

WCET® ASCN-UK Joint 2024 Congress	
Provisional Scientific Programme	
Saturday 28 th September 2024	
All Day	Registration
AM	Meetings
09:00-12:00	WCET® Education, NNGF, Congress WCET® ID Meeting (Parade of Nation Rehearsal) ASCN UK meeting
PM	Pre-Congress Workshops
13:00-14:30	Practical Assessment of the Patient Presenting with Faecal Incontinence Led By: Professor Christine Norton, PhD MA RN Dr. Vicki Patton RN, PhD Dr. Joseph Nunoo-Mensah, B Med Sci (Hons), BM BS, FRCS, FASCRS, FISUCRS, LLM Debridement Workshop (75 attendees max) Led By: Dr. Gary Sibbald, BSc. Md. M.Ed., D.SC (Hon), FRCPC (Med)(Derm), FAAD, MAPWCA, JM Laurent Chabal, BSc (CBP), RN, OncPall (Cert), Dip (WH), ET, EAWT Description: This workshop is divided into two parts: theory and practice. Updated knowledge regarding debridement: types, indications and contraindications will be discussed in the first part, while debridement's exercise will be practiced on oranges in the second.
16:00-17:30	Opening of Congress and Parade of Nations Location: Hall 5 at the Scottish Event Campus (SEC)
18:00 / Evening	Opening of Exhibition and Cultural Evening Location: Hall 5 at the Scottish Event Campus (SEC)

Sunday 29 th September 2024	
All Day	Registration
AM	
07:30-08:30	Industry Symposium – Presented by Welland
08:30-10:30	Opening Ceremony Welcome and Opening Speeches – WCET® and ASCN UK Leadership Keynote Presentations (30 mins) <u>Continence in Inflammatory Bowel Disease: A Neglected Issue</u> Presented by Christine Norton PhD MA RN, Professor of Clinical Nursing Research, Florence Nightingale Faculty of Nursing, Midwifery and Palliative Care, King's College London <u>Description:</u> Session will present the findings from a programme of research focusing on the neglected topic of faecal incontinence in IBD (Inflammatory Bowel Disease). This important symptom is very amenable to nursing intervention, but few patients access specialist care. <u>Claire Ryan & Gill Castle, Founder of Chameleon Buddies Charity</u> - An ostomate after childbirth in 2011, Gill became the first person in the world to swim the English Channel solo with a stoma, for her own charity Chameleon Buddies. Her charity, which she founded in 2022, supports women in the U.K. and Kenya to adapt to life after childbirth or stoma surgery. <u>The Art and the Science of Wound, Ostomy and Continence Practice: Looking Back, Looking Forward</u> Presented by Dr. Keryln Carville RN, STN(Cred), PhD, Professor Primary Health Care and Community Additional Presentations to be Announced.
10:30-11:15	Break
Auditorium 11:15-11:45	Plenary Session Keynote <u>Experiences from a Multidisciplinary Dermatology Stoma Care Clinic; Clinical and Developing the Services</u> Presented by Dr. Calum Lyon, Consultant Dermatologist in York, Scarborough and Selby, NHS Foundation Trust, Honorary Consultant & Lecturer at the University of Manchester

