AGENDA

KEYNOTE PRESENTATION

TRACK 1:
Risk Based Monitoring

TRACK 2:
Patient Recruitment /
Patient Centricity & Virtual Trials

TRACK 3:
Emerging Biopharma

TRACK 4:
Clinical Outsourcing

TRACK 5:
Clinical Data/RWE

TRACK 6:
A.I & Disruptive Technology

2019 ATTENDEES

OUR VISION

To be a platform for creating life-saving therapies and to facilitate the creation of a completely patient centric pharmaceutical industry.

OUR MISSION

By encouraging key leaders and their companies to put the patient at the very heart beat of every innovation. Sharing valuable insights and strategies to assist in the discovery, development and commercialisation of life saving therapies.

OUR UNIQUE ONLINE MEETING FORMAT

Roundtable Discussions

These interactive and informal discussion groups are the hallmark of the meeting. The brightest minds in the industry are brought together in 60-minute sessions that enable participants from all over the world to share ideas, challenges and lessons learned.

Personalised Agenda

Each delegate receives a personalised agenda with the roundtable discussions that you choose. You only attend sessions and meetings that fit your challenges and interests, ensuring your time spent on the online platform is focused and well-utilised.

Innovative Solutions

Whatever your challenge may be, let our official event partners find the solution. Gain access to our carefully selected solution providers and find your next strategic partner that will help take your business to the next level.

Strategic Networking

Strategic networking opportunities form a key benefit of the meeting. Our new online format for building and strengthening alliances to make lasting connections that benefit you.

CONTRIBUTORS TO THE AGENDA

IQVIA (NYSE:IQV) is a leading global provider of advanced analytics, technology solutions and contract research services to the life sciences industry. Powered by the IQVIA CORE™, IQVIA delivers unique and actionable insights at the intersection of large-scale analytics, transformative technology and extensive domain expertise, as well as execution capabilities. Formed through the merger of IMS Health and Quintiles, IQVIA has approximately 67,000 employees worldwide. Learn more at www.iqvia.com.

CO-HOST SPONSORS

[Visit Website](#)

ARENSIA EXPLORATORY MEDICINE is a German operator of proprietary Research Clinics in Eastern Europe, dedicated to performing complex Phase Ib, IIa and PROOF-OF-CONCEPT clinical trials with novel molecules, involving patients across numerous disease areas. Given the outstanding patient recruitment rates achieved by ARENSIA clinics, we are able to dramatically reduce the overall number of sites, countries and recruitment periods for any early phase patient trial. Sponsors regard the recruiting speed and the data quality of ARENSIA as disruptive added value, providing them with a strategic advantage. As a testament to the excellent performance, ARENSIA is trusted by the world's largest pharmaceutical and biotechnology companies, by global CROs, as well as by venture capital funds aiming to maximize their return of investment in small/virtual biotech companies.

[Visit Website](#)

Cmed is an innovative, full service technology-led CRO. Cmed brings together experienced people and technology, providing customers with a friendly, proactive service, and delivers this service using advanced clinical data capture, management and reporting software and processes. Cmed's new generation clinical data suite streamlines the capture, management and reporting of clinical data, saving customers time and money. Clinical data can be captured flexibly by eSource, multi-media and web eDC, while being displayed in live visual insights, providing live analytics, and allowing within suite audit trailed actions. It is fully compliant with regulatory guidelines, and allows integration with existing systems.

SanaClis

[Visit Website](#)

SanaClis was founded in 2000 by seasoned industry experts all of whom have had executive level positions in leading pharma companies and large global CROs and is one of the very few full-service CROs for clinical trials mainly in Central and Eastern Europe (CEE) offering a comprehensive range of services including: regulatory, clinical monitoring, IMP & CTS management, customs clearance & brokerage, site contracting & payments, project management, quality management, training, central laboratory Russia - including bioequivalence studies, data management, statistics and medical writing. Its facilities, depots and processes meet the most stringent international standards and local requirements. Moreover, SanaClis developed its own software solution to track warehouse operations in real time internally and externally for clients.
