**MAIN ARENA**

Programme 2:  
Imaging in VHD for  
the cathlab team

Tutorial

**EPISODE 1: Aortic valve disease**

**Join us if you want:**

- To learn the latest advancements in the classification and management strategies of aortic stenosis
- To improve your assessment of aortic stenosis severity in challenging cases
- To know how to optimally evaluate the asymptomatic patient with severe aortic stenosis
- To discuss the multi-modality imaging diagnosis and treatment strategies for patients with bicuspid aortic valve
- To explore the specific considerations and diagnostic challenges in patients with bicuspid anatomy
- To understand the implications of atrioventricular anatomy for patient management and treatment

10:15 - 11:45

Tutorial

**EPISODE 1: Aortic valve disease****Join us if you want:**

- To learn the specific imaging considerations for the choice of optimal TAVI prosthesis
- To know how to evaluate the risk markers for new pacemaker implantation
- To understand how to optimize the outcomes of TAVI in challenging cases
- To discuss the multi-modality imaging diagnosis and treatment strategies for aortic bioprosthetic valve dysfunction
- To learn how to recognize patient-prosthesis mismatch after TAVI
- To understand the role of imaging in patients with aortic valve-in-valve

**EPISODE 2: Mitral valve disease****Join us if you want:**

- To gain in depth knowledge of mitral valve disease diagnosis
- To advance your knowledge of mitral valve disease classification based on morphology
- To improve your assessment of mitral valve disease severity
- To gain in depth knowledge of mitral valve disease management
- To advance your knowledge of multidisciplinary team management of mitral valve disease
- To improve your knowledge of mitral valve disease patient selection for transcatheter intervention
- To advance your knowledge of medical treatment, CRT and atrial fibrillation ablation in secondary mitral regurgitation

**EPISODE 2: Mitral valve disease****Join us if you want:**

- To gain in depth knowledge of imaging for transcatheter mitral valve interventions
- To advance your knowledge of screening for transcatheter mitral valve therapies
- To improve your knowledge of mitral valve morphology considerations for TEER
- To gain tips and tricks for TEER in hostile mitral valve morphology
- To gain in depth knowledge of transcatheter device choice for mitral valve disease
- To advance your knowledge of anatomic criteria for device selection in mitral regurgitation
- To advance your knowledge of anatomic criteria for device selection in mitral stenosis
- To gain tips and tricks for imaging during transcatheter mitral valve replacement
