

BTS Congress 2026

Advancing Diversity - Promoting Equity

Venue Cymru, Llandudno | Tuesday 3rd - Friday 6th March 2026

This meeting has been sponsored with funding contributing towards room hire, exhibition stand space and some meeting subsistence only; sponsors have had no input into the educational content of the meeting, unless where stated.

'BTS Congress 2026' has been approved by the Federation of the Royal Colleges of Physicians of the United Kingdom for 15 category 1 (external) CPD credit(s). Full conditions of approval are listed in the guidelines. 'Postgraduate and Nursing Masterclass' has been approved by the Federation of the Royal Colleges of Physicians of the United Kingdom for 5 category 1 (external) CPD credit(s).

This programme is subject to change at the Congress Organisers' discretion.

Tuesday 3rd March Venue Cymru					
TIME	ITEM				
10:00 - 12:00	BTS Executive Meeting – Llandudno Bay Hotel				
13:00 - 17:00	BTS Council Meeting – The Imperial Hotel				
13:30 - 18:00	Postgraduate Masterclass			Nursing and AHP Masterclass	
	<i>Organisers: Clare Pattenden, Herrick and BTPT Chairs</i>			<i>Organisers: The BTS Chapter of Nurses and AHPs</i>	
	Alwen Room			Ogwen Room	
	13:30	Registration		13:30	Registration
	13:45	Welcome Address – Clare Pattenden		14:00	Welcome Address – Lucy Dames & Katie Morley
	13:55	A Day in the Life – Jack Galliford		14:10	Keynote: From personal truth to collective transformation: Inspiring equity in healthcare – Liz Murray
	14:25	Self-care and tools for wellbeing – Harriet Saxton			
	15:15	Coffee break		15:30	Coffee break
	15:30	How to write, read and succeed in SBA's – Rachel Westacott		16:00	Unconscious bias and cultural awareness – Gayatri Nambiar-Greenwood
	16:00	Sinister Training: winning on the spiral staircase – Barney Stephenson			
	16:15	"Is it time to try a different tac?" promotional product presentation by Chiesi Limited – Anel Van Der Schyff		17:50	Wrap and close
	16:25	National Selection: Pitfalls and Windfalls – Clare Pattenden			
	17:00	CESR: Top Tips – Sarah Addison			
	17:30	Q&A			
	17:45	Wrap and close			
		 Promotional Product Presentation by Chiesi Ltd. Chiesi representatives will be present.			The BTS Nursing and AHP Masterclass have been supported by the National Trust. Registered delegates of the Nursing and AHP masterclass will receive National Trust family day passes, reflecting our shared belief in the power of green spaces, walking, and time outdoors to support mental health and wellbeing. We encourage delegates to make use of these passes and enjoy time in nature with family and friends. 
18:00 - 19:00	Masterclass Drinks Reception Crafnant Room				
19:30 - 22:00	Presidents Dinner Dylan's Llandudno (By invitation only)				

Wednesday 4th March Venue Cymru	
TIME	SESSION/LOCATION
08:00 - 08:45	BTS Promenade 5k Run Supporting St David's Hospice, Llandudno. To sign up: BTS Congress Fun Run 2026
10:00 - 11:00	Registration and morning coffee
	Auditorium
11:00 - 11:15	Congress Welcome Richard Baker & Rhys Meirion
11:15 - 12:20	Opening plenary: Diversity in transplantation – an appraisal Chairs: Richard Baker & Sapna Shah Equity in healthcare – challenges and successes – Mumtaz Patel Equitable access to transplantation – Corrine Antoine Access to donation – Dale Gardiner & Winnie Andango
12:20 - 13:05	Real-World Evaluation of an in-house dd-cfDNA Assay <i>Industry sponsored symposium</i>
	
13:05 - 14:10	Lunch Exhibition Hall Arena
13:30 - 14:10	BTS Annual General Meeting 2026 <i>This session is available to BTS Members only.</i>
	Auditorium
14:15 - 15:00	Keynote presentation: Opt-in / opt-out: What now? - Baroness Finlay of Llandaff Chairs: Nicholas Torpey & Rommel Ramanan
15:00 - 16:10	6 of the Best: Oral presentations Chairs: Nicholas Torpey & Menna Clatworthy O01: Machine perfusion modulates cold preservation injury in kidney transplantation: IDEAL stage 4 OPTN population cohort study – Dharesh Raj Amarnath O02: Ischaemic times and outcomes in DCD liver transplantation with or without NRP – Rachel Hogg O03: Incidence of cancers targeted by national screening programmes after solid organ transplantation in England: The EpCOT study – Charlotte Stephens O04: Investigating the effects of Felzartamab treatment on peripheral blood transcriptomes in patients with chronic antibody-mediated rejection – Sylvia Ling O06: A phase I single-centre randomised clinical trial of cytokine adsorption therapy during kidney normothermic machine perfusion – Maithili Mehta O07: Anxiety and depression are associated with medication non-adherence and 12-month ISM blood level targets in kidney transplant recipients: a single centre cohort study – Rosie Heape

