

Thursday, 16 October 2025 - MASTERCOURSE PROGRAMME

07:00-17:00	Registration
08:30-08:45	Opening and technical introduction - Łukasz Dembiński & Nora Karara
08:45-08:55	Interactive case - yEAP/PTP
08:55-09:20	Spotting the invisible: mastering paediatric sepsis - Sarah Edwards
09:20-09:30	Interactive case - yEAP/PTP
09:30-09:55	Allergy emergencies - Kirsten Bayer
09:55-10:25	Coffee Break
10:25-10:35	Interactive case - yEAP/PTP
10:35-11:00	Get back to the rhythm - arrhythmias on the night shift - Anna Turska-Kmieć
11:00-11:10	Interactive case - yEAP/PTP
11:10-11:35	Call to the delivery room - how not to panic - Tomasz Szczapa
11:35-11:45	Interactive case - yEAP/PTP
11:45-12:10	Short of breath, short on time: mastering paediatric dyspnoea management - Bülent Karadağ
12:10-13:10	Lunch Break

Thursday, 16 October 2025 - MASTERCOURSE PROGRAMME

13:10-13:20 Interactive case - yEAP/PTP

13:20-13:45 **When words don't work - Ruth Löllgen**

13:45-13:55 Interactive case - yEAP/PTP

13:55-14:20 **Unconscious child: a step-by-step approach - Luigi Titomanlio**

14:20-14:30 Interactive case - yEAP/PTP

14:30-14:55 **Teens in trouble - adolescent medicine - Helena Fonseca**

14:55-15:25 Coffee Break

15:25-15:35 Interactive case - yEAP/PTP

15:35-16:00 **How to control a seizure - various seizures - Barbara Steiborn**

16:00-16:30 **Quiz Session - yEAP/PTP**

16:30-16:45 Break

16:45-17:15

Novo Nordisk - From Awareness to Action: How do we manage Obesity in adolescents ?
Context setting - Dr Swaroop
The increasing global burden of obesity in adolescents - Prof Mazur
Unlocking Solutions: The Promise of Semaglutide 2.4mg in Adolescent Obesity - Dr Irena Aldhoon Hainerová
Q&A

16:45-17:45

Pfizer

Friday, 17 October 2025

07:00-17:00	Registration		
09:00-09:30	Congress Opening & Welcome Address		
09:30-09:50	Children's health in Europe		
09:50-10:10	Pediatric Healthcare in Japan: Current Landscape, Challenges, and Future Perspectives – Junko Takita		
10:10-10:30	Milestones in neonatology the last 30 years and future perspectives – Tom Stiris		
10:30-11:00	Coffee Break, E-Poster Viewing, Exhibition		
	Emergencies & EUSEP	Psychiatry	Endocrine & Diabetes
11:00-11:20	Phoenix criteria for sepsis in children – Ruud Nijman	Screening and helping patients with suicide risk – Susanne Knoll	Pharmacology treatment in childhood obesity – strategy and future – Artur Mazur
11:20-11:30	SEDATION OF YOUNG INFANTS IN THE EMERGENCY DEPARTMENT BY NON-ANESTHESIOLOGISTS – IS IT SAFE? – Nitai Levy	Features of Manifestations of Anxiety, Emotional State and Psychosomatic Disorders in Children from Different Regions of Ukraine During the War – Natalia Molochech	Alarming High Rate of Diabetic Ketoacidosis in Polish Children with New-Onset Type 1 Diabetes Persisted After COVID-19 Associated Increase. – Barbara Pernak
11:30-11:50	Preparing and planning for the “What If’s” in an era of conflicts – Ayse Gultekingil	Changing the paradigm: Toxic stress affecting early childhood development – Manuel Katz	Behavioural patterns of control of diabetes in adolescence – Russel Viner

Friday, 17 October 2025

11:50-12:00	The usefulness of the new SOBIstat-F® device in children with severe acute asthma attacks in the emergency department: A randomized clinical trial. - Ricardo Iramain	Teen Psychotherapy Visits Following the Transition to Virtual Care - Rebecca Rossom	Narrative medicine approach for assessing the emotional experience of children and adolescents treated with rhGH and their caregivers - Cecilia Lugarà
12:00-12:20	ABC of swallowed foreign bodies - Łukasz Dembiński	When and how can a pediatrician use SSRIs? - Vincent Trebossen	Endocrine disorders in premature infants - Iwona Beń-Skowronek
12:20-12:30	Risk factors for traumatic brain injury in young children with presenting the emergency department greater than 24 hr post injury - DO KYUN KIM	The impact of the COVID-19 pandemic on self-harm referrals in children and adolescents presenting to CAMHS emergency services in South West London - Nighat Nadeem	Single Point Insulin Sensitivity Estimator (SPISE) as marker of insulin resistance in children and adolescents with overweight and obesity: a pilot study - Giovanni Luppino
12:30 - 12:50	EBP Awards Ceremony		
12:50-13:05	Break		
13:05 - 14:05	Nestle - Navigating the Challenges of CMPA Diagnosis: Supporting Parents and Healthcare Professionals		
13:30 - 14:30	Lunch Break, E-Poster Viewing, Exhibition		

