*Updated curriculum aligned with
7th edition Core Curriculum
for Oncology Nursing*

Achieving the professional specialty certification of Oncology Certified Nurse (OCN) is a validation of a nurse's clinical experience and knowledge, a professional accomplishment recognized by patients and peers. Our review course is an intensive training devoted to oncology nurses.

NNECOS.ORG/OCN

This nursing continuing professional development activity will be submitted to Northeast Multistate Division Education Unit, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.
