

British Society for Immunology Congress 2017

Monday 4 December

11:00	Registration open
13:00	Bright Sparks in Immunology 2017
18:30	Opening address Keynote: Luke O'Neill, Trinity College Dublin, Ireland
20:00	Welcome reception

Tuesday 5 December

07:30	Registration open						
08:00	Breakfast plenary: Xuetao Cao, Chinese Academy of Medical Sciences, China						
08:50	Break						
09:00	Parallel session: Battling it out: Regulatory T cells vs inflammation	Parallel session: Extracellular vesicles: The role of exosomes and other shed vesicles in the immune system	Parallel session: Immunometabolism	Parallel session: NK cells: Diversity and biology underpinning disease	Parallel session: Potentiating cancer immunotherapy by targeting the microenvironment	Parallel session: Versatility of the B cell and antibody response	Parallel session:
10:30	Refreshment break						
11:00	Parallel session (cont'd)	Parallel session (cont'd)	Parallel session (cont'd)	Parallel session (cont'd)	Parallel session (cont'd)	Parallel session (cont'd)	Parallel session (cont'd)
12:45	Lunch, posters, exhibition & lunchtime sessions						
14:00	Plenary session: Microbiota and the immune system - symbiosis or dysbiosis						
15:30	Refreshment break						
16:00	Plenary session (cont'd...)						
17:15	Poster Session 1						

British Society for Immunology Congress 2017

Wednesday 6 December

08:00	Registration opens						
09:00	Parallel session: Antigen processing & adaptive immunity	Parallel session: Autophagy in the immune system	Parallel session: Mucosal Immunity	Parallel session: Neutrophils in the inflammatory response	Parallel session: Shaping inflammation through toll like receptors and lectin receptors	Parallel session: Single cell technologies - challenges & applications	Parallel session:
10:30	Refreshment break						
11:00	Parallel session (cont'd)	Parallel session (cont'd)	Parallel session (cont'd)	Parallel session (cont'd)	Parallel session (cont'd)	Parallel session (cont'd)	Parallel session (cont'd)
12:45	Lunch, Posters, Exhibition & lunchtime sessions						
14:00	Plenary session: Inflammation and Immune Resolution						
15:30	Refreshment break						
16:00	Plenary session: (cont'd...)						
17:15	Poster Session 2						

Thursday 7 December

08:00	Registration opens						
09:30	Plenary session: What can we learn from novel therapeutics in human disease?						
10:30	Refreshment break						
11:00	Plenary session: (cont'd...)						
12:30	Lunch, Posters, Exhibition & lunchtime sessions						
13:45	Parallel session: Identification of immune correlates of infection to underpin vaccine design	Parallel session: Inflammation in wound healing	Parallel session: Innate immunity in neurodegenerative diseases	Parallel session: Novel insights in PID and genetics	Parallel session: Regulation of the immune response in support of hematopoietic progenitor cell and solid organ transplantation	Parallel session: T cell interactions in health and disease	Parallel session:
15:45	Refreshment break						
16:15	Parallel session (cont'd)	Parallel session (cont'd)	Parallel session (cont'd)	Parallel session (cont'd)	Parallel session (cont'd)	Parallel session (cont'd)	Parallel session (cont'd)
17:30	Close of Congress
