

ASMS/ASPS Annual Meeting

October 28-30, 2022

Boston, Massachusetts

maxface.org

ASMS Programming and Events at Plastic Surgery: The Meeting 2022

All ASMS members and those with an interest in ASMS are invited to stop by the ASMS Lounge (BCEC Room 251) on Friday, Saturday and Sunday

THURSDAY, OCTOBER 27

- | | | |
|----------------|---|---------------|
| 1:30 -2:30 pm | Craniofacial Abstracts Session 1 | BCEC, 257B |
| 3:00 – 4:30 m | Multidisciplinary Mandible Reconstruction
<i>This multidisciplinary panel discussion will address novel techniques in mandible reconstruction. The use of virtual surgical planning, various flap choices, and varying donor sites will be described.</i>
Eduardo Rodriguez MD, Moderator
Panelists: Noopur Gangopadhyay MD, Jamie Levine MD, Eamon O'Reilly MD | BCEC, 153 ABC |
| 3:00 -4:30 pm | Craniofacial Abstracts Session 2 | BCEC, 257B |
| 5:00 – 6:00 pm | Maximizing Aesthetic Outcomes in Aesthetic Orthognathic Surgery
<i>This panel will discuss considerations in orthognathic surgery that go beyond correction of malocclusion. Practical techniques to optimize facial aesthetics when manipulating the maxillofacial skeleton will be discussed.</i>
Henry Kawamoto MD, DDS, Moderator
Panelists: Derek Steinbacher MD, DMD, Jesse Taylor MD | BCEC, 153 ABC |
| 5:00 -6:00 pm | Craniofacial Abstracts Session 3 | BCEC, 257B |

FRIDAY, OCTOBER 28

- | | | |
|----------------|---|---------------|
| 8:00 – 9:00 am | Scope of Practice in Our Practices: What Have We Given Up and What Should We Reclaim?
<i>A panel discussion will review issues related to scope of practice and "turf battles," including those related to orthognathic surgery, facial reconstruction, aesthetic surgery, and other procedures.</i>
Jack Yu MD, Moderator
Panelists: Oluwaseun ("Seun") Adetayo MD, FAAP, FACS, Stephen Baker MD, Matthew Greives MD | BCEC, 253 ABC |
|----------------|---|---------------|

10:00 am-12:00 pm	Cleft Lip Repair At Home and Abroad <i>This session will focus on common techniques in cleft lip repair and how these can be safely and effectively performed in an academic tertiary care center as well as a resource poor global health setting. Strategies for teaching cleft lip repair techniques, including the use of surgical simulator models, will be discussed.</i> Delora Mount MD, Lead Roberto Flores MD, Joyce McIntyre MD, Jordan Swanson MD, MSc, Raj Vyas MD	BCEC, 153ABC
10:00 am-12:00 pm	Craniofacial Abstracts Session 4	BCEC, 257B
1:30-3:00 pm	Facial Feminization Surgery: Beyond the Techniques This panel will include a comprehensive discussion of facial feminization surgery. The topics covered will go beyond review of innovative surgical techniques to include the history of this discipline, ethical considerations, long term results, management of complications, and more. Douglas Ousterhout MD, DDS, Moderator Panelists: Stacey Francis MD, Alexes Hazen MD, James Lee MD, John Henry Pang MD	BCEC, 153ABC
1:30 -3:00 pm	Craniofacial Abstracts Session 5	BCEC, 257B
SATURDAY, OCTOBER 29		
8:00 – 9:00 am	Evolution in Cleft Rhinoplasty <i>This session will focus on common techniques in cleft lip repair and how these can be safely and effectively performed in an academic tertiary care center as well as a resource poor global health setting. Strategies for teaching cleft lip repair techniques, including the use of surgical simulator models, will be discussed.</i> Arun Gosain MD, Moderator Panelists: Bahman Guyuron MD, Lori Howell MD, Jeffrey Marcus MD	BCEC, 153ABC
10:00 am-12:00 pm	Craniofacial Abstracts Session 6	BCEC, 257B
11:00 – 12:00	ASMS Converse Lecture Francis A. Papay, MD, Cleveland Clinic Foundation Introduced by Jack Yu, MD, ASMS President	BCEC, 253ABC
12:00 – 1:30	ASMS Annual Business Meeting	BCEC, 210B
1:30 -3:00 pm	Craniofacial Abstracts Session 7	BCEC, 257B
4:30 – 6:00 pm	Craniosynostosis 2.0 Panelists will discuss the use of specific perioperative protocols to yield optimal functional and aesthetic results in cranial vault reconstruction for craniosynostosis. John Persing MD, Moderator Panelists: Michael Alperovich MD, MSc, Lisa David MD, Brooke French MD Davinder Singh MD	BCEC, 258AB
4:30 -6:00 pm	Craniofacial Abstracts Session 8	BCEC, 257B
6:30 – 8:30 pm	ASMS PRESIDENTIAL RECEPTION AT Davio's Restaurant	

SUNDAY, OCTOBER 30

10:00 – 12:00	Cleft Palate Repair At Home and Abroad <i>This session will focus on common techniques in cleft palate repair and how these can be safely and effectively performed in an academic tertiary care center as well as a resource poor global health setting. Strategies for teaching cleft palate repair techniques, including the use of surgical simulator models, will be discussed.</i> Donald Mackay MD, Moderator Panelists: Ingrid Ganske MD MPA, Catharine Garland MD, Dale Podolsky MD, PhD, FRCSC, Jason Pomerantz MD, FACS, FAAP	BCEC, 153ABC
10:00 – 12:00	Craniofacial Abstracts Session 9	BCEC, 257B
2:00-3:00 pm	Enophthalmos, Hypoglobus, and Secondary Repair of NOE Fractures <i>This panel discussion will highlight topics related to the management of established orbital deformities using novel approaches, such as virtual surgical planning, and review surgical techniques and preoperative protocols.</i> S. Anthony Wolfe MD, Moderator Panelists: Amir Dorafshar MD, Anand Kumar MD	BCEC, 153ABC
2:00 – 3:00 pm	Craniofacial Abstracts Session 10	BCEC, 257B
3:30 – 4:30 pm	Facial Reanimation: Free Gracilis vs Temporalis Tendon Transfer <i>This panel will discuss static and dynamic approaches to the treatment of facial paralysis, including patient assessment and selection of surgical technique to optimize results.</i> Gregory Borschel MD, Moderator Panelists: Jaco Festekjian MD, John Siebert MD, Thomas Willson MD	BCEC, 153ABC
3:30 – 4:30 pm	Craniofacial Abstracts Session 11	BCEC, 257B
