

# AOS & ASP

18 – 20 AUG 2022 | ICC SYDNEY

Integrating Science into Everyday Practice Conference

Program updated 3 May

## Wednesday 17 August 2022

| Time            | Session                                                 |
|-----------------|---------------------------------------------------------|
| 8.00am          | Registration open                                       |
| 1.30pm – 5.30pm | Geistlich pre-conference workshop – <i>Daniel Thoma</i> |
| 6.00pm – 8.00pm | Welcome reception                                       |

## Thursday 18 August 2022

| Time              | Session                                                                                                                                                                                              |         |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------|
| 8.00am – 8.30am   | Conference opening                                                                                                                                                                                   |         |
| 8.30am – 9.15am   | <b>Keynote speaker</b><br><b>Impact of alveolar bone changes in implant treatment after tooth extraction</b><br><i>Prof Mauricio Arajuo</i>                                                          |         |
| 9.15am – 10.00am  | <b>Keynote speaker</b><br><b>Angle correction in the anterior maxilla</b><br><i>Prof Stephen Chu</i>                                                                                                 |         |
| 10.00am – 10.30am | Morning tea                                                                                                                                                                                          |         |
| 10.30am – 11.15am | <b>Risk Assessment - <i>Managing Risk in Implant Dentistry</i></b><br><i>Dr Tony Dawson</i>                                                                                                          |         |
| 11.15am – 11.45am | <b>Interdisciplinary collaboration for rehabilitation of the atrophic edentulous maxilla</b><br><i>Dr Glen Liddelow &amp; Dr Brent Allen</i>                                                         |         |
| 11.45am – 12.15pm | <b>Treatment decisions in implant dentistry - <i>What happens when you take the wrong path</i></b><br><i>Assoc Prof Roy Judge</i>                                                                    |         |
| 12.15pm – 1.15pm  | Lunch                                                                                                                                                                                                |         |
| 1.15pm – 1.45pm   | <b>From the Bench to the Surgery. The Application of Translational Technology to the Measurement of Successful Implant Treatment using Resonance Frequency Analysis</b><br><i>Prof Neil Meredith</i> |         |
| 1.45pm – 2.15pm   | <b>Scaffolding - <i>Scaffold Guided Tissue Regeneration</i></b><br><i>Prof Sašo Ivanovski</i>                                                                                                        |         |
| 2.15pm – 2.45pm   | <b>Integrating Literature - <i>How Valid is the Literature in Implant Dentistry?</i></b><br><i>Dr Danielle Layton</i>                                                                                |         |
| 2.45pm – 3.15pm   | Afternoon tea                                                                                                                                                                                        |         |
| 3.15pm – 4.00pm   | <b>Keynote speaker</b><br><i>Dr Irena Sailer</i><br>Sponsored by Straumann                                                                                                                           |         |
| 4.00pm – 4.30pm   | Session                                                                                                                                                                                              |         |
| 4.30pm – 5.15pm   | <b>Keynote speaker</b><br><b>New guidelines for successful esthetic outcome of immediate implant placement combined with ridge preservation</b><br><i>Prof Mauricio Arajuo</i>                       |         |
| 5.15pm – 5.45pm   | AOS AGM                                                                                                                                                                                              | ASP AGM |
| 5.45pm – 6.45pm   | Industry reception                                                                                                                                                                                   |         |

Friday 19 August 2022

| Time              | Session                                                                                                                                                      |                                                                                                     |
|-------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------|
| 8.30am – 9.15am   | <b>Keynote speaker</b><br><b>Effective provisional restorations</b><br><i>Prof Stephen Chu</i>                                                               |                                                                                                     |
| 9.15am – 10.00am  | <b>Clinical Impacts of 2017 Periodontal Classification</b><br><i>Dr Ryan Lee</i>                                                                             | <b>Digital workflow - Using Digital Planning for Implant Predictability</b><br><i>Dr Philip Tan</i> |
| 10.00am – 10.30am | Morning tea                                                                                                                                                  |                                                                                                     |
| 10.30am – 11.15am | <b>What can be achieved with Non-Surgical Periodontal Treatment - Overcoming the challenges of non-surgical periodontal therapy</b><br><i>Dr Robert Fell</i> |                                                                                                     |
| 11.15am – 11.45am | <b>Role of Adjunctive Antibiotics in Periodontal Treatment</b><br><i>Prof Axel Spahr</i>                                                                     | <b>“WTF” (what’s the fixture)</b><br><i>Robert Dulieu</i>                                           |
| 11.45am – 12.15pm | <b>Implant or Periodontal Treatment?</b><br><i>Dr David Grossberg</i>                                                                                        |                                                                                                     |
| 12.15pm – 12.45pm | <b>Impact of osteoporosis medications to periodontal and implant treatment - Hold that Implant Drill</b><br><i>Assoc Prof Mark Schifter</i>                  | <i>Daniel Thoma</i><br>Sponsored by Geistlich                                                       |
| 12.45pm – 1.30pm  | Lunch                                                                                                                                                        |                                                                                                     |
| 1.30pm – 1.45pm   | Abstract presentation 1                                                                                                                                      |                                                                                                     |
| 1.45pm – 2.00pm   | Abstract presentation 2                                                                                                                                      |                                                                                                     |
| 2.00pm – 2.30pm   | <b>Zygomatic implants</b><br><i>Dr Lydia Lim</i>                                                                                                             |                                                                                                     |
| 2.30pm – 3.00pm   | <b>Osteointegration in malignancy</b><br><i>Dr David Leinkeim</i>                                                                                            |                                                                                                     |
| 3.00pm – 3.30pm   | Afternoon tea                                                                                                                                                |                                                                                                     |
| 3.30pm – 4.15pm   | <i>Daniel Thoma</i><br>Sponsored by Geistlich                                                                                                                | <b>Role of modern manufacturing techniques and materials</b><br><i>A/Prof Jaafar Abduo</i>          |
| 4.15pm – 5.00pm   | <b>Keynote speaker</b><br><i>Dr Irena Sailer</i><br>Sponsored by Straumann                                                                                   |                                                                                                     |
| 7.00pm – 11.00pm  | Gala dinner                                                                                                                                                  |                                                                                                     |

**Saturday 20 August 2022**

| Time              | Session                                                                                                                                                                     |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 8.30am – 9.15am   | <b>Keynote speaker</b><br><b>Materials for definitive restorations</b><br><i>Prof Stephen Chu</i>                                                                           |
| 9.15am – 10.00am  | <b>Keynote speaker</b><br><i>Prof Mauricio Arajuo</i>                                                                                                                       |
| 10.00am – 10.30am | Morning tea                                                                                                                                                                 |
| 10.30am – 11.15am | <b>Dilemmas in the management of the Atrophic Arch - <i>The Atrophic Edentulous Alveolus - A digital solution to an age-old problem</i></b><br><i>Dr George Dimitroulos</i> |
