

**7th Pacific Rim Conference
Brain Health & Intersectionality
Programme at a Glance**

WEDNESDAY 2nd JULY

9.00 – 4.00 Workshops	
9.00-12.00 Workshop 1 Venue: Boulevard 1 Chair: Kerry Pike Professor Vonetta Dotson	9.00-12.00 Workshop 2 Venue: Boulevard 2 A/Prof Dana Wong & Prof Jennifer Fleming <i>Cognitive Rehabilitation Introductory Workshop</i>
	9.00-12.00 Workshop 3 Venue: Boulevard 3 Chair: Areta Kennedy, Mandy Nielson & Sally Wooler <i>What about me? Incorporating close other support and involvement in rehabilitation after moderate-severe ABI: Strategies and Benefits</i>
10.30-10.45	Morning Tea Break
12.00-1.00	Lunch
1.00-4.00 Workshop 4 Venue: Boulevard 1 Chair: Kerry Pike Jonathan Evans	1.00-4.00 Workshop 5 Venue: Boulevard 2 A/Prof Dana Wong & Prof Jennifer Fleming <i>Cognitive Rehabilitation Advanced Workshop</i>
	1.00-4.00 Workshop 6 Venue: Boulevard 3 Chair: Vince Oxenham Harvey Jones, Sara Isaak, Hannah Miller, Anique Muttiah & Erica Mahoney <i>Treating Functional Neurological Disorders Using an Interdisciplinary Approach</i>
2.30-2.45	Afternoon Tea Break
4.00	Workshops CLOSE
5.30-7.00	Opening Night Venue: Boulevard Auditorium Chair: Jennifer Fleming
5.30 – 6.15	ASSBI Presidential Talk: A/Prof Barbra Zupan (recorded)
6.15 – 7.00	Lived Experience Speaker: Mr Scott McLean
7.00 – 9.00	Welcome Reception Venue: Boulevard Foyer

THURSDAY 3rd JULY

8.00 – 8:30 Masterclasses		
Masterclass 1 Venue: Boulevard 1 Chair: How to communicate a diagnosis of dementia Bridget Regan	Masterclass 2 Venue: Boulevard 2 Chair: Autism, ADHD, and Neuroaffirming Care: Clinical Musings and Gentle Directions Marnie Cumner	Masterclass 3 Venue: Boulevard 3 Chair: Co-Designed, Lived-Experience Perspective Project for Client Self-Advocacy Hannah Grandt, Ty Welsh & Marley Titasey

8.45 – 10.30 PLENARY 1
Venue: Boulevard Auditorium
Chair:

8.45 – 9.30

8.45	Welcome to Country
9.00	Opening remarks from conference co-convenors
9.15	Official Welcome from Presidents and Chairs of INS, ASSBI and CCN

9.30 – 10.30 Lived Experience Panel

10.30 – 11.00 Morning Tea break – opportunity to see exhibitors

11.00 – 12.30 CONCURRENT SESSIONS 1 – 4

Session 1: Challenging Dominant Discourse Venue: Boulevard Auditorium Chair: Jody Kamminga	Session 2: Paediatrics Venue: Boulevard 1 Chair:	Session 3: ABI in the Community Venue: Boulevard 2 Chair:	Session 4: Assessment Issues Venue: Boulevard 3 Chair:
Orals 11:00 - Judy Tang: Intersectionality in Asia-Pacific Neuropsychology: Advancing Inclusive Brain Health Across Diverse Cultures 11:15 - Kevin Thomas: A Framework for Transforming Neuropsychology Training in South African Higher Education Settings 11:30 - Theshaya Naidoo: A Neuropsychological Perspective on the Effects of Systemic Racism in Black Populations Datablitz 11:45 - Tahlia Bragg & Darlingtina Esiaka: Low Hanging Fruit: Racial and Ethnic Terror as a Global Structural & Social Determinants of Brain Health 11:50 - Shanique Meyler: Advancing Equitable Brain Health: A Global Call for Psychometric Validation Standards in Indigenous and Minoritized Populations 11:55 - Talamahe'a Tupou -	How-To Session 11:00 - Rebecca Slykerman: How to integrate a strengths-based, family-centred, and neuro-affirming approach in paediatric neuropsychological report writing Orals 11:30 - Taylor Jenkin: Co-designing a knowledge translation intervention to support management of agitation in the early stages following paediatric brain injury 11:45 - Marnie Drake: Mapping Return-to-School Pathways After Paediatric Acquired Brain Injury: Implementation Planning for TeachABI-Australia 12:00 - Mridula C Jobson: Retraining Intelligence, Cognitive, Behavioural and Emotional Functioning in Children (Female) With Congenital Heart Disease Datablitz	Orals 11:00 - Aly Cazanis: Do the experiences of cyberscam victims with and without acquired brain injury differ? A qualitative comparison study 11:15 - Kimberly Chew: Evaluating the Feasibility of a Co-designed Cyberscam Psychosocial Recovery Intervention Framework for People with Acquired Brain Injury 11:30 - Megan Topping: Exploring Available Tools and Measures for Evaluating the Quality of Paid Disability Support Services: A Scoping Review 11:45 - Karen Saunders: A study of the epidemiology of Traumatic Brain Injury in relation to place: Kent County, UK to identify individual and geographical risk factors, social determinants of health and financial impacts 12:00 - Di Winkler: NDIS Participant centred design and scaling innovation in	Orals 11:00 - Leila Nategh: Eye-Tracking Insights into Processing Speed in the Symbol Digit Modalities Test 11:15 - Sanne Franzen: Development of a Quality of Education Measure for Cognitive Assessment in Diverse Populations 11:30 - Mathew Staiois: Exploring processing speed differences across Asia, Europe, Central and North America: A cross-national comparison of 22 WAIS-IV normative data sets 11:45 - Carla Schiemer: Identifying EEG markers related to acute cannabis consumption: A systematic review 12:00 - David Foxe: Utility of the Addenbrooke's Cognitive Examination-III Online Dementia Screening Tool Datablitz 12:15 - Jamie Berry: Actual and clinician-predicted IOP-29 scores in a clinical setting 12:20 - Jesse Shapiro:

Voyaging Towards Decolonizing Neuropsychology: Culturally Responsive Care for a Native Hawaiian and Pacific Islander Youth Athlete Orals 12:00 - Felicity Bright: Strengthening connections and reducing trauma for people with aphasia after stroke 12:15 - Halima Nalaye: Rehabilitation through a cultural lens: the experience of culturally and linguistically diverse traumatic brain injury survivors in Australia	12:15 - Nara Andrade: Childhood Adversity and Behavioral Problems in Children with Autism Spectrum Disorder Raised in Urban Poverty in Brazil 12:20 - Tricia Williams: Promoting Equitable Neuropsychological Monitoring and Follow Up Programs among Neonatal Cohorts 12:25 - Kate Bray: Exploring parent-child discrepancies in persistent post-concussive symptom reporting	housing and support to improve the outcomes of people with neurological disability Datablitz 12:15 - Stacey Oliver: A qualitative study of the experience of people with disability living in 10+1 apartments 12:20 - Sheree Lu: "I had to relearn how to use all the different apps": End user perspectives of technology-mediated communication and dynamic assessment in traumatic brain injury (TBI) 12:25 - Aishani Desai: A Pilot Study: Examining Neuropsychological Profiles in the Early stages Post-Traumatic Brain Injury and Functional Recovery One-Year Post Injury	Assessing the Landscape of Cognitive Assessment in Australia 12:25 - Hannah Cruickshank: Factorial invariance of the WAIS-5A&NZ across Australia and New Zealand
--	---	--	---

