$499	\$519
ASSISTANT	\$329	\$349	\$369

In this hands-on workshop, attendees will learn what Platelet Rich Fibrin (PRF) is by going through the process of obtaining it and applying it, get firsthand experience drawing blood and putting it through the centrifuge process, and apply that knowledge to see how PRF allows predictable regeneration and accelerated healing for an overall increase of treatment success. The knowledge you gain in PRF through this course can apply to various implant surgical procedures, wound healing, hard- and soft-tissue healing, along with use in facial aesthetics and hair regeneration. See the advantages of PRF compared to platelet-rich plasma, including: ease of preparation, ease of application, minimal expense and lack of biochemical modification (no bovine thrombin or anticoagulant is required). This considerably reduces the biochemical handling of blood as well as risks associated with the use of bovine derived thrombin. PRF also contains physiologically available thrombin that results in slow polymerization of fibrinogen into fibrin which results in a physiologic architecture that is favorable to wound healing. *This is a two-part course (C59 and W28) that is best attended as a full-day experience for comprehensive learning. However, attendees may choose to take the workshop course only. Attendance is limited to 30.*

Participant Requirements: Attendees must provide proof of current professional liability insurance two weeks prior to attend with the expiration date included. The Florida Dental Association (FDA) assumes no liability if a participant is refused coverage by an insurer for any reason or is unable to obtain materials for use in practice.

The equipment for this workshop is partially sponsored by

**KOSINSKI, DR. TIMOTHY
TILLEY, DR. STEPHANIE****ONE STEP ALVEOLAR RIDGE PRESERVATION WITHOUT THE NEED FOR A MEMBRANE | C60**

TEAM MEMBER	\$359	\$379	\$399

Aesthetic dental restorative materials are used every day in dental practices. To help maintain these materials and avoid potentially damaging them, dental hygienists need to understand the materials and how to safely and effectively care for them. This workshop will provide an overview of aesthetic dental materials and strategies for proper maintenance. Topics will include updates on direct and indirect restorative materials, whitening and appropriate compatible preventive materials that can be used in post-treatment care. Post-treatment instructions and patient home care will be discussed so you can help your patients keep their new restorations looking great! Hands-on activities include practice following demonstration about how to properly polish aesthetic dental restorations and avoid damage through material choice. *Attendance is limited to 20.*

THE DOS AND DON'TS OF PORCELAIN LAMINATE VENEERS | C62

9 AM-12 PM | AESTHETIC | CE CREDITS: 3

AUDIENCE: DENTISTS, LABORATORY TECHNICIANS,
DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
LABORATORY TECHNICIAN	\$49	\$59	\$69
DENTAL STUDENT	\$0	\$0	\$0

Are you currently providing porcelain laminate veneers in your practice? Not having the aesthetic success you hoped for? This lecture will provide an introduction into what you should consider when incorporating this treatment option, case presentations and a discussion of managing patients' expectations. From planning and consideration of alternative approaches to execution, the necessary steps will be presented, and many practice tips will be provided, to help attendees efficiently achieve desired clinical results. This lecture will provide a comprehensive and practical demonstration of how to execute porcelain laminate veneers, including the most common problems and how to avoid these mistakes in your dental office. *This is a two-part course (C62 and W32) that is best attended as a full-day experience. For comprehensive learning, you must register and pay for both courses for the full-day experience. However, attendees may choose to take the lecture course only.*

KUGEL, DR. GERARD

NEW DENTIST RECOMMENDED

THE DOS AND DON'TS OF PORCELAIN LAMINATE VENEERS WORKSHOP | W32

2-5 PM | AESTHETIC | CE CREDITS: 3

AUDIENCE: DENTISTS, LABORATORY TECHNICIANS

LAWSON, DR. NATE

TREATMENT OF ANTERIOR DISCOLORATIONS AND BIOACTIVE MATERIALS | C63

9 AM-12 PM | DENTAL MATERIALS | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
ASSISTANT	\$49	\$59	\$69

Discoloration of anterior teeth can result from a disruption in mineralization of the forming tooth or from the process of carries on the formed tooth. Both demineralization and white spot lesions may be an aesthetic concern for many patients. Resin infiltration and microabrasion are two different conservative treatments for these discolorations. This lecture will review clinical tips for case selection for both types of treatment as well as the steps to perform both techniques. Bioactive has become a buzz word in dentistry; however, many of us struggle to define exactly what that term means. This lecture will also present the bioactive claims of both pulp capping materials and restorative materials as well as the evidence for these claims. Clinical examples of the use of these materials will be presented.

