AAOS Board Maintenance of Certification Preparation and Review

This course is a key component of your MOC plan as you prepare to recertify.

Prepare for the last step in your MOC process with this review of the advances across the orthopaedic specialties. Your faculty deliver evidence-based, content-intensive lectures to prepare you for the upcoming ABOS Recertification Exam.

Over 30% of your time is spent on self-assessment questions

Review traumatic musculoskeletal conditions, assess evidence-based orthopaedic literature, and “check-up” on your knowledge in every area of orthopaedics. Your faculty references *AAOS Comprehensive Orthopaedic Review 2*, *Journal of Bone & Joint Surgery*, *Orthopaedic Knowledge Update*, *JAAOS*, and other reliable orthopaedic evidence-based literature as a basis for this course. Throughout the course, test your knowledge by answering assessment questions using an audience response system with immediate faculty review and comment.

Exclusive study resources after the course

- Content-packed electronic syllabi from both east and west coast courses
- Select course faculty presentations for additional high-yield review
- 400+ exam questions with answers, discussion, and reading recommendations
- A 90 minute on-demand webinar on test-taking strategies

At the conclusion of this course, learners should be able to:

- Interpret current clinical, laboratory, and diagnostic imaging studies for musculoskeletal conditions
- Demonstrate clinical decision-making skills in pediatric and adult musculoskeletal disorders
- Differentiate between current operative and non-operative treatment strategies for a wide spectrum of adult and pediatric, upper and lower extremity, and traumatic and non-traumatic orthopaedic conditions
- Apply evidence-based orthopaedic literature to your practice concerning a wide array of common musculoskeletal conditions in children and adults

**Wireless and plugged-in:
Bring your laptop or tablet**

The electronic syllabus is included with your registration.
Add the printed syllabus for \$50. Order by October 27 for East Coast, or November 10 for West Coast. For details visit:

WEDNESDAY

Registration 5:00 pm – 7:00 pm

THURSDAY – SATURDAY (order of topics differs slightly for both courses)

The Recertification Exam: “Never Has So Much Depended On So Little”

ARTHROPLASTY

Nonarthroplasty Surgical Treatment of the Hip and Knee
Primary and Revision Hip Arthroplasty
Primary and Revision Knee Arthroplasty
Periprosthetic Fractures: Evaluation and Management
Periprosthetic Infection: Evaluation and Management

ELBOW

Fractures and Dislocations of the Elbow
Elbow Stiffness
Elbow Arthritis
Athletic Injuries of the Elbow

FOOT AND ANKLE

Disorders of the First Ray
Forefoot Disorders
Arthritis and Arthrodesis
Heel Pain
Tendon Disorders

GENERAL

Metabolic Bone and Inflammatory Joint Disease
Osteoporosis of Spine and Vertebral Compression Fractures

HAND AND WRIST

Hand and Wrist Fractures, Dislocations
Infections of the Hand
Nerve Compression
Hand and Wrist Arthritis
Dupuytren Contracture
Flexor and Extensor Tendon Injuries

ONCOLOGY

Treatment Of Musculoskeletal Tumors
Systemic Disease, Metastatic Disease
Miscellaneous Lesions
Benign and Malignant Bone Tumors
Benign and Malignant Soft Tissue Tumors

PEDIATRICS

Pediatric Trauma
Pediatric Infection
Pediatric Spine
Pediatric Pelvis and Lower Extremity Fractures
Pediatric Hip
Normal and Abnormal Growth
Neuromuscular Disorders
Pediatric Conditions Affecting the Lower Extremity

CME: 27 Total Credits of Category 1 CME

SPINE

Degenerative Conditions of Lumbar Spine
Degenerative Conditions of Cervical Spine
Spine Deformity
Spine Trauma
Infections Involving the Spine

SPORTS KNEE

Overuse Injuries
Musculoskeletal Injuries in Young Athletes
Neurologic Injuries Related to Sports Participation
Medical Aspects of Sports Participation
Sports Rehabilitation
Cruciate and Collateral Ligament Injuries
Meniscus Injuries

SPORTS SHOULDER

Shoulder Instability
Shoulder Conditions in Athletes
Rotator Cuff Tears
Arthritis and Arthroplasty of the Shoulder

TRAUMA

Coagulation and Thromboembolism
Blood Management
Evaluation of the Trauma Patient
Pelvis and Acetabular Fractures
Hip Dislocations
Femoral Head Fractures
Hip Fractures
Femur Fractures
Fractures Around The Knee
Tibia Shaft Fractures
Tibial Pilon Fractures
Foot and Ankle Fractures
Upper Extremity Fractures
Shoulder Fractures
Humerus Fractures

Course Tuition

Registration fee includes course materials, electronic syllabus, breakfasts, lunches and refreshment breaks. Enrollment for MOC East is limited to 225 participants, and MOC West to 200 participants.

Registration fees (for either course):

AAOS Member/Candidate Member
Associate Member/International Member
\$925

Nonmember Orthopaedic Surgeon
International Nonmember/Other Physician
Non-MD Practitioner/Non-Physician
\$1,225

Orthopaedic Resident/Post Residency
Fellow/Nurse Allied Health/Physician
Assistant/Military* **\$825**

AAOS Emeritus Member **\$625**

*For AAOS members in active U.S. military duty only

Accreditation Statement

The American Academy of Orthopaedic Surgeons is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education (CME) for physicians.

AMA Credit Designation Statement

AAOS designates both of these live activities for a maximum of 27 **AMA PRA Category 1 Credit(s)**[™]. Physicians should claim only the credits commensurate with the extent of their participation in the activity.

Obtaining CME Credit

Course participants must complete and submit an online evaluation form to receive CME credit.