11:50-12:05	Parallel Sessions			
	Auditorium	RM1	RM2	RM3
	Stoma Chair Session	Wound Chair Session	Workshop (12:10-13:10) – Leadership Presented by Dr. Kathleen Capitulo PhD RN FAAN FNYAM IIWCC, Professor Preventative Medicine, Mount Sinai, Chief Nurse Executive VA Medical Center, New York, USA	Other Chair Session <i>Reverse Innovation (cheap and cheerful) from Developing to Developed World – Lessons Learnt.</i> Presented by Dr. Gary Sibbald
12:05-13:05 = Abstracts 13:05-13:10 Q&A	<u>Stoma Abstracts</u> SOBEST®'s communication and marketing department's role in disseminating Stoma therapy in Brazil through digital media, Adriane Aparecida Costa Faresin The Experience and Needs of Self-care in Elderly Colorectal Cancer Stoma Patients: A Qualitative Study, Yan Xue Management of stomal stenosis caused by hypertrophic scar: A case report , Zhang Shuangshuang National Platform for Ostomy, Giulia Villa Colostomy following Spinal Cord Injury: potential benefits and a cautionary case study, Michelle L. Boucher Improving the patient experience with sight loss/ low vision to manage a new ileostomy- a case study, Helen Woodcock	<u>Wound Abstracts</u> Investigation and study on the current situation of wound/stoma care clinics in 53 medical institutions in Hunan Province Yongyi Chen Autologous blood clot therapy for patients with peripheral arterial , disease (PAD) wounds, Sivagame Maniya Nurses' Knowledge About Skin Tears: An Exploratory Study, Cinthia Viana Bandeira da Silva Nursing care treated by fixed stent combined with negative pressure sealing drainage technique for a patient with a large wound after crush injury operation, Chen Li War, Weather, Weapons, and Wounds: W4, Michele R. Burdette-Taylor Pressure Injury Healing Prediction in Intensive Care Unit Patients: A Back Propagation		<u>Other Abstracts</u> Covid-19 GI symptoms in Ostomates and Ileoanal Pouch Patients, Petya Marinova COVID-19 Pivoted Virtual Skills Teaching Model: Project ECHO Ontario Skin and Wound Care Boot Camp, Gary Sibbald Promoting post-traumatic growth in colorectal cancer patients: Exploring the role of social support through a chain mediation model, Sun Xia Exploring nursing students' first real-patient chronic wounds and ostomy care practice experiences in a Track Program, Tuba Şengül Developing and validating a questionnaire to assess levels to help-seeking behaviour among patients with diabetic high-risk feet, Honglin Wang A Pandemic Story: The Evolution of a Multi-level Prevention Bundle to Reduce Hospital

		(BP) Neural Network Model Integrating Scores of Pressure Ulcer Scale for Healing (PUSH) on Primary Assessment, Jing Zhao		Acquired Pressure Injury (HAPI) Incidence, Annielyn A. Ocampo
PM				
13:10-14:10	Lunch			
Auditorium 14:10-14:40	Plenary Session Keynote <u>Navigating through history and charting the future: A 2024 update on pressure ulcers/injuries</u> Presented by Prof. Dr. Dimitri Beeckman , Department of Public Health and Primary Care, University Centre for Nursing and Midwifery, Skin Integrity Research Group (SKINT), Programme Chair, Master of Science in Nursing and Midwifery, Associate Editor, International Journal of Nursing Studies <u>Description:</u> In this keynote presentation, participants will embark on a journey through the historical evolution of our understanding and management of pressure ulcers/injuries. We will explore key milestones, breakthroughs and paradigm shifts that have shaped today's practice. The lecture will provide a comprehensive update on the state of pressure ulcers in 2024 and offer insights into the latest research, technologies and approaches to prevention and treatment. By examining the past and the present, we will also look to the future and discuss the anticipated trends and innovations that hold promise for the future of pressure ulcer care. This presentation aims to provide attendees with a holistic perspective that combines historical context with the latest advances to enhance their knowledge and strategies in dealing with this critical healthcare problem.			
14:45-16:00	Parallel Sessions			
	Auditorium	RM1	RM2	RM3
14:45-15:00	Stoma Chair Session <i>Skin Tears – Updates</i> Presented by Prof. Dr. Dimitri Beeckman	Wound Chair Session	Sexuality Chair Session	Research Chair Session <i>Cultural Adaptation and Validation of Measurement Instruments</i> Presented by Prof. Dr. Vera Lucia Conceição de Gouveia Santos