LIMOSANI, DR. MARK

STRATEGIC DENTIN CONSERVATION IN ENDODONTICS: THEORETICAL CONCEPTS AND PRACTICAL APPLICATIONS | C64

TETHERED ORAL TISSUES — SYMPTOMS, DIAGNOSIS AND TEAM APPROACH TO TREATMENT | C70

2-4 PM | PEDIATRIC | CE CREDITS: 2

AUDIENCE: DENTISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
DENTAL STUDENT	\$0	\$0	\$0

Tethered oral tissues (TOTs) are a hot topic in the dental world today. Curriculum pertaining to TOTs and the proper evaluation, diagnosis and treatment is absent in dental schools and residencies, so many "learn as they go" in practice. Proper treatment of TOTs involves multiple providers, including pediatricians, orthodontists, ENTs, lactation consultants, body workers, speech/feeding therapists and myofunctional therapists. This lecture will give insight into how a team approach to treating TOTs allows for proper evaluation, diagnosis and treatment with high success rates.

PITTS II, DR. JAMES

THE LONG AND WINDING ROAD: A DENTIST’S GUIDE TO FINANCIAL INDEPENDENCE | NC12

9 AM-12 PM | FINANCIAL | CE CREDITS: 0

AUDIENCE: DENTISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
DENTAL STUDENT	\$0	\$0	\$0

The lecture will discuss topics such as: who are you as a dentist, what has changed in dentistry in the last few years, where dentistry is heading, and how you should prepare. This lecture will look at the demographics of dentistry as a profession. As younger dentists, how does debt affect your financial future? As older dentists, what effect has the market, insurance companies, corporate dentistry or the lack of planning had on your future? How have changes in society affected your dental practice? Attendees will discuss the big questions such as how much you will need to comfortably retire and if you are on track to achieve that goal. Dr. Pitts will also review “The 10 Commandments of Investing for Success” as a dentist and financial planning strategies to quickly propel you towards your financial objectives. A comprehensive review of all available dental office retirement plans will be discussed in-depth. The recent “Tax Cuts and Jobs Act” changes and how they may affect your dental practice will be presented. Attendees will discuss how an intelligently designed plan can help dentists with their financial journey. Dr. Pitts will end the course by discussing the seven principles for living that will create financial success.

Successfully managing a medical emergency is significantly different than merely knowing about medical emergencies. This course will be presented in a Socratic approach and is ideal for dental offices to attend as a team (although individual attendees are also welcomed). Throughout the course, attendees will be presented with challenging, lifelike medical situations which could easily occur during routine dental treatment including lecture and hands-on demonstration and training. **This course satisfies the current Florida Board of Dentistry's four-hour airway management and medical emergencies continuing education requirement to maintain a sedation permit, effective 3/1/2020. FS64B5-14.004 - Each biennium, all dentists who hold an active sedation permit of any level must complete a four hour board-approved continuing education course in Medical Emergencies. The continuing education required by this subsection may be included in the thirty (30) hours required by Section 466.0135, F.S. (2) To be approved by the board, the Medical Emergencies continuing education course must include a hands-on airway management component. Attendance is limited to 30.**

This lecture will present the physiology of pregnancy as well as oral manifestations that may be encountered at this time in a woman's life. Many myths regarding dental treatment for the pregnant patient will be discussed. Emphasis will be placed on the consensus statement produced by an expert workgroup meeting convened by the Health Resources and Services Administration in collaboration with the American College of Obstetricians and Gynecologists and the American Dental Association. Discussion will lend itself to the safety of common medications prescribed during pregnancy and lactation. The effects of cigarette smoking, alcohol consumption, marijuana use and COVID-19 in pregnancy and while breastfeeding will be presented. The most current information regarding postpartum depression will be addressed.

