

- Largest sinus dissection course in Southern Hemisphere with 22 stations in a purpose built state of the art dissection lab
- 3D printed anatomical sinus models with realistic tissue construction allowing septoplasty, turbinate surgery, graduated dissection of frontal sinus anatomy of increasing complexity, SPA, DCR and frontal drillout.

Course Conveners

Professor PJ Wormald

Professor Alkis Psaltis

World Class Faculty

12+ faculty members ensuring a high level of personalised supervision for all candidates

All faculty are tertiary rhinologists who have undertaken sub-specialty fellowship training.

- Live Surgery Septoplasty, DCR, FHFESS and Frontal Drillout

- Lectures will cover the following topics
3D Anatomy of the sinus and skull base

Optimising the surgical field

International frontal sinus classification

Decision making in the frontal sinus

Surgical approaches to the frontal

Nasal polyps and the frontal sinus

Improving outcomes of frontal drillout

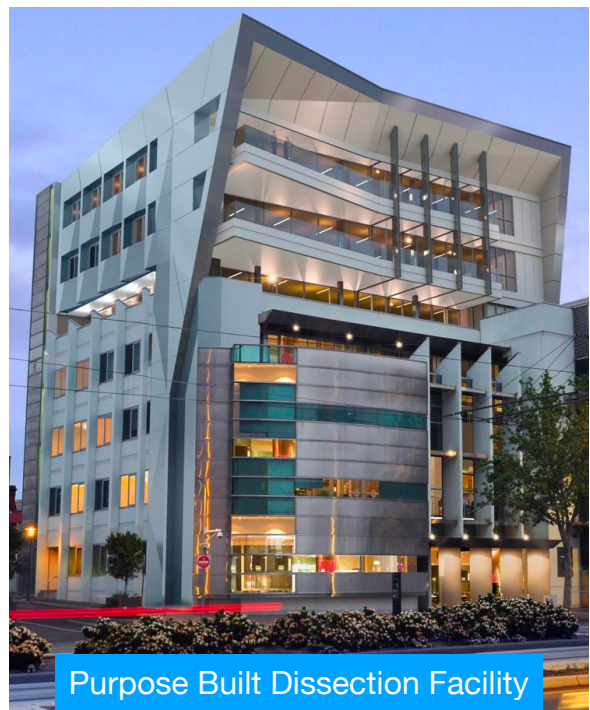

Complications in frontal sinus surgery

Dealing with the difficult frontal sinus

- neo osteogenesis
- isolated frontal sinusitis
- frontal mucoceles
- osteomas

Highest fidelity Anatomically Correct
Advanced manufactured 3D models

Purpose Built Dissection Facility

Location: Fusetec, Advanced Material Training Facility 5/21 North Terrace, Adelaide SA 5000
