SOCIETY

President of the ELS & Congress:
Prof. Cesare Piazza

14TH CONGRESS OF THE EUROPEAN LARYNGOLOGICAL SOCIETY

JUNE 21-23, 2023 | MILAN, ITALY
MICO MILANO CONVENTION CENTRE
WWW.ELS2023.ORG

Wednesday, June 21, 2023

TIME	Room 1	Room 2	Room 3	Room 4
8:30 - 18:00	REGISTRATION DESK			
9:00 - 10:00	Opening Ceremony			
	Keynote Opening Lecture			
10:00 - 11:00	Tracheal transplantation: Current possibilities			
11:00 - 11:30	COFFEE BREAK			
	Keynote Lecture	Keynote Lecture	Keynote Lecture	Oral Presentations
11:30 - 12:00	Three decades after the Veteran Affairs: Have we learnt more in selecting the best candidates for non-surgical laryngeal preservation strategies?	Biomarkers in laryngeal cancer: Their role from prognostication to follow-up	AI in diagnosis, delineation, and characterization of laryngeal diseases: Videomics and its future	New Technologies
	Roundtable Session	Roundtable Session	Instruction Course	Instruction Course
12:00 - 12:30	Surgical questions to the radiologist before TLM, OPHL, and during follow-up	Early glottic laryngeal cancer treatment: Clinical cases discussion	Personalized treatment planning in laryngeal cancer	Type III OPHL: Indications and surgical technique
			Instruction Course	Instruction Course
12:30 - 13:00			Salvage laryngectomy: Technical notes and management of complications	Crico-tracheal resection and anastomosis: The Toronto General Hospital experience on 150 cases
			Instruction Course	Instruction Course
13:00 - 13:30			Diagnosis, rehabilitative, and surgical management of sequelae after OPHLs	Automatic digital assessment of voice production after different procedures for laryngeal cancer
13:30 - 15:00	LUNCH BREAK			
	Keynote Lecture	Keynote Lecture	Keynote Lecture	Oral Presentations
15:00 - 15:30	Transoral and open surgical laryngeal conservation strategies: Transitional areas from one to the other	Stem cells and laryngology: Future perspectives	Big data in laryngology and how to get there: An ELS ongoing project	New Technologies
	Roundtable Session	Roundtable Session	Roundtable Session	Instruction Course
15:30 - 16:00	Profiling the ideal therapeutic approach for each intermediate-advanced laryngeal cancer	Laryngeal papillomatosis	Emerging surgical techniques for transoral laryngeal surgery	Management of recurrent laryngeal cancer: A multidisciplinary evidence-based approach
16:00 - 16:30				Office and intraoperative endoscopy of the larynx: Tips, tricks, and pitfalls
16:30 - 17:00				Free flaps for complex airway beyond subglottic stenoses
17:00 - 17:30	COFFEE BREAK			
	Video Presentations	Oral Presentations	Oral Presentations	Instruction Course
17:30 - 18:00	Video Presentations	Transoral surgery for cancer	Narrow Band Imaging	Transoral resection of supraglottic tumors: From resection to rehabilitation
18:00 - 18:30			Oral Presentations	Oral Presentations
			Artificial Intelligence	New Technologies
18:30 - 19:00				Oncologic miscellanea
19:00 - 20:00	WELCOME COCKTAIL			

