

PROGRAM WoCoVA 2018

WEDNESDAY 20 June 2018

General Hall (1000) (ground floor)			Vandsalen (400) (ground floor)			Carstensen (400) (lower floor)					
09:30 - 10:00			Opening remarks			Ton Van Boxtel (NL)					
10:00 - 11:00			I-01			Keynote address: Past, current and future challenges in infection control: from local to global actions			Didier Pittet (CH)		
Session			Plenary Session 1: The patient and the bundles								
11:00 - 11:45			I-02			Patient first: do we consider the patient in our insertion bundles ? (panel discussion)			Chair: Claire Rickard (AU) Evan Alexandrou (AU), Nancy Moureau (US), Liz Simcock (GB)		
11:45 - 12:30			I-03			Patient first: do we consider the patient in our maintenance bundles? (panel discussion)			Chair: Ton van Boxtel (NL), Josie Stone (US), Kathy Kokotis (US), Samantha Keogh (AU)		
12:30 - 13:00			break								
13:00 - 14:00			satellite symposium			3M			satellite symposium		
			Patient Safety: Creating Meaningful Change in High Variability Environments						BD		
14:00 - 14:30			break						satellite symposium		
Session			1 - Minimizing the risk of thrombosis			Chair: Andrew Bulmer (AU)			2 - The newborn		
14:30 - 15:00			I-04			Catheter to vein ratio today			Chair: Agnes van den Hoogen (NL)		
			Mauro Pittiruti (IT)						Giovanni Barone (IT)		
15:00 - 15:30			I-05			A patient oriented approach to management of thrombosis			Christian Breschan (AT)		
15:30 - 15:45			O-01			Brazilian experience 2017: PICC-related thrombosis			Jessica Marchetti (US)		
15:45 - 16:00			O-02			Reducing catheter-related thrombosis using a risk reduction tool centered on catheter to vessel ratio			Jinai He (CN)		
16:00 - 16:30			break								
Session			4 - The patient with a peripheral venous access			Chair: Josie Stone (US)			5 - Minimizing occlusions: flush & lock policies		
16:30 - 17:00			I-10			PIV bundles for preventing complications			Chair: Samantha Keogh (AU)		
17:00 - 17:30			I-11			PIV, mini-midlines and midline catheters: towards a common terminology			Andrew Bulmer (AU)		
17:30 - 17:45			O-07			An intervention to decrease short-term peripheral vascular catheter-related bacteraemia. The impact on incidence and mortality			Sergio Bertoglio (IT)		
									Andrew Jackson (GB)		
17:45 - 18:00			O-08			'Phlebitis Zero': working to reduce the complications associated with short peripheral intravenous catheter			Alexandra Hawthorn (AU)		

THURSDAY 21 June 2018

General Hall (1000) (ground floor)			Vandsalen (400) (ground floor)			Carstensen (400) (lower floor)			Ballonsalen/Blomstersalen (280) (ground floor)										
Plenary Session 2: Do guidelines consider the patient?																			
Session	08:30 - 09:10	I-16	The patient in the INS standards of practice	Chair: Josie Stone															
	09:10 - 09:50	I-17	The patient in the CDC guidelines	Mary Alexander (US)															
	09:50 - 10:30	I-18	The patient in the British guidelines	Naomi O'Grady (US)															
	10:30 - 11:00		break	Andy Bodenharn (GB)															
Session	7 - Minimizing dislodgement			Chair: Giancarlo Scoppettuolo (IT)		8 - The child and the Venous Access Device			Chair: Daniele Biasucci (IT)		9 - The patient who needs dialysis, apheresis and ultrafiltration		Chair: Kasper Jepsen (DK)						
11:00 - 11:30	I-19	Securement of PIV	Nicole Marsh (AU)		I-21	The increasing role of ultrasound guided PICCs in children		Nicola Disma (GB)		I-23	Which catheter for short and long term dialysis?		Jan Tordoir (NL)		PP-01	Poster pitches 1-10			
11:30 - 12:00	I-20	Securement of PICC, FICC and CICC	Liz Simcock (GB)		I-22	Catheter securement and catheter dressing in pediatric patients		Tricia Kleidon (AU)		I-24	Special needs for blood exchange: apheresis, ECMO, ultrafiltration		Fulvio Pinelli (IT)		V-01	Video session		Chair: Peter Carr (AU), Jack LeDonne (US)	
12:00 - 12:15	O-13	PICC migration - a problem of the past: Cross-sectional and health-economic comparison of Adhesive and Subcutaneous Engineered Stabilization Devices for Securing PICCs			Dymna McParlan (GB)		O-15	Implementation of a difficult venous access (DIVA) pathway		Evan Alexandrou (AU)		O-17	Be a lion and 'R.O.A.R.' to save the veins (and the lives) of children with kidney disease		Rowena Lalji (GB)				
12:15 - 12:30	O-14	Suture-less central venous fixation - The time is now			Rihard Knafelj (SI)		O-16	Impact of a dedicated vascular access and infusion therapy team on the reduction of central line-associated bloodstream infections in pediatric patients		Ricardo Zimmerman (BR)		O-18	Endovascular Treatment of Central Venous Stenosis and Occlusion: Vascular Access for Hemodialysis		Demet Unal (TR)				
12:30 - 13:00	break																		
13:00 - 14:00	satellite symposium Ultrasound and ECG: Better Tools, Smarter Decisions, Advanced Care			B. Braun		satellite symposium		BD		satellite symposium		ICU Medical		satellite symposium		Smith Medical			
14:00 - 14:30	break													satellite symposium Advancing Peripheral Intravenous Vascular Access - Opportunities and Early Experience with Closed System Catheters					
Session	10 - The patient and the PICC: minimizing complications			Chair: Karin Johansson (SE)		11 - Minimizing intraluminal contamination			Chair: Marguerite Stas (BE)		12 - The material of the devices			Chair: Kathy Kokotis (US)					
14:30 - 15:00	I-25	The state of the art of PICC insertion		Ton van Boxtel (NL)		I-27	The role of the antibacterial lock		Marcia Ryder (US)		I-29	New and old materials with antibacterial or antithrombotic action		Samantha Keogh (AU)		PP-02	Poster pitches 11-20		

