PRESENTERS

Bruce J. LeBlanc, DDS has lectured and written for publications nationally and internationally on the subject of maximized adhesive solutions. He will present the adhesive lecture and 6-hour hands-on components of the course.

John M. Barksdale, DDS is an AACD-accredited member with fellowships in implant dentistry. He has lectured nationally on concepts that combine esthetic excellence with implant placement. He will present techniques for immediate temporization of extraction sites with fixed long-term temporization, using maximized adhesive techniques.

Mike Robichaux, DDS has lectured nationally in practice concepts that build trust between dentist, staff, and patient with lower practice stress. His presentation will focus on the use of photography combined with emotional intelligence behavioral skills. These will enable you to effectively present minimally-invasive restorative options that the patients want.

Sigal Jacobson, DMD, from Melbourne, Australia, is an aesthetic dentist, leader lecturer in Ultradent and Founder of Uveneer system which is an aesthetic design method in the anterior composite field. With over 20 years of experience, she published clinical cases in leading dental journals and lectures internationally on the subject of minimally invasive techniques in aesthetic dentistry. She lectures and mentors dentists internationally on composite veneer steps for success. Dr. Sigal is a fellow in the International Academy of Dental Facial Aesthetic and the Australian Academy of Dental Facial Aesthetics.