Friday, 17 October 2025

	Cardiology	Neurology & EPNS	WHO
14:30-14:50	Clinical diagnostic workflow of cardiomyopathy in children – new European guidelines – Lidia Ziółkowska	Neurological red flags – Barbara Steiborn	14:30-14:45 Improving quality of primary health care for child and adolescents – Susanne Carai
14:50-15:00	Absolute Eosinophil Count as a Diagnostic Aid for Kawasaki Disease in Febrile Children – Chih-Min Tsai	Comparison of Serum Fibrinogen-Albumin Ratio Among Children with Autoimmune and Infectious Encephalitis Aged 1-14 years – Harikrishnan Kodamana	14:45-14:55: Pediatric Palliative Care and Real-Time Evacuation During Armed Conflict: Lessons From Misto Dobra (City of Goodness), Ukraine – Anna Kobylarz
15:00-15:20	Risk of sudden cardiac death in children with hypertrophic cardiomyopathy – Juan Kaski	Functional neurological symptom disorder – Kenneth Yong	14:55-15:15 Priorities for child and adolescents health and well-being – results of a survey – Sophie Jullien
15:20-15:30	Cowden Syndrome Due to PTEN Mutation in a Child with Complex CHD: Diagnostic Clues Beyond the Heart – Andriana Malska	Early Quantitative EEG Characteristics and Maturation Patterns in Healthy Preterm Infants – Jiaqi Li	15:15-16:25 Challenges in the work of a pediatric gynecologist in the face of a changing world. – Marta Florea

Friday, 17 October 2025

15:30-15:50

Current diagnostic and therapeutic methods for myocarditis in children – Franziska Seidel

Advances in genetic diagnostics – Robert Śmigiel

15:25-15:40: The Youth Alcohol Network for the Evidence into Action Alcohol Project (EVID-ACTION) – Ann de Guchtenaere

15:50-16:00

Long QT Syndrome in a Paediatric Patient Presenting with Diarrhoea and Suspected Drug Induced QT Prolongation – Hafis Abdulrauf

Beyond Bedtime: Sleep Insufficiency and Autism Risk in Indonesian Children – Priscilla Kusumawardhani

15:40-16:00: Panel Discussion – Making it happen: turning the WHO Strategy for child and adolescents health and well-being into practice – Berthold Koletzko, Sophie Jullien & Susanne Carai

16:00-16:30

Coffee Break, E-Poster Viewing, Exhibition

Inborn & Metabolic Diseases

Climate Change & Planetary Health

Infectious Diseases and Vaccines & ESPID

16:30-16:50

Screening tests in newborns – Johannes Häberle

Planetary health in the climate crisis – Dirk Holzinger

A child on a trip to tropical countries – Robin Kobbe

16:50-17:00

Hyperinflammation and MPO-ANCA Vasculitis due to Loss of OAS2 Function – Rou Liu

Identifying barriers to climate action among pediatric healthcare professionals – A global survey – Praveen Sreekanthalal

Impact of Nirsevimab on ICU Admissions in RSV-Infected Children: Insights from the 2024-2025 RSV – Neeta Gupta Bhan

Friday, 17 October 2025

17:00-17:20	Phenylketonuria: new therapeutic options beyond diet - Maria Giżewska	Co-benefits and climate counselling in pediatric primary care - Laura Realì	RSV prevention - Simon Drysdale
17:20-17:30	The Burden of Genetic Diseases on Child Health in Uganda: A Study on the Prevalence and Impact of Sickle Cell Disease. - KALULE RICHARDS TEVIN	Clean Air, Healthy Childhoods: Innovative Clinical Responses to Environmental Health Inequalities - Fliss Stephenson	Addressing Vaccine Hesitancy in Pediatric Practice: Preliminary Findings from the Implementation of the IDEA Communication Model - Fabiana Nuccetelli
17:30-17:50	New chance for children with rare disorders - hematopoietic stem cell transplantation - Krzysztof Kałwak	TBC - Informed consent in paediatrics ??	Changing face of Mycoplasma infections in children in the post-pandemic period - Annemarie van Rossum
17:50-18:00	Clinical and Molecular Findings in 16 Patients with FGFR2-Related Allelic Craniosynostosis: A Single-Center Experience - Gizem Sengul Turan	Oral Presentation	Clinical Picture and Risk Factors of Invasive Group A Streptococcal Infections in Children in the Post-pandemic Period - Anna Mania
18:00-19:00	Welcome Reception		

Saturday, 18 October 2025

08:00-17:00

Registration

08:40-09:25

New evidence on infant feeding and atopic dermatitis risk
Evidence on the natural benefits of whole goat milk formula and the latest results on atopic dermatitis incidence in the first 12 months of life (the GraFFE Study).

