

Scientific Program

Day I - Shoulder Instability

Thursday - 19th April, 2018

07:30 - 13:30	SATELLITE SESSION: Cadaver Labs (Instability Surgery) Smith & Nephew Cadaver Session	
09:00 - 10:00	SESSION 1: Current trends in soft tissue stabilization Moderators: Dr. Saeed Al Thani, Dr. Seung-Ho Kim	
	The Basics by the pro's: How I perform my Bankart repair and Hills Sachs remplissage	Shirish Pathak
	How to manage anterior shoulder instability and hyperlaxity	Chunyan Jiang
	Open versus arthroscopic Bankart repair	Eiji Itoi
	Is there a new role for open Bankart repair?	Nikhil Verma
	Q&A	
10:00 - 10:30	SESSION 2: Special invited guest talk Moderator: Dr. Ali Maqdes	
	Our current understanding of anterior shoulder instability	Eiji Itoi
10:30 - 11:30	SESSION 3: Current trends in bony stabilization Moderators: Dr. Usama Saleh, Dr. Chunyan Jiang	
	The Basics by the pro's: How I perform the Latarjet procedure	Gilles Walch
	Do we need to address the humeral side if we consider Latarjet procedure?	Peter Millett
	Allograft use in stabilization surgery: my way and preferred graft	Nikhil Verma
	Long term results after Latarjet procedure	Luc Favard
	Q&A	
11:30 - 12:00	SESSION 3: Special invited guest talk Moderator: Dr Eiji Itoi	
	My Arthroscopic Latarjet experience – my tips for the younger generation	Chunyan Chiang
12:00 - 13:30	Lunch & Prayer Break	
13:30 - 14:30	SESSION 4: Industry Session Zimmer Biomet	
14:30 - 18:30	SATELLITE SESSION: Cadaver Labs (Instability Surgery) Arthrex Cadaver Session	
14:30 - 15:00	SESSION 5: Special guest lecture Moderator: Dr. Peter Millett	
	LHB tenodesis - where is the best place to fix the tendon?	Graham Tytherleigh-Strong
15:00 - 15:30	SESSION 6: Posterior shoulder instability Moderators: Dr. Shirish Pathak, Dr. Ali Al Suwaidi	
	Special invited lecturer: What lesions do we find after a posterior shoulder dislocation and how I treat them	Seung-Ho Kim
	My way of repairing the posterior Bankart tear	Shariff Bishai
	Long term results of posterior arthroscopic Bankart	Peter Millett
	Q&A	
15:30 - 16:00	SESSION 7: Miscellaneous Moderators: Dr. Ali Maqdes, Dr. Gilles Walch	
	Arthroscopic Burkhart procedure for shoulder instability – what are the differences and when do I use it?	Jean Kany
	Acute Acromioclavicular joint dislocations, my preferred method	Usama Saleh
	Chronic Acromioclavicular joint dislocations treatment options	Jean Kany
	Q&A	
16:00 - 16:30	SESSION 8: Special guest lecture Moderator: Dr. Jean David Werthel	
	Sternoclavicular joint instability - how to manage them	Graham Tytherleigh-Strong