This meeting has been sponsored with funding contributing towards room hire, exhibition stand space and some meeting subsistence only; sponsors have had no input into the educational content of this meeting.

16:10 - 16:45	Refreshment break Exhibition Hall Arena		
	Auditorium	Hall	Studio
16:45 - 18:00	Kidney transplantation: Beyond the guidelines Chairs: Sapna Shah & Arpita Ray Choudhry Debate: This house believes there is no longer a role for bariatric procedures in the management of people with obesity being considered for a kidney transplant FOR: John Wilding AGAINST: To be announced Navigating the waters of prostate cancer - getting older men transplanted – Jonathon Olsburgh Assessing and improving frailty in kidney transplant candidates – Ruth Fergie	Basic Science Chair: Sarah Hosgood & Sian Griffin The current status of normothermic machine perfusion and potential of ARCs – Michael Nicholson Novel methods of assessment – Transcriptomic signature during liver NMP – Julia Hofmann Regenerative therapies in kidney transplantation – Sara Deffrennes Panel discussion and closing remarks	Cardiothoracic transplantation: Building bridges in the ITU: A joint symposium between BTS and Association of Cardiothoracic Transplant Intensivists (ACTTI) Chairs: Marius Berman & Clara Hernandez-Caballero Cardiothoracic transplantation in the UK – Sally Rushton Indications and patient selection for ECMO bridge to lung transplantation – Henning Pauli Patients in cardiogenic shock - Indications and selection for mechanical bridge to heart transplantation – Maria Monteagudo-Vela Minimising complications of mechanical support in cardiothoracic transplant candidates – Tim Hayes Panel Discussion: How do we ensure equity of access to cardiothoracic transplantation? –Maria Monteagudo-Vela, Sai Bhagra, Amit Adlakha, Clara Hernandez-Cabellero
18:00 - 19:45	Welcome Reception, Performance & Poster Viewing Exhibition Hall Arena		