09:25-09:40

Break

09:40-09:50

Signing ceremony of the contract with the Japanese Pediatric Society

09:50-10:10

Snapshot of children and adolescents' health and well-being in the WHO European Region - paving the way for the regional strategy - Sophie Jullien

10:10-10:30

Plenary Lecture - AI

AI

Sport medicine

Pulmonology & Allergy

10:30-10:50

AI tools in paediatric urgent care - Amelie Sabze

The role of pre-participation paediatric physical evaluation in preventing sudden athletes death - Anna Turska-Kmieć

Drug allergy - demystifying - Kirsten Bayer

10:50-11:00

Cortical Morphology and Morphometric Similarity Network Topology Alterations in Preterm Neonates: Insights from an East Asian Cohort - Ting Peng

A systematic review and meta-analysis of the association between vitamin D and cardiorespiratory fitness - Chen Chen

Analysis of pulmonary sequestration cases, based on the 11-year birth defects surveillance data of Changsha hospitals - wang wei-dong

11:00-11:20

Is it ever OK to use large language models in research? Where do we draw the line? - Hania Szajewska

Relative energy deficiency in sport - Emily Todd

Indoor air pollution in schools and kindergartens and new evidence of harm to child health - Arunas Valiulis

Saturday, 18 October 2025

11:20-11:30	The European Paediatric Translational Research Infrastructure (EPTRI) - Donato Bonifazi	Effects of Exercise on Depression in Adolescent Patients with Obesity and T2D - Michael Yafi	Dexamethasone in Acute Bronchiolitis- A Randomized Controlled Trial - DEXTER Trial - Atul Jindal
11:30-11:50	AI in patient care - opportunity or threat? - Adamos Hadjipanayis	Pediatric Sport-Related Concussion - Silvia Bressan	Cystic fibrosis: recent advances and challenges - Bülent Karadag
11:50-12:00	Oral Presentation	Strategies for promoting healthy lifestyles in children -Singapore initiatives - Rajeev Ramachandran	Smoking and young lungs: What do early radiological findings tell us? - Demet Tas
12:00-12:30	Coffee Break, E-Poster Viewing, Exhibition		
	Hematooncology	Nutrition	Gastroenterology
12:30-12:50	Paediatric palliative care - Katrin Scheinemann	Coffee, energy drinks and sweeteners in children's diet - Michał Brzeziński	Faecal incontinence - Marcin Banasiuk
12:50-13:00	Cerebrovascular Toxicity in Childhood Leukemia : A Retrospective Study - Agata Rocka	From Bottle to Bodyweight: The Impact of Early Excessive Milk Intake on Nutritional Status in Later Infancy - Gisti Riyanti	Effect Of Helicobacter Pylori on Inflammatory Parameters, Attack Frequency, and Attack Duration in Children with Familial Mediterranean Fever - Mehmet Agin
13:00-13:20	Anticoagulants in practice - Cornelia Heleen van Ommen	Human milk nutrition and infant development - Miguel Sáenz de Pipaón	Microbiota and biotics in Gut-Brain interaction disorders in pediatrics - Rodrigo Vazquez

Saturday, 18 October 2025

13:20-13:30	Transplantation-associated thrombotic microangiopathy: the first single-center prospective study in children treated with allogeneic hematopoietic stem cell transplantation in Poland - Tomasz Jarmolinski	Comparison of Daily Supplementation of 800IU versus 400IU Vitamin D3 in Term SGA Infants: An Open Label Randomized Controlled Trial - Sudarshan J	Laboratory assessment of migration speed for enteric neural stem cells - Jeng Chang Chen
13:30-13:50	Cellular therapies in paediatric oncology - Tomasz Szczepański	Young Child Formula - is there a benefit? - Berthold Koletzko	Chronic pancreatitis - Grzegorz Oracz
13:50-14:00	Non-anemic Iron Deficiency in Early Childhood: Associations with Emotional Symptoms and Attention Performance in a Three-Center Clinical Study from Türkiye - Süleyman Yıldız	Complementary Effects of Synthetic Human Milk GM3 Ganglioside and 2-Fucosyllactose on Gut Health: an Ex-Vivo Study. - Marie-Claire Fichot	Effects of Feeding Bottles with Different Venting Methods on Infant Gastrointestinal Discomfort: A Multicenter Randomized Controlled Trial - Yang Liu
14:00-15:00	Lunch Break, E- Poster Viewing, Exhibition		
	Diagnostics	Pediatricians	Ethics
15:00-15:20	Point-of-care ultrasound to improve the quality of your practice -Ron Berant	How to ask and answer - duty on call - Ruth Löllgen	When families and clinicians disagree - Joe Brierley
15:20-15:30	Soluble α -Klotho and FGF23 levels in Childhood Cancer Survivors: Association with Nephroand Cardiotoxicity. - Katarzyna Taranta-Janusz	Our Journey: Strengthening the Training Programme for Paediatric Resident Clinicians - Which Measures were Effective? - Navjot Purewal	The Role of Cybersecurity in Safeguarding Telemedicine Practices: Ethical and Practical Implications in Paediatric Care - Iliada Evripidou

