

		11:00	11:10	11:15	12:00	12:30	12:45	13:30
Available on REPLAY	Main Arena	Welcome Ceremony			LIVE Case			LUNCH
	Room 2 Aortic	TAVI step by step: from femoral puncture to procedural success						
	Room 3 Mitral	Primary mitral regurgitation: key imaging for diagnosis and procedural planning						
	Room 4 Tricuspid	Tricuspid valve interventions in heart failure patients - Treatment optimisation and pre-procedural work-up						
	Interactive Case Corner 1	Clinical Cases Valve-in-Valve TAVI: Session 1						
	Interactive Case Corner 2	Clinical Cases TAVI Complications: Session 1						
Abstracts Corner	Abstracts Valve-in-Valve interventions							
The Exchange	Rapid-Fire Abstracts: Session 1		Rapid-Fire Clinical Cases: Session 1					
SIMULATION LAB	Simulation Learning Room	Optimising TAVI outcomes: implementing cusp overlap and commissural alignment						
	Hands on Lab				Innovation Hub			
	Training Village	To complete the different Simulation Lab Learning Pathways go to the Training village and validate step 3						

		13:30	14:10	14:15	14:20	15:05	15:20	15:25	15:40	16:05	16:20	16:30	17:10	17:20	17:30	18:30	19:00		
Available on REPLAY	Main Arena	TAVI is a mature procedure: implications for lifelong management of young & old patients		LIVE Case		Late-Breaking-Trials in collaboration with EuroIntervention		LIVE Case										Tools and Techniques Therapy of valvular heart diseases: a patient-centred innovation journey Edwards Lifesciences	
	Room 2 Aortic	Hot TAVI topics Cerebral embolic protection				Hot TAVI topics Emerging indications				TAVI: Late-Breaking Trials and Innovations				Symposium Create the future of TAVI - Optimisation of the procedure and patient pathway Medtronic					
	Room 3 Mitral	Primary mitral regurgitation Treatment options when the anatomy is simple				Primary mitral regurgitation Treatment options when the anatomy is complex				The multidisciplinary structural heart team – How do we include the patient				Tools and Techniques Transcatheter mitral valve replacement - From planning to final assessment GE Healthcare, Materialise					
	Room 4 Tricuspid	Imaging for tricuspid valve interventions: anatomical assessment, grading of severity and peri-procedural guidance				Repair vs. replacement for the treatment of tricuspid valve disease								Tools and Techniques The right valves for the right ventricle: Venus MedTech tricuspid and pulmonary replacement systems Cardiovalve					
	Interactive Case Corner 1	Clinical Cases TAVI Innovations				Clinical Cases TAVI Challenges: Session 1				Clinical Cases Paravalvular Leak Closure									
	Interactive Case Corner 2	Clinical Cases Tricuspid interventions				Clinical Cases TMVR challenges				Clinical Cases Tricuspid and pulmonary interventions									
	Abstracts Corner	Abstracts TAVI: New Devices and Procedural Refinements				Abstracts TAVI: Emerging Evidence				Abstracts TAVI: vascular Access and Bleeding Complications									
	The Exchange	Rapid-Fire Abstracts: Session 2	Rapid-Fire Clinical Cases: Session 2		Rapid-Fire Abstracts: Session 3		Rapid-Fire Abstracts: Session 4												
SIMULATION LAB	Simulation Learning Room	Tips and tricks for mitral transcatheter edge-to-edge repair - Anatomy and imaging				Integration of anatomy, echocardiography and fluoroscopy for successful tricuspid TEER				CT chamber views and S-curves for TMVI and transseptal puncture									
	Hands on Lab	Anatomy of the aortic valve complex		Anatomy of the aortic valve complex		Transseptal puncture		Transseptal puncture		Anatomy of the tricuspid valve complex									
	Training Village	To complete the different Simulation Lab Learning Pathways go to the Training village and validate step 3																	