Thursday 5th March | Venue Cymru

SESSION/LOCATION			
Time	Auditorium	Hall	Studio
08:00	Registration and morning coffee		
08:30 - 09:45	Kidney transplant Clinicopathological Correlation (CPC) scenarios Three interactive case discussions focused on challenging clinical scenarios. Recurrent steroid-resistant rejection – Menna Clatworthy, Anna Paterson Recurrent disease – Catherine Horsfield Infection or rejection? – Michelle Willicombe, Candice Roufosse Panel members: Menna Clatworthy, Michelle Willicombe, Candice Roufosse, Catherine Horsfield, Anna Paterson	Calne Williams Medal presentations <i>Chairs: Douglas Thorburn & Rebeca Mateos</i> CW1: Clinical features and long-term outcomes of patients with complete immunosuppression withdrawal after liver transplantation: a multicentre, worldwide study – Bruno Sensi CW2: The role of the complement system in mediating ischaemic cholangiopathy in DCD liver transplantation – Balaji Mahendran CW3: Modern-era improvements in high-risk liver transplantation: A national UNOS analysis – Abdullah K. Malik CW4: Rapamycin-eluting bioengineered bile ducts are resistant to fibrosis – Teresa Brevini CW5: Post-transplant cancer risk and survival after liver transplantation: the EpCOT Study – Charlotte Stephens CW6: Suspension on the UK liver transplant waiting list: Consequences for access, waitlist mortality and post-transplant survival – Abdullah K. Malik	Basic Science oral presentations <i>Chairs: Sunil Daga & Sarah Hosgood</i> O08: Distinct peripheral T cell signatures associated with xenograft outcomes in genetically engineered (2GE vs. 10GE) pig-to-nonhuman primate kidney transplantation – Roy Zhang O09: Spatial transcriptomics delineates distinct and common molecular features of allograft rejection sub-types – Joshua Wade O10: Investigating necroptosis in human kidneys during acellular vs red blood cell-based ex vivo sub-normothermic perfusion – Raj Sharma O12: The role of kidney-resident Natural Killer cells in the control of human cytomegalovirus within the renal allograft – Harry Persaud O13: High-definition spatial transcriptomic analysis of islet transplant induced liver injury reveals pathways to support islet engraftment – Daniel Doherty O14: IL-6/JAK/STAT3 signalling promotes Ischaemia-Reperfusion-Induced Renal Allograft Fibrosis – Wenrui Lei
09:45 - 10:15	Refreshment break Exhibition Hall Arena		
	Auditorium	Hall	
10:20 - 12:20	Medawar Medal presentations <i>Chairs: Richard Baker & Nicholas Torpey</i> Judging panel: Science: Andrew Sutherland, Alberto Sanchez Fueyo, Julia Hofmann, Alan Salama. Clinical: Colin Wilson, Corrine Antoine, Vivek Kute, Sian Griffin M1: Metabolomic profiling of pancreas grafts preserved by oxygenated hypothermic machine perfusion – Mohamed Elzawahry M2: Does pre-donation cardiac arrest affect post-transplant outcomes in kidney transplantation: An NHSBT registry data analysis – Zaid al-Amiedy M3: Age modifies immune readiness but not rejection biology: A proteomic analysis of chronic antibody-mediated rejection in kidney transplant recipients – Michael Corr M4: Automated and continuous transition from hypothermic to normothermic machine perfusion minimises hepatocellular injury in circulatory death porcine livers and restores function in very high-risk human livers – Hatem Sadik	Nursing and AHP Awards presentations <i>Chairs: Stephen Bond & Alison Smith</i> O15: What happens to obese potential living kidney donors who lose weight and donate? – Caroline Basarab-Horwath O16: National variation in kidney offer decision-making processes across UK transplant centres – Emma McGuire & Trudi Bennett O17: Mind the gap: Life after liver transplant – Katie Ellams O18: Honouring first person consent in organ donation: Communication challenges in a conscious patient – Becky Nicholls & Astha Singh O19: NURTURE: Identifying missed tissue donation referrals and implementing targeted ward-based interventions to improve end-of-life donation practice – Marco Arrighi O20: Obesity and kidney transplantation: Evidence of inconsistent transplant listing criteria across UK transplant and kidney centres – Adrian Brown O21: The hidden leak in opt-in consent: A call to eliminate preventable overrides – Lucy Dames	

	M5: Therapeutic modulation of Stromal Hyaluronan (HA) Matrices: A novel strategy to prevent Ischaemia Reperfusion Injury (IRI) induced kidney fibrosis – Aeliya Zaidi M6: Travel window prioritisation to reduce donor organ travel burden and preserve equity in transplantation: A UK geospatial modelling study – Katie Connor M7: Characterisation of novel candidates for a universal blood group A and B cleaving enzyme for universal donor organs – Serena MacMillan M8: Persistent disparities in deceased organ donation among racial and ethnic minorities: Insights from updated UNOS and NHSBT data (2015–2025) – Devanshu Aggarwal	O22: Improving the sustainability of renal transplant waiting list surveillance bloods – Laura Kirk	
12:25 - 13:20	Lunch Exhibition Hall Arena		
	Auditorium		
13:25 - 14:10	Latest Clinical Experience with Idefirix®▼ (imlifidase)-Enabled Kidney Transplants in UK <i>Industry sponsored symposium</i> Chair: Kathryn Wood Latest experience at Leicester: The H & I perspective – Clare Collins The Nephrologist's/surgeon's perspective – Atul Bagul		
	Auditorium	Hall	Studio
14:15 - 15:30	Bad bladders – benign and malignant Chairs: Sanjay Kolte & Jonathon Olsburgh Transplanting patients with unsafe bladders – Ming He & Jonathon Olsburgh BK virus and urothelial cancer – Rhana Zakri & Matt Wellberry-Smith Post-transplant urine infections: Urinary tract vaccines: Promise or Reality? – Fiona McCaig & Rhana Zakri	ISOT – BTS Liver best practice Chairs: Varuna Aluvihare & Lisa Burnapp Welcome and introduction What does the data tell us about access to liver transplantation in the UK? – Rhiannon Taylor Delivering equity of access to deceased donor liver transplantation: the Indian experience – Sonal Asthana Delivering equity of access to living donor liver transplantation: the UK experience – Derek Manas Panel discussion: How can we improve diversity of the donor pool for liver transplantation? <i>Shahid Farid, Douglas Thorburn, Sonal Asthana, Naimish Mehta, Derek Manas</i>	An ABC to doing clinical trials in organ donation and transplantation Chair: James Hunter & Andrew Fisher What's the role of a Chief Investigator – could you be one? – Andrew Fisher What's the role of a clinical trials unit – do you need one? – Helen Thomas What's the role of patient and public involvement – why do you need it? – Hannah Murray Ensuring equity of access to transplant clinical trials – why do we need it? – Adnan Sharif Panel Discussion
15:30 - 16:00	Chair: Sarah Hosgood & Menna Clatworthy Moderated poster presentations MP01, MP02, MP03, MP04, MP05, MP06	Chairs: Douglas Thorburn & Shahid Farid Moderated poster presentations MP07, MP08, MP09, MP10, MP11, MP12	Chairs: Lucy Dames & Chris Callaghan Moderated poster presentations MP13, MP14, MP15, MP16, MP17, MP18