EATING DISORDERS: MEDICAL, DENTAL AND ORAL HEALTH CONSIDERATIONS | C67

11 AM-1 PM | ORAL MEDICINE | CE CREDITS: 2

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
TEAM MEMBER	\$49	\$59	\$69
DENTAL STUDENT	\$0	\$0	\$0

Eating disorders represent a complex spectrum of chronic illnesses, with medical and psychologic complications that lead to the second highest mortality of all psychiatric disorders. It is a problem that is an epidemic on college campuses. Members of the dental team play an integral role in helping to identify those patients with undiagnosed eating disorders. In fact, because of orofacial manifestations, they may be the first health care providers to encounter such patients and will be instrumental in making appropriate referrals for further diagnostic work-up and treatment. This lecture will address the psychologic, medical, dental and oral health issues associated with these disorders as well as dental management considerations. Discussion will lend itself to the negative impact of the COVID-19 pandemic on eating disordered individuals.

STEINBERG, DR. BARBARA

A LIFETIME OF HEALTH AND WELLNESS FOR WOMEN | C74

2-4 PM | ORAL MEDICINE | CE CREDITS: 2

AUDIENCE: ALL ATTENDEES

DENTAL STUDENT	\$0	\$0	\$0

At least 75% of healthcare costs in the U.S. are spent on treating diseases such as heart disease, diabetes, breast cancer and obesity. Many of these diseases are largely preventable and even reversible by simple lifestyle choices — what you eat, how you respond to stress, whether or not you smoke cigarettes, how much exercise you get, the quality of your relationships and social support — and at times these lifestyle choices can be seen as powerful as drugs and surgery! When it comes to aging gracefully, you want it all! You want to feel good, look good and, most of all, live a long, healthy life. This high-energy lecture based on the most current scientific information will examine the physical, emotional and social issues involved with staying healthy while achieving fulfillment and success in your professional life. Some topics to be discussed include stress and depression, perimenopause and menopause, heart disease, common cancers, Alzheimer's disease, and more.

STONE, DR. DENNIS

OFFICE-BASED PEDIATRIC DENTAL SEDATION | C75

2-5 PM | ANESTHESIA | CE CREDITS: 3

AUDIENCE: DENTISTS, ASSISTANTS, HYGIENISTS, PRACTICE ADMINISTRATORS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
TEAM MEMBER	\$49	\$59	\$69
DENTAL STUDENT	\$49	\$59	\$69

During this lecture, Dr. Stone will review best practices for office-based sedation for the pediatric dental patient (ages 1-8), including special needs patients. Discussion of advanced IV sedation topics will include the management of uncommon patient conditions and the American Academy of Pediatric Dentistry policies and guidelines for selecting anesthesia providers. This lecture will be comprised of three 40-minute sessions with 10 minutes for questions/discussions and a 10-minute break between each session.

SULLIVAN, DR. RICHARD (SULLY)

DIGITAL SMILE DESIGN WORKSHOP | W24

8 AM-12 PM | RESTORATIVE | CE CREDITS: 4

AUDIENCE: DENTISTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$499	\$539	\$559
NON-MEMBER DENTIST	\$539	\$579	\$599

Digital smile design is one of the greatest keys to closing more aesthetic cases, understanding and treatment planning them appropriately, and delivering amazing results. This workshop will go through an overview using exocad software to show what can be done with digital mockups. Using photography, intraoral scans and trial smiles, you can simulate exactly what a patient could get with cosmetic dentistry and show them, not only digitally, but how to transfer that to the patient's mouth. Attendees will learn how to transfer digitally-designed smiles to the patient's mouth and how to use those for fabricating long-term temporaries that could be preprinted. This workshop will leverage the fundamentals of solid smile design with the future of cosmetic dentistry. *Attendance is limited to 30.*

Participant Requirements: Laptop computer

The equipment for this workshop is partially sponsored by

SATURDAY, JULY 1

TAU, DR. LEONARD

RAVING PATIENTS: GET VISIBLE, GET CREDIBLE, GET MORE NEW PATIENTS | NC14

9-11 AM | ADMINISTRATION | CE CREDITS: 0

AUDIENCE: DENTISTS, PRACTICE ADMINISTRATORS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$0	\$0	\$49
NON-MEMBER DENTIST	\$49	\$49	\$59
PRACTICE ADMINISTRATOR	\$49	\$49	\$59

