| <b>09:20</b> | <b>Registration &amp; coffee</b>                                                                                                                                                                                                 |
| <b>09:50</b> | <b>Introduction</b><br>Dr Jane Sturgess, West Suffolk Hospital                                                                                                                                                                   |
| <b>10:00</b> | <b>Obesity Domain 1: Knowledge, skills and performance, Domain 2: Safety and quality, 1F01, 1F05</b><br>Dr Chris Bouch, Leicester                                                                                                |
| <b>10:50</b> | <b>Regional anaesthesia Domain 1: Knowledge, skills and performance, Domain 2: Safety and quality, 2A08</b><br>Dr Mike Coupe, Bath                                                                                               |
| <b>11:40</b> | <b>Mastering your risk Domain 2: Safety and quality, Domain 3: Communication, partnership and teamwork, Domain 4: Maintaining trust, 1I01, 1I03, 1I05</b><br>Dr Katherine Grant, Medicolegal Advisor, Medical Protection Society |
| <b>12:30</b> | <b>Lunch</b>                                                                                                                                                                                                                     |
| <b>13:30</b> | <b>Airway complications Domain 1: Knowledge, skills and performance, Domain 2: Safety and quality, 1B02, 1C02, 2A01</b><br>Dr Christi Burt, Papworth Hospital                                                                    |
| <b>14:20</b> | <b>Obstetric complications Domain 1: Knowledge, skills and performance, Domain 2: Safety and quality, 2B04, 2B05</b><br>Dr Konda Kondov, Leicester                                                                               |
| <b>15:10</b> | <b>Human factors and case review Domain 2: Safety and quality, Domain 3: Communication, partnership and teamwork, 1I02, 1I03</b><br>Dr David Bogod, Nottingham                                                                   |
| <b>16:00</b> | <b>Summary and close of meeting</b><br>Dr Kamen Vachanov, Papworth Hospital                                                                                                                                                      |

## **Learning objectives:**

1. To learn about the variety of peri-operative complications encountered in anaesthetic practice from a clinical and non-clinical viewpoint.
2. A practical approach to the problems that arise from peri-operative complications in anaesthesia in the light of latest evidence.
3. The incidence, management and prevention of both serious complications (i.e can't intubate) and frequently occurring complications (regional anaesthesia, obstetrics).
4. The increasing proportion of obese patients and their associated peri-operative risks.
5. How to handle the medico-legal aspects of peri-operative complications before they have occurred, including the importance of considering human factors in anaesthetic practice.