15:00 - 15:30	I-26	Choosing the most appropriate PICC, in the patient's interest	Tricia Kleidon (AU)	I-28	Needle free connectors, port protectors and infection risk today	Giancarlo Scoppettuolo (IT)	I-30	Silicon vs polyurethane in 2018	Mauro Pittiruti (IT)
15:30 - 15:45	O-19	Clinical outcomes related to over the wire catheter exchange in PICC reinsertion	Adam Suleman (CA)	O-21	30% ethanol - an effective and safe catheter lock solution	Nisha Gupta (US)	O-23	A cost effectiveness analysis of BioFlo® compared to PowerPICC Solo® peripherally inserted central catheters. The Ottawa Hospital evaluation	Sheryl McDiarmid (CA)
15:45 - 16:00	O-20	Use of peripherally inserted central line (PICC) in a tertiary care cancer centre in India	Meere Sharad (IN)	O-22	CVAD lock solutions: the debate, the triple threat and the solution	Jocelyn Hill (CA)	O-24	Mid-clavicular lines, a safe option: 4-years experience	Victoria Armereros Yeguas (ES)
16:00 - 16:30	break								
Session	13 - The patient and the choice of the device Chair: Russell Nassof (US)			14 - Tip navigation Chair: Ulf Teichgräber (DE)			15 - Indications and advantages of glue Chair: Nicole Marsh (AU)		
16:30 - 16:45	I-31	The Magic Paper: Do you believe in magic? (point-counterpoint 1)	Nancy Moureau (US) vs. Mauro Pittiruti (IT)	I-33	Ultrasound for tip navigation	Daniele Biasucci (IT)	I-35	Tissue Adhesive; A new tool for your Vascular Access Toolbox	Marcia Wise (US)
16:45 - 17:00				I-34	Electromagnetic methods for tip navigation: which evidence?	Antonio LaGreca (IT)	I-36	Glue for avoidance of bleeding and bacterial contamination	Gloria Ortiz Miluy (ES)
17:00 - 17:15				O-25	Empathy, the human technology	Mercedes Carrillo Arahuetes (ES)	O-27	Right femoral chemotherapy port-a-cath insertion	Morteza Khavarni Zadeh (IR)
17:15 - 17:30	I-32	The role of the patient in choosing the device (panel discussion)	Nancy Moureau (US)	O-26	Three types of Peripheral Intravenous Catheter Failure happening in hospital right now; 1: failure to appropriately use; 2: failure to insert on the first attempt and 3: post insertion failure	Peter Carr (AU)	O-28	Over-the-Wire Technique vs. Direct Catheter Insertion in Insertion of Peripherally Inserted Central Catheter	Deniz Kasiko (DE)
17:30 - 17:45			Kathy Kokotis (US)						
17:45 - 18:00			Karin Johansson (SE)						