15:00-16:00 16:05-16:10 Q&A	<u>Stoma Abstracts</u> Case study: The Lived Experience of a Young Person with a Complex Medical Needs, Small Intestinal Transplant, TPN, and a Stoma, Linda's Story Kathleen L. Capitulo A Case Study of complex stoma management in a morbidly obese patient, Anneke Bowley An evidence-informed care model to improve the quality of care in newly ostomized patients, Trine Borglit Application study of structured manipulative rehabilitation care program in improving the success rate of enterostomy prolapse cases, Baofang Yuan Autism; Living with a stoma and the challenges of nursing someone following discharge from hospital, Jo Sica Can a clinical feedback system with a standardised definition for ostomy leakage give us accurate data about the ostomy patient's largest challenge - leakage? A clinical overview, Kirsten Lerum Indrebø	<u>Wound Abstracts</u> A Patient Navigation Model to Improve Complex Wound Care Outcomes, Gary Sibbald To construct a non-pharmacological intervention protocol for post-burn itch based on evidence, Xueqin Yan Reliability and validity of Chinese version of wound quality of life scale in patients with Wound in the clinic of wound care, Huayun Liu Cultural Adaptation of the Wounds at Risk Score Instrument for Brazilian Portuguese, Saskia IP Fleury Fostering Multidisciplinary Collaboration for Enhanced Wound Care in the ASEAN Region, Widasari Sri Gitarja 5-Year Report on Foot and Wound Care Clinic for Homeless of Alaska, Michele R. Burdette-Taylor	<u>Sexuality Abstracts</u> Influencing factors of sexual dysfunction in male patients with urostomy after radical cystectomy: a prospective descriptive study, Haiyan Li Sexual well-being concerns following stoma formation: an international cross-sectional survey, Simona Fourie Implications of acute and elective stoma surgery, physical status, and sex on stoma complications – findings from a Swedish chart review, Eva Carlsson	<u>Research Abstracts</u> Risk Factors of Medical Device-Related Pressure Injuries in Adult Intensive Care Unit Patients: A Systematic Review and Meta-Analysis, Tan Lv The effects of Family-Centered Empowerment Model on the caregiving burden of caregivers of enterostomy patients: A randomised controlled trial, Lin Xiao Exploring nursing students' first real-patient chronic wounds and ostomy care practice experiences in a Track Program: A qualitative study using the critical incident technique, Tuba Şengül Life with a Long-Term Stoma Across Five European Countries, Marianne Krogsgaard Postoperative weight loss as a predictor of stoma-related complications in patients undergoing stoma surgery, Yu-Lin Wu Stoma Therapy Clinic in Brazil: A Narrative Review, Silvana Mara Janning Prazeres
16:10-17:10	(1) Industry Symposium – Presented by Eakin (2) Industry Symposium – Presented by Coloplast			
19:00 –21:00	Evening Event at the Glasgow Science Centre Join your fellow delegates for a night of exploration and networking at the Glasgow Science Centre. This event is free for all registered delegates and is hosted by the City of Glasgow.			

Monday 30 th September 2024	
All Day	Registration
AM	Poster Viewing
07:00-08:00	Industry Symposium – Presented by Salts
Auditorium 08:30-09:30	Plenary Session Keynotes (1) <u>ECHO - Extension of Community Health Outcomes-Next Generation Telemedicine</u> Presented by Dr. Gary Sibbald, BSc. Md. M.Ed., D.SC (Hon), FRCPC (Med)(Derm), FAAD, MAPWCA, JM, Professor of Medicine & Public Health, University of Toronto, Canada, Director of International Interprofessional Wound Care Course (IIWCC) & Masters of Science Community Health (Prevention and Wound Care (2) <u>Engaging, Empowering, and Leading – Leadership Strategies & Strengths of ETNs</u> Presented by Dr. Kathleen Capitulo PhD RN FAAN FNYAM IIWCC, Professor Preventative Medicine, Mount Sinai, Chief Nurse Executive VA Medical Center, New York, New York, USA Description: Objectives: Participants will 1. Identify 5 key attributes of leadership for ETNs 2. Identify 2 personal leadership strengths 3. Identify 3 leadership strategies to incorporate into their personal practice. Every nurse, especially ETNs, advanced practice nurses, are leaders, leading practice, care, research, and education of clients, families, colleagues, around the world. This presentation will explore the meaning, roles, and attributes of leadership and how they are integrated daily into the roles of ETNs, including Advocate, Collaborator, Educator, Innovator, Mentor, Negotiator, and Visionary. The meaning and the importance of empowerment: empowering oneself, colleagues, staff, patients, and family; and leadership styles, strategies, and strengths will be discussed, enabling participants to identify their own leadership style, strengths, and strategies to incorporate into their own work.

