

Wednesday, 13 September 2017					Thursday, 14 September 2017					Friday, 15 September 2017											
09:00 - 09:30					Plenary Lecture: Martin Biel					Plenary Lecture: Lora Heisler				09:00 - 09:30							
09:30 - 10:00	EYPS													09:30 - 10:00							
10:00 - 10:30		Teaching Symposium				Poster Presentations/ Coffee Break					Poster Presentations/ Coffee Break				10:00 - 10:30						
10:30 - 11:00															10:30 - 11:00						
11:00 - 11:30	Coffee Break					<i>Symposium 5:</i> Microvascular mechanisms under different pathophysiological conditions (Kindly supported by the SPS)	<i>Symposium 6:</i> Exhale negativity-chloride currents in the cardiovascular system (Kindly supported by the SPS)	<i>Symposium 7:</i> Recent advances in molecular physiology: metabolomics and beyond	<i>Symposium 8:</i> Pain induced by local acidosis	<i>Symposium 12:</i> Cardiovascular oscillations: from signal to physiological interpretation	<i>Symposium 13:</i> Place navigation in dynamic world in healthy and disordered brain	<i>Symposium 14:</i> Current trends in cell therapy for functional recovery of the diseased heart (Kindly supported by the DPG)	<i>Symposium 15:</i> The cellular and molecular mechanisms controlling skeletal muscle plasticity	11:00 - 11:30							
11:30 - 12:00	EYPS																	11:30 - 12:00			
12:00 - 12:30																		12:00 - 12:30			
12:30 - 13:00	Lunch für EYPS & Teaching Symposium participants									Lunch				12:30 - 13:00							
13:00 - 13:30					Lunch					Lunch				13:00 - 13:30							
13:30 - 14:00	Opening Ceremony													13:30 - 14:00							
14:00 - 14:30	Plenary Lecture "Rising star lecture"				<i>Symposium 9:</i> Brute force and signaling: concepts in vascular mechanotransduction (Kindly supported by the DPG)	<i>Symposium 10:</i> Intracellular Ca2+-compartments in cardiac physiology and disease	<i>Symposium 11:</i> Pancreas: Physiology and disease		<i>Symposium 16:</i> Monocyte subsets in cardiovascular biology (Kindly supported by the AVBO)	<i>Symposium 17:</i> Exciting mechanisms of neuroglial excitability	<i>Symposium 18:</i> Retina Degeneration: New technologies for the bionic retina		14:00 - 14:30								
14:30 - 15:00																	14:30 - 15:00				
15:00 - 16:00	<i>Symposium 1:</i> Cerebrovascular disorders: Pathophysiological and pharmacological approaches	<i>Symposium 2:</i> Structure and function in islets of Langerhans in health and disease	<i>Symposium 3:</i> Mitochondrial and cell membrane Ca2+ and Na+ signaling in health and disease (Kindly supported by The Physiological Society (UK))	<i>Symposium 4:</i> The meeting point: transcription factors in the pulmonary circulation																	15:00 - 16:00
16:00 - 17:00					Poster Presentations/ Coffee Break					Poster Presentations/ Coffee Break				16:00 - 17:00							
17:00 - 17:15	Coffee Break				Public Lecture: Bente Klarlund Pedersen					Plenary Lecture: Barbara Demeneix (16:30-17:30)											
17:15 - 18:00	FEPS Keynote Lecture: Marian Joëls (17:15-18:15)									Closing Session (17:30-17:45)				17:15 - 18:00							
18:00 - 19:00														18:00 - 19:00							
19:00 - 20:00	Reception at the Vienna City Hall				Congress Dinner									19:00 - 20:00							
20:00 - 21:00														20:00 - 21:00							
21:00 - 22:00														21:00 - 22:00							
22:00 - 23:00														22:00 - 23:00
