

AMA QUEENSLAND ROADSHOW

BUILDING YOUR WEALTH

BUILDING YOUR BUSINESS

Host: Dr Nick Yim - GP, AMA Queensland President

The AMA Queensland Roadshow is a CPD-Home accredited, one-day professional development event designed for GPs and Non-GP Specialists navigating the evolving landscape of private practice, workforce pressures, technology, and long-term financial security. This roadshow brings together trusted advisors, industry leaders, and medical peers to deliver practical insights that support both clinical sustainability and personal prosperity. Come for the morning session, afternoon or both!

Morning Session | Building Your Wealth | 10:00am – 12:00pm

Designed to help doctors think beyond the clinic and take control of long-term career and wealth outcomes.

Cutcher & Neale: From obligations to opportunities: Building wealth as a doctor

Speaker: Sav Angi, Partner and Josh Holt, Senior Credit Advisor

Financial strength isn't built overnight, it comes from deliberate choices and taking action sooner rather than later. This session connects the dots between your earning potential, lifestyle decisions and long-term wealth outcomes, giving you a clear picture of what's possible when you invest early and strategically.

We'll explore common financial pitfalls Doctors face, practical investment opportunities, and how leveraging debt appropriately can accelerate your progress. You'll gain a roadmap for building and maintaining healthy financial habits that support both your lifestyle today and your future financial freedom.

Learning outcomes:

- Consider how to balance lifestyle, savings and long-term wealth accumulation
- Learn about the common mistakes that can derail financial progress
- Understand a range of investment options and how debt can be used strategically to accelerate wealth

Beyond the Clinic: Expanding your career through medico-legal reporting

Wes Lerch | Managing Director, Australian Academy of Medico-Legal Education (AAMLE)

Discover how Queensland doctors can apply their clinical expertise in the growing field of medico-legal reporting. Presented by the Australian Academy of Medico-Legal Education (AAMLE), this session explores the demand for independent medical assessors and how to get equipped with AMA5 training to confidently begin a rewarding medico-legal career.

Learning outcomes:

- Understand the growing need for medico-legal expertise across Queensland's personal injury landscape
- Discover the skills, standards, and training required to become an effective independent medical examiner
- Identify practical steps to gain AMA5 accreditation and begin medico-legal work with confidence

Australian Institute of Company Directors

Expanding your influence: How AICD can support doctors beyond the clinic

This short session introduces how the Australian Institute of Company Directors (AICD) can support doctors who are looking to broaden their professional impact through board and leadership opportunities. Learn how AICD's renowned governance programs and membership can help you develop new skills, achieve formal director qualifications, and contribute to healthcare leadership at a strategic level.

Learning outcomes

- How the AICD helps professionals — including doctors — build governance, financial, and strategic leadership capabilities
- An overview of the AICD's Company Directors Course™ and pathways to achieving the GAICD post-nominal
- How governance training can open doors to board and advisory roles within healthcare, research, and beyond
- Membership benefits, resources, and networking opportunities available through AICD to support your governance journey

Lunch Session | [Interactive Panel: GPs and Specialists in Conversation](#) | 12:00pm – 1:00pm

Panel hosted by Dr Nick Yim

A moderated discussion bringing together GPs and Non-GP Specialists to explore:

- Referral relationships from both GP and specialist perspectives
- AI platforms currently in use—and what's working (and what isn't)
- Operational challenges and workforce pressures
- Opportunities for collaboration and system improvement

This is your opportunity to have your voice heard, with AMA Queensland actively listening and advocating for change across all levels of government, shaping policy that impacts your practice and patient outcomes across Queensland.

🕒 **Afternoon Session | Building Your Business | 1:00pm – 3:00pm**

Focused on the foundations of a sustainable, future-ready medical practice.

Cutcher & Neale: Clinically excellent, financially powerful: Future-proof your financial health (30 mins)

Speaker: Nicole Brown, Partner

As a doctor, your financial world is more complex than most. This session breaks down the key obligations that come with your profession and shows you how smart planning can strengthen both your compliance and your long-term financial position. We'll unpack what you need to know about tax, structures and strategic decision making, and highlight how working closely with a Trusted Advisor ensures you stay ahead of your obligations while legitimately minimising tax. You'll walk away with greater clarity, confidence and a practical understanding of how to set up your financial foundations for the future.