12.30 – 1.30 Lunch

1.30 – 3.00 CONCURRENT SESSIONS 5 – 8

Session 5: Co-Design Approaches Venue: Boulevard Auditorium Chair:	Session 6: Psychosocial difficulties In TBI – including Clinical Practice Guidelines Venue: Boulevard 1 Chair:	Session 7: Ageing and Dementia Venue: Boulevard 2 Chair:	Session 8: PD and IPV Venue: Boulevard 3 Chair:
How-To Session 1:30 - Sarah Knight: How To Use Co-Design Approaches in Clinical Research Settings Oral 2:00 - Emmah Doig: Co-design of virtual reality-based simulations with people with brain injury, clinicians and technology developers for use in inpatient rehabilitation Datablitz 2:15 - Rachelle Martin: Co-producing housing policy knowledge with disabled people in Aotearoa New Zealand: Inclusive processes to support equitable access, experiences and outcomes 2:20 - Rhianne Hoffman: Developing a co-designed narrative discourse intervention for inpatient rehabilitation post-Traumatic	Symposium 1:30 - Cynthia Honan: Clinical Practice Guidelines for the Management of Psychosocial Difficulties in Adults with Moderate-to-Severe Traumatic Brain Injury (TBI): Overview and Methodology 1:45 - Sarah Carrier & Dana Wong: Psychosocial Interventions for Mental Health Difficulties after Moderate-to-Severe Traumatic Brain Injury: A Systematic Review and Meta-Analysis and Guideline Recommendations 2:00 - Paul Gertler: Psychosocial interventions for behavioural difficulties after Moderate-to-severe Traumatic Brain Injury: A systematic review plus meta-analysis and guideline recommendations	Orals 1:30 - Kylie Radford & Lindy Moffat: Standing Tall with Our Mob Project (STOMP!): Implementing and evaluating community-led programs to promote brain health, active ageing and quality of life with Aboriginal peoples 1:45 - Fofi Constantinidou: Promoting Brain Health and Preventing Cognitive Decline in Vulnerable Populations: The Role of Multidimensional Screening Datablitz 2:00 - Sarah Haskard: Young to midlife adults: Knowledge and engagement in dementia risk reduction 2:05 - Marina Cavuoto: Associations of neighbourhood greenspace, walkability and crime with cognition and dementia risk	PD talks How-To Session 1:30 - Alexander Toster: Neuropsychological Evaluation for Parkinson's Disease Surgery: Methods and Consideration of Health Disparities Oral 2:00 - Emily McCann: Harmonising neuropsychological assessments to identify cognitive impairment in Parkinson's disease: A systematic review and critique Datablitz 2:15 - James King: Neuropsychologists' Role and Current Procedures for Evaluating Cognition in Parkinson's Disease: A Mixed Methods Australian Study

Brain Injury 2:25 - Adrienne Withall: Co-designing innovative cognitive serious games with older justice-involved people – The ASCAPE Study How-To Session 2:30 - Rachelle Martin: Co-producing knowledge with disabled people to inform inclusive policies: Methodological practices and recommendations for future use	2:15 - Holly Emery: Interventions for Social-Cognitive Difficulties following Moderate-to-Severe Traumatic Brain Injury: A Systematic Review and Clinical Practice Guidelines Orals 2:30 - Cheryl Kotzur: Therapeutic groups as a solution to service inequity in rural communities: Expanding access for people with acquired brain injury 2:45 - Hannah McGlashan: Group psychosocial interventions following acquired brain injury: A systematic review and meta-analysis of group process and outcomes	factor burden in middle-aged and older Australians 2:10 - Caroline Gurvich: Cognition during menopause Orals 2:15 - Jacqueline Owens: Association between Drive Safe Drive Aware and on-road driving assessments in individuals with progressive neurodegenerative disorders 2:30 - Sau Chi Cheung: Cognition and Social Cognition are Differentially Affected in Behavioural-variant FTD, 'Atypical' FTD and Autism Datablitz 2:45 - Natacha Cordonier: Tracking Empathy Loss in the Nonfluent and Logopenic Variants of Primary Progressive Aphasia: A Longitudinal Study 2:50 - Kayla Stefanidis: The assessment of cognitive function and medical fitness to drive in older adults: A qualitative study with general practitioners 2:55 - Zita Tse: Mahjong playing and successful ageing in Hong Kong's older population	2:20 - Nadeeka Dissanayka: Enhancing utility of neuropsychological evaluation for earlier and effective diagnosis of dementia in Parkinson's disease: PDCogniCare Project 2:25 - Alexia Pavlis: Understanding Behaviours of Concern (BOC) in a large metropolitan health service: A clinical audit of Code Grey and Code Black incidents and associated patient characteristics IPV Oral talks 2:30 - Jennifer Makovec Knight: Neuropsychological Outcomes of Intimate Partner Violence Related Brain Injury among Women Victim Survivors 2:45 - Carolina Bottari: Towards more equitable access to services for women victims of intimate partner violence and traumatic brain injury: cross-pollination of knowledge across healthcare, community, and socio-legal services
---	---	--	--

3.00 – 4.00 **Poster Session 1 and Datablitz Poster Session 4 and Break**

4.00 – 5.00 **PLENARY 2**
Venue: Boulevard Auditorium
Chair: Kerry Pike

4.00 – 5.00 **International Keynote Speaker - Vonetta Dotson (USA)**
Talk tbc

5.00 – 6.00 Brain Impairment Editorial Meeting

7.00 – 11.00 Student Networking Evening (venue tbc)

FRIDAY 4th JULY

8.00 – 8:30 Masterclasses		
Masterclass 4 Venue: Boulevard 1 Chair: ‘How To’ differentiate young-onset dementia from psychiatric conditions Priscilla Tjokrowijoto, Feiven Fan, Patrick Summerell, Jodi Samartgis, Joanna Neath, Wendy Kelso	Masterclass 5 Venue: Boulevard 2 Chair: Incorporation of patient preferences in psychotherapy with individuals recovering from traumatic brain injury Fred Pelletier	Masterclass 6 Venue: Boulevard 3 Chair: Stimulating the Brain Back to Life: Realising an Endogenous Therapeutic Network with VCS Trung Thành Ngô

8.45 – 10.30 PLENARY 3
Venue: Boulevard Auditorium
Chair:

8.45 – 9.45 International Keynote: Jon Evans (UK)
Talk tbc

9.45 – 10.30 National Keynote Speaker: Samantha Siyambalapitiya (AUS)
Talk tbc

10.30 – 11.00 Morning Tea break – opportunity to visit exhibitors

11.00 – 12.30 CONCURRENT SESSIONS 9 – 12 (90 mins)