Saturday, 18 October 2025

15:30-15:50	Lymphadenopathy: current approach to management – Jan Styczyński	How to pass the European Pediatrics Exam – Tomasz Szatkowski	Children's rights in healthcare – Ann de Guchtenaere
15:50-16:00	Early Detection and Diagnosis of Long-COVID Nephropathy in Children – Nazar Petritsa	THE SCHWARTZ ROUND AT THE NEOANATAL UNIT IS DRIVING IMPROVEMENTS IN BOTH STAFF WORKING ENVIRONMENTS AND QUALITY OF PATIENTS CARE – Lizaveta Collins	Using Unified Modeling Language (UML) to Bridge Clinical Practice and Health Data Interoperability in Paediatrics – Liesbeth Siderius
16:00-16:30	Coffee Break, E-Poster Viewing, Exhibition		
	Adolescent Medicine	Neonatology & EPNS	Therapy
16:30-16:50	Integrating sleep into child and adolescent health – Perran Boran	Seizures or non-seizure: diagnosis and management – Maria Roberta	Antibiotic therapy – less is more – Zach Grossman
16:50-17:00	Impact of Adolescent Obesity on Adult Metabolic and Cardiovascular Outcomes – San-Fang Chou	Optimizing Endotracheal Tube Depth: A Randomized Trial Comparing Nasal-Tragus Length and Weight-Based Formulas in cohort of VLBW Neonates in India – ANJALI JOSHI	Oral domperidone versus placebo for enhancing exclusive breastfeeding among post-lower segment caesarean section mothers – a double-blind randomized controlled trial – Adhisivam Bethou

Saturday, 18 October 2025

17:00-17:20	HPV vaccine hesitancy - Akihiko Saitoh	Long-term cardiovascular and renal complications of prematurity - Przemko Kwinta	New challenges and solutions in antibiotic resistance - Shai Ashkenazi
17:20-17:30	ADOLESCENT SUBSTANCE USE IN A NSW METROPOLITAN HEALTH SERVICE - Malini Rajandran	Biomarkers predict Cerebral Palsy and Cognitive Delay in Infants with Moderate-Severe Hypoxic-Ischaemic Encephalopathy; Secondary analysis of HEAL randomised controlled trial - Danielle Clifford	COMBINATION THERAPY WITH FUROSEMIDE AND METOLAZONE AS COMPARED TO FUROSEMIDE ALONE FOR TREATMENT OF EDEMA IN CHILDREN WITH NEPHROTIC SYNDROME: A RANDOMISED CONTROL TRIAL - Joseph John
17:30-17:50	How to talk to a teenage patient - Helena Fonseca	Intrauterine exposure - not just alcohol and nicotine - Süleyman Yildiz	New perspectives in the treatment of type 1 diabetes - TBC
17:50-18:00	Prospective Associations Between Adolescent Sleep Characteristics and Depression, Anxiety, and Their Co-Occurrence in Early Adulthood: A 9-Year Cohort Study - Cai Thi Thuy Nguyen	Effect of prophylactic sodium supplementation on prevention of late onset hyponatremia in neonates less than 32 weeks-an RCT - Amrutha Visalakshi S	PCR vs Stool Culture in Pediatrics Diarrhea: Impact on Antibiotics Treatment Decisions - Gida Dahamshi
From 19h00	Networking Dinner		

EAP 2025 CONGRESS PROGRAMME

Sunday, 19 October 2025

08:00-13:00	Registration		
	WORKSHOP SESSION	WORKSHOP SESSION	WORKSHOP SESSION
08:00-09:30	Choosing Wisely	Ultrasound	VR workshop
09:45-11:15	Burnout in pediatrics – how to maintain work-life balance and well-being – Süleyman Yildiz	Infant resuscitation – Charles Christoph Roehr	Physiological based cord clamping – Arjan Pas
11:15-11:45	Coffee Break, Poster Viewing, Exhibition		
11:45-12:00	Closing Ceremony