Learning outcomes:

- Understand your obligations and the key role played by your Trusted Advisor
- Explore legitimate and effective ways to minimise tax
- Learn about appropriate tax structures

Mercury IT: Building a resilient practice: Cybersecurity, AI and protecting what you've built (20 mins)

Panel: Martin O'Riordan – Head of Cybersecurity | Chris Haigh – CISO

As your medical practice grows, so does your digital footprint and with it, your exposure to cyber risk. From patient records and billing systems to cloud platforms and AI-enabled tools, your practice is increasingly reliant on technology to operate efficiently and scale successfully.

In this interactive, interview-style session, our cybersecurity experts will speak directly to the realities faced by doctors in private practice. You'll gain a clear understanding of how cyber threats are evolving, why healthcare businesses are prime targets, and what practical steps you can take to protect your patients, your reputation, and the business you've worked hard to build.

This session cuts through technical jargon to focus on what matters most to you as a practice owner: continuity, trust, and long-term sustainability.

Learning outcomes

- Why your practice is just as likely to be targeted as larger organisations
- How cybercriminals are using AI to launch more sophisticated attacks
- Where your greatest risks typically sit within a medical practice
- How cybersecurity supports business growth, continuity and trust
- Practical, achievable steps you can take now to strengthen your cyber resilience
- How to protect patient and staff data without overcomplicating your systems

Hillhouse Legal Partners: Key legal considerations for building a thriving private practice (20 mins)

Tailored for doctors seeking to expand or strengthen their practice, Craig will discuss how to assess whether your current consultants are aligned with your growth goals, how to review and refine your business structure, and how to ensure your legal documentation supports sustainable expansion. He will also cover critical areas including intellectual property, privacy compliance, and employment agreements, all essential for protecting and scaling your practice. Additionally, Craig will address considerations around practice premises, whether to buy or lease, as well as estate planning and asset protection strategies.

Learning outcomes:

- Understand how to align your legal and business advisors with the growth objectives of your private practice.
- Learn how to review and optimise your practice's legal structure and documentation to support sustainable expansion.
- Gain insights into key legal areas including intellectual property, privacy compliance, and employment agreements essential for practice protection and scalability.
- Explore legal considerations for practice premises, estate planning, and asset protection to support long-term success and security.

Workforce Wellbeing & Workplace Relations: Building a sustainable and compliant practice (20min)

Speaker: Elaine Hourston, Workplace Relations Lead at AMA Queensland

Session description

This session explores the critical workforce challenges facing medical practices today, with a focus on staff wellbeing, retention, and sustainable workforce models. Presented by AMA Queensland Workplace Relations experts, the session will unpack employer obligations under current legislation, including psychosocial hazards and wage compliance, while offering practical strategies to create a safe, supportive and legally compliant workplace.

Learning outcomes

By the end of this session, participants will be able to:

- Understand employer responsibilities relating to workforce wellbeing and psychosocial hazards under current legislation
- Identify practical strategies to improve staff retention and build a sustainable workforce model
- Navigate key legal and regulatory requirements impacting private medical practices, including wage theft legislation
- Apply best-practice approaches to create a compliant, supportive and high-performing workplace culture

Building a Sustainable Practice Workforce: Training, Retention and Real-World Solutions (20 mins)

Panel: Elaine Houston, Workplace Relations Lead and Paul Kulpa, General Manager of the AMA Queensland Education and Training Institute (AMAQETI).

Session description

Elaine Houston and Paul Kulpa will explore the workforce pressures facing general practice. The discussion will focus on the intersection of employment obligations, staff capability, and workforce sustainability, including recruitment challenges, retention risks and the role of structured training in supporting compliant, high-functioning teams.

Learning outcomes:

- Identify key workforce challenges impacting recruitment and retention in general practice.
- Understand how targeted education and training can support a more stable, capable practice workforce.
- Explore practical examples of training pathways for reception and practice staff.
- How practices can engage with AMAQ Workplace Relations and AMAQ Education and Training Institute to uplift their team's skills and ability.

Please note the program is subject to change by the AMA Queensland Events team & Dr Nick Yim. If there is something you would like to see in the program, please email events@amaq.com.au and we will do our best to accommodate