Word of mouth has always been the foundation for the acquisition of new patients by a dental practice, but in the internet age, word of mouth is transformed because of reviews sites like Google, Yelp and Facebook. Online reviews are now one of the biggest ranking factors in a local search. Being credible is only one piece of the puzzle though. Your practice also needs to be found online when people are searching for a dentist near them. Are you at the top of the Google Maps Pack? If not, you are invisible and all those great reviews are not doing much good. In this lecture, Dr. Tau will share numerous tips and best practices to not only become credible, but also visible online. This comprehensive reputation marketing course will cover how to generate reviews as well as how to handle the dreaded negative review. Dr. Tau also will share what the best practices are when it comes to online reviews. Additionally, Dr. Tau will discuss the system that has been tried and tested in his own office, enabling him to take his practice to the next level simply by marketing his reputation. If you want to learn everything there is to know about online reviews, this is the lecture for you.

This lecture is fully sponsored by  Birdeye

VAUGHN, MS. JESSICA

OCASIO, MR. JEAN

THE DIGITAL ASSISTANT: CLEAR ALIGNERS AND DIGITAL TECHNOLOGY WORKSHOP | W26

9 AM-12 PM | OCCLUSION | CE CREDITS: 3

AUDIENCE: ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
ASSISTANT	\$339	\$379	\$399

This hands-on workshop is for digital assistants who are working with clear aligner therapy in their offices! Knowing how to properly identify malocclusion is no longer just up to the doctor – assistants see it first and are quite capable of noting and educating the patient about the oral health condition. As clear aligner therapy becomes the norm for correcting malocclusion, it becomes evident that assistants really need to know the ins-and-outs of clear aligner therapy. Not only being able to see it and make the patient aware of the long-term effects, but also how clear aligner therapy can help. Not only will you discover the signs and conditions of malocclusion, but you also will discover the digital technology used now to treat it. Using digital scanning for digital impressions with more accurate results to digital photography and digital x-rays. Participants will be able to scan on typodonts and each other, plus take digital photos on each other! Proper PPE will be provided. Attendance is limited to 30.

The equipment for this workshop is partially sponsored by

VERSHEL, MR. MIKE

CPR AND AED CERTIFICATION RENEWAL FOR THE HEALTH CARE PROVIDER | CP3-4

7:30-9:30 AM | CERTIFICATION | CE CREDITS: 2

AUDIENCE: ALL ATTENDEES

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$99	\$99	\$109
NON-MEMBER DENTIST	\$149	\$149	\$159
TEAM MEMBER / GUEST	\$99	\$99	\$109

This basic life support renewal course is designed to provide a wide variety of health care professionals the ability to recognize several life-threatening emergencies and provide CPR for victims of all ages, including ventilation with a barrier device/Ambu bag, use an AED and relieve foreign body airway obstruction in a safe, timely and effective manner. This course will teach skills with the American Heart Association's research-proven, practice-while-watching technique, which allows instructors to observe students, provide feedback and guide the students' learning of skills. The course is intended for certified or non-certified, licensed or non-licensed health care professionals who wish to renew their active CPR/AED certifications. Mr. Vershel offers a repeat of this course (CP5-6) on Saturday, July 1 from 10 a.m.-12 p.m. Individuals with an expired certification are required to take the four-hour certification course (CP1-2) on Saturday, July 1 from 1-5 p.m. Upon completion of the course, each participant will receive a digital Health Care Provider CPR/AED card valid for two years. Attendance is limited to 25.

CPR AND AED CERTIFICATION FOR THE HEALTH CARE PROVIDER | CP1-2

1-5 PM | CERTIFICATION | CE CREDITS: 4
AUDIENCE: ALL ATTENDEES

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$119	\$119	\$129
NON-MEMBER DENTIST	\$149	\$149	\$159
TEAM MEMBER / GUEST	\$119	\$119	\$129

This basic life support course will provide the foundation for saving lives after cardiac arrest. Updated to reflect new science and education in the "2015 American Heart Association Guidelines Update for CPR and ECC," this course will teach basic life support skills for application in both in-facility and prehospital settings, with a focus on high-quality CPR, improvement of chest compression fraction and high-performing team dynamics. *Renewals are referred to the two-hour renewal course scheduled for Saturday, July 1 (CP3-4 or CP5-6) from 7:30-9:30 a.m. or 10 a.m.-12 p.m. Upon completion of the course, each participant will receive a digital Health Care Provider CPR/AED card valid for two years. Attendance is limited to 25.*