Thursday, June 22, 2023

TIME	Room 1	Room 2	Room 3	Room 4
8:00 - 18:00	REGISTRATION DESK			
	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations
8:00 - 8:30	Artificial Intelligence	Artificial Intelligence + Oncologic misc.	Oncologic miscellanea	Telemedicine in laryngology
	Keynote Lecture	Instruction Course	Instruction Course	Instruction Course
8:30 - 9:30	CTRA for thyroid tumors infiltrating the airway	Transnasal panendoscopy: One-stop evaluation of throat and esophageal conditions	Vocal fold leukoplakia assessment by Narrow Band Imaging	Telemedicine in laryngology
	Roundtable Session	Roundtable Session	Instruction Course	Instruction Course
9:00 - 9:30	How to predict and improve organ preservation efficacy	Artificial intelligence and laryngeal cancer	Augmentations for the advanced phonosurgeons	Functional endoscopic evaluation of swallow in children: How I do it
9:30 - 10:00			Instruction Course	Oral Presentations
			New insights into the pathophysiology of benign vocal fold lesions	Oncologic miscellanea
			Instruction Course	Oral Presentations
10:00 - 10:30			Learning curve in transoral laser microsurgery: From benign pathology to supraglottic laryngectomy	Open partial laryngectomies
10:30 - 11:00	COFFEE BREAK			
	Keynote Lecture	Instruction Course		Oral Presentations
11:00 - 11:30	Post-COVID airway stenoses and their management	Protecting the health of the laryngologist: Office and surgical ergonomics		Open partial laryngectomies
	Roundtable Session	Oral Presentations	Oral Presentations	Oral Presentations
11:30 - 12:30	Airway stenoses: What is endoscopically feasible, what is not	Dysphagia	Adult airway	Complications in cancer surgery
		Video Presentations	Oral Presentations	Oral Presentations
12:30 - 13:00		Video Presentations	Adult airway	Recurrent Respiratory Papillomatosis
13:00 - 14:30	LUNCH BREAK			
	Keynote Lecture	Keynote Lecture	Keynote Lecture	Oral Presentations
14:30 - 15:00	Spasmodic dysphonia: Challenges in diagnosis and treatment	Pediatric airway: Challenges and unsolved issues	Laryngeal reinnervation: Steps forward	Transgender voice
	Roundtable Session	Roundtable Session	Instruction Course	Instruction Course
15:00 - 15:30	Vocal outcomes after laser surgery for glottic cancer: How to measure, improve, and manage them	Advances in neurolaryngology	Use of Evone in laryngo-tracheal surgery	Laryngeal trauma: From diagnosis to management
			Instruction Course	Instruction Course
15:30 - 16:00			Shared management of the difficult airway between surgeons and anesthesiologists: When more is better	Surgery for posterior laryngeal clefts
			Instruction Course	Instruction Course
16:00 - 16:30			Endoscopic laryngeal imaging	Idiopathic progressive subglottic stenosis: From etiopathogenesis to treatment
16:30 - 17:00	COFFEE BREAK			
	Oral Presentations	Oral Presentations	Instruction Course	Instruction Course
17:00 - 17:30	Children airway	Transgender voice and Singers	Autoscreen and manage dysphagia in the elderly	Building a multidisciplinary dysphagia clinic
	Oral Presentations	Oral Presentations	Instruction Course	Instruction Course
17:30 - 18:00	Children airway	Singers and Presbilarynx	Dos and donts in Montgomery thyroplasty	The role of laryngeal simulator in accelerating the learning curve in transoral microsurgery of the vocal cords
	Oral Presentations	Oral Presentations	Instruction Course	Oral Presentations
18:00 - 18:30	Neurolaryngology	Singers and Presbilarynx	Office-based laryngological procedures by fiber-guided blue laser	Miscellaneous benign diseases

LARYNGOLOGICAL
SOCIETY

President of the ELS & Congress:
Prof. Cesare Piazza

14TH CONGRESS OF THE EUROPEAN LARYNGOLOGICAL SOCIETY

JUNE 21–23, 2023 | MILAN, ITALY
MICO MILANO CONVENTION CENTRE
WWW.ELS2023.ORG

Friday, June 23, 2023

TIME	Room 1	Room 2	Room 3	Room 4
8:30 - 13:00	REGISTRATION DESK			
8:30 - 9:00	Oral Presentations	Oral Presentations	Oral Presentations	Oral Presentations
	Laryngeal dystonia: From bench to bedside	Office-based surgery	Office-based surgery and Miscellaneous benign diseases	Miscellaneous benign diseases
9:00 - 10:00	Keynote Lecture	Keynote Lecture	Keynote Lecture	Oral Presentations
	Laryngeal dystonia: From bench to bedside	Operating room or office: Decision-making for laryngological intervention	Dysphagia: From diagnosis to treatment – A multidisciplinary effort	Neurolaryngology
Oral Presentations				
Miscellaneous benign diseases				
10:00 - 10:30				
10:30 - 11:00	COFFEE BREAK			
11:00 - 11:30	Roundtable Session	Roundtable Session	Instruction Course	Oral Presentations
	Phonosurgery of benign glottic lesions	Innovations in the management of airway stenosis	Laryngeal electromyography workshop	Miscellaneous benign diseases
Instruction Course				
Selective surface stimulation therapy for unilateral vocal fold paralysis				
11:30 - 12:00			Instruction Course	
12:00 - 12:30			Spasmodic dysphonia. A therapeutic scale from Botox to Type II thyroplasty	
12:30 - 14:00	LUNCH BREAK			
14:00 - 14:30	Roundtable Session	Roundtable Session	Instruction Course	
	Endoscopic assessment of dysphagia: Who? How? Same protocol whatever the disease or setting?	Voice management and transgenders: Cases discussion	Work-up and treatment of laryngeal papillomatosis	
Instruction Course				
Surgical treatment of unilateral vocal cord paralysis				
15:00 - 15:30				
15:30 - 16:00	CLOSING CEREMONY
