

Hematology and ASH Abstract Review

**Saturday
January 23, 2016**

The Ritz-Carlton, St. Louis, Missouri

Course Chair
Geoffrey L. Uy, MD

Presented By

*This course is not endorsed or affiliated with the
American Society of Hematology.*

CME Provided By
Washington University School of Medicine
Continuing Medical Education

COURSE OBJECTIVES

This course is most clinically relevant and designed for hematologists, medical oncologists, pathologists, laboratory medicine and internal medicine physicians, nurses, nurse practitioners, and physician assistants to increase their understanding of hematologic disorders and improve knowledge of the latest treatment advances in hematology. The intended result of this activity is increased competence, knowledge, performance and improved patient outcomes. At the conclusion of the activity registrants should be able to:

- Discuss the molecular pathogenesis, latest clinical trial results.
- Implement new evidence-based treatment and follow-up strategies in both benign and malignant hematology.
- Apply advances in diagnosis to the evaluation of patients with hematologic disorders.
- Demonstrate knowledge of advances in the treatment of hematologic disorders.
