

PRELIMINARY PROGRAM

Thursday, 6th of June

PC 1 - “Diagnosis of endometriosis and adenomyosis by ultrasound”

9 am - 1 pm, Forum Hall

PC 2 - “SEUD session on management of uterine fibroids and adenomyosis”

9 am - 1 pm, Opus Hall

PC 3 - “The EEL ENDOMETRIOSIS SCHOOL”

2 pm - 6 pm, Forum Hall

PC 4 - “ASEA session on Endometriosis-associated infertility”

2 pm - 6 pm, Opus Hall

Requirements for an European Accreditation of Endometriosis Centers
- an EEL Consensus Meeting

6 pm - 7.30 pm, Opus Hall

Participation by invitation only!

Friday, 7th of June

▶▶▶	Summit Hall	Forum Hall
08.00-08.20	OPENING CEREMONY The Congress President - Elvira Bratila, Romania The President of EEL - Harald Krentel, Germany	
08:20-10:30	LIVE SURGERIES - Part 1 Broadcast from Bordeaux and Porto	OVARIAN ENDOMETRIOSIS ➤ Laparoscopic Ethanol Sclerotherapy in endometrioma ➤ Laser Ablation of Endometrioma ➤ Is there still a place for ovarian stripping? ➤ Indications for presurgical medical freezing ➤ Avoiding ovarian adhesions after endometriosis surgery - what is the evidence? ➤ How to deal with perimenopausal endometrioma - risk evaluation and treatment
10:30-11:00	Networking Break	
11:00-12:30	LIVE SURGERIES - Part 2 Broadcast from Bucharest	OPTIMIZING FERTILITY OUTCOMES ➤ How endometriosis impairs fertility ➤ New ART technologies enhancing the pregnancy rate ➤ Only one surgery in a patients lifespan - when is the optimal moment? ➤ Do women use their frozen eggs? ➤ Pregnancy and delivery after endometriosis surgery - risk assessment
12:30-13:30	Networking Break Lunch Symposium	
13:30-14:00	EEL Honorary Membership Ceremony	
14:00 - 15:30		BEST SELECTED ORAL COMMUNICATIONS

	INDIVIDUALIZED TARGETED DIAGNOSIS AND THERAPY BASED ON GENETIC PROFILING - WHAT'S THE FUTURE? ➤ Molecular and cell biology insights ➤ Inflammatory processes in endometriosis - how to approach them? ➤ Salivary MicroRNA Signature for Diagnosis of Endometriosis ➤ Genetic basis of endometriosis	
15.30 - 16:00	Networking Break	
16:00-17:30	IMAGING DIAGNOSIS OF ENDOMETRIOSIS ➤ Intersociety Consensus on non invasive Classification and imaging of deep endometriosis ➤ Description of parametrial deep endometriosis ➤ Structured report in MRI mapping ➤ Posterior compartment and multifocal bowel endometriosis ➤ Enhanced ultrasound imaging techniques ➤ Optimizing the outcome using intraoperative ultrasound	WES SESSION New trends in basic research
17.30-18.45	BEST SELECTED VIDEOS	CLASSIFICATION, TRAINING AND INTERDISCIPLINARITY ➤ #ENZIAN - What's the actual evidence? ➤ VNESS - a laparoscopic mapping system ➤ EEL Consensus on Interdisciplinary Endometriosis Boards ➤ Systematic training in endometriosis care
18.45-19.45		EEL General Assembly Board Elections
20.30-23:30	Congress Dinner	

Saturday, 8th of June

7.30 Ad Board Meeting, Opus Hall

▶▶▶	Summit Hall	Forum Hall
08:30-10.30	ADENOMYOSIS ➤ Development of a clinical prediction model for diagnosing adenomyosis ➤ Classification for adenomyosis ➤ Surgical treatment options and outcomes for adenomyosis ➤ Minimally invasive non-surgical treatment of adenomyosis ➤ The role of hysteroscopy in adenomyosis ➤ Pregnancy in patients with adenomyosis - a high risk situation?	NEW TECHNOLOGY CHANGING THE FUTURE ➤ Clinical use of AI in endometriosis ➤ The Lucy App and how big data can help to diagnose endometriosis ➤ How can Augmented Reality assist the endometriosis surgeon ➤ Benefits and limitations of robotic endometriosis surgery ➤ The #ENZIAN App ➤ Social Media and Endometriosis
10:30-11:00	Networking Break	
11:00-12:30	UPDATES TO BOWEL ENDOMETRIOSIS ➤ How to approach multifocal and multicentric bowel endometriosis - combining different techniques ➤ Laparoscopic ultrasound detection of isolated bowel nodules ➤ Gastrointestinal function impairment and surgical techniques - what do we know? ➤ NOSE colectomy - advantages and limitation ➤ How to detect and manage complications in bowel surgery	HOW DO WE DEFINE AND MANAGE TREATMENT FAILURE IN ENDOMETRIOSIS? ➤ How do we define treatment failure in endometriosis? ➤ Risk of progression in deep endometriosis - is watch 'n' wait an option? ➤ What is the risk for repeated surgeries ➤ Global recommendations on adhesion prophylaxis in Endometriosis ➤ The multimodal treatment approach
12:30-13:30	Lunch Networking Break Lunch Symposium	
13.30-14.30	KEYNOTE LECTURE: QUALITY CONTROL OF ENDOMETRIOSIS CARE Best Abstract Awards Presentation of the 8th EEC 2026	

14.30-15:45	LIVE ULTRASOUND SESSION Live transvaginal sonography of deep endometriosis and adenomyosis broadcasted from Bucharest	LIGHTNING TALKS: QUICKFIRE ANSWERS TO BURNING QUESTIONS ➤ Should we treat every visible diaphragmatic endometriosis lesion? ➤ How can digital tools help to reduce pain? ➤ Risk of malignant transformation - how to counsel our patients? ➤ When do we need mesh repair in abdominal wall endometriosis? ➤ Which are the benefits of using ICG in endometriosis surgery?
15:45-16:15	Networking Break	
16.15-18.00	PELVIC NERVES - FUNCTION, DYSFUNCTION AND TREATMENT OPTIONS ➤ Back to school - Anatomy, dermatomes and function of pelvic nerves ➤ Ultrasound diagnosis in deep endometriosis of sacral routes ➤ Following the nerves by MR imaging ➤ Standardized approach to robotic sacral roots surgery ➤ Limits of nerve sparing surgery or when is the right moment to stop? ➤ Complications and follow-up after nerve sparing surgery	MEDICAL TREATMENT IN ENDOMETRIOSIS ➤ What should we expect from hormonal treatment? ➤ GnRH antagonists as second line approach ➤ Endometriosis and the effects of dietary interventions ➤ How to deal with side effects of medical treatment ➤ Is there an optimal medical treatment in adenomyosis? ➤ Early detection of endometriosis - Medical treatment in adolescents
	END OF CONGRESS
