

Monday 27th November 2023						
Time	Rooms					
	Registration Open (08.00-19.30) Set up Exhibition Hall & Poster Build (08.00-15.00) Speaker Preview Open (08.00-19.00)					
	Auditorium		Level 3		Level 4	
	Arrival Teas/Coffees for CME Course Participants					
08.30-10.30						
10.30-11.00 11.00-11.30 11.30-12.00 12.00-12.30	CME Course - Clinical Session 1.1 10.30-13.00		CME Course - FRENCH SESSION Session 2.1 Title: Hémodialyse à Domicile : Une Renaissance			
	Basic Physiology of Peritoneal Dialysis	Bert Bammens, Leuven, Belgium	Information Pré-dialyse (Predialysis information)	Claudine Dolmin, Brussels		
	Organizing PD Catheter Access		Le cathéter : CI pour l'Hémodialyse à Domicile ?			
	Antibiotics in Peritoneal Dialysis	Hans Vandermeersch Brugge, Belgium	Audit dans une unité d'hémodialyse à domicile en Belgique	Bernard V6, Belgium		
	Tailoring PD Prescriptions	Alferso Abrahams, Amsterdam, The Netherlands	Hémodialyse quotidienne ou Hémodialyse conventionnelle à domicile ?	Hafedh Fessi, Paris, France		
	Lunch Break for CME Course Participants (lunch provided onsite)					
12.30-13.00						
13.00-16.00	CME Course - Clinical Session 1.2		CME Course - FRENCH SESSION Session 2.2 Title: Quoi de neuf en Dialyse Péritonéale?			
	Managing Ultrafiltration and Volume	Jeroen Kooman, Maastricht, The Netherlands	Survie des patients âgés en DP en Belgique Francophone (13.00-13.20)	Catherine Gerontitis, Liège		
	When to start predialysis education	Ulrika Hahn Lundström, Sweden	Puis-je faire la DP si j'ai un chat ou un chien? (13.20-13.40)	Philippe Delaey, Bruxelles		
	Periprocedural care when creating PD access	Anabela Rodrigues, Porto, Portugal	Variations des méthodes de prélèvement des liquides de DP (13.40-14.00)	Marie-Christine Padernoz, RDPLF		
	Achieving Adequate Dialysis	Martin Wilkie, UK	Puis-je faire la DP si j'ai une hypo-albuminémie (14.00-14.30)	Fatouma Touré, Limoges		
	Setting up a train the trainer program		L'utilité du PET test en 2023 (14.30-15.00)	Anne-Lorraine Clause, Belgium		
			Le glucose : un ennemi nécessaire? (15.00-15.30)	Clémence Bechade, Caen		
			DP chez les enfants : un métier différent? (15.30-16.00)	Ariane Zaloszyc, Strasbourg		
16.00-17.00	Free Time					
17.00-18.30	Opening & Plenary Session 1 (Auditorium)					
17.00-18.30	Welcome from Simon Davies, President, EuroPD					
	Opening Plenary: Towards a Sustainable Health Ecosystem	Wim Van Biesen, Ghent				
	Service Delivery & Design in Healthcare	Paul Gemmell, Ghent				
18.30-20.00	Opening of the Exhibition Hall and Poster Area, Serving of Drinks and Canapes					

Tuesday 28th November 2023					
Time	Auditorium		Rooms		Level 3 - 1&2
			Level 4		
			Registration Open Exhibition & Posters Open 08.00-18.30		
			Speaker Preview		
	Topic	Speaker	Topic	Speaker	
08.00-09.30	Parallel Session 1: Nutrition, Inflammation and Volume Management		Parallel Session 2: Home HD		Topic
8.00-8.30	Bimodal Therapy on PD to Improve Volume Control	Clemence Bechade, France	Home therapies : what do the new KDIGO recommendations tell us ?	Martin Wilkie, UK	
8.30-9.00	Nutrition in Kidney Failure	Andrew Davenport, UK	The cardio-vascular benefits of Home HD : more frequent or longer sessions ?	Maria Slon, Spain	
9.00-9.30	Inflammation in PD	Mark Lambie, UK	How to set up a HHD Programme from Scratch	Sandip Mitra, Manchester	
09.35-10.25	Plenary Session 2 (Auditorium) What can we Learn from Large Databases: Annie-Claire Nadeau-Fredette, Montreal, Canada				
10.25-11.00	Tea Break and Viewing of Posters				
11.00-12.30	Parallel Session 3: Tailored Approach to Therapy		Parallel Session 4 - Home HD		Topic