Session 9: ABI Psychosocial Outcomes Venue: Boulevard Auditorium Chair:	Session 10: Families and Adolescents Venue: Boulevard 1 Chair:	Session 11: FND and Stress Venue: Boulevard 2 Chair:	Session 12: Training Venue: Boulevard 3 Chair:
How-To Session 11:00 - Christian Salas: Working with Identity after Brain Injury: Why and How? Orals 11:30 - Jennie Ponsford: Outcomes 5 and 10 Years after Moderate to Severe Traumatic Brain Injury: An International Comparative Study 11:45 - Carla Dos Reis: Traumatic Brain Injury and the Return to Productive Activities: Clinicians’, Case Managers’ and Insurers’ Perspectives 12:00 - Madeleine Stoddart: Using Cognitive Assessment to Predict Work Outcomes Following Moderate to Severe Traumatic Brain Injury: A Systematic Review Datablitz 12:15 - Sarah Chuah: Incorporating technology into psychological therapy for individuals with a moderate-	How-To Session 11:00 - Tricia Williams, Bianca Bondi & Samantha Feldman: Empowering Caregivers: Clinician Tools and Training for Family Support and Wellness Orals 11:30 - Sera Manuele: Differences in Functional Connectivity during a Stop-Signal Task in Adolescents who will Engage in Future non-Suicidal Self-Injury versus Healthy Controls 11:45 - Kristen Hoskinson: Contribution of treatment-related, neurodevelopmental and sociocontextual factors to neurocognitive outcome in youth with critical congenital heart disease 12:00 - Lauren Crumlish: Prioritising treatment outcomes in paediatric cognitive-communication rehabilitation: Insights from Australian children,	How-To Sessions 11:00 - Monique Davies: Functional Neurological Disorder: a Neurological Physiotherapy Perspective 11:30 - Simone Mangelsdorf-Collet: Functional Cognitive Disorder Oral 12:00 - Shari Wade: Efficacy of a Brief Telehealth Intervention to Treat Post-Traumatic Stress following Traumatic Injuries: The ReSeT Trial Datablitz 12:15 - Daniel Baldini: Steady Under Stress: The TOMM’s Resistance to Emotional and Behavioral Factors in American Youth Athletes 12:20 - Adelene Yap: An interdisciplinary approach in the management of Functional Neurological Disorder (FND) – transitioning from long term, multiple hospitalisation to	INS Mentoring Award Winner 11:00 - (tbc) Orals 11:30 - Amber Ayton - Global Neuropsychology Training Pathways: An International Survey 11:45 - Rene Stolwyk: Co-designing a Competency-based Framework to Optimise Clinical Neuropsychology Postgraduate and Registrar Training Datablitz 12:00 - Rebecca Evans: Understanding the Interaction Between Support and Social Participation for People with Physical Disability: A Scoping Review 12:05 - Ashna Nadan: Building knowledge and confidence: Student speech pathologists' perspectives on learning about cognitive-communication disorders

to-severe traumatic brain injury: Exploring impacts on treatment engagement and satisfaction 12:20 - Sue Wright: Potential Unlimited: Working collaboratively with Outward Bound Australia to build capacity and potential among adults with Acquired Brain Injury 12:25 - Tayla Fox: Guiding the Use of the Hospital Anxiety and Depression Scale (HADS) in Traumatic Brain Injury: Associations with Clinical Outcomes and Development of Evidence-Based Severity Cut-Offs	adolescents, and their parents after traumatic brain injury Datablitz 12:15 - Chandelle Piazza: Cerebral Blood Flow in Young Adults Born Very Preterm and at Term, and the relationships with Cognitive Outcomes 12:20 - Yueting Zhan: Evaluating Measurement Validity: A Meta-Analysis of Executive Function in Children with Cerebral Palsy 12:25 - Aysha Thasleema: Adolescent Well-Being in India: The Interplay of Cognitive Factors, Psychosocial Support, and Health Risk Behaviours	home; A single case study 12:25 - Sarah Ahamed: Mixed Impacts of Sequential Acute Psychosocial Stressors on Cognitive Performance	and implementing convers-ABI-lity on placement 12:10 - Anca Milosesco: Exploring the utility of the Session Rating Scale (SRS V.3.0) as an appropriate feedback tool during therapy for the individuals with a traumatic brain injury 12:15 - Zemedu Ferede: Models for Predicting Long-Term HRQOL and Mental Health Outcomes Among TBI Patients 12:20 – Ella-Rose Minter: Discharge Outcomes and Support Needs for People with Acquired Disability and Cognitive Impairment 12:25 - Simone Mangelsdorf-Collet: Western Health Cognitive Assessment and Advisory Service (WH-CAAS): Creation of a neuropsychological service model for adult mental health consumers
---	---	---	---

12.30 – 2.00 Lunch

12.50-1.50 Venue: Boulevard 1 Chair: INS Global Mentoring Committee session Shawn McClintock, Robin Green, Aishani Desai
--

2.00 to 3.00 CONCURRENT SESSIONS 13 – 16 (60 mins)

Session 13: Movement Disorders Venue: Boulevard Auditorium Chair:	Session 14: Student panel: Dementia and Risk Factors Venue: Boulevard 1 Chair:	Session 15: Stroke Venue: Boulevard 2 Chair:	Session 16: Epilepsy Venue: Boulevard 3 Chair:
Orals 2:00 - Louisa Selvadurai: Longitudinal cognitive performance in spinocerebellar ataxias 2:15 - Fiona Fisher: Health Literacy in Motor Neurone Disease: Using Narrative Profiles to Drive Meaningful Change 2:30 - Sarah Davies: Feasibility of an occupation-based metacognitive strategy intervention in Parkinson's Disease Datablitz	Invited Student Panel Speakers tbc 2:00 -	Orals 2:00 - Margaret Moore: Post Stroke Cognitive Impairment: more than a lesion-symptom model 2:15 - Michelle Francis: Examining the Cognitive Profile of Small Vessel Disease across Stages of Severity - A Systematic Review and Meta-Analysis 2:30 - Michaela Grech: Exploring unmet needs and predictors of quality of life and return to work in young stroke survivors	Orals 2:00 - Sallie Baxendale: Sex Differences in the Trajectories of Decline in Verbal Memory in People with Focal Epilepsy 2:15 - Isha Puntambekar: Optimizing Cognitive Outcome Prediction in Epilepsy Surgery: The 'Red Flags' Initiative 2:30 - Kylie Radford: Enhancing access to cognitive rehabilitation for people living with epilepsy through service innovation and collaboration

2:45 - Tamrin Barta: Key Effective Connectivity Alterations in Depression in Huntington's Disease 2:50 - Amy Huynh - Designing cognitive rehabilitation for Huntington's disease: Healthcare professionals' perspectives on program development 2:55 - Janet Wagland: Transitioning People With Huntington's Disease to a Purpose Built Codesigned SDA Environment		<u>Datablitz</u> 2:45 - Sarah Carrier, Lily Watson & Coco Bernard: Characterisation and Evaluation of the Young Stroke Service (YSS) Neuropsychological Intervention Service 2:50 - Michitaka Funayama: Thermoregulatory Disorders in Individuals Following Stroke 2:55 - Katsuya Sakai: Components of Frontal Assessment Battery and clinical features in patients with stroke	2:45 - Samantha Feldman: Intersectional Considerations Informing Child Behavioral Difficulties and Caregiver Stress in Children with Epilepsy
--	--	---	---

