10:00 am—12:30 pm
Eastern Time Zone

***This is an interactive lecture using
Zoom Chat to engage the
audience. Please plan to attend
on the designated date and time.***

Early Bird Fee: thru March 13th
Registration Deadline:
March 21st at midnight

“Treating Between the Lines”: Understanding Rx and Illicit Drug Abuse

Substance abuse is at an all-time “high” in this country with an estimated 1 out of every 10 Americans addicted to prescription or illicit drugs. As dental professionals, we must awaken to the reality that many of our patients have substance-use disorders and that our examination findings of advanced caries, severe hyposalivation, and poor plaque control are often the effects of depressant, stimulant, and opioid abuse. Learn how to recognize the clues of substance abuse from a routine dental examination, discuss your concerns and suspicions with patients, develop and deliver safe and effective dental treatment, and manage pain with non-opioid medications. *Note: Course content does not include marijuana.

At the completion of this program, participants will learn:

- To identify the prescription and illicit depressant, stimulant and opioid drugs that patients are most likely to abuse
 - To recognize the physical, behavioral, and oral clues of substance abuse during a routine dental examination
 - Motivational-interviewing techniques to discuss substance abuse with patients
 - Office policies that safeguard both patients and practices
 - Evidence-based practices for managing dental pain with non-addictive analgesics
 - How to avoid being targeted for drugs by patients
 - To develop treatment plans based upon a caries-risk assessment that includes substance abuse
 - Vermont Prescription Monitoring System (VPMS) resources will be provided
- This program will satisfy the Vermont State Board of Dental Examiners’ requirement for Controlled Substance Education credit (opioids, stimulants and more).***

Speaker Biography Dr. Brown earned her dental and master’s degree in public health from UCLA and completed a residency in dental public health from UCSF. Her research on drug-use patterns on “meth mouth” severity has garnered international interest and positioned her as a leading expert. She is an international speaker and author of the best-selling book, *A State of Decay: Your Dental Guide to Understanding and Treating “Meth Mouth*. With more than 25 years treating patients, Dr. Brown understands the behavioral and clinical challenges that the dental team faces when treating patients with substance-use disorders. She is a member of the American Dental Association, California Dental Association, American Association of Public Health Dentistry. She currently practices at the Sonoma County Main Adult Detention Facility in Santa Rosa, California. *Dr. Ronni Brown has indicated that she has no a.) financial relationships in support of this program and b.) no conflicts of interest.*

2023 CE Corporate Support Provided By:

The Vermont State Dental Society is an A.D.A CERP Recognized Provider #02395013. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. The Vermont State Dental Society designates this activity for **2.5** continuing education credits.
