

DRS 30th Annual Meeting

Event Schedule (subject to change)

Tue, Mar 15, 2022

Breakfast

🕒 7:00am - 9:00am, Mar 15

Conference Welcome

🕒 7:30am - 7:45am, Mar 15

General Session I-A: Interprofessional Perspective on Dysphagia – Smell, Taste, and Texture

🕒 7:45am - 8:30am, Mar 15

Smell, Taste and Texture - critical for swallowing and mealtime enjoyment, yet often forgotten in dysphagia research. Listen to our experts in the field provide us with an overview of current understanding of Smell, Taste and Texture and Quality of Life.

🗣️ Speakers

Pam Dalton, PhD, MPH

Bryony James, PhD

Zach Soler, MD, MSc

General Session I-B: Endoscopic management of Zenker's diverticulum

🕒 8:30am - 9:15am, Mar 15

Management of Zenker's diverticulum has evolved over the last two decades. Flexible endoscopic septotomy is highly effective and safe. It can be performed on an outpatient basis. The Z-POEM technique ensures complete septotomy and likely decreases recurrence rates.

🗣️ Speaker

Mouen Kashab, MD, MASGE, FJGES

Break

🕒 9:15am - 9:45am, Mar 15

General Session II-A: International Perspectives on Dysphagia – Global Member's Spotlight

🕒 9:45am - 10:30am, Mar 15

What do you know about dysphagia management in other countries? Starting last year, the Global Members Spotlight session at the Annual DRS meeting has been devoted to raising awareness about dysphagia management across the globe! In this year's meeting you will have the chance to know more about how dysphagia is managed in Mexico, Russia, and China!! Don't miss it!

🗣️ Speakers

Ekaterina Bruno, MEd, CCC-SLP, BCS-S

Carlos Manzano, Phoniatrixian, MD, MS

Jinrang Li, MD

Break

🕒 10:30am - 10:45am, Mar 15

General Session II-B: International Perspectives on Dysphagia – Global Research Perspectives

🕒 10:45am - 11:30am, Mar 15

Have you ever wondered how to start working in partnership with industry or how patient stakeholders can be critical partners in research? Come to the 2022 Annual DRS Annual Meeting and hear from Dr. Julie Cichero, dysphagia researcher, on research-industry partnerships and from Christine Broderick, PCORI engagement officer, on engaging patient and other stakeholders in research!

🗣️ Speakers

Julie Cichero, BA, BSpThy(Hons), PhD

Christine Broderick, MPH

PEDS Sig Session: Children Are Not Just Little Adults: Differences and Challenges in Pediatric vs. Adult Dysphagia in Practice and Research

🕒 11:30am - 12:30pm, Mar 15

Given that children are not little adults, have you wondered about differences and challenges in pediatric vs. adult dysphagia practices and research? Changes that occur in human development and form the basis for differences in dysphagia practice and research will be presented during the Pediatric Special Interest Group (PED SIG) session. This international group of presenters will highlight the latest information related to pediatric dysphagia by focusing on pathophysiology, assessment, treatment, and research. Audience participation will be encouraged. This group is truly international representing Brazil, Italy, the Netherlands, and the US. All members of the core committee of the PED SIG will be involved in the session.

🗣️ Speakers

Rebecca German, PhD

Claire Miller, PhD, MHA, CCC-SLP

Lenie van den Engel-Hoek, SLT, PhD

Maureen Lefton-Greif, PhD, CCC-SLP, BCS-S

Lunch on Your Own

🕒 12:30pm - 1:30pm, Mar 15

Early-Stage Investigator's Education Session

🕒 1:30pm - 2:30pm, Mar 15

More information coming soon!

New Investigator's Poster Session

🕒 2:30pm - 4:00pm, Mar 15

Break

🕒 4:00pm - 4:15pm, Mar 15

General Session III: Interprofessional Perspectives on Dysphagia – Gastroenterology

🕒 4:15pm - 5:00pm, Mar 15

"Coming together is a beginning. Keeping together is progress. Working together is success." Henry Ford. Join our General Session III on Interprofessional Perspectives on Dysphagia and learn about successful collaborations in swallowing assessment using manometry. In this session, Associate Professor Rachel Rosen will provide an engaging overview of the use of manometry as a diagnostic tool across the lifespan from a multidisciplinary perspective. This is a session not to be missed!

