Did you know? Each IMCAS congress has a dedicated board overseeing their respective scientific themes, to align regional trends with international developments. Our updated list of faculty can be found via the QR code below.

Gathering the World

of Dermatology, Plastic Surgery & Aging Science

Welcome! It is with immense pride and anticipation that we gather once again, uniting under a shared commitment to advancing the fields of dermatology, plastic surgery, and aging science. We believe that the true strength of our community lies in its diversity and the vibrant network it has created, filled with innovation, collaboration, and progress.

This year's program covers the latest advancements in clinical research to groundbreaking medical and surgical techniques and innovative strategies. Each session provides insights into both established practices and emerging trends, ensuring that every participant leaves with knowledge for enhancing patient outcomes and setting new standards in aesthetic medical practice.

Our congresses garner a highly international community, visible in the volume of abstract submissions from all around the world and invited speakers. With over 300 learning hours and 18 rooms as well as the Open Stage, we are committed to providing an incomparable educational experience to practitioners around the world, covering a variety of important themes being discussed in dermatology, plastic surgery and medical aesthetic treatments.

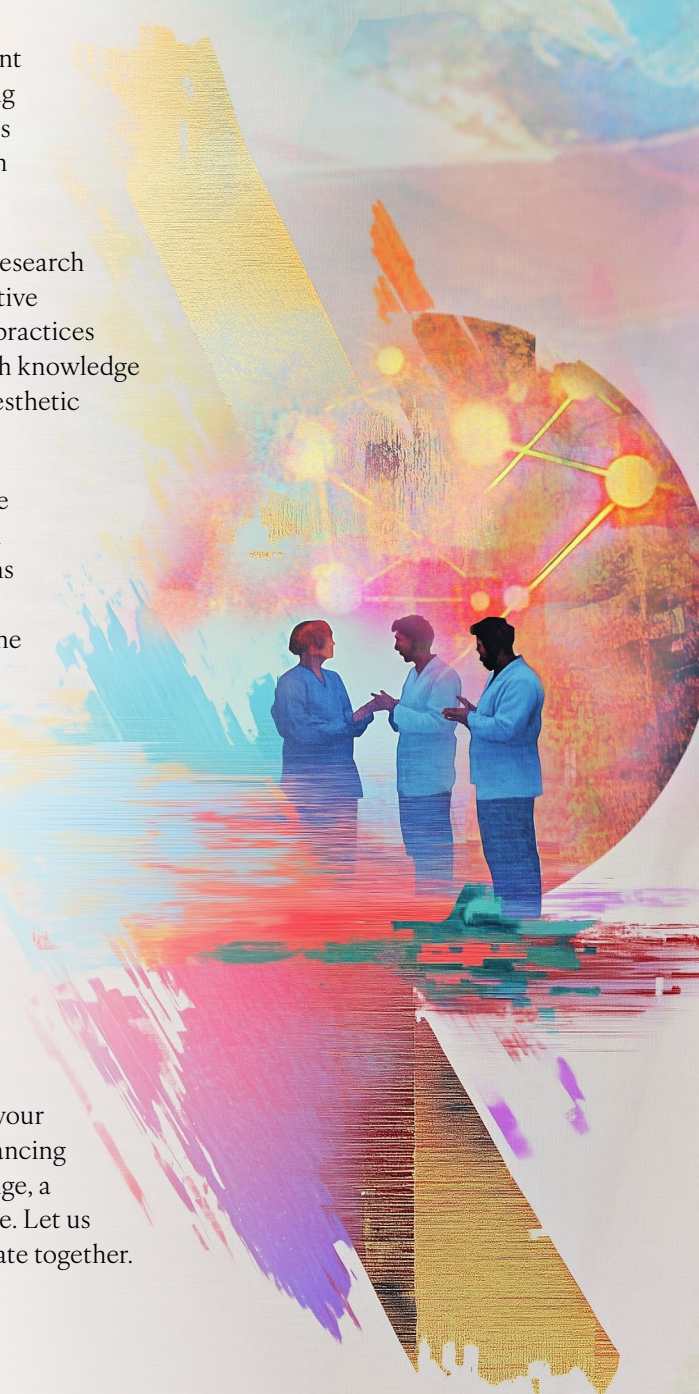

Beyond the scientific content, benefit from the unparalleled opportunities to network, share experiences, and build lasting professional relationships. The exhibition halls will once again be a hub of innovation, featuring cutting-edge devices and products from leading companies around the world. Engage with these innovations, discover new tools to enhance your practice, and explore opportunities for partnership and growth.

Your participation is not just a testament to your dedication to your specialty, but also a vital contribution to our shared goal of advancing medicine. Welcome to our gathering—a celebration of knowledge, a forum for collaboration, and a catalyst for the future of medicine. Let us make the most of this opportunity to learn, connect, and innovate together.

We look forward to seeing you this January,