	Parallel Sessions			
	Auditorium	RM1	RM2	RM3
09:35-09:50	Skin Chair Session <i>Bedside Stories - Auto-immune Conditions & Skin</i> Presented by Dr. Calum Lyon	Stoma & Continence Chair Session LARS <i>Jennifer Burch, Head of Gastrointestinal Nurse Education Surgery St Mark's Hospital</i>	Paediatric Chair Session <i>Paediatric Bladder and Bowel</i> Presented by Dr. Michael Amoah	Other Chair Session
09:50-10:20 Q&A 10:20-10:25	<u>Skin Abstracts</u> Prevalence of peristomal skin complications in the first 12-weeks post discharge following urinary/faecal stoma formation surgery, Tania L. Norman Peristomal Dermatitis Associated with Moisture and Medical Adhesive: Frequency and Association Factors, Magali Thum Educational interventions to improve knowledge among nurses in the prevention of skin tears in institutionalised adults and older adults: a scoping review, Heidi M. Hevia	<u>LARS Abstracts</u> It has become a part of me: living with low anterior resection syndrome after ostomy reversal, Catherine Buerger Impact of defecation dysfunction on quality of life in mid-low rectal cancer patients following sphincter-sparing surgery, Baolia Luo Low anterior resection syndrome: a guide for ostomy and clinical nurses, Catherine Buerger	<u>Paediatric Abstracts</u> Qualitative research on the continuing nursing needs of the main caregivers of enterostomy newborns under the situation of "Internet plus nursing", Yunsha Kuang A well-being assessment pathway for children recommended for appendicostomy surgery, Kim-Michelle Gilson StomyCraft: The videogame to help ostomy children and their families, Giulia Villa	<u>Other Abstracts</u> Analysis of factors influencing urinary tract infections in patients with UD stomas based on propensity score matching: a real-world study, Liping tang The impact of empowering educational intervention on the shame of patients with colostomy, Wenying Wang Nurse-Led Cancer Surveillance Pathway for Ileoanal Pouch Patients, Petya Rali Marinova The Effect of Cadres Training on the Competence of Palliative Care Cadres at Pandanaran Public Health Center, Herlia Yuliantini Nightingale Nursing Portfolio, Michele R. Burdette-Taylor
10:25-11:00	Break			
11:00-11:30	Plenary Session Keynote <u>Colorectal Surgeon</u> Presented by Dr. Joseph Nunoo-Mensah , B Med Sci (Hons), BM BS, FRCS, FASCRS, FISUCRS, LLM Consultant Colorectal and Laparoscopic Surgeon, Digestive Disease and Surgery Institute, London, UK			
11:35-12:50	Parallel Sessions			
	RM1	RM2	RM3	RM4

11:35-11:50	Stoma Chair Session	Wound Chair Session <i>Irritating Contact Dermatitis</i> Presented by Dr. Elizabeth A. Ayello PhD, MS, BSN, ETN, RN, CWON, MAPWCA, FAAN	Continenence Chair Session	Education Chair Session ET/WOC Education
11:50-12:50 Q&A 12:50-12:55	<u>Stoma Abstracts</u> Evidencing your competency to site, Juliette D J Fulham Exploring Issues and Challenges Faced by Enterostomal Therapy Nurses in the Indonesian Healthcare Landscape, Widasari Sri Gitarja Follow up of the ostomy patient – Norwegian recommendations, Torill Elin Olsen Healthcare Support Workers in Stoma Care - an underutilised resource, Vicky Burrows Knowledge, Attitude, and Practice in Stoma Among Nurses at Kilifi County Hospital Kenya, Lilian M.S. Lewa Profile of Elderly Women Undergoing Radical Cystectomy Due to the Diagnosis of Bladder Cancer in an Interdisciplinary Outpatient in Brazil, Daisy Czb Archila	<u>Wound Abstracts</u> A qualitative study on the demand for discharge planning nursing service in patients with chronic hard-healing wounds, Zhang Shuangshuang Application of Hydrophilic Fiber Silver-containing Dressing Combined with Negative Pressure Wound Treatment in Diabetic Foot Ulcer, Jieyu Wang Clinical experiences of necrosis after artificial skin grafting for malignant melanoma of the foot with the concept of traditional Chinese and Western medicine nursing: A case report, XIE YIJIE Construction and validation of educational technology on the prevention and treatment of diabetic foot for primary health care nurses, Jefferson Abraão Caetano Lira, Attitudes of Clinical Nurses in China to Prevent Medical Device-Related Pressure Injuries: A Cross-Sectional Survey, Tan Lv	<u>Continenence Abstracts</u> Role of Nurses in the Care of Women with Urinary Incontinence in Primary Healthcare, LÍVIA M. MARTINS Surgical Treatment of Urinary Incontinence in the Brazilian Health System Between 2015 AND 2020, Gisela Maria Assis Interobserver reliability between nurses in clinical and imaging assessments of clinical signs of incontinence-associated dermatitis, Vera Lucia Conceição de Gouveia Santos Management Algorithm for Functional Chronic Constipation Based on Conservative Treatment: A Flowchart for Nursing Decision-Making, Talita dos Santos Rosa, PhD, MD, RN (she/her/hers) The positive impact of Stoma, Wound &Continenence Education program on patient care in Kenyatta National Hospital (KNH), Kenya, Mary M. Ikaria Validity and Reliability of the Portuguese (BRAZIL) Version of the Paediatric Lower Urinary Tract Symptom Score (PLUTSS), Jabiael C. Silva Filho	<u>Education Abstract</u> Network meta-analysis was conducted to compare the effects of different dressings on wound healing, Asmat Burhan Educational interventions for primary health care nurses on elimination ostomy care, Sandra Marina Gonçalves Bezerra Effectiveness of Ostomate Management Reinforcement Education (MORE) on Self-Efficacy and the Ability to replace the Stoma Pouch in Ostomate, Ria Andjarwati Wound Ostomy Continenence Nurse Enhanced Education for Patients Undergoing Cystectomy and the creation of a Urostomy urinary diversion, Vashti Livingston Exploring learning styles - Do Specialist Stoma Care Nurses favour a specific learning style, Angie Perrin Highlighting the value of experiential learning for the novice Stoma Care Nurse in the classroom setting, Benjamin Rennison