WALTHER, DR. RUSSELL

UPDATE ON MEDICAL MANAGEMENT MEDICATIONS | C55

8 AM-12 PM | ORAL SURGERY | CE CREDITS: 4
AUDIENCE: DENTISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$79	\$89	\$99
NON-MEMBER DENTIST	\$89	\$99	\$109
DENTAL STUDENT	\$59	\$69	\$79

This lecture will review and update dentists regarding pertinent and common medical management concerns. Specifically, frequent medical conditions altering treatment in the office will be reviewed, including hypertension, antiplatelets and anticoagulants and medications placing patients at risk for medication-related osteonecrosis of the jaw. The second half of the lecture will review narcotics management and prescribing controlled substances. **This course does not satisfy the Florida Board of Dentistry's Prescribing Controlled Substances course requirement. Please refer to course OP1-2 on Friday, June 30 from 2-5 p.m. for that mandatory course.**

WALTHER, DR. RUSSELL

COMPLICATIONS: A CASE-BASED REVIEW | C76

2-5 PM | ORAL SURGERY | CE CREDITS: 3
AUDIENCE: DENTISTS, DENTAL STUDENTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
DENTIST - FDA/ADA MEMBER	\$69	\$79	\$89
NON-MEMBER DENTIST	\$79	\$89	\$99
DENTAL STUDENT	\$49	\$59	\$69

This case-based course will review complications covering a range of specialties, with a primary focus on dentoalveolar surgery, implant surgery and oral, head and neck pathology. Dr. Walther will review the diagnosis, management and avoidance techniques for complications seen in everyday practice. All cases are original to the speaker and the review will include a very real-world and practical discussion.

WILLIS, DR. DEBRA

THE HIGH-TECH DENTAL ASSISTANT | C77

2-3:30 PM | ASSISTING | CE CREDITS: 1.5
AUDIENCE: ASSISTANTS

REGISTRATION CATEGORY	EARLY 4/14	REGULAR	ONSITE 6/16
ASSISTANT	\$49	\$59	\$69

Dental assistants are such an integral part of the dental team. This review of digital dentistry will give an overview of the array of digital technology that dental assistants will encounter, discuss the benefits of using such technology and detail the applications they have at their practices. With new dental technology continuously coming out, it is beneficial to keep up with the trends. A competent dental assistant is a high-tech dental assistant!

Don't Just Take Our Word For It!

"Greg and Ricardo at Doctor's Choice were very professional and accomplished precisely what they proposed. Their advice was spot on and I highly recommend their services. It is a pleasure to work with people you can trust and who give you solid advice. Ricardo was extremely responsive and always took care of the small details to assure a win, win, win for everyone."

- Dr. Tom Walsh / Key Largo, FL

"Michael Conner did an outstanding job as dental practice broker, his patience and professionalism was much appreciated during an arduous process. Finally, after dealing with several unwilling or unworthy candidates, we finally closed on a sale. I highly recommend him. Definitely use this guy."

- Dr. Bob Weller / Orlando, FL

"I highly recommend Jerry Pyser from Doctor's Choice. I have known Dr. Pyser for many years through our local dental society. When I chose to transition my practice there was no doubt in my mind this was the person to choose. Jerry was perfect in all respects. Very professional and truly dedicated to making the transition excellent for me and the buyer. He was always available to meet or speak with me. I have the highest regard for him and would gladly recommend him in the future."

- Dr. Burton Golumbic / Bonita Springs, FL

"A practice transition is a life-changing event full of decisions and details. I was guided through the entire process by Greg Jones. Greg has extensive knowledge of practice transition, was always available to talk, and worked tirelessly to achieve a fair outcome for both the buyer and seller. I highly recommend Doctor's Choice."