 Speaker

Rachel Rosen, MD, MPH

Welcome Reception

🕒 5:00pm - 7:00pm, Mar 15

Wed, Mar 16, 2022

Breakfast

🕒 7:00am - 9:00am, Mar 16

Welcome

🕒 7:45am - 8:00am, Mar 16

Scientific Papers I

🕒 8:00am - 9:30am, Mar 16

Scientific Papers II

🕒 9:30am - 10:45am, Mar 16

Break

🕒 10:45am - 11:00am, Mar 16

Poster Viewing

🕒 11:00am - 1:00pm, Mar 16

Exhibit Viewing

🕒 11:00am - 1:00pm, Mar 16

New Investigator Finalists

🕒 12:45pm - 1:30pm, Mar 16

Poster Viewing

🕒 1:30pm - 2:15pm, Mar 16

Exhibit Viewing

🕒 1:30pm - 2:15pm, Mar 16

Break

🕒 2:15pm - 2:30pm, Mar 16

Scientific Papers III

🕒 2:30pm - 4:00pm, Mar 16

Scientific Papers IV

🕒 4:00pm - 5:15pm, Mar 16

Networking Reception

🕒 5:30pm - 9:00pm, Mar 16

Thu, Mar 17, 2022

Breakfast

🕒 7:00am - 9:00am, Mar 17

Welcome

🕒 7:45am - 8:00am, Mar 17

Scientific Papers V

🕒 8:00am - 9:30am, Mar 17

Scientific Papers VI

🕒 9:30am - 10:45am, Mar 17

Poster Viewing

🕒 10:45am - 11:45am, Mar 17

Exhibit Viewing

🕒 11:45am - 12:45pm, Mar 17

Scientific Papers VII

🕒 12:45pm - 2:00pm, Mar 17

Scientific Papers VIII

🕒 2:00pm - 3:15pm, Mar 17

Break and Exhibit Viewing

🕒 3:15pm - 3:45pm, Mar 17

International Affiliations Session: Dysphagia Societies in the Next Decade: What is the Future of Dysphagia Research

🕒 3:45pm - 4:15pm, Mar 17

🗣 **Speakers**

Eiichi Saitoh, MD, DMSc

Yayoi Kamakura, RN, PhD

Ana Furkim, PhD

Members Session I

🕒 4:15pm - 4:45pm, Mar 17

Awards Reception

🕒 5:30pm - 7:00pm, Mar 17

Fri, Mar 18, 2022

Breakfast

🕒 7:00am - 9:00am, Mar 18

Annual Membership Meeting

🕒 7:30am - 8:00am, Mar 18

Welcome and Gold Medal Award

🕒 8:00am - 8:30am, Mar 18

General Session V: Interprofessional Perspectives on Dysphagia – Cancer Treatment/Radiation Oncology

🕒 8:30am - 9:15am, Mar 18

Where will immunotherapy take head and neck cancer care? Will we be able to still achieve a cure with reduced toxicity? Professor Sandro Porceddu will update the results of recent clinical trials and what's on the horizon for non-surgical treatments. Then, hear from Professor Barbara Murphy on managing internal lymphoedema is an ongoing challenge to swallow rehabilitation.

🗣️ Speakers

Sandro Porceddu, MBBS, FRANZCR, MD

Barbara Murphy, MD

General Session VI

🕒 9:15am - 10:00am, Mar 18

More information coming soon!

Members Session II: What is Retrograde CP Dysfunction?

🕒 10:00am - 10:30am, Mar 18

Ever had a patient who experienced discomfort due to their inability to burp? Or someone with embarrassing gurgling and/or a bubbling in their throat? Join us for this panel discussion as Dr. Gregory Postma and Dr. Robert Bastian educate us on this relatively new diagnosis. We will learn about presenting symptoms, diagnostic criteria, treatment options and pitfalls to avoid.

🗣️ Speaker

Gregory Postma, MD

Break

🕒 10:30am - 11:00am, Mar 18

Dodds Donner Lecture

🕒 11:00am - 12:00pm, Mar 18

More information coming soon!

Closing

🕒 12:00pm - 12:30pm, Mar 18