📺 MONDAY 28/11 - MORNING

		8:309:009:109:309:4510:0010:0510:2010:5011:0511:1511:4512:0012:2012:4513:30															
Available on REPLAY	Main Arena	LIVE Case				TMVR is progressing more slowly than expected: why?				BREAK		LIVE Case				LUNCH	
	Room 2 Aortic	Challenging scenarios: acute coronary obstruction				Improving the equity of access to percutaneous valve interventions: EAPCI initiatives for patients and health care professionals				BREAK		Challenging scenarios: TAV-in-TAV procedures					
	Room 3 Mitral	Transcatheter edge-to-edge mitral valve repair step by step: from transseptal puncture to procedural success				Mitral - Late Breaking Trials and Innovations				Secondary mitral regurgitation: challenges in management							
	Room 4 Tricuspid	Patient selection for tricuspid valve interventions				Is frailty still relevant after 20 years of TAVI?				Learning transcatheter tricuspid valve interventions: the essentials							
Interactive Case Corner 1	Clinical Cases TAVI Challenges: Session 2				Clinical Cases TAVI Complications: Session 2				Clinical Cases Valve-in-Valve TAVI: Session 2								
Interactive Case Corner 2	Clinical Cases TAVI Challenges: Session 3				Clinical Cases Weird and wonderful!				Clinical Cases TAVI in patients at risk of coronary occlusion								
Abstracts Corner	Abstracts Transcatheter Mitral Valve Interventions: Clinical Outcomes 1				Abstracts Clinical Outcomes After TAVI: Session 1				Abstracts Imaging for Mitral Valve Interventions								
The Exchange	Rapid-Fire Abstracts: Session 5		Rapid-Fire Clinical Cases: Session 3		Rapid-Fire Abstracts: Session 6				Rapid-Fire Abstracts: Session 7		Rapid-Fire Clinical Cases: Session 4						
Simulation Learning Room	CT chamber views and S-curves for TAVI and its related procedures				Optimising TAVI outcomes: implementing cusp overlap and commissural alignment								Tips and tricks for mitral transcatheter edge-to-edge repair - Anatomy and imaging				
Hands on Lab	Ultra-sound-guided vascular access for structural procedures		Ultra-sound-guided vascular access for structural procedures		Ultra-sound-guided vascular access for structural procedures		Anatomy of the aortic valve complex		Anatomy of the aortic valve complex		Anatomy of the aortic valve complex						
Training Village	To complete the different Simulation Lab Learning Pathways go to the Training village and validate step 3																

TAVI Mitral valve replacement and repair Tricuspid / Pulmonary Valve

LIVE case Sponsored session Livestreamed on the Course platform

1 2 3 Simulation Lab Learning Pathways

MONDAY 28/11 - AFTERNOON 📺

	13:30	14:15	15:05	15:30	16:05	16:20	16:30	17:10	17:20	17:30	18:30	19:00
Available on REPLAY	Main Arena	Tools and Techniques Remaining unmet needs in TAVI treatment and strategy Medtronic		LIVE Case		Virtual LIVE Case		Tools and Techniques The new PASCAL Precision unleashes the full potential of mitral transcatheter edge-to-edge repair Edwards Lifesciences				
	Room 2 Aortic	Case in Point Maintaining selective coronary access after TAVI and re-do TAVI procedures Boston Scientific	Symposium Transfemoral TAVI access using IVL in patients with challenging PVD Shockwave Medical	Challenging scenarios: bicuspid aortic valves		Challenging scenarios: bioprosthetic valve dysfunction		Case in Point Technical challenges and optimal device choice for complex TAVI procedures Medtronic				
	Room 3 Mitral	A case-based tailored approach to the treatment of mitral valve disease: the Heart Team ring Abbott		How to deal with residual or recurrent mitral regurgitation after failed surgical or transcatheter repair		Mitral and Tricuspid patients are different from the TAVI population - Impact on clinical care		Tools and Techniques Contemporary best clinical practice for TAVI SMT				
	Room 4 Tricuspid	Tools and Techniques Reinventing the treatment of patients with tricuspid valve disease Edwards Lifesciences		Challenging scenarios during transcatheter tricuspid valve intervention		Optimal management of right ventricular pacing leads in patients with tricuspid regurgitation		Tools and Techniques Haemodynamic performance of TAV: practical considerations for lifetime management Abbott				
SIMULATION LAB	Interactive Case Corner 1	Clinical Cases Combined Valve Interventions				Clinical Cases TAVI: technical considerations						
	Interactive Case Corner 2	Clinical Cases Mitral Complications				Clinical Cases TAVI Complications: Session 3						
	Abstracts Corner	Abstracts Mitral: New Devices and Procedural Refinements				Abstracts Transcatheter Mitral Valve Interventions: Clinical Outcomes 2						
	The Exchange	Rapid-Fire Abstracts: Session 8				Rapid-Fire Abstracts: Session 9						
	Simulation Learning Room	Integration of anatomy, echocardiography and fluoroscopy for successful tricuspid TEER 1				Tips and tricks for coronary access after TAVI						
	Hands on Lab	Transseptal puncture 2		Transseptal puncture 2		Anatomy of the tricuspid valve complex 2						
Training Village	To complete the different Simulation Lab Learning Pathways go to the Training village and validate step 3 3											