16:00 - 16:30	Refreshment Break Exhibition Hall Arena		
	Auditorium	Hall	Studio
16:30 - 17:30	Environmental sustainability is changing the landscape of transplantation, but what are we doing about it? <i>Chairs: Rosa Montero & Mark Harber</i> The impact of climate change on healthcare – climate change, equity and diversity – Mark Harber Developing tool kits – LD kidney example as a model for future toolkit development across transplantation – Frances Mortimer Environmental sustainability in transplantation – driving change and how you can get involved – Matt Welberry-Smith Sustainable operating theatres – John O'Callaghan How do we make retrieval services more sustainable? – Marius Berman	ISOT - BTS: Living Donation – kidney <i>Chairs: Arpita Ray Chaudhury & Lisa Burnapp</i> Welcome and introduction Improving access to living donor kidney transplantation through kidney exchange programmes - Indian Perspective: <i>Analysis of kidney and liver exchange transplantation in India (2000–2025): a multicentre, retrospective cohort study</i> – Vivek Kute - UK Perspective – Jen Lumsdaine Panel discussion: How can we level up the diversity of the donor pool in living donor kidney transplantation? Vivek Kute, Jen Lumsdaine, Shafi Malkik, Pippa Bailey, Sanjay Kolte Closing remarks	BTS Innovation Competition 2026 in partnership with Live Life Give Life and QUOD 
Auditorium			
17:30 - 18:20	NHSBT Statistics <i>Chairs: Derek Manas & Rachel Johnson</i> Overview of organ donation and transplantation – Lisa Mumford Organ donation, consent, and public attitude – Susanna Madden Ethnicity differences in organ donation and transplantation – Rachel Johnson An analysis of kidney offer acceptance: Centre differences and associated factors – Shaminie Shanmugaranjan Maximising inclusion in clinical trials – Helen Thomas		
18:20	Congress closes		
19:30 - 0:00	Gala dinner – a night beside the seaside, beside the sea		

Friday 6th March – Venue Cymru

TIME	ITEM		
08:15	Registration and morning coffee		
	Auditorium	Hall	Studio
08:45 - 10:00	Free communications: Oral presentations Chairs: <i>Rommel Ramanan & Caroline Dudreilh</i> O23: Post transplant lymphoproliferative disease after solid organ transplantation in England: The EpCOT study – Charlotte Stephens O24: Investigating the role of Apolipoprotein L1 (APOL1) on immunity and kidney transplant outcomes - Amy Needleman O26: Economic Analysis of Racial and Geographic Disparities in U.S. Kidney Transplantation Policy: The Hidden Costs of Inequity - Hemant Sharma O25: Individualised Torque Teno Virus trajectories predict rejection and opportunistic infection early after kidney transplantation: Results from the TTV Biomarker of Immunosuppression Study – Ramyangshu Chakraborty O27: The Cascade Effect in NHSBT Organ Allocation: Mathematical Modelling and Mitigation Through Parallel Offering with Rank Transparency – Hemant Sharma O29: Pregnancy without post-partum HLA sensitisation benefits kidney transplant outcomes – Amina Shibu O30: Donor factors influencing pancreas transplant utilisation decisions; using US registry data to model evolution in decision-making over time – Chahana Patel	The hidden inequities in transplant training: Time for change Chairs: <i>Cat Boffa & Irum Amin</i> Equity in transplantation: The trainees view Abdominal: Including results of a trainee survey – Subhankar Paul CT: Aravinda Page SAS: Tahawar Rana Debate: This house believes there is equity/diversity in Transplantation surgical training For: Charlie Brown Against: Zeeshan Akhtar Panel Discussion: Subhankar Paul, Tahawar Rana, Aravinda Page, Muhammed Mohamedmydin, Simon Knight, Rachel Thomas, Zeeshan Akhtar	Transplant anaesthesia and perioperative Care: Pushing the boundaries Chairs: <i>Nicoletta Fossati & Vanessa Tucker</i> MDT for marginal recipients – Shivanand Chavan CPET versus 6MWT in renal transplantation – Andris Klucniks Futility of cardiac investigations in asymptomatic transplant patients – Adnan Sharif Frailty in the potential transplant recipient – Edward Sharples Q&A Closing remarks
10:00 - 10:30	Refreshment Break Exhibition Hall Arena		
	Auditorium		
10:30 - 11:15	Paragonix-Getinge: Optimizing Post-transplant Outcomes: Preservation Matters <i>Industry sponsored symposium</i>		
11:15 - 12:25	Toxic work cultures in transplantation: Recognize, reflect, reform Chairs: <i>Adnan Sharif & Rebeca Sanabria Mateos</i> Recognizing Toxicity in Transplantation Teams – Ros Searle		

