

SASNI-ESNR Brain Imaging 2024

Provisional programme

FRIDAY 30/08/2024

MAIN LECTURE HALL (Hybrid format)

08:00	Anatomy and function of the cerebral cortex-How to find the central sulcus?	Tarek Yousry
08:30	White matter anatomy	Meike Vernooij
09:00	Anatomy of the limbic system: What does limbic mean?	Tarek Yousry
09:30	Functional anatomy of the cerebellum	Tarek Yousry
10:00	TEA	
10:30	Normal brain development and myelination	Andrea Rossi
11:00	Normal Aging and Imaging of the elderly – What is normal and when?	Meike Vernooij
11:30	Intracranial Hypotension/Hypertension/NPH	Cem Calli
12:00	Neuroimaging in dementia – theory	Meike Vernooij
12:30-13:30	LUNCH	
13:30	Anatomy workshop	Tarek Yousry
14:00	Neuroimaging in dementia – case-based workshop	Meike Vernooij
14:30	Stroke cases- workshop	Ebrahim Kader
15:00	TEA	
15:30	What are the diagnostic criteria of MS ?	Tarek Yousry
16:00	Differential diagnosis of MS, NMOSD, MOGAD and ADEM	Tarek Yousry
16:30	Organising a stroke unit : The Cape Town Experience	Ebrahim Kader
17:00	CLOSURE	

SATURDAY 31/08/2024

08:00	Infection	Tebs Hlabangana
08:30	HIV	Christelle Ackermann
09:00	Sarcoidosis/IGG4/etc	Clive Sperry
09:30	Spectrum of MR findings in autoimmune encephalitis	Tarek Yousry
10:00	TEA	
10:30	WHO 2021 Classification of Brain tumours	Tarek Yousry
11:00	WHO 2021 Classification of non-glial tumours	Cem Calli
11:30	Paediatric Brain Tumour: A case based approach	Andrea Rossi
12:00	Intracerebral space occupying lesion -what do we do	Tarek Yousry
12:30-13:30	LUNCH	
13:30	Glioma Treatment: Progression vs pseudoprogression workshop	Pia Sundgren
14:00	Case based approach to Ring Enhancing lesions -workshop	Cem Calli
14:30	Case based review of Neonatal Brain diseases	Andrea Rossi
15:00	TEA	
15:30	Congenital Malformations of the posterior fossa	Andrea Rossi
16:00	Paediatric Stroke	Andrea Rossi
16:30	Foetal Brain MRI	Andrea Rossi
17:00	CLOSURE	

SUNDAY 01/09/2024

08:00	The skull base	Elias Pretorius
08:30	The cranial nerves	Marc Jordaan
09:00	Temporal bone imaging	Leon Janse van Rensburg
09:30	Imaging and Interventional radiology -What's next	Ebrahim Kader
10:00	TEA	
10:30	Child Abuse -What do I expect in the Brain and Spine	Andrea Rossi
11:00	Small vessel diseases – White matter lesions and microhaemorrhages what do they mean?	Meike Vernooij
11:30	CEST imaging: How to do and when to use it	Pia Sundgren
12:00	Quiz feedback	Clive Sperry
12:30	CLOSURE