12:55-13:55	Lunch			
	Industry Symposium – Presented by Convatec			
PM				
13:55-14:55	Meetings ASCN UK – General Business Meeting			
Auditorium 13:55-14:55	Plenary Session Keynotes <i>Clinical Evidence and Reflection on the Treatment of Wounds with Traditional Chinese Medicine</i> Presented by Dr. Sun Xu , Doctor of Traditional Chinese Medicine Surgery, postdoctoral fellow of Nankai University of China, attending physician of traditional Chinese medicine surgery in the Second Affiliated Hospital of Tianjin University of Traditional Chinese Medicine			
15:00-16:15	Parallel Sessions			
	RM1	RM2	RM3	RM4
15:00-15:15	Stoma Chair Session <i>Supporting Groups – CUK, International Ostomy Association, IA, and UA – Overview of Organization</i>	Wound Chair Session	AI and Innovation Chair Session - AI and Innovation and Advanced Care - Prof. Richard Brady FRCSEd MD <i>Consultant Colorectal and Robotic Surgeon (IBD Surgical Lead)</i>	Complex Decision making or Mental Health in Counseling Chair Session

15:15-16:00 16:00-16:05 Q&A	<u>Stoma Abstracts</u> Exploring the Role of Ostomate Peers-Support Group from Indonesian Ostomate's Perspective, Pipit Lestari, M.Sc. (she/her/hers) Patient experience of stoma care services in England— a National survey, Zarah Perry-Woodford/Theresa Bowles, Msc, BA Hons, RN Stoma Care in Palliative Care Setting in Kenya, Africa, Esther Nzambi Mutuo The Challenges of Mucocutaneous Separation: A Novel Approach, Margie L. Reid	<u>Wound Abstracts</u> Evaluation of the Antimicrobial and Antibiofilm Activity of Metronidazole in Bacteria Isolated from Malignant Wounds: An in Vitro Study, Jabiael C. Silva Filho Islamic Pillars to Prevent Diabetic Foot Ulcer in Indonesia, Lelik Adiyanto, S.Kep Native Brazilian medicinal plants in wound healing: integrative review, Joyce S. Santos Negative pressure therapy with irrigation in the management of cervical Esophagus Fistula : A Case Report, BaoJia Luo The effects of vibration on wound healing: a systemic review and meta-analysis, Yeh Hsiu Sui	<u>Innovation Abstracts</u> A novel topical therapy for resistant and early peristomal pyoderma gangrenosum, Wendy A. Pearson Efficiency of New Smart Instillation Technology with Negative Pressure Wound Therapy in Managing Complex Chronic and Surgical Wounds: Case Series, Rosemary H. Hill Validation and Reliability of an Instrument for Assessing Odor in Malignant Wounds – IDS, Isabel Cristina R. Vieira Santos Urostomy Care in Developing Countries: Modification Bag Solutions, Munasirah Ismail Yakkub	<u>Abstracts</u> Evidence summary of preoperative prehabilitation management of colorectal cancer patients based on a patient engagement framework, HU CHEN Empowering Muslim Ostomates on Their Spiritual Journeys - Hajj/Umrah Preparation, Widasari Sri Gitarja Effects of family dignity therapy on the mental health of urostomy patients and primary caregivers: a randomized controlled trial, Yan Chen Factors Affecting the Quality of Life After Stoma-A Study from North India, Ashok Kumar Course and predictors of supportive care needs among colorectal cancer survivors with ostomies: A longitudinal study, Qinfen Song Factors influencing psychosocial adaptation in patients with enterostomies and network analysis: a nationwide multicenter cross-sectional study, Xu Zhang
PM 16:05-17:00	16:10-16:55 - Workshop - Writing for Publication Presented by Dr. Jenny Prentice & Mr. Greg Paull			
PM 16:05-17:00	Break			