11.00-11.20	Incremental dialysis	Cecile Courivaud, France	Home HD and Catheters : friend or foe ?	Bert Bammens, Belgium	
11.20-11.40	Transitioning to alternative dialysis regimes	Richard Corbett, London, UK	The Many Advantages of the Buttonhole Technique for the AVF Punction	Laura Labriola, Brussels	
11.40-12.00	A Geriatrician in the Renal Clinic: Different Conversations, Different Choices	Gin Aylett, Leeds, UK	How to evaluate the patient needs on Home HD		
12.00-12.20	Systematic evaluation of adequacy: PRO	Monika Lichodziejewska-Niemierko, Gdansk, Poland	A patient experience with a new Home HD monitor		
12.20-12.40	: CON	Edwina Brown, UK			
12.40-14.00	Lunch Break - Lunch boxes only provided to delegates attending the Industry Sponsored Symposium. All other delegates should make their own lunch arrangements				
12.50-13.50	Industry Sponsored Lunchtime Symposium (Access for HCP's only)				
1400-1530	Parallel Session 5: Value Based Healthcare		Parallel Session 6: Clinical Cases Low Flow HHD		Parallel Session 7: Basic Science: Peritoneal Membrane Function
14.00-14.30	Cost effectiveness of home based therapies - Lessons from Inter-CEPT	James Fotheringham, UK	Home HD in a Patient with Cardiac Failure (14.00-14.20)	Maria Slon, Spain	Un update on miRNAs in PD
14.30-15.00	Can home therapies lead to costs savings?		Pregnancy in Home HD Patients (14.20-14.40)		Glucose transporters in PD (GLUT and SGLT)
15.00-15.30	Open Dialysis: do-it-yourself APD Machine	Chetan Kumar Velumurugan, Lille, France	Is Home Dialysis a Good Option in Elderly Patients ? (14.40 -15.00)	François Paquot, Belgium	Unravelling Molecular Mechanisms of Vascular Disease in PD
15.30-16.00			Why it's Important to Visit Home HD Patients (15.00-15.20)		Maria Bartosova, Heidelberg, Germany
	Tea Break and Viewing of Posters				
16.00-18.00	Parallel Session 8: Symptom Management		Parallel Session 9: Clinical Cases PD Peritonitis/Infection		Parallel Session 10: Basic Science: Epidemiology and Methodology
16.00-16.30	Fatigue	Anabela Rodrigues Porto, Portugal			International variability in Home Therapies Uptake
16.30-17.00	Pruritus				What We Can and Cannot Learn from Non-randomised Studies and Routinely Collected Medical Data
17.00-17.30	Pain	Emma Murphy, UK	.		Multistate Modelling - What can this tell us about how patients transition through modalities
17.30-18.00	Patient Empowerment a Necessary Condition	Edgard Eeckman, Belgium	.		AI: can it be of help in basic research
	Free Evening				

Wednesday 29th November 2023							
Time	Auditoriumm		Rooms		Level 3 - 1&2		
			Level 4				
			Registration Open				
			Exhibition & Posters Open 08.00-18.30				
07.00-18.45 17.00-18.00	Speaker Preview - room?						
	Topic	Speaker	Topic	Speaker	Topic	Speaker	
08.00-09.30	Parallel Session 11: What's new in infection management		Industry Symposium 08.00-08.45 (open to HCP's only)		Parallel Session 12: Basic Science		
8.00-8.20	Update from PDOPPS: Infection outcomes and Prectice Patterns	Jeffrey Perl, Canada			Innate Immune Response and Cardiovascular Disease in PD Patients		Anne Catherine Raby, Wales, United Kingdom
8.20-8.50	Ultra-rapid Diagnosis				Microbiome in PD		Rebecca Herzog, Austria
8.50-9.30	Direct re-insertion of a Catheter : Pro	Jernej Pajek, Slovenia			GDPs: Still a Concern?		Monika Pischetsrieder, Erlangen, Germany
	: Con	Karlien Francois, Brussels, Belgium					
09.35-10.25	Plenary Session 3 (Auditorium)						
	Speakers?? Christoph Aufricht Looking to trhe future, how can we translate basic science into improving outcomes of Kindney Failure? (lateral thinking on how basic research might influence research and thus outcomes).						