3.00 – 4.00 Poster Session 2 and Datablitz Poster Session 5 & Break

4.00 – 6.00 PLENARY 4
Venue: Boulevard Auditorium
Chair: Kerryn Pike

4.00 – 5:00 INS Presidential Talk - Natalia Ojeda del Pozo

5.00 – 6.00 INS Lifetime Achievement Award Winner
Talk tbc
INS Distinguished Career Award
Talk tbc

7:00 Conference Dinner at the Plough Inn

SATURDAY 5th JULY

8.00 – 8:30 Masterclasses		
Masterclass 7 Venue: Boulevard 1 Chair: Neuroaffirming Autism Assessment and Intervention: A Practical Guide for Clinicians Zhi Xiang On	Masterclass 8 Venue: Boulevard 2 Chair: Cognitive assessment in minimally conscious state and emergence from disorders of consciousness: a 'how-to' guide Lesley Murphy	Masterclass 9 Venue: Boulevard 3 Chair: What's "a point" and should I be worried? A How-to Session on Addiction Neuropsychology James Gooden

9:00 – 10.30 **PLENARY 5**
Venue: Boulevard Auditorium
Chair: Jody Kamminga

9:00 – 9.45 **National Keynote Speaker - Pip Logan (AUS)**
Talk tbc

9.45 – 10.30 **CCN Address: Kelly Gough**
Talk tbc

10.30 – 11.00 Morning tea break – opportunity to visit Exhibitor

11.00 – 12.30 CONCURRENT SESSIONS 17 – 20 (90 mins)

Session 17: Service Delivery; Dementia/Ageing Venue: Boulevard Auditorium Chair:	Session 18: Mental health in TBI Venue: Boulevard 1 Chair:	Session 19: Communication Venue: Boulevard 2 Chair:	Session 20: Brain Injury and Brain Cancer Venue: Boulevard 3 Chair:
How-To Session 11:00 - Marina Cavuoto: Working with interpreters during cognitive assessments – Informing clinical practice with the MINDSET study findings Orals 11:30 - Cornelia Wellecke: Let's Demystify Peer Support: A Scoping Review of the Peer Support Experiences and Perspectives of Adults with Acquired Neurological Disability 11:45 - Brooke Kooymans: Navigating the Policy/Practice Nexus: frontline social work practice model for community neurorehabilitation 12:00 - Jessica Hazelton: Neuropsychiatric features relate to allostatic-interoception network disruption in neurodegeneration Datablitz 12:15 - Chiyoko Nagai: Pure	Orals 11:00 - Jai Carmichael: Psychological and Cognitive Correlates of Suicidal Ideation Following Traumatic Brain Injury 11:15 - Steph Reeve: Reaping Rewards: A Systematic Review of Contingency Management for Individuals with Traumatic Brain Injury that use Substances 11:30 - Kelly Jones: Healthcare Seeking Behaviour and Experiences following Traumatic Brain Injury in New Zealand 11:45 - Rebecca Slykerman: Mental health conditions in youth aged 0-24 years with acquired brain injury 12:00 - Alexia Samiotis: Cognitive functioning and transdiagnostic psychopathology dimensions after traumatic brain injury: An application of the HiTOP-TBI model	Orals 11:00 - Rebekah Billing-Kerr: Fetching Connections; Dog Walking As An Adjunct To Traditional Speech Therapy 11:15 - Kylie Southwell: Context matters: A scoping review of cognitive-communication interventions that support meaningful engagement with adolescents following an acquired brain injury 11:30 – Melissa Kendall: 'Staying Connected': the development of a translational framework to support friendships after acquired brain injury and spinal cord injury 11:45 - Emma Finch: Does CanCommunicate, a comprehensive, tailored, accessible communication support intervention, help people with a brain tumour achieve their communication goals? 12:00 - Elise Bogart: Consensus Outcomes for the	How-To Session 11:00 – Kathleen Vancleef: Visual perception impairments after brain injury: what are they and how to assess them? Orals 11:30 - Sebastian Gallegos-Berrios: Exploring the Professional Practice of Chilean Occupational Therapists Working with People Post Acquired Brain Injury: An Online Survey 11:45 - Sophie Reed: Preoperative Predictors of Postoperative Cognitive Outcomes Following Neurosurgery for Primary Brain Tumours: A Systematic Review Datablitz 12:00 - Wan Ru Huang: Comparison of Neuropsychological Outcomes and Quality of Life in Cerebellar Medulloblastoma,

Kanji Agraphia in Dominant Parietal Variant Posterior Cortical Atrophy: A Longitudinal Language Study 12:20 - Gail Robinson: Creative idea generation in Alzheimer's disease and mild cognitive impairment 12:25 - Sharon Savage: New models to improve dementia knowledge and healthy lifestyle choices – introducing the Community Healthy Ageing Initiative (CHAI)	Datablitz 12:15 - Egberdina-Józefa Van der Hulst: Measuring Mood and Behaviour in Acute Neurorehabilitation in a Culturally and Linguistically Diverse Geographical Area: Development of the Royal London Neurobehavioural Questionnaire 12:20 - Diane Whiting: Acceptance and Commitment Therapy treating psychological distress after a moderate to severe traumatic brain injury: A randomized controlled trial 12:25 - Quinn Le: The Prospective Association Between Sleep Disturbances and Psychotic-Like Experiences in Early Adolescents: Findings from the Adolescent Brain Cognitive Development (ABCD) Study	TBIBank 2.0 Discourse Protocol Datablitz 12:15 - Melissa Brunner: Stay tuned: exploratory content and thematic analysis of traumatic brain injury content on YouTube and Instagram 12:20 - Ronelle Hewetson: Description of neglect dyslexia error patterns from a lexical/semantic content-specific impairment stance 12:25 - Monika Malon: Loneliness and Everyday Prosocial Behavior	Ependymoma and Pilocytic Astrocytoma 12:05 - Tricia King: Construct validity of the NIH Toolbox Cognitive Battery version 3 among pediatric medulloblastoma survivors 12:10 - Bryan Yeo: Cortical Thickness and Subtype-Specific Differences in Grapheme-Colour Synaesthesia 12:15 - Suzanne Currie: Perspectives of supporting community participation from family members of people with severe brain injury 12:20 – Meg Rankin: Understanding multidimensional apathy in traumatic brain injury 12:25 - Caitlin Courchesne: Psychological Transdiagnostic Processes in Mild Traumatic Brain Injury Recovery: A Scoping Review
--	--	--	---

12.30 – 1.45 Lunch

12.45-1.30 Venue: Boulevard 1 Chair: Jennifer Fleming and Grahame Simpson How to review a manuscript for a Journal
--