17:00-18:30	Meetings WCET® - General Business Meeting
Evening 19:30 -	Congress Event at PLATFORM (*Additional registration required) Enjoy a delicious food with your friends and colleagues at the final networking event of the Congress. The Argyle Street Platform is a unique venue of restored train tunnels located under the Glasgow Central Station. This is a can't miss event! *Additional registration required. Additional Presentations: Scholarship recipients ETNEP/REP New Director Presentation & Awards: Nurse of the Year Award (ASCN UK), WCET® Award, ASCN UK Best Stoma Nurse, WCET® Life Members

Tuesday 1 st October 2024				
All Day	Registration			
AM 08:00-10:00	Industry Symposium			
09:15-10:15	Industry Symposium – Presented by Hollister			
10:00-10:30	Break			
Auditorium 10:30-11:30	Plenary Session Keynote – (1) <u>QOL in OWC Care</u> Presented by Prof Dr Vera Lucia Conceição de Gouveia Santos PhD, CETN (TISOBEST Emerit), Full Professor at the School of Nursing, University of São Paulo – EEUSP, Head of Surgical Nursing Department – EEUSP, Permanent Visitor Professor at Portuguese Catholic University, SOBEST International Relationships Department Director <u>Description:</u> The session will cover the main health-related issues in WOC Care, including main conceptions (QOL, HRQOL, PROS AND PREMS), the impact of WOC in the HRQOL of people and their families and the evidence-based interventions to improve these patients’ QOL outcomes. Besides, how advance nursing technologies and complex interventions can contribute to those outcomes. (2) <u>Diabetic Foot Assessment</u> Presented by Dr. Elizabeth A. Ayello, PhD, MS, BSN, ETN, RN, CWON, MAPWCA, FAAN), Hiske Smart, RN, MA(Nur), Honours BSocSc(Nur), PGDip(WHTR – UK), IIWCC(Can), WUWHS Executive Board, & Dr. Gary Sibbald, BSc. Md. M.Ed., D.SC (Hon), FRCPC (Med)(Derm), FAAD, MAPWCA, JM			
11:35-12:40	Parallel Sessions			
	Auditorium	RM1	RM2	RM3
11:35-11:50	Stoma Chair Session	Wound Chair Session	Continence - Pelvic Floor	Research Chair Session <i>Professor Christine Norton, PhD MA RN Getting involved in research - the joys and the pitfalls.</i>