	Multidisciplinary Perspectives Panel: Voices from the Field – Varuna Aluvihare, Cat Boffa, Subhankar Paul, Lucy Dames Tools and Strategies for Cultural Change – Ros Searle Close session and signposting of resources		
12:25 - 13:00	Chairs: Adnan Sharif & Subhankar Paul Moderated poster presentations MP19, MP20, MP21, MP22, MP23	Chairs: Nicholas Torpey & Vikram Bains Moderated poster presentations MP25, MP27, MP28, MP29, MP30	Chairs: Jas Parmar & Marius Berman Moderated poster presentations MP31, MP32, MP33, MP34, MP35, MP36
13:00 - 13:30	Refreshment Break Exhibition Hall Arena		
	Auditorium	Hall	Studio
13:30 - 14:30	Low volume – high impact transplantation Chairs: Richard Baker & Clare Pattenden Twelve years after the first UK hand transplant: the service grows up! – Simon Kay Uterine transplantation – Isabel Quiroga & Richard Smith Multivisceral transplantation – Irum Amin	Free communications – Oral presentations Chairs: Aimen Amer & Marius Berman From concept to practice: Methodology and implementation of the SIGNET Study – John Dark & Dan Harvey O28: Unseen Signals: Decoding systemic inequities through missing data in transplant registries – Hemant Sharma O31: Machine perfusion for deceased donor kidney transplantation: network meta-analysis of the Cochrane review – Dharesh Raj Amarnath O32: Cost-effectiveness analysis of normothermic machine perfusion (OrganOx metra) versus static cold storage in the United Kingdom – Chris Watson O33: Economic cost of organ suboptimal utilization: NHS cost analysis of retrieved-not-transplanted organs – Hemant Sharma O34: An educational tool to assist renal transplant trainees develop from introduction to independence – Charlotte Brown	Dragons’ Den Chairs: Mohamed Elzawahry & Vikram Bains Dragons: Caroline Dudreuilh, Helen Thomas DD1: A longitudinal cohort study of urological complications predictable by pre-transplant lower urinary tract symptoms (SCOPE) – Dhruv Satya Sahni DD2: Characterising peri-transplant glycaemic dynamics and the predictability of new-onset diabetes after kidney transplant using continuous glucose monitoring: A prospective study – Khaled Oweidat DD3: A centralised database to track outcomes in highly sensitised patients – Fatima Malik DD4: Ask heart questions – Aaron Koshy
14:30 - 15:10	Keynote: Hoffenberg Memorial Lecture Chairs: Michael Ramage & Richard Baker When no one decides: Moral responsibility in transplant listing and allocation – Gabriel Oniscu		
15:10	Congress closing remarks		