1.45 – 2.45 **CONCURRENT SESSIONS 21 - 24 (60 mins)**

Session 21: Post-Concussion Venue: Boulevard Auditorium Chair:	Session 22: Paediatrics Venue: Boulevard 1 Chair:	Session 23: Telehealth Venue: Boulevard 2 Chair:	Session 24: Cognitive Rehabilitation Venue: Boulevard 3 Chair:
How-To Session 1:45 - Bianca Charles, Vanessa Rausa, Kate Bray and Adam McKay: The Fundamentals of Multidisciplinary Management of Persisting Post-Concussion Symptoms across the ages Orals 2:15 - Lisa Licciardi: The role of occupational therapy in the management of adults with persistent post-concussion symptoms: A scoping review 2:30 - Lee Cubis: Who Gets Stuck in Hospital, and Why? Contributors to Hospital	Orals 1:45 - Nicola Starkey: Concussion symptom resolution in children and adolescents in New Zealand 2:00 - Lisanne M Jenkins: Increased Cognitive Control Network Activity During Failed Cognitive Control in Youths Two Years Prior to Self-Reported Non-Suicidal Self-Injury 2:15 - Taylor Mills: Selective Attention and Working Memory in Young Adults Born Very Preterm and at Term	Orals 1:45 - Daniel Milligan: Examining Equivalence and Test-Retest Reliability of Telehealth Administration of the WAIS-5A&NZ 2:00 - Michael Williamson: Clinician Experiences and Opinions Regarding Cognitive Assessment via Telehealth for Middle-Aged and Older Adults: A Mixed-Methods Study 2:15 - Jodie Chapman: A New Model for Remote Neuropsychological Assessment: Development of the Telehealth-Enabled	Orals 1:45 - Jessica Trevena-Peters: Cognitive rehabilitation following Traumatic Brain Injury: Variations in Clinician Practice across Geographical Sectors 2:00 - Sarah Prescott: Cognitive rehabilitation using immersive and non-immersive virtual reality after traumatic brain injury: A scoping review 2:15 – Rachel Munyard: Determinants of Cognitive Rehabilitation Following Acquired Brain Injury: A Global Multidisciplinary

Discharge Delays for People with Acquired Neurological Disability	2:30 - Bianca Bondi: Adaptation and Implementation of the Cultural Formulation Interview and Training Module for a Pediatric Brain Health Context	Neuropsychological Testing (TENT) Platform in the Australian Epilepsy Project 2:30 – Simon Beaulieu-Bonneau: Paving the Road for Ethical and Equitable Policies and Practices in Telerehabilitation in Psychology and Neuropsychology: A Rapid Review	Perspective. 2:30 – Yu-Hsiang Cheng: Integrating Cultural Heritage in Cognitive Training: A Multiple Mnemonic Strategy for Memory Enhancement in Older Adults
---	---	--	--

2.45 – 3.30 Poster Session 3 and Datablitz Poster Session 6 and break

3.30 – 4.30 CONCURRENT SESSIONS 24 - 28 (60 mins)

Session 25: Dementia Venue: Boulevard Auditorium Chair:	Session 26: INS Award Talks Venue: Boulevard 1 Chair:	Session 27: Technology Venue: Boulevard 2 Chair:	Session 28: Advancing Neurohealth Equity Venue: Boulevard 3 Chair:
How-To Session 3:30 - Fiona Kumfor: Criminal behaviour in dementia Orals 4:00 - Ramon Landin-Romero: Mapping the staging of neuroimaging trajectories in frontotemporal dementia: New insights using fixel-based analysis 4:15 - Sophie Matis: Precision neuroimaging in frontotemporal dementia: Mapping microstructural vs macrostructural neuropathological degeneration	INS Award Winners 3:30 - INS Post-Doctoral Research 3:50 - INS Early Career Award 4:10 - The Mid-Career Research Award	How-To Session 3:30 - Tony Florio: How to use AI to Augment, Automate and Innovate Neuropsychological Assessment Orals 4:00 - Melissa Brunner: social-ABI-lity: Development of a social media and online communication assessment tool for people with acquired brain injury (ABI) 4:15 – Grahame Simpson: Electronic assistive technology can increase independent functioning through compensation for executive impairment after severe acquired brain impairment: Four single case experimental design trials	Orals 3:30 - Nara Andrade: Translational neuroscience: promoting brain health equity through dialogues between adversity neurodevelopmental models and youth mental health interventions 3:45 - Nicholas Cheng: The prevalence of attention-deficit hyperactivity disorder in psychotic disorders: A systematic review and meta-analysis 4:00 - Jacinta Douglas: Intersectionality and Neurological Disability: Implications for Group Based Community Rehabilitation following Severe Traumatic Brain Injury (TBI) 4:15 - Danielle Sansonetti: Assessing Online Awareness of Performance for Adults with Neurological Conditions: A Delphi Study

4.30 – 5.30 AWARDS AND CONFERENCE CLOSE

Venue: Boulevard Auditorium

Chair: Dana Wong and Kelly Gough

Thanks to Convenor, Committees and Sponsors

Awards

ASSBI Student Awards and Douglas & Tate prize*

INS Awards

CCN Student Awards

**Poster Presentation 1 – Clinical Challenges and Advancements
& Health Ageing and Dementia**
Thursday Afternoon Poster Session

#	First Name	Last Name	Submission Title
1	Simon	Beaulieu-Bonneau	Neuropsychological Intervention and Cognitive Rehabilitation Practices in Québec, Canada: A Survey of Neuropsychologists
2	Jodie	Chapman	Videoconference-Integrated, Computer-Assisted Cognitive Testing Improves the Remote Assessment of Processing Speed and Attention
3	Nicole	Feast	Does Neuropsychological Assessment Enhance Patient Outcomes? Study Protocol for a Phase II Randomised Controlled Trial of the ENhAnCe (Evaluating Neuropsychological Assessment to enhance Clinical outcomes for people with brain conditions) Trial
4	Alberto Luis	Fernández	Cross-Cultural Comparison of Performance on The Multicultural Neuropsychological Scale Between Participants from Argentina and the United States of America
5	Michael	Gascoigne	A Qualitative Investigation of Cultural and Linguistic Diversity Considerations for Cognitive Testing in Australia: Clinician Perspectives
6	Ilana	Hepner	What does a Satisfaction Survey tell us about a Digital Approach to Cognitive Intervention?
7	Simone	Mangelsdorf-Collet	To assess or not to assess: questions of ethics in public healthcare and how to meet consumers expectations
8	Sreenath	Panchagnula	Survey of Artificial Intelligence Aids in Neuropsychological Report Writing
9	Sarah	Russell	Development of “Any Worries Yarn” for Australian First Nations Peoples in the Torres Strait and Northern Peninsula Area
10	Chauntelle	Simpson Ready	Updating the Famous Face Test of Semantic Memory
11	Matt	Thomas	From Program Logic to Data Collection and Reporting Plan: Steps for planning evaluation of health programs
12	Yu-Chi	Liao	The Impact of Health Status on Cognitive Function, Mental Health, and Quality of Life of Older Adults
13	Sau Chi	Cheung	Positive behaviour support education improves carer quality of life in dementia
14	Yu-Ling	Chang	Preliminary Analysis of Executive Function Training in Self-Paced Games for Older Adults
15	Samantha	Ellis	Relationship between Older Adults Driving Performance and Electroencephalography: A Scoping Review
16	Fiona	Fisher	Integrating trauma-sensitive principles into positive behaviour support for clients with complex needs
17	Hetta	Gouse	Cognitive remediation training adaptation for neurocognitive impairment in people living with HIV in a low- and middle-income setting: Pilot data.
18	Emilienne	Ho	Association Between Cortical Thickness & Neuropsychiatric Symptom Severity Using The Neuropsychiatric Inventory (NPI)
19	Katharine	Huynh	Pilot trial of computerised cognitive training in Huntington’s disease: effects on functional brain networks
20	Naomi	Kokubo	Exploring the Feasibility and Usability of the Mini MoCA 5-minute Japanese Version in Cognitively Normal Adults in Japan
21	Pratiksha	Kumar	Investigating Criminal Risk Behaviours in Frontotemporal Dementia Syndromes and Alzheimer’s Disease
22	Heather	Kwan	How do different sources of estrogen impact grey matter volume in healthy older women?
23	Yu-Chi	Liao	The Predictive Role of Fatigue, Cognitive Function, and Psychological Resilience in the Well-being of Older Adults
24	Madeleine	Lucas	The ‘too hard’ basket: providing best practice behaviour support to clients with highly complex support needs within a regulatory framework
25	Andrew	McKinnon	Disrupted DMN connectivity as a marker of baseline cognitive performance and longitudinal decline across memory, learning and global cognitive domains.
26	Mohammed	Mudarris	Grey matter changes following music-cued visuomotor learning in older adults.
27	Yu-Chen	Nien	Effects of the Happy Age App’s Mindfulness Walking Practice on Mood and Cognitive Function in Older Adults: A Randomized Controlled Trial

