Visit the Singapore Visa page or Visa Home page for detailed information about visa procedures to find the nearest Singapore Embassy or consulate and fill out an electronic visa application.

ABOUT CITY:

About Singapore

Singapore has been described as a playground for the rich, and it's true that the small city-state does have a certain sheen of wealth. But Singapore offers more than just high-end shopping malls, luxury hotels, and fine dining (though it's worth indulging in those a bit if you can). There is also a vibrant history and diverse ethnic quarters to discover, along with many family-friendly attractions and lovely public spaces that make visiting this slightly futuristic city worthwhile.

Location

Singapore, an island city-state off southern Malaysia, is a global financial center with a tropical climate and multicultural population. Its colonial core centers on the Padang, a cricket field since the 1830s and now flanked by grand buildings such as City Hall, with its 18 Corinthian columns. In Singapore's circa-1820 Chinatown stands the red-and-gold Buddha Tooth Relic Temple, said to house one of Buddha's teeth

LOCAL ATTRACTIONS

Marina Bay Sands

The opulent Marina Bay Sands resort complex includes a high-end luxury hotel, a mall with a canal running through it, the ArtScience Museum, and the Marina Bay Sands Skypark - a vantage point for taking in the entire city. The Skypark's viewing deck and infinity pool are found in the ship (yes, ship) that tops the hotel. Only hotel guests are allowed to use the infinity pool, but anyone can visit the observation deck.

Gardens by the Bay

Once you've glimpsed this beautifully designed green space (from the top of the Marina Bay Sands, perhaps) you won't be able to stay away. Wander through the Bay East Garden, perfect for enjoying the vibrant plant life and escaping the city bustle for a moment. You won't want to miss Supertree Grove, where you'll find a cluster of the iconic, futuristic structures designed to perform environmentally sustainable functions.

Botanic Gardens

Not to be confused with the Gardens on the Bay, the Botanic Gardens are also worth a visit. Singapore received its first UNESCO World Heritage nomination for the botanic gardens, and with good reason. The city can sometimes feel like a concrete jungle, albeit a clean and comfortable one, but the botanic gardens preserve pieces of Singapore's wilder heritage. Indeed, a walking trail leads to the gardens' heritage trees, which are conserved as part of an effort to protect the city's mature tree species.

Singapore Flyer

If the observation deck at the Marina Bay Sands doesn't quite do it for you, try taking in high tea while looking out over the city from the Singapore Flyer, the world's largest giant observation wheel. Choose from several different packages that allow you to be served and pampered while enjoying a view that encompasses not only the Singapore skyline, but reaches to the Spice Islands of Indonesia and Malaysia's Straits of Johor.

*We look forward to see you at
Singapore*