- Dr. Glenn Kupfer / Coral Springs, FL

Dr. Jerry Pyser

Statewide Representation

Local Agent Spotlight

Jerry Pyser, DDS is a licensed sales associate with over 40 years experience in the dental profession. He received his undergraduate B.A. degree from Hartwick College, Oneonta, New York and his DDS degree from Temple University, Philadelphia, PA.. In addition to being in private practice in the Fort Lauderdale area of Florida for over 16 years, Dr. Pyser also was C.E.O. of A.I.M.M. Management and Marketing, a company dedicated to training physicians and dentists on practice management. Prior to joining Doctors Choice, Dr. Pyser was the Dental Executive Director for the Highlands County Health Department in Sebring FL. In just four years through appropriate implementation of systems and his caring approach, he was able to build, manage, staff and operate 3 dental clinics for the State of Florida that now see 90 children daily. He now takes his expertise in the direction of helping dentists achieve their goals through practice transitions and sales.

Jerry is a very approachable guy who enjoys taking care of his clients by helping them achieve their goals and objectives.

ATTENDEE BASICS

LOCATION

FDC2023 will be held at the Gaylord Palms Resort & Convention Center located at 6000 W. Osceola Parkway, Kissimmee, FL 34746.

HOTEL RESERVATIONS

Visit hotel.floridadentalconvention.com to make your reservation online at either hotel. **FDC does not use a third party for hotel reservations.**

GAYLORD PALMS RESORT & CONVENTION CENTER

- Room Rate: \$212 per night, including free self-parking
- Reservations: Call 877.491.0442 to make your reservation within the room block

FAIRFIELD INN & SUITES

- Room Rate: \$124 per night, including free self-parking and breakfast
- Reservations: Call 407.390.1532 to make your reservation within the room block
- Shuttle service to Gaylord Palms is not provided

FREE REMOTE PARKING & SHUTTLE SERVICE

Free remote parking is the most convenient option for FDC attendees not staying at Gaylord Palms. Free shuttle service is provided at Wide World of Sports just minutes from Gaylord Palms. Shuttle services will run every 15-30 minutes beginning on Thursday, June 29 at 7 AM and continuing through Saturday, July 1 at 6 PM. Directions to off-site parking and the detailed shuttle schedule will be available one month prior to FDC at floridadentalconvention.com.

Note: Allow ample time (at least one hour prior to course start) for parking and shuttle service. Refunds will not be given for courses missed due to parking or shuttle delays.

If you are not a hotel guest, there is a \$30 self-parking or \$40 valet daily charge at Gaylord Palms. **Gaylord Palms parking is extremely limited for drive-in attendees and remote parking is recommended.**

BADGE PRINTING & MATERIALS

Badges are issued based on the registration category specified and are required for entry into all courses, events and the Exhibit Hall. **Badges will not be mailed** — attendees will receive a barcoded email one week prior to the meeting. Bring this email (electronic or hardcopy) with you on-site to print your badge.

NON-SMOKING/NON-VAPING MEETING

In keeping with good health practices, FDC has been officially designated a non-smoking and non-vaping meeting.

EMOTIONAL SUPPORT ANIMALS

If you require an emotional support animal (ESA), please contact FDC by Monday, June 26 at 800.877.9922. Under the Americans with Disabilities Act, ESAs are not given the same rights and exemptions as service animals and approval of ESAs in public areas and businesses are at the discretion of those entities. If prior approval is not given by FDC, attendees will be asked to remove the ESA from the event.

REGISTRATION INFORMATION

PREREGISTRATION

Advance preregistration saves time and money. All courses, including workshops, will be registered à la carte. **To receive the Early Bird rate, registrations must be paid online or submitted by mail and postmarked by April 14, 2023. To receive the Regular rate, registrations must be paid online or submitted by mail and postmarked by June 16, 2023.** Registration forms submitted via mail postmarked after the June 16 deadline will not be processed. All registration activity after this deadline will be subject to on-site pricing and must be completed online or at the on-site registration desk at Gaylord Palms. All fees for on-site registration increase by at least \$20 per registrant and by at least \$10 per course.

HOW TO REGISTER

Register online at floridadentalconvention.com or complete the Advance Registration Form and mail to:

Florida Dental Convention
Attn: FDC Meeting Assistant
545 John Knox Road, Ste. 200
Tallahassee, FL 32303

Please only use one method of transmission to avoid duplicate records or multiple charges. Telephone and fax registration is not available.

You may adjust your registration online at floridadentalconvention.com or by calling the FDC customer service line, 850.807.4997. However, on-site pricing for all online and in-person adjustments will apply after June 16. See page 77 for the cancellation policy.

