

## Registration Fee

| Category (Overseas)  | Early (until August 31) | Regular (September 1-30) | On-site (from October 1) |
|----------------------|-------------------------|--------------------------|--------------------------|
| Doctor               | 20,000 JPY              | 30,000 JPY               | 35,000 JPY               |
| Co-medical           | 10,000 JPY              | 10,000 JPY               | 10,000 JPY               |
| Students             | 10,000 JPY              | 10,000 JPY               | 10,000 JPY               |
| Industry             | 30,000 JPY              | 35,000 JPY               | 40,000 JPY               |
| Banquet (October 19) | 3,000 JPY               | 3,000 JPY                | N/A                      |

### Registration Fees Include:

- Attendance at all sessions and entry to the exhibition and poster displays
- Symposium Kit
- Morning and afternoon refreshment breaks

## Abstract Submission Guidelines

### Abstract Submission deadline

**July 31, 2017**

- Abstracts should be submitted electronically via the DAS 2017 website.
- The presenting author should attend the symposium and register online via the website by the early/ regular registration deadline.

Title of session topics(Select an appropriate category from the following list)

- 1) Current state of dialysis access management
- 2) PD catheter insertion and management
- 3) Central venous catheter
- 4) Vascular access creation (AVF, AVG, Arterial superficialization etc.)
- 5) Vascular access stenosis (Surgical, Endovascular)
- 6) Vascular access thrombosis (Surgical, Endovascular)
- 7) Central vein stenosis and obstruction
- 8) Distal hypoperfusion ischemia syndrome
- 9) Aneurysm and high flow shunt
- 10) Vascular mapping
- 11) Dialysis access monitoring and surveillance
- 12) Training and education for dialysis access management
- 13) Application of ultrasonography for dialysis access management
- 14) New technology and new device
- 15) Basic research

Dialysis Access Week in JAPAN, October 19-22, 2017

# Dialysis Access Symposium 2017 in Nagoya

Collaboration for Dialysis Access Management in Asia-Pacific Region

Date. **October 19-20 (Thu - Fri), 2017**

Venue. **The Westin Nagoya Castle (Nagoya)**

### KEY DATES

Deadline for Abstract Submission ▶ **July 31, 2017**

Deadline for Early Registration ▶ **August 31, 2017**

Deadline for Regular Registration ▶ **September 30, 2017**

Dialysis Access Week in JAPAN, October 19-22, 2017

**The 21<sup>st</sup> Annual Meeting of the Japanese Society for Dialysis Access**

Date. October 21-22 Venue. Nagarakawa Convention Center (Gifu) Congress President. Teppei Matsuoka

Welcome Message

Greeting for DAS 2017 in Nagoya, JAPAN

On behalf of the host of the Dialysis Access Symposium (DAS) 2017, we would like to extend our greetings to all of you.

Following the DAS 2015 organized in South Korea, the upcoming symposium is to be held at the Westin Nagoya, from 19 to 20 October 2017, a day before the 21st annual meeting of the Japanese Society for Dialysis Access (JSDA) in Japan.

According to the international comparative studies such as the DOPPS, types of vascular access and its management have now been demonstrated as quite important factors that affect the prognosis of patients undergoing dialysis. In other words, compared with foreign countries, Japan has low incidence of infection, access-related hospitalization rate, and availability of dialysis catheters and AVGs, which are considered contributing factors to the increase in mortality risk. Thus, the vascular access environment in Japan, where AVFs are mainly used, excels in the world. However, because of the aging of patients and the extended duration of maintenance hemodialysis, the percentage of AVGs has been increasing also in Japan. Accordingly, exchange of opinions with experts in foreign countries has become an important matter for us.

The JSDA established collaboration with the Vascular Access Society (VAS) in 2011 and subsequently with Vascular Access Society of Americas (VASA), and we have actively engaged in international collaborations with Western countries, such as with organizers of international symposiums. In contrast, the first DAS was organized in South Korea in 2015 under the co-sponsorship of Korean Society of Nephrology (KSN) and JSDA; the main participants were from Asia-Pacific countries. On that occasion, it was decided that DAS be held continuously and that the second DAS be organized in Japan. One of the characteristics of dialysis access creation and management in Japan is that not only surgeons but also nephrologists such as dialysis specialists are involved in an integrated manner, and our treatment performance is superior in the world.

Against these backgrounds, the hosting of DAS in Nagoya is an excellent opportunity for us to share about our knowledge and method with Asia-Pacific colleagues and to have an in-depth discussion on various issues.

We believe that this symposium will bring further advancement to quality of dialysis access management for Asia-Pacific dialysis patients.

Nagoya is the center of Japan and is close to an international airport (Centrair) with good transportation access. In addition, historically, Nagoya is place noted in connection with the feudal warlords such as Nobunaga Oda, Hideyoshi Toyotomi, and Ieyasu Tokugawa. You are welcome to join us and enjoy Nagoya in the season of fall!

We look forward to welcoming you at the symposium.

Takashi Sato

Congress President of DAS 2017  
**Takashi Sato, MD**

Vascular Access Treatment Center; Nagoya Kyoritsu Hospital  
Meiko Kyoritsu Clinic
