

COMPLETE REVASCULARISATION PAD

CORE PAD: a comprehensive educational programme providing an overview of the management of peripheral arterial disease.

CORE PAD returns with a series of interactive meetings supported by Abbott. The programme director Mr Hany Zayed will be hosting a faculty of key opinion leaders who will share their expertise in the management of challenging peripheral arterial disease. Each meeting will represent an opportunity for engagement between the renowned faculty and the audience, while sharing important tips and tricks in dealing with difficult cases. Meetings will take place in the Royal College of Physicians in London.

Mr. Hany Zayed
Consultant Vascular Surgeon.
Guys and St. Thomas
Hospital, London

There are limited seats available for the full day programme. Book your seats early, please reach out to matt@millbrookconferences.co.uk for more information.