FEE PAYMENT

All fees must be made in U.S. dollars by Visa, MasterCard, Discover, American Express or by personal check drawn on a U.S. bank and made **payable to the Florida Dental Association**. Although we try to assure accuracy, FDC cannot be responsible for any typographical fee errors in our printed registration brochure or on our website.

CHILD REGISTRATION

Children ages 8 to 18 who want to attend Live at FDC, the Out of This World Party or the Exhibit Hall must be registered and have a badge for entry. Children younger than 8 years of age do not need a badge but must be accompanied by a registered parent or guardian to attend evening social events. Children are only allowed in the Exhibit Hall if accompanied by a registered parent or guardian. **Infant strollers and carriages are not allowed in the Exhibit Hall, unless medically necessary, at any time other than the designated stroller hours of 9-11 AM on Saturday, July 1.** For the safety and convenience of others, the use of baby carriers is strongly encouraged.

GUEST REGISTRATION

Non-dental spouses and family older than 18 must register as a Guest. Attendees registered as "Guest" may attend registered keynote sessions and courses, the Exhibit Hall, and registered events such as Live at FDC and the Out of This World Party. Registered guests are unable to receive CE credit for any courses attended. Guests who want CE credit should register as their appropriate professional category.

FREE EXHIBIT HALL PASSES

Free Exhibit Hall Only registrations are available for non-FDA member dentists, team members and their guests. Access to the Exhibit Hall is included in the free FDA member preregistration. This registration category allows attendees to only access the Exhibit Hall. Exhibit Hall Only registrants may not take courses or attend any events such as Live at FDC and the Out of This World Party. To upgrade your registration, call 850.807.4997 before June 16, or go to the FDC Registration Desk On-site.

WORKSHOPS

Registrants may be required to bring instruments or other materials to workshops or to attend a mandatory prerequisite lecture. In addition, it is the responsibility of each registrant to check the course description carefully for equipment needs, participant requirements or prerequisites. Room capacity for workshops is limited and attendees are registered on a first-come, first-paid basis. Seats cannot be held without payment.

Disclaimer: For those attending workshops, please be aware of the potential risks associated with using new techniques and procedures without having fully attained a competency level to practice them.

COURSE WAITING LISTS

If a course becomes full, registrants may be placed on a waiting list. Those registering online can select to be added to a course waiting list during the registration process. Those registering via mail will be contacted by an FDC representative to be added to the wait list. If space opens in the course before June 16, the registrant will be placed in the course and the credit card on file will be charged. If the registrant does not wish to take the course, contact FDA staff and a refund will be processed and the seat will be released to the next attendee on the waiting list.

REGISTRATION, COURSE CANCELLATIONS AND TRANSFERS

COURSE CANCELLATIONS AND TRANSFERS

A **CANCELLATION** refers to any termination of a course, workshop, event or complete registration for FDC. A **TRANSFER** refers to the movement of an individual out of one course, workshop or event and into another course, workshop or event.

CANCELLATIONS & REFUNDS

All cancellations and/or requests for refunds must be made in writing and postmarked by June 16, 2023. All complete registration cancellations are subject to a service and handling fee of \$30 per cancelled registrant. Refunds are paid to the individual whose name appears at the top of the check or on the credit card used to pay for the registration. Please allow up to six weeks after the meeting for refunds to be processed. **No cancellation refunds for courses, workshops, events or complete registrations will be honored for any reason after the June 16, 2023 deadline.** Refunds will not be given for no-shows, employee terminations, or sickness/COVID-19.

Registration fees for Dentist/ADA Member include dual membership to the Florida Dental Association and are non-refundable.

ON-SITE TRANSFERS

On-site transfers will not be allowed for any limited seating sessions (such as workshops and deep-dive courses). On-site transfers will be allowed for lecture courses if space permits. If an individual wishes to transfer from one session into another on-site, that individual must pay for the difference in cost of the new session. Please see a registration agent on-site to inquire about course transfers. **No refunds will be given for on-site transfers regardless of difference in course tuition.**

REGISTRATION DEADLINES

EARLY: March 1-April 14

REGULAR: April 15-June 16

CANCELLATIONS: June 16

ON-SITE: June 17-July 1

QUESTIONS?

