

FEEDING THE MICROBIOTA

7th Symposium GE-VD

February 10th 2022, 13:00-17:15

Geneva University Hospitals (HUG)

Hôpitaux
Universitaires
Genève

UNIVERSITÉ
DE GENÈVE
FACULTÉ DE MÉDECINE

Unil
UNIL | Université de Lausanne

Microbiota, obesity and obesity-associated diseases

Context

Many patients focus on nutrition with the aim to improve their gut microbiota and ultimately their health.

A better understanding of the interactions between nutrition, pre- and probiotics and gut microbiota could open up new therapeutic options for chronic diseases. This year's symposium aims at summarizing the impact of oral intakes, whether nutrition, nutritional compounds or probiotics, in health and disease.

Aims

To create a group of physicians/scientists/health professionals /industrials interested by the nutritional modulation of microbiota and its impact on energy metabolism.

Public

Professionals (physicians, scientists, dieticians, nurses, pharmacists...)

Organisers

Laurence Genton, Jacques Schrenzel

Program

February 10th 2022

13:00 Welcome

Jacques Schrenzel, Geneva

Moderators: Laurence Genton, Vladimir Lazarevic

13:10 Introduction: Should we worry of preserving a healthy microbiota?

Philippe Moreillon, University of Lausanne

13:30 BCAA and gut microbiota in hemodialysis patients (Zoom)

Julie Mareschal, University Hospitals of Geneva

13:45 Bugs as modulators of intestinal barrier and outcome

Patrice Cani, Louvain Drug Research Institute, Metabolism and Nutrition Research Group, Louvain, Belgium

Moderators: Yves Dupertuis, Laurent Spahr

14:15 Short-chain fatty acids in health and disease

Thomas Gurry, Faculty of Pharmacy of Geneva

14:30 Healthy food and gut microbiota (Zoom)

Mathilde Touvier, University of Paris-Sorbonne, France

15:00 Pause

Moderators: Mirko Trajkovski, Tinh-Hai Collet

15:30 Interaction between anorexia, microbiota and physical activity

Najate Achamrah, University Hospital of Rouen, France

15:45 Mediterranean diet, microbiome and weight regulation

Iris Shai, Faculty of Health Sciences, Beer-Sheva, Israel

16:15 Metabolomic strategies to investigate biochemical interactions in microbiomes

Jean-Luc Wolfender, Faculty of Pharmacy of Geneva

Moderators: Jacques Schrenzel, Laurence Genton

16:30 Best attendees awards - Competition

16:50 Conclusion followed by aperitif

Practical informations

Information and registration

The 7th Symposium Feeding the microbiota will be held:

- ▶ In presental: HUG, Auditoire Marcel Jenny,
Rue Gabrielle-Perret-Gentil 4, 1205 Genève
- ▶ Virtually simultaneously

Free but mandatory registration at ➤ <http://nutrition-microbiota.org>

Further information: marina.schutz@hcuge.ch

Post-gradual credits

Internal general medicine, gastro-enterology, infectious diseases, microbiology (to be requested), endocrinology, diabetology (to be requested)