28	Holly	Ratajec	Exploring Sex Differences in Verbal Memory and Biomarker Profiles in Individuals with amnesic Mild Cognitive Impairment
29	Maureen	Schmitter-Edgecombe	Characteristics of Older Adults Experiencing Memory Difficulties Who Adopt a Digital Memory and Management Aid
30	Akshata	Sheth	Facial Emotion Processing in Frontotemporal Dementia
31	Emily	McCann	Developing Recommendations for Best Practice Guidelines for Cognitive Evaluation in Parkinson's Disease: Insights from Lived Experience Experts
32	Paul	Strutt	LEAF Café - Low Immersion Virtual Reality Cognitive Screening: Feasibility and Construct Validity
33	Eli	Vakil	Age-Related differences in implicit emotional valence processing: Evidence from a Context-Dependent recognition task
34	Crystal	Wang	Validation of a Performance-Based Assessment of Functional Performance in Spanish-speaking Adults with and without HIV in the United States
35	Mandy	Yu	A meta-analysis and scoping review of aging, intolerance of uncertainty, and their influence on psychological health

**Poster Presentation 2 – Child, Adolescent, Neurodevelopment, Mental Health
& Validation of constructs, methods, and processes**

Friday Afternoon Poster Session

#	First Name	Last Name	Submission Title
1	Glena	Andrews	FASD Screening: Across the Lifespan and Vulnerable Populations
2	Fumiko	Anzaki	Speech and Cognitive Abilities in Children with Selective Mutism
3	Shayden	Bryce	Implementing cognitive screening in Australian early psychosis treatment services: Interim findings from the 'CogScreen' study
4	Yi	Chang	The Interplay of Early Speech Perception, Neural Development, and Subsequent Language Outcomes
5	MEI CHENG	HOI	EEG and Neuropsychological Differences Among Underweight, Overweight, and Normal-Weight Children and Adolescents
6	Wan Ru	Huang	Neuropsychological Outcomes and Quality of Life in Optic-Chiasmatic-Hypothalamic Glioma (OCHG).
7	Wan Ru	Huang	The interaction between epilepsy-related factors and outcomes with long term follow-up in manifestation of pediatric epilepsy.
8	Manasi	Kale	Neuroplasticity in Autism: The Impact of Dance Movement Therapy on Mirror Neurons
9	Sera	Manuele	Cortical thickness differences associated with adverse life events in youths with non-suicidal self-injury and relationships with environmental protective and risk factors.
10	Margarida	Oliveira	Evaluation of a Cognitive Intervention using Virtual Reality for People with Intellectual Development Disorder
11	Divyanshi	Pandey	Age, Sex, and Decision-Making in Temporal Lobe Epilepsy: Insights from the Iowa Gambling Task
12	Divyanshi	Pandey	Development of Foresighted Decision-Making in Medial Temporal Lobe Epilepsy in Children and Adolescents
13	Ian David	Rodriguez-Razo	Theory of Mind in schoolchildren from low socioeconomic backgrounds
14	Judith	Salvador-Cruz	Reading abilities and academic self-concept in 6 to 10 year old Schoolchildren
15	Judith	Salvador-Cruz	Theory of Mind and semantic processes in children's reading comprehension
16	Alexia	Samiotis	Transdiagnostic MRI markers of psychopathology following traumatic brain injury: A systematic review
17	Michaela	Shand	Attention Deficit Hyperactivity Disorder (ADHD) and Depression in Australian University Students: Impact on Prospective Memory and Academic Achievement
18	Kelan	Li	Improving Neuropsychological Service Provision: Investigating Recommendation End-use (INSPIRE) Study
19	Matt	Thomas	Introducing The Australasian Cognitive Recovery in Mental Health Network (ACORN)
20	Tamsyn	Van Rheenen	Evaluation and Comparison of a Brief List-Learning Test for Assessing Verbal Memory/Learning in Bipolar Disorder
21	Adarsh K	Verma	Counterconditioning as a Neurocognitive Intervention for Modulating Alcohol Approach Tendencies
22	Shari	Wade	Predictors of Post-Traumatic Stress Symptoms following Concussion in Adolescence
23	Chi Hsuan	Wu	Effects of Hostility on Internet Addiction among Adolescents with Attention Deficit and Hyperactivity / Impulsivity Traits : The Moderating Effect of Executive Functions
24	Qiqi	Xiao	Quality of Life of Families with Older Adults Suspected of Having Autism in Japan
25	Yumi	Yamazawa	Do Autism Spectrum Traits Keep People from Marriage? Evidence from a General Population Survey in Japan
26	Chi Cheng	Yang	Trajectory of post-concussion symptoms in adolescent patients with mild traumatic brain injury: data from day-by-day symptom diary within one-month post-injury
27	Atsuko	Hayashi	Effects of interventions of working memory tasks involving finger movements on memory functions.
28	Gabriel Enrique	Jáuregui Arriondo	The Role of Reading Fluency in Neuropsychological Performance Across Cognitive Domains in Healthy Argentinian Adults
29	Kelly	Jones	Self-management Memory Reconsolidation – Feasibility and Acceptability

30	Heather	Kwan	How do different sources of estrogen impact grey matter volume in healthy older women?
31	Yu-Chi	Liao	The Influence of Anticipated Difficulty on Working Memory Capacity Allocation in Multiple Prospective Memory Tasks
32	Donel	Martin	Individualised Transcranial Magnetic Stimulation Targeting of the Left Dorsolateral Prefrontal Cortex for Enhancing Cognition
33	Shawn	McClintock	Neuropsychological Effects of Electroconvulsive Therapy: Separating Science from Science Fiction
34	Carolina	Rader	The Impact of Visuoperception on Visual Confrontation Naming Ability
35	Karen	Saunders	A feasibility study to evaluate the process, methods of conduct and safety of a home-based EEG neurofeedback intervention to alleviate chronic neuropathic pain and inform the design of a Randomised Controlled Trial
36	Michaela	Shand	Creative Cognition and Neuropsychology: Systematic Literature Review
37	Eli	Vakil	Conceptual processes of emotional valence of scenes context: Whether and how it affects face recognition
38	Eli	Vakil	Gender-Specific Effects of Meaningful Context on Facial Recognition Performance