For questions regarding the Florida Dental Convention, please contact the FDA at 800.877.9922 or fdc@floridadental.org.

CE INFORMATION

CONTINUING EDUCATION (CE)

CE verification is automatically provided for all attendees. To receive CE credit for course attendance, attendees must scan their badge upon entering and exiting each course. The system will calculate the amount of time an attendee was present and award the credit appropriately. Per the Florida Board of Dentistry (BOD), to receive 1 hour of CE credit, attendees must be present in a course a minimum of 50 of the 60 minutes.

Attendees will be emailed their CE certificate automatically by July 3, 2023. Attendees also can obtain a printed CE certificate at any time after the end of their courses. CE stations are located on the classroom level Thursday through Saturday, 7 AM-5:30 PM. CE certificates can be accessed online for free after the convention at floridadental-convention.com.

All verified course attendance will be automatically submitted for Florida-licensed attendees to CE Broker on their behalf no later than July 29, 2023. Your CE certificate will list all registered verified courses attended; however, credit will not be reported to CE Broker for non-credit (NC) course codes. Verified course attendance for NC courses will be listed as zero hours on your CE certificate. Each state varies in what is accepted for continuing education and those courses can be self-reported to your reporting entity after the event, should your organizing BOD accept those courses.

CE REQUIREMENTS

Florida dentists are required to complete a minimum of 30 credit hours of approved continuing education in dental-related subjects each biennium. Attendees can earn up to 20 credit hours at FDC.

The Florida BOD accepts up to 3 hours of credit biennially for practice-management courses that address: principles of ethical practice management, substance abuse, effective communication with patients, time-management and burnout-prevention instruction. Dentists who have questions about whether the Florida BOD will accept a particular course should visit its website (floridasdentistry.gov/licensing/dentist) or call 850.245.4474.

ADA CERP

The Florida Dental Association (FDA) is approved as a continuing education provider by the Florida BOD. The FDA also is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ccepr.ada.org.

ADA CERP® | Continuing Education Recognition Program

COURSE CODE KEY

C	Clinical Course, CE approved by Florida BOD
PM	Practice Management Course, CE approved by Florida BOD
W	Hands-on Workshop, CE approved by Florida BOD
MR	Hands-on Mini-residency, CE approved by Florida BOD
DD	Deep Dive Course, CE approved by Florida BOD
NC	Non-credit Course, Not CE approved by Florida BOD

DISCLAIMERS / POLICIES

COVID-19 DISCLAIMER

Preventive measures aimed at reducing the spread of COVID-19 will be in place at FDC; however, it is not possible to fully eliminate the risk. All attendees and guests at FDC voluntarily assume all risks of exposure to COVID-19. Visit floridadentalconvention.com for health and safety updates. Refunds will not be given for sickness/COVID-19 related illnesses.

COURSE SATISFACTION DISCLAIMER

Should you choose to register for a course knowing you are outside of the recommended audience, refunds will not be issued if you are dissatisfied with the course.

SCIENTIFIC PROGRAM DISCLAIMER

The FDA and the Committee on Conventions and Continuing Education make every effort to present high-caliber speakers in their respective areas of expertise. The speakers' in no way imply endorsement of any product, technique or service presented during these presentations. The FDA specifically disclaims responsibility for any material presented. In addition, participants must always be aware of the hazards of using limited knowledge in integrating new techniques or procedures into their practice. Only sound evidence-based dentistry should be used in patient therapy.

PHOTO RELEASE POLICY

By registering for FDC2023, you are authorizing the FDA the right to photograph you, your invitees and guests while attending courses or using common or public areas of the hotel, and to use the photographs in all formats and media for any purpose, including for education, marketing and trade purposes. By registering, you release FDA from all claims arising out of the use of the photographs, including without limitation all claims for compensation, libel, invasion of privacy or violation of copyright ownership.

EMAIL LIST POLICY

By registering for FDC2023, you authorize the FDA to add you to its email marketing list to receive convention updates for 2023 and subsequent years. You can opt out at any time but will not receive pertinent information regarding your registration.

2023 FLORIDA DENTAL CONVENTION

PRE-REGISTRATION DEADLINE for mail registration is Friday, June 16, 2023. (Mailed registrations postmarked after this date will not be processed).
