Join us for the Cleveland Clinic 24th Annual Pediatric Board Review

Dear Colleague:

I am pleased to invite you to attend our 24th Annual Pediatric Board Review on August 27 – 31, 2018 in Cleveland, Ohio.

This nationally recognized five day course will provide a comprehensive pediatric board review to prepare you for board certification/recertification as well as offering MOC. The quality and breadth of content is also beneficial for individuals needing a thorough review of basic pediatric clinical information.

There are several unique features that set this review apart from the others. These include the use of an anonymous audience response system, which allows attendees to gauge their knowledge base and become familiar with board-type questions while attending the course. This also allows the lecturer to introduce topics in a question and answer format and highlight board examination relevant information. In addition, there are general pediatric and specialty-specific board simulation sessions, during which board questions/answers and rationale will be discussed and explained.

Of special value are the study resources available to you. A complimentary App allows you to access speaker slides before, during, and after the review. These slides include board-relevant questions presented during the course.

Participants are also able to purchase the 5th edition (2017) textbook, The Cleveland Clinic Intensive Review of Pediatrics for \$84. This is a comprehensive textbook that specifically focuses on pediatric board review certification and recertification and features board review type questions to help you study.

If you need further information, please feel free to contact me. I look forward to having you join the thousands of pediatricians who have successfully prepared for their boards over the past 23 years!

Camille Sabella, MD
Course Director

Join the thousands of pediatricians who have successfully prepared for their boards over the past 23 years!

By Attending, You Will Be Able To:

- Acquire the core knowledge necessary to pass the pediatric board examination or recertification exam
- Devise a differential diagnosis for a specific patient presentation
- Interpret laboratory findings for a host of clinical presentations
- Construct a therapeutic plan for a specific patient presentation

Who Should Attend?

This board review is directed to physicians preparing for board certification or recertification and those desiring MOC or a comprehensive update of basic pediatric clinical information.

Course Director

Information

For further information about this activity, contact the Cleveland Clinic Center for Continuing Education.

Local: 216.448.8717

Website: ccfme.org/PedReview

Accreditation

The Cleveland Clinic Foundation Center for Continuing Education is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

The Cleveland Clinic Foundation Center for Continuing Education designates this live activity for a maximum of 47.25 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Participants claiming CME credit from this activity may submit the credit hours to the American Osteopathic Association for Category 2 credit.

Application for CME credit has been filed with the American Academy of Family Physicians. Determination of credit is pending.

American Board of Pediatrics MOC

Successful completion of this CME activity, which includes participation in the activity, with individual assessments of the participant and feedback to the participant, enables the participant to earn 47 MOC points in the American Board of Pediatrics' (ABP) Maintenance of Certification (MOC) program. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABP MOC credit.

MOC is available for full course registration only.

Other Health Care Professionals

A certificate of attendance will be provided to other health care professionals for requesting credits in accordance with state nursing boards, specialty societies, or other professional associations.

Nearby Attractions