Updated as on March 3, 2018

Scientific Program

Day II - Rotator cuff Pathology

Friday - 20th April, 2018

09:00 - 10:00	Session 1: Rotator cuff 1 Moderators: Dr. Matt Ravenscroft, Dr. Philippe Valenti	
	The basics by the pro's: How I perform my acromioplasty	Shirish Pathak
	Do we really need to do an acromioplasty?	Shariff Bishai
	The basics by the pro's: How I perform a single row rotator cuff repair	Saeed Al Thani
	Single row versus double row – the literature consensus	Seung-Ho Kim
	Q&A	
10:00 - 11:00	SESSION 2: Rotator cuff 2 Moderators: Dr. Jean Kany, Dr. Nikhil Verma	
	The basics by the pro's: How I perform a double row rotator cuff repair	Ali Al Suwaidi
	The use of Xenograft in rotator cuff augmentation – when and how do they do	Shariff Bishai
	Exploring the anterior shoulder compartment	Graham Tytherleigh-Strong
	The basics by the pro's: How I perform a subscapularis repair	Peter Millett
	Q&A	
11:00 - 12:00	SESSION 3: Special guest lecture Moderator: Dr. Graham Tytherleigh-Strong	
	Our limits for rotator cuff repairs and what are our expectations	Nikhil Verma
12:00 - 13:30	Lunch & Prayer Break	
13:30 - 14:30	SESSION 4: Parralel Industry Sessions Arthrex Industry session Wright Medical Industry session	
14:30 - 18:30	SATELLITE SESSION: Cadaver labs (Rotator Cuff Surgery) Arthrex Cadaver Session	
14:30 - 15:00	SESSION 5: Special guest lecture Moderator: Dr. Shariff Bishai	
	Interpositional arthroplasty in irreparable cuff tears - from rationale to results	Matt Ravenscroft
15:00 - 15:30	SESSION 6: Special guest lecture Moderator: Dr. Peter Millett	
	Current understanding and types of tendon transfers around the shoulder	Philippe Valenti
15:30 - 16:00	SESSION 7: TBC Moderators: Dr. Luc Favard, Dr. Michael Kriffter	
	What does a tendon transfer do to the biomechanics of the shoulder	Jean David Werthel
	When do you think of a tendon transfer?	Ali Maqdes
	Q&A	
16:00 - 16:30	SESSION 8: Special guest lecture Moderator: Professor Joseph Iannotti	
	Biologics – the new frontier	Seung-Ho Kim
16:30 - 17:00	SESSION 9: Special guest lecture Moderator: Dr. Philippe Valenti	
	Hemiarthroplasty for fracture: when, how and with what?	Chunyan Jiang
17:00 - 17:30	SESSION 10: Proximal humeral fractures Moderators: Dr. Chunyan Jiang, Dr Jean Kany	
	My method of fixing the tuberosities around the fracture stem	Jean David Werthel
	Reverse for fracture – technic and results	Michael Kriffter
	The use of the long stem in fractured and/or difficult glenoids	Jean Kany
	Q&A	

Updated as on March 3, 2018

Day III - Arthroplasty

Saturday - 21st April, 2018

07:30 - 13:30	SATELLITE SESSION: Cadaver Labs (Advanced Arthroscopic Techniques)	
	Cayenne Cadaver Session	
09:00 - 10:00	SESSION 2: Current trends in Total shoulder replacement	
	Moderators: Dr. Saeed Al Thani, Dr. Shariff Bishai	
	Radiological analysis and classifications for total shoulder arthroplasty?	Shirish Pathak
	The basics by the pro's: How I expose the glenoid	Gilles Walch
	What are the new options to deal with a B2 glenoid?	Luc Favard
	Pain management and rehabilitation after total shoulder arthroplasty	Joseph Iannotti
	Q&A	
10:00 - 11:00	SESSION 3: Special guest lecture	
	Moderator: Dr. Ali Maqdes	
	Evolution of the original Grammont concept for Reverse shoulder arthroplasty	Gilles Walch
12:00 - 13:30	Lunch & Prayer Break	
	SESSION 4: Industry Sessions	
13:30 - 14:30	Wright Medical Industry session	
13:30 - 15:30	Smith & Nephew Industry session	
14:30 - 18:30	SATELLITE SESSION: Cadaver labs (Advanced Arthroscopic Techniques)	
	Cayenne Cadaver Session	
14:30 - 15:30	SESSION 5: Miscellaneous	
	Moderators: Prof. Luc Favard, Dr. Ali Al Suwaidi	
	Subscapularis tenotomy versus lesser tuberosity osteotomy	Joseph Iannotti
	To repair or not to repair the subscapularis in reverse shoulder arthroplasty	Matt Ravenscroft
	Glenoid metal back for total anatomical shoulder replacement	Jean David Werthel
	Lateralized or Grammont style reverse shoulder arthroplasty	Ali Maqdes
	Temless reverse shoulder arthroplasty – midterm results	Michael Kriffter
	Q&A	
15:30 - 16:30	SESSION 6: Current trends in reverse shoulder arthroplasty	
	Moderators: Dr. Gilles Walch, Dr. Usama Saleh	
	How I manage the medialized glenoid in reverse shoulder arthroplasty?	Joseph Iannotti
	What is my preferred humeral tray angle and why?	Michael Kriffter
	Latissimus dorsi transfer and reverse shoulder arthroplasty, when and how?	Philippe Valenti
	Long term results of reverse shoulder arthroplasty	Luc Favard
	Q&A	
16:30 - 17:00	SESSION 7: Special guest lecture	
	Moderator: Dr. Michael Kriffter	
	The use of computer assistance in shoulder surgery	Joseph Iannotti