11:50-12:35 Q&A 12:35-12:40	<u>Stoma Abstracts</u> The Role of Specialist Stoma Care Nurses in Informed Decision Making: Reflecting on Patient Perspectives, Juliette D J Fulham Contributions to the development of an eHealth platform for people with an elimination stoma: A qualitative study, Carla Rocha Patients' experiences with a clinical feedback system in routine outpatient stoma care after ostomy surgery: A qualitative study, Lill Anette Juvik Stoma care services in England – the nurse's perspective, Zarah Perry-Woodford	<u>Wound Abstracts</u> Effectiveness and Safety of Negative Pressure Wound Therapy on Melanoma-Resected Surgical Wounds, KyoungAe NAM Optimizing compression therapy to accommodate for dynamic fluid shifts, using an adjustable Velcro compression wrap: A young woman with stage 3 lymphedema, and a chronic nonhealing wound, Lauren Wolfe Overcoming Access Barriers: Manual Vacuum-Assisted Closure for Diabetic Foot Ulcers, Hema Malini Prevalence and risk factors of multidrug-resistant bacteria infection in patients with autoimmune bullous disease, Lei Guo	<u>Continence Abstracts</u> Nurses' agreement in classifying incontinence-associated dermatitis in adult patients according to skin tone, Vera Lucia Conceição de Gouveia Santos Investigation Nursing Students' Knowledge Levels and Attitudes in Incontinence-Associated Dermatitis Management through Game-Based Learning: A Mixed Methods Study, Tuba Şengül Application of High-Risk Screening Combined with Pelvic Biofeedback Therapy in the Prevention of Low Anterior Resection Syndrome After Rectal Cancer Sphincter-Preserving Surgery, Shuqin Wan Selecting Patients for Pelvic Floor Biofeedback Matters, Khuloud Abdullah Alhassan	<u>Research Abstracts</u> The mediating effect of resilience between stoma acceptance and psychological adaptation among patients with permanent colostomy, Ruiqing Di When unprepared for the emergence of a parastomal bulge – a qualitative study, Marianne Krogsgaard Social support and influencing factors in older people with stoma in China: A cross-sectional survey, Haijia liu All My Life I have to Adapt with My Stoma” : A Phenomenological Study, Ria Andjarwati
12:40-13:40	Lunch			
12:40-13:40	Industry Symposium			
PM Auditorium 13:40-14:10	Plenary Session Keynote <i>Ingestion of corrosive chemicals in Ghana - Paediatrics</i> Presented by Dr. Michael Amoah, Head of Paediatric Surgery Unit, Department of Surgery Komfo Anokye Teaching Hospital, Kumasi, Ghana			
14:15-15:00	Parallel Sessions			
	Auditorium	RM1	RM2	RM3
	Fistula Chair Session	Wound Chair Session	Product Innovation Chair Session	Other Chair Session

14:20- 15:15 Q&A 15:10 – 15:15	<u>Fistula Abstracts</u> Enterocutaneous Fistula Management- Princess Marina Hospital, Chabo Lelaka Defining the High Output Stoma, Michelle Carr What are the indications and timeframe for commencing oral rehydration solutions in adult patients with a high output stoma, Brenda Christiansen Impact of Chyme Reinfusion Therapy on parameters for stoma reversal in Crohn's Disease: a case study, Surrinder Kaur Development of portable Electroenterometer for evacuation management, Atsuko Maekawa	<u>Wound Abstracts</u> The VIPs of Echo Ontario Skin and Wound – Limb Presentation Preservation Cycle, Gary Sibbald Quality of Wound Care Services at the Wound, Stoma, and Incontinence Care Centre, WOCARE INDONESIA, Khairul Bahri Skin Bundles: Consistency in application related to Pressure Injury Prevention outcomes, Hiske Smart The Effect of a Combination of Adjuvant Therapy on The Duration of Wound Healing in Diabetes, Elvi Oktarina Negative Pressure Wound Therapy for Colorectal Incisions: A Systematic Review and Meta-Analysis of Controlled Trials, Ting-Kuang Wang	<u>Innovation (Product) Abstracts</u> Finding leakage solutions for individuals. A series of case studies to investigate the improvement of patient outcomes with innovation, Leanne M. Fielding Synergistic Solutions: Assisted Flow as a Novel Way to Extend the Wear Time of Ostomy Systems, Kevin Kelleher Gentle Soft Convexity in the Post-hospital Discharge Period: A Case Series, Lauren Wolfe Disposable Nasopharyngeal Airway for the Nursing Care of Distal Prolapse in Loop Colostomy, Shuqin Wan Using Convexity with Parastomal Hernia: A Case Series, Arden Townshend	<u>Other Abstracts</u> Understanding Confidentiality within Stoma Care, Carolyn Swash Algorithm Validation for Ostomy Pouching System Selection, Maria Angela Boccara de Paula Understanding Organizational Commitment by Examining the Role of Job Satisfaction as a Mediating Factor Influencing Job Stress in the Wound Care Unit, Widasari Sri Gitarja The Impact of Palliative Wound Care on Patient and Family Quality of Life: A Case Study on Patients with Chronic Wound, Khairul Bahri Bladder Cancer: Individualizing the Decision of a Urinary Ostomy for Each Person, Daisy Czb Archila
Auditorium 15:30-16:30	Closing Ceremony & Closing Remarks Presentation of Awards and Poster Awards WCET® Announcement: New Board Members & Next Location/Flag