Poster Presentation 3 – Acquired & Traumatic Brain Injury

Saturday Afternoon Poster Session

#	First Name	Last Name	Submission Title
1	Shigeharu	Aoki	How predictive is the MMSE for cognitive performance in individuals with post-acute acquired brain injury? -Correlation between MMSE and other neuropsychological tests
2	Amber	Ayton	Ageing with Traumatic Brain Injury: Long-Term Cognition and Wellbeing
3	Amber	Ayton	The relationship between age, structural brain changes and cognition in chronic traumatic brain injury
4	Jai	Carmichael	Clinical Neuropsychologists' Perspectives on Delivering CBT and Health Education for Sleep and Fatigue After Acquired Brain Injury
5	Sara	Cavaco	Neuropsychological Predictors of Mortality in Parkinson's Disease: 10-year follow-up
6	Kate	Gould	A twin-stream model of capacity building positive behaviour supports for brain injury rehabilitation services
7	Yu-Chi	Liao	The Impact of Neurophysiological and Neuropsychological Function on Quality of Life in Traumatic Brain Injury Patients
8	Bianca	Charles	Beyond the Basics: Tackling persistent or complex post-concussive symptoms beyond three months using a multi-disciplinary approach
9	Nicole	Chen	Patterns of Neuropsychological Deficits and Memory Profiles across Ischaemic Stroke Subtypes in an Asian Cohort
10	Yu-Sheng	Cheng	Employment Status and Recovery in Traumatic Brain Injury: A Cross-Sectional Analysis of Neuropsychological and Psychosocial Functioning
11	Allen	Thornton	Relationship between Brain Injury Risks and Neurocognitive, Functional and Health Outcomes in Housing Insecure Persons
12	Sau Chi	Cheung	Improving management of seizures and everyday cognitive problems in epilepsy: A pilot trial
13	Kimberly	Chew	"No more shame": Participant Experiences of a Novel Cyberscam Psychosocial Recovery Intervention
14	Janet	Coller	Genetic Variability Associated with Gulf War Illness Risk: A Comparison across Gulf War Veteran Cohorts
15	Fofi	Constantinidou	Chronic Brain Injury and Systematic Cognitive Rehabilitation: Addressing the Needs of an Overlooked Population
16	Maurizio	Cundari	Sensorimotor functions, visuospatial perception and visuospatial abilities in Spinocerebellar Ataxias and other neurodegenerative cerebellar conditions
17	Josh	Faulkner	Identifying the Bridge between Post Concussion Symptoms and Psychological Distress in Mild Traumatic Brain Injury using Network Analysis
18	Michaela	Grech	Co-designing a psychoeducation package to enhance psychosocial wellbeing for young adults living with stroke
19	Louise	Gustafsson	Fatigue management after brain injury: outcomes of a participatory action project.
20	Ilana	Hepner	Is the ability to remember a name influenced by cognitive encoding strategy in neurological patients?
21	Tracie	Umaki	Non-motor Symptoms in Parkinson's Disease Patients Considered for Deep Brain Stimulation Surgery in Hawaii
22	Sheree	Lu	A Scoping Review of Dynamic and Technology-Mediated Communication Assessment in Traumatic Brain Injury
23	Melissa	McElligott	Building Capacity and Fostering Collaboration: The Development and Impact of the ABI Community of Practice in Queensland
24	Janet	McPherson	Recipe for Recovery: Cooking after a Brain Injury
25	Takayuki	Miyauchi	Association between Independence in activities of daily living and Observational rating scale of attentional function in patients with Acute Stroke: A Longitudinal study
26	Clare	Morgan	Access to specialist ABI rehabilitation coordination close to home: developing training and education for new ABI community services in QLD.
27	Yoshiko	Nagai	The Effectiveness of Comprehensive Neuropsychological Rehabilitation for Individuals with acquired brain injuries in Japan
28	Jorie	Peppers	Social Determinants of Health and Post-Concussive Syndrome

29	Ché	Phillips	Recovery after Severe Traumatic Brain Injury: Return to Life and Work as a Physiotherapist
30	Cali	Roiboit	Identifying and Mapping Meaningful Cognitive Symptoms and their Impacts in Huntington's Disease: Care Partner Perspective
31	Alexia	Samiotis	Transdiagnostic MRI markers of psychopathology following traumatic brain injury: A systematic review
32	Karen	Saunders	A co-design research outcome: A brain health educational information resource for survivors of moderate to severe traumatic brain injury: A scoping review
33	Karen	Saunders	What is the impact of living with a moderate to severe Traumatic Brain Injury (TBI)? and what are the enablers and challenges to resource co-design with survivors of moderate to severe TBI, expert clinicians and professional stakeholders?
34	Louisa	Selvadurai	Pilot study of MJDhub: A clinical monitoring and education platform for Aboriginal Australians living with Machado-Joseph Disease
35	Grahame	Simpson	Chronic pain after Traumatic Brain Injury: A systematic review and meta-analysis
36	BEI-YI	SU	Dual Impact of Diabetes Mellitus and Traumatic Brain Injury on Executive Functions in Young and Middle-Aged Adults
37	Yi Tzu	Tseng	The Impact of Perceived Family Support on Neuropsychological and Psychosocial Functioning in ABI Patients
38	Egberdina-Józefa	van der Hulst	The Utility of the Pressure Cooker Model in Neuropsychological Formulation: A Case Example of the Management of Behaviours that Challenge in a Patient with Hydrocephalus and Functional Neurological Disorder
39	Yanik	Weerasekera	Predictors of Engaged Living after a moderate-to-severe Traumatic Brain Injury
40	Olivia	White	Feasibility and Cost Effectiveness of Running Online Memory Rehabilitation Groups with Memorehab in a Public Outpatient Setting
41	Ching-yi	Wu	Effects and Neural Mechanism of Combining Transcranial Direct Current Stimulation Targeting Different Sites of Cortex with Mirror Therapy Poststroke: Motor and Daily Functions, and Brain Reorganization