FRIDAY 22 June 2018

General Hall (1000) (ground floor)				Vandsalen (400) (ground floor)				Garstensen (400) (lower floor)					
Session		16 - The patient and the CICC: minimizing complications		Chair: Antonio LaGreca (IT)		17 - The patient and the dressing of the exit site		Chair: Carmel Streater (GB)		18 - The patient and the totally implantable venous access device		Chair: Christian Dupont (FR)	
08:30 - 09:00		I-37	The state of the art of CICC insertion	Jack LeDonne (US)		I-40 Skin Matters: Impact of Hospital-Acquired Skin Injuries in the Adult Patient		Gaston Cartagena (US)		I-43 The state of the art of port insertion		Ulf Teichgräber (DE)	
09:00 - 09:30		I-38	A new approach to CICC: the ZIM	Mauro Pittiruti (IT)		I-41 Skin lesions in children and neonates		Tricia Kleidon (AU)		I-44 PICC-port today		Evangelos Konstantinou (GR)	
09:30 - 10:00		I-39	Infracavicular approach in 2018: ultrasound access to the axillary vein	Massimo Lamperti (AE)		I-42 Different transparent dressings, different problems		Nicole Marsh (AU)		I-45 Goodbye, fluoroscopy!		Fulvio Pinelli (IT)	
10:00 - 10:15		O-29	Intravascular devices and malignant wounds: focus on blood-stream infections	Irène Kriegel (FR)		O-31 Potent contamination of tourniquets used by health professionals in peripheral venipuncture: results from a scoping review		Anabela Salgueiro Oliveira (PT)		O-33 Patient information after port implantation : all he wants and needs to know. A once failing method can lead to a successful and harmonized protocol indeed!		Seamy Ayadi (FR)	
10:15 - 10:30		O-30	Intravenous administration set (infusion tubing) replacement after 4 or 7 days is equally effective to prevent bloodstream infections (RSVP trial)	Emily Larsen (AU)		O-32 Impact Assessment of Stabilization Devices on CLABSI		Mark Rowe (US)		O-34 Introducing the top up catheter care (tucc) box to improve the care of long term vascular access devices (vads) in an acute hospital setting		Jackie Nicholson (GB)	
break													
Session		19 - Minimizing extraluminal contamination		Chair: Fredrik Hammarskjöld (SE)		20 - Tip location		Chair: Ken Symington (US)		21 - FICC - femorally inserted central catheters		Chair: Evan Alexandrou (AU)	
11:00 - 11:30		I-46	Skin antisepsis in 2018: the central role of chlorhexidine in alcohol	Giancarlo Scoppettuolo (IT)		I-48 Intracavitary ECG in 2018		Antonio LaGreca (IT)		I-50 FICC: materials and insertion technique		Matthew Ostroff (US)	
11:30 - 12:00		I-47	The importance of choosing the exit site	Nancy Moureau (US)		I-49 Ultrasound for tip location in adults, children and neonates		Massimo Lamperti (AE)		I-51 Which patients will benefit of a FICC?		Sergio Bertoglio (IT)	
12:00 - 12:15		O-35	Implementation and evaluation of peripheral intravascular catheter flushing practice: A stepped wedge cluster randomized trial	Samantha Keogh (AU)		O-37 tba		tba		O-39 Establishing a new standard of care for femoral lines: The mid thigh femoral PICC, indications, case studies and results from a 700 bed trauma center		Matthew Ostroff (US)	
12:15 - 12:30		O-36	A national evaluation of safety peripheral intravenous catheters (PIVC) in the National Health Service (NHS) (A Department of Health & Social Care Initiative)	Maya Aquino Guerrero (GB)		O-38 Comparing one year outcome of PICCs from a dedicated cancer treatment hospital in an emerging economy with published data from developed economy		Narendra Agrawal (IN)		O-40 PICC insertion via femoral vein at mid-thigh for patients with superior vena cava syndrome		Linfang Zhao (CN)	
break													
12:30 - 13:00						satellite symposium		BD		satellite symposium		Geistlich	
13:00 - 14:00		satellite symposium Filters Protect Patients From Harmful Particles		Pall Medical									
14:00 - 14:30		break											
Session		22 - RCTs and meta-analysis today		Chair: Evangelos Konstantinou (GR)		23 - The rare but 'difficult' complication		Chair: Mauro Pittiruti (IT)		24 - Ultrasound approach to the patient and to the device		Chair: Jiri Chavrat (CZ)	
14:30 - 15:00		I-52	Do Cochrane documents and other evidence-based documents consider the patient? (panel discussion)	Fredrik Hammarskjöld (SE) Peter Carr (AU) Marcia Ryder (US) Claire Rickard (AU)		I-53 The catheter malfunction due to a fibroblastic sleeve		Antonio LaGreca (IT)		I-55 Patients assessment by ultrasound: RaCeVA and RaPeVA		Fulvio Pinelli (IT)	
15:00 - 15:30						I-54 The PICC that does not come out		Liz Simcock (GB)		I-56 Ultrasound detection of early and late complications		Daniele Biasucci (IT)	
break													
Session		Planary Session 3: The World Perspective		Chair: Ton Van Boxtel (NL)									
15:30 - 16:15		I-57	Protecting the patient: a multidisciplinary, multidisciplinary, international goal (panel discussion)	Russel Nassof (US), Christian Dupont (FR), Jiri Chavrat (CZ), Fredrik Hammarskjöld (SE), Rui Casaca (PT), Kasper Jensen (DK)									
16:15 - 16:30		Closing remarks		Ton van Boxtel (NL)