Moderated Posters | Thursday 5th March | 15:30

MP01	Safety run outcomes of Mirococept (APT070), a complement-targeting ex-vivo kidney perfusion therapy and progression to a phase IIa randomised trial	Chrysanthos D Christou
MP02	BK Polyomavirus After Kidney Transplant: Linking Viral Kinetics to Allo-immunity and Graft Survival	Chameera Bandara
MP03	A feasibility study of kidney transplantation following uncontrolled donation after circulatory death – one year experience and preliminary results	Dominic Summers
MP04	Is Intravascular Lithotripsy to Facilitate Renal Transplantation an Earth-Shattering Advance? A Case Series	David Kingsmore
MP05	Do transplanted kidney pairs that score poorly on pre-implantation biopsy have worse outcomes than matched controls? A Pithia trial follow-up case-control study	Maithili Mehta
MP06	Preservation Solution and Pancreas Graft Outcomes: A UNOS Registry Analysis of Histidine-Tryptophan-Ketoglutarate Versus University of Wisconsin Solution	Mohamed Elzawahry
MP07	Extended hypothermic machine perfusion (HOPE) - a safe method to facilitate prolonged ex-situ preservation of DCD liver grafts.	Janske Reiling
MP08	Changing incidence of unexpected perihilar cholangiocarcinomas in liver explants – a multi-centre ten-year review	Anna Paterson
MP09	"Challenging Conventional Contraindications: Propensity-Matched Kaplan-Meier Analysis Demonstrating Equivalent Long-Term Survival in MELD >40 versus MELD ≤40 Living-Donor Liver Transplant Recipients"	Hemant Sharma
MP10	Deceased donor liver procurement and preservation techniques, what is cost effective? A systematic review	Daniel Cox
MP11	Developing living donor liver transplantation: the UK approach	Lisa Burnapp
MP12	Advancing Abdominal Normothermic Regional Perfusion (ANRP): From Service Evaluation to National Rollout	Debbie Macklam
MP13	The Role of Sentinel Skin Flaps as Predictors of Rejection in Solid Organ and Vascularised Composite Allograft Transplantation: A Systematic Review	Andrew R Prigg
MP14	Donor family thoughts about solid organ and tissue research: results from a sample survey of the Donor Family Network	Sue Barton
MP15	Transplant Pharmacist role in Preoperative Assessment of Living Donor Kidney Transplant Recipients and Donors	Andrea Devaney
MP16	Arteriovenous Fistula Management Following Successful Kidney Transplantation: A Review of Current Practice	Alexandra Cosariu
MP17	Revisiting the UK DCD Risk Score in the Era of Hypothermic Machine Perfusion: A Single-Centre Experience	Pablo Arteaga-Asensio
MP18	Ransomware Crisis to Recovery: Global Lessons from the Information Technology Outage and Its Impact on Liver Transplant Services	Bruno Sensi

Moderated Posters | Friday 6th March | 12:25

MP19	Capturing patients' perspectives of healthcare - Development and validation of a novel Patient-Reported Experience Measure (PREM) for kidney transplantation	Rebeka Jenkins
MP20	Identifying Myths in Organ Donation: Development and Evaluation of an AI-Assisted Content Analysis Pipeline	Fahmida Zahin

MP21	Factors Affecting Decision Regret following Renal Transplantation	Daniel Knowles
MP22	Visibility Bias in Transplant Equity Reporting: A Decadal Analysis of NHSBT Annual Kidney Reports	Hemant Sharma
MP23	Paternalistic approaches to care in Intensive Care and its potential effects on securing consent for organ donation	Brian Tierney
MP25	Management of immunosuppression in failing kidney allografts: a systematic review of current practices and outcomes	Farhan Ahmad
MP27	Hidden Inequities in Kidney Transplantation: A Decade of Structural Disparities, Geographic Lottery, and Systemic Inefficiencies. A Critical Analysis of OPTN/SRTR Data.	Hemant Sharma
MP28	The impact of perioperative adverse events on kidney transplant surgeons: A qualitative study	Karen Stevenson
MP29	Decision regret after kidney transplantation: prevalence, predictors, and the impact of post-transplant healthcare utilisation	Stephen Knight
MP30	Clinical presentation, management and outcomes of post-transplant lymphoproliferative disorder at a large UK transplant centre	Kian Emami
MP31	From Joint Innovation Funding to National Success: Overcoming Workforce Challenges in DCD Heart Retrieval	Sarah Beale
MP32	Impact of SGLT2 Inhibitors on Blood Pressure and Glycemic Control in Heart Transplant Recipients: A Systematic Review and Meta-Analysis	Iman Ali
MP33	Congenital vs Non Congenital – A single centre analysis of declining donor hearts	Aaron Koshy
MP34	Post-Transplant Survival and Outcomes Following Normothermic Regional Perfusion Versus Direct Procurement for DCD Heart Transplantation: A Systematic Review and Meta-Analysis	Muhammad Raza Sarfraz
MP35	Shadow Modelling of Planned Arrival Windows for National Organ Retrieval Services: Insights from the SCORE Programme	Sarah Beale
MP36	Does physiotherapy improve lung optimisation rates in organ transplantation: A retrospective observational cohort study.	Lucy Cawtheray