DATABLITZ Poster Sessions

Session 4 – Thursday afternoon tea

#	First Name	Last Name	Submission Title
DB1	Tahlia Darlingtina	Bragg Esiaka	Low Hanging Fruit: Racial and Ethnic Terror as a Global Structural & Social Determinants of Brain Health
DB2	Shanique	Meyler	Advancing Equitable Brain Health: A Global Call for Psychometric Validation Standards in Indigenous and Minoritized Populations
DB3	Talamahe'a	Tupou	Voyaging Towards Decolonizing Neuropsychology: Culturally Responsive Care for a Native Hawaiian and Pacific Islander Youth Athlete
DB4	Nara	Andrade	Childhood Adversity and Behavioral Problems in Children with Autism Spectrum Disorder Raised in Urban Poverty in Brazil
DB5	Tricia	Williams	Promoting Equitable Neuropsychological Monitoring and Follow Up Programs among Neonatal Cohorts
DB6	Kate	Bray	Exploring parent-child discrepancies in persistent post-concussive symptom reporting
DB7	Stacey	Oliver	A qualitative study of the experience of people with disability living in 10+1 apartments
DB8	Sheree	Lu	"I had to relearn how to use all the different apps": End user perspectives of technology-mediated communication and dynamic assessment in traumatic brain injury (TBI)
DB9	Aishani	Desai	A Pilot Study: Examining Neuropsychological Profiles in the Early stages Post-Traumatic Brain Injury and Functional Recovery One-Year Post Injury
DB10	Jamie	Berry	Actual and clinician-predicted IOP-29 scores in a clinical setting
DB11	Jesse	Shapiro	Assessing the Landscape of Cognitive Assessment in Australia
DB12	Hannah	Cruikshank	Factorial invariance of the WAIS-5A&NZ across Australia and New Zealand
DB13	Rachelle	Martin	Co-producing housing policy knowledge with disabled people in Aotearoa New Zealand: Inclusive processes to support equitable access, experiences and outcomes
DB14	Rhianne	Hoffman	Developing a co-designed narrative discourse intervention for inpatient rehabilitation post-Traumatic Brain Injury
DB15	Adrienne	Withall	Co-designing innovative cognitive serious games with older justice-involved people – The ASCAPE Study
DB16	Sarah	Haskard	Young to midlife adults: Knowledge and engagement in dementia risk reduction
DB17	Marina	Cavuoto	Associations of neighbourhood greenspace, walkability and crime with cognition and dementia risk factor burden in middle-aged and older Australians
DB18	Caroline	Gurvich	Cognition during menopause
DB19	Natacha	Cordonier	Tracking Empathy Loss in the Nonfluent and Logopenic Variants of Primary Progressive Aphasia: A Longitudinal Study
DB20	Kayla	Stefanidis	The assessment of cognitive function and medical fitness to drive in older adults: A qualitative study with general practitioners
DB21	Zita	Tse	Mahjong playing and successful ageing in Hong Kong's older population
DB22	James	King	Neuropsychologists' Role and Current Procedures for Evaluating Cognition in Parkinson's Disease: A Mixed Methods Australian Study
DB23	Nadeeka	Dissanayka	Enhancing utility of neuropsychological evaluation for earlier and effective diagnosis of dementia in Parkinson's disease: PDCogniCare Project
DB24	Alexia	Pavlis	Understanding Behaviours of Concern (BOC) in a large metropolitan health service: A clinical audit of Code Grey and Code Black incidents and associated patient characteristics

Session 5 – Friday afternoon tea

#	First Name	Last Name	Submission Title
DB1	Sarah	Chuah	Incorporating technology into psychological therapy for individuals with a moderate-to-severe traumatic brain injury: Exploring impacts on treatment engagement and satisfaction
DB2	Sue	Wright	Potential Unlimited: Working collaboratively with Outward Bound Australia to build capacity and potential among adults with Acquired Brain Injury
DB3	Tayla	Fox	Guiding the Use of the Hospital Anxiety and Depression Scale (HADS) in Traumatic Brain Injury: Associations with Clinical Outcomes and Development of Evidence-Based Severity Cut-Offs
DB4	Chandelle	Piazza	Cerebral Blood Flow in Young Adults Born Very Preterm and at Term, and the relationships with Cognitive Outcomes
DB5	Yueting	Zhan	Evaluating Measurement Validity: A Meta-Analysis of Executive Function in Children with Cerebral Palsy
DB6	Aysha	Thasleema	Adolescent Well-Being in India: The Interplay of Cognitive Factors, Psychosocial Support, and Health Risk Behaviours
DB7	Daniel	Baldini	Steady Under Stress: The TOMM's Resistance to Emotional and Behavioral Factors in American Youth Athletes
DB8	Adelene	Yap	An interdisciplinary approach in the management of Functional Neurological Disorder (FND) – transitioning from long term, multiple hospitalisation to home; A single case study
DB9	Sarah	Ahamed	Mixed Impacts of Sequential Acute Psychosocial Stressors on Cognitive Performance
DB10	Rebecca	Evans	Understanding the Interaction Between Support and Social Participation for People with Physical Disability: A Scoping Review
DB11	Ashna	Nadan	Building knowledge and confidence: Student speech pathologists' perspectives on learning about cognitive-communication disorders and implementing convers-ABI-ility on placement
DB12	Anca	Milosesco	Exploring the utility of the Session Rating Scale (SRS V.3.0) as an appropriate feedback tool during therapy for the individuals with a traumatic brain injury
DB13	Zemedu	Ferede	Models for Predicting Long-Term HRQOL and Mental Health Outcomes Among TBI Patients
DB14	Ella-Rose	Minter	Discharge Outcomes and Support Needs for People with Acquired Disability and Cognitive Impairment
DB15	Simone	Mangelsdorf-Collet	Western Health Cognitive Assessment and Advisory Service (WH-CAAS): Creation of a neuropsychological service model for adult mental health consumers
DB16	Tamrin	Barta	Key Effective Connectivity Alterations in Depression in Huntington's Disease
DB17	Amy	Huynh	Designing cognitive rehabilitation for Huntington's disease: Healthcare professionals' perspectives on program development
DB18	Janet	Wagland	Transitioning People With Huntington's Disease to a Purpose Built Codesigned SDA Environment
DB19	Sarah Lily Coco	Carrier Watson Bernard	Characterisation and Evaluation of the Young Stroke Service (YSS) Neuropsychological Intervention Service
DB20	Michitaka	Funayama	Thermoregulatory Disorders in Individuals Following Stroke
DB21	Katsuya	Sakai	Components of Frontal Assessment Battery and clinical features in patients with stroke

Session 6 – Saturday afternoon tea

#	First Name	Last Name	Submission Title
DB1	Chiyoko	Nagai	Pure Kanji Agraphia in Dominant Parietal Variant Posterior Cortical Atrophy: A Longitudinal Language Study
DB2	Gail	Robinson	Creative idea generation in Alzheimer’s disease and mild cognitive impairment
DB3	Sharon	Savage	New models to improve dementia knowledge and healthy lifestyle choices – introducing the Community Healthy Ageing Initiative (CHAI)
DB4	Egberdina-Józefa	Van der Hulst	Measuring Mood and Behaviour in Acute Neurorehabilitation in a Culturally and Linguistically Diverse Geographical Area: Development of the Royal London Neurobehavioural Questionnaire
DB5	Diane	Whiting	Acceptance and Commitment Therapy treating psychological distress after a moderate to severe traumatic brain injury: A randomized controlled trial
DB6	Quinn	Le	The Prospective Association Between Sleep Disturbances and Psychotic-Like Experiences in Early Adolescents: Findings from the Adolescent Brain Cognitive Development (ABCD) Study
DB7	Melissa	Brunner	Stay tuned: exploratory content and thematic analysis of traumatic brain injury content on YouTube and Instagram
DB8	Ronelle	Hewetson	Description of neglect dyslexia error patterns from a lexical/semantic content-specific impairment stance
DB9	Monika	Malon	Loneliness and Everyday Prosocial Behavior
DB10	Wan Ru	Huang	Comparison of Neuropsychological Outcomes and Quality of Life in Cerebellar Medulloblastoma, Ependymoma and Pilocytic Astrocytoma
DB11	Tricia	King	Construct validity of the NIH Toolbox Cognitive Battery version 3 among pediatric medulloblastoma survivors
DB12	Bryan	Yeo	Cortical Thickness and Subtype-Specific Differences in Grapheme-Colour Synaesthesia
DB13	Suzanne	Currie	Perspectives of supporting community participation from family members of people with severe brain injury
DB14	Meg	Rankin	Understanding multidimensional apathy in traumatic brain injury
DB15	Caitlin	Courchesne	Psychological Transdiagnostic Processes in Mild Traumatic Brain Injury Recovery: A Scoping Review