TAVI Mitral valve replacement and repair Tricuspid / Pulmonary Valve

LIVE case Sponsored session Livestreamed on the Course platform

1 2 3 Simulation Lab Learning Pathways

Valid as of 21 October

TUESDAY 29/11 - MORNING

8:309:009:159:309:4510:0010:0510:2010:5011:0512:0512:1512:3513:1514:00									
Available on REPLAY	Main Arena	LIVE Case		Transcatheter tricuspid valve intervention is booming: where are we now & where are we going ?		Tools and Techniques Tricuspid valve intervention - Get it right! Abbott		Tools and Techniques Optimising immediate and long-term outcomes after TAVI Boston Scientific	
	Room 2 Aortic	Aortic stenosis and concomitant coronary artery disease		How to achieve safe early discharge		Tools and Techniques TAVI-in-TAVI - A road map for successful lifetime management Edwards Lifesciences			
	Room 3 Mitral	All you need to know before starting a mitral valve-in-valve or valve-in-ring procedure		Complex scenarios during mitral valve-in-valve, valve-in-ring or valve-in-MAC procedures - A case-based approach		Tools and Techniques HighLife TSMVR and their latest experiences, moving forward HighLife Medical		Symposium Innovations in TMVR and Intrepid trial updates Medtronic	
	Room 4 Tricuspid	Treatment of multi-valve disease		Late-Breaking Trials Tricuspid		Symposium The VitaFlow TAVI system - A new device that delivers exceptional patient outcomes MicroPort		Symposium Clinical update and best practices for optimal large bore management with the MANTA closure device Teleflex	
SIMULATION LAB	Interactive Case Corner 1	Clinical Cases TAVI Challenges: Session 4		Clinical Cases TAVI in TAVI		BREAK			
	Interactive Case Corner 2	Clinical Cases Mitral edge-to-edge repair: challenging cases		Clinical Cases Mitral Valve-in-Valve Interventions					
	Abstracts Corner	Abstracts Imaging for Tricuspid Valve Interventions		Abstracts Clinical Outcomes After TAVI: Session 2					
	The Exchange	Rapid-Fire Abstracts: Session 10		Rapid-Fire Clinical Cases: Session 5					
SIMULATION LAB	Simulation Learning Room	Complication of transcatheter edge-to-edge repair and transseptal puncture		Intra-procedural echocardiography for tricuspid interventions		LUNCH			
	Hands on Lab	Transseptal puncture		Transseptal puncture					
SIMULATION LAB	Training Village	To complete the different Simulation Lab Learning Pathways go to the Training village and validate step 3							

TAVI Mitral valve replacement and repair Tricuspid / Pulmonary Valve

LIVE case Sponsored session Livestreamed on the Course platform

1 2 3 Simulation Lab Learning Pathways

TUESDAY 29/11 - AFTERNOON

		14:00		14:30		14:45		15:00		15:30		15:35		15:45		16:10	
Available on REPLAY	Main Arena	LIVE Case										Closing Ceremony					
	Room 2 Aortic	Aortic stenosis and concomitant mitral valve disease															
	Room 3 Mitral	Mitral annular calcification - From diagnosis to treatment															
	Room 4 Tricuspid																
SIMULATION LAB	Interactive Case Corner 1	Clinical Cases Mitral Innovations															
	Interactive Case Corner 2	Clinical Cases TAVI Complications: Session 4															
	Abstracts Corner	Abstracts Transcatheter Tricuspid Interventions: Emerging Evidence															
	The Exchange	Rapid-Fire Clinical Cases: Session 6				Rapid-Fire Clinical Cases: Session 7											
	Simulation Learning Room	VIV and VIR procedures - Imaging planning is essential for successful outcomes															
	Hands on Lab	Simulation-based workshop for Nurses and Allied Professionals															
	Training Village	To complete the different Simulation Lab Learning Pathways go to the Training village and validate step 3															

TAVI Mitral valve replacement and repair Tricuspid / Pulmonary Valve