10.25-11.00	Tea Break and Viewing of Posters						
11.00-12.30	Parallel Session 13: Qualitative research: Modality Selection (Patient Testimony/Experience)		Parallel Session 14: Clinical Case Discussions : Challenging Situations		Parallel Session 15: Basic Science: inflammation and fibrosis		
11.00-11.25	Modality selection: underlying drivers	Ann Lorraine Clause, Brussels, Belgium			New roles for peritoneal macrophages in peritoneal immunity during PD		
11.25-11.50	Ethnography – what characterised a high performing Home Therapies Unit? Findongs from Inter-CEPT	Kerry Allen, Birmingham, UK			Omental cells and peritoneal immunity		
11.50-12.30	Uptake of Homebased therapies can only be achieved by regulation : Pro/Con Debate	Jeffrey Perl, Canada (Pro) Martin Wilkie, UK (Con)			Macrophage metabolomics in the peritoneal dialysis patient		
1230-1400	Lunch Break - Lunch boxes only provided to delegates attending the Industry Sponsored Symposium. All other delegates should make their own lunch arrangements.						
12.45-13.45	Industry Sponsored Lunchtime Symposium						
1400-15.30	Parallel Session 16: Life Participation (including patient testimonies)		Parallel Session 17: Clinical Case Discussions: Home HD (Chairs E Goffin & B Issad)		Parallel Session 18: Basic Science membrane session		
	Patient Oriented Outcomes in Peritonitis	Martin Wilkie, UK	Hypereosinophilia in a Home HD Patient		Significance of transmesothelial water transport in PD		
	What is life participation?		Acute Hemolysis in a Home HD Patient		Stem cell therapies to preserve the peritoneal membrane integrity during PD		
	Burden of Kidney Disease: Results from DOPPS and PDOPPS	Edwina Brown, London, UK	Home HD in Obese Patients		Epigenetic modulation of mesothelial cell function in PD		
	How to get patients involved in research	Dr Leah McLoughlin, UK	Is Home HD Feasible in Children?		Has the proper reporting of animal studies ARRIVED in PD research?		
15.30-16.00	Tea Break and Viewing of Posters						
16.00-18.00	Parallel Session 19: Innovation in ESKD: What Should We Take Home		Parallel Session 20 Identification and Management of Patients at Risk. Outcome and Vascular Events in Peritoneal Dialysis (IMPROVE-PD) -What Have We Learned?		Parallel Session 21: Clinical Cases EuroPD Ambassadors Helga Gudmundsdottir, Oslo & Ulrika Hahn Lundstrom, Sweden		
16.00-16.20 give 40'	Implementation of external commercial partners for training	Caydie Van Brabant, Belgium	Overview of the IMPROVE PD Programme : 16.00-16.25				
16.20-16.50	Training using Virtual Reality	Ben Reynolds, Glasgow, UK	Identifying the Patient at Risk 16.25-16.50				
16.50 - 17.20	Wearable Kidney	Karin Gerritsen, Utrecht, The Netherlands	Understanding Mechanisms of Risk 16.50-17.15		Donald Fraser, Cardiff, UK		
17.20-18.00	To grow homebased therapies I would envision to have..	Eric Goffin	New Interventions 17.15-17.40		Klaus Kratochwil, Vienna, Austria		
			Future Directions 17.40-18.05		Christoph Aufricht, Vienna, Austria		
	Free Evening						

Thurs 30 Nov						
Time	Rooms					
	Registration Open					
	Speaker Preview					
	Exhibition & Posters Open					
	Auditoriumm		Level 4		Level 3	
	Topic	Speaker	Topic	Speaker	Topic	Speaker
08.30-10.30	Parallel Session 22: Peritoneal Access		Parallel Session 23: Policy Forum		Parallel Session 24: Free communications Basic science (6 to 8 talks)	
8.30-8.50	Insertion technique outweighs catheter design choice	Frank Dor, Hammersmith Hospital, London	.			
8.50-9.10	Let's advance(d) laparoscopy	Daniel Jacobs-Tulleneers-Thevissen, UZ, Brussel	.			
9.10-9.30	Let's not be blind to alternatives	Karliën Francois, UZ, Brussel				
9.30-9.50	The German minimal invasive percutaneous approach	Johannes Munch, Berlin, Leipzig	.			
9.50-10.10	The PREDICT project	Marga Eshuis Bravis Roosendaal	Inequity of Home Dialysis Use in Europe			
10.10-10.30	Managing dysfunctional catheters		Lessons from Inter-CEPT: The importance of Centre Culture	Simon Davies, UK		
10.30-11.00	a Break and Viewing of Posters (exhibition and posters close at 11.00)					
11.00-12.30	Parallel Session 25: Pro con debates		Parallel Session 26: Policy Forum		Parallel Session 27: Free communications clinical science (6 to 8 talks)	
12.30-13.00	Plenary Session 4 (Main Auditorium					
	Awards/Prizes					
	Closing Remarks
