**MULTIPLE ATTENDEE
REGISTRATION DISCOUNTS.**
See page 4 for details.

COURSE DESCRIPTION

By registering for our **three-day C3** in Houston, Texas, you'll be obtaining industry leading training education in compounding technique, USP <795> and <800> standards, clinical topics, regulatory information and much more. This course includes pre-class coursework with 20.0 hours of CE, classroom and hands-on lab time.

Customize Your Learning Experience!

- Personalize your compounding training by choosing the topics you would like to learn about during your three days of training. For instance, if you want more time in the lab, the Compounding Track provides additional hands-on training. If you prefer more disease state lectures and problem-solving presentations, then the Clinical Track is for you. Choose the perfect mix of training topics to meet your needs.
- Come a day early and/or stay a day later to take advantage of optional training while you're in town – all of which will help you jumpstart your practice. Additional fees apply.
 - On the **Monday prior to C3**, you may choose to attend an optional **PK Software Training** course, where you can learn the basics of this powerful quality control tool.
 - On the **Friday following C3**, you may choose from two optional courses: **Innovative Compounding Techniques**, which delves into more advanced compounding dosage forms, or **Applied Marketing Principles (AMP)**, designed to help you propel your practice to new heights.

ONLINE LEARNING OBJECTIVES

1. Understand and learn the basic concepts of pharmaceutical calculations
2. Discuss proper use and maintenance of equipment
3. Describe dosage forms and uses within pharmaceutical compounding
4. Review USP <795>
5. Review common compounding terminology

UNIVERSAL ACTIVITY NUMBERS (UANs)

Section 1: Introduction, Terminology, and Reference

0829-0000-17-034-H04-P/T

Section 2: Workflow, USP, Quality, and Equipment

0829-0000-17-035-H03-P/T

Section 3: Calculations 0829-0000-17-036-H04-P/T

Section 4: Dosage Forms 0829-0000-17-037-H04-P/T

Section 5: Sweeteners and Flavors 0829-0000-17-038-H04-P/T

HOW IT WORKS

1. REGISTER on the last page and return via fax, or online at www.pccarx.com/education

2. RECEIVE A CONFIRMATION EMAIL that contains a link to your pre-class coursework.

3. DOWNLOAD AND STUDY
Complete the tests with at least a 70% a week before attending C3 (to obtain CE).

4. ATTEND C3
All attendees are now on a level playing field.

5. EVALUATION TIME Within 14 days after class, log in to evaluate your class and print your CE certificate.

MONEY-BACK GUARANTEE

We take great pride in developing the highest quality educational programs and providing top-notch networking and sharing opportunities at our events. Our policy is to provide you with a full refund of the purchase price of the program if it hasn't met your educational goals.

If you are unsatisfied with our education content, your refund must be requested within 14 days of the completion of the program. To request a refund, email education@pccarx.com and include the attendee name, email address, phone number, program attended and a detailed explanation of why a refund is being requested. All refunds will be issued according to the original payment method

This continuing education activity is supported through an educational grant from PCCA. This continuing education activity is managed and accredited by Professional Education Services Group.

Professional Education Services Group is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education. Pharmacists and Pharmacy Technicians completing this program in its entirety will receive 20.0 hours (2.0 CEUs) of continuing pharmacy education.

OPTIONAL PRE- AND POST-C3 COURSES

You've made the trip all the way to Houston. While you're here, you may as well take advantage of additional training that will help launch your pharmacy for success! If you're interested in attending one or two of these courses, simply choose the appropriate courses on the registration form.

PK SOFTWARE BASIC TRAINING COURSE | MONDAY BEFORE C3 | 8:00 a.m. - 3:00 p.m. | \$495.00 USD

This course is designed for pharmacists, technicians and other pharmacy personnel. A combination of hands-on activities and instructional presentations provided by our PK Software Support Team will help attendees to effectively use the software tools and techniques in their compounding pharmacy. Topics covered include:

- Proper methods of managing inventory
- Formula entry and editing
- How to efficiently track daily log making
- Additional quality control and assurance procedures
- Techniques to fill multiple prescriptions for patients
- Along with many beneficial reporting capabilities to assist with future growth and quality control
- For full details, see [PCCA Document #97000](#).

Course
Monday*

INNOVATIVE COMPOUNDING TECHNIQUES COURSE | FRIDAY AFTER C3 | 8:00 a.m. - 3:00 p.m. | \$495.00 USD

Dive deeper into proper compounding technique and dosage forms with this advanced day of training. Topics covered include:

- Oil-filled capsules
- Compounding various formulations for topical and intranasal use
- Adjusting the pH of compounds
- Compounding polyglycol tablet triturates
- Compounding urethral suppositories
- Overview of the NasoNeb® delivery device
- Working with flavors and fragrances
- Innovative nasal dosage forms
- Calculations associated with formulations
- Equipment covered: pH Meter, NasoNeb, EXAKT® Ointment Mill, Electronic Mortar & Pestle (EMP), Jaansun® Capsule Machine
- For full details, see [PCCA Document #98653](#).

*Post-C3
Course
Options
Friday*

APPLIED MARKETING PRINCIPLES (AMP) COURSE | FRIDAY AFTER C3 | 8:00 a.m. - 3:00 p.m. | \$495.00 USD

Don't miss out on this opportunity to attend or have your marketer attend this informative course, which is being offered only six times this year. This session will focus on building your business with customized curriculum to cultivate your marketing needs. AMP up your practice by registering now! You'll learn:

- How to secure your business through branding
- How to expand your sales force using your customers not your cash
- Practical marketing tactics for your pharmacy using guerrilla marketing
- How to use social media to publicize your knowledge and practice
- The practical use of neuromarketing in your own marketing plan
- How to talk to prescribers and walk out with a win
- For full details, see [PCCA Document #98019](#).
