Program Overview

This four-day conference is aimed at improving health care for women focusing on Obstetrics & Maternal-Fetal Medicine, Prenatal Diagnosis – Prenatal Ultrasound & Prenatal Genetics and Coding & Billing. The conference is geared towards obstetricians & gynecologists, MFM specialists, radiologists, family physicians, fellows, residents, nurses, midwives, genetic counselors, ultrasonographers, pediatrics cardiologists and all professionals who care for women.

Updates on prenatal diagnosis, current screening and testing, prenatal diagnosis and management the pregnant patient during prenatal care and on labor & delivery. We will also have a comprehensive Fetal ECHO course followed by live scanning and hands on scanning. We added a one day course on coding & billing in the above fields.

Educational Objectives:

1. Summarize expert management of medical and obstetrics complications and labor & delivery management.
2. Outline basic genetic concepts and prenatal management care in outpatient setting.
3. Incorporate new techniques of prenatal diagnosis & screening by molecular testing and by ultrasound.
4. Demonstrate improved knowledge on techniques of prenatal ultrasound, fetal MRI & fetal ECHO.
5. Improve knowledge of the regulations and correct coding & billing in Ob/MFM, Ultrasound and Genetics.

Disclosures: Faculty disclosure information will be made available in the conference materials. Faculty members are also expected to disclose to participants any discussion of off-label and/or investigational use of pharmaceutical products or devices within their presentation.

Accreditation and Designation of Credit

ACCME Accreditation This activity has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Council for Continuing Medical Education (ACCME) through the joint providership of the American College of Obstetricians and Gynecologists and the Philadelphia Pregnancy Center.
