

	19/5/2025 - Monday		
8:00 - 15:00	IPSS Academy: Simulation Design and Practice		
14:00 - 18:01	INSPIRE @ IPSSW2025 Meeting		
15:00 - 16:00	Simulation Center Visit		
	20/5/2025 - Tuesday		
7:00 - 18:00	Registration		
7:00-8:00	Breakfast on Own		
8:30 - 12:30	Exhibitor Set Up		
8:00 - 9:30	Welcome + Keynote: Hege Ersdal, MD, MhD		
9:45 -11:00	ORAL THEME		
	THEME: Simultaion Design and Instruction	THEME: Outreach Simulation	THEME: Technology and Innovation
	Enhancing Special Pathogens Preparedness through a Virtual Tabletop Exercise for the 2026 World Cup Pooja Nawathe	A Novel Interprofessional Simulation Course In Pediatric Perioperative Emergency Care In Global Health Settings Nicole Shilkofski, Deiaaeldin Tamer, Isabelle Simoneau	The Impact Of An Additional Virtual Instructor On Performance In A Virtual Reality Emergency Scenario: A Prospective Randomized Simulation-Based Trial Alexander Hoffelner
	Implementation of the Emergency Medicine Simulation Curriculum for Pediatrics (EM ReSCu Peds) Rebekah Burns, Kei Wong, Marc Auerbach	Enhancing Emergency Medicine Trainees' Preparedness for Child Neurology Emergencies in India Rea Mittal, Serkan Toy, Susan Owens, Manu Madhok, Katherine Douglass, Tania Ahluwalia	High-Fidelity Medical Escape Room Simulation (HF-MERS)- Are They An Effective Learning Tool? Danielle Reed, Andrew Ausmus, Kristin Dide, Aiden Mcluckie, Micheal Platt, Ashley Sherman, Robert Schremmer, Alyssa Stoner
	Designing and Implementing Simulation Courses for Interesting and Unique Clinical Problems Nancy Tofil, Chrystal Rutledge, Nicholas Rockwell, Jordan Newman, Stacy Gaither, Carrie Norwood, Sara Ewert, Autumn Layton	Implementing Pediatric Critical Care Boot Camps in Latin America: a Two Year Collaborative Experience in Argentina and Colombia Orqueda Daniel, Alba Sandoval Monica, Mencia Santiago, Coronado Alvaro, Meneses Paz Juan, Jimenez Daniel, Graciano Ana L, Acevedo Lorena, Fernandez Sarmiento Jaime, Hales Roberta, Nadkarni Vinay	Educational Experiences And Simulated Clinical Performance In General Emergency Departments Using SimBox Sofia Grigoria Athanasopoulou, Cam Brandt, Sally Snow, Becca Mielke, Erin Montgomery, Benjamin Michaels, Cage Cochran, Elizabeth Sanseau, Maybelle Kou, Marc Auerbach
	Innovative Solutions on a Budget: Repurposing Spare Parts for Cost Effective Simulation Training Nancy Tofil, Chrystal Rutledge, Nicholas Rockwell, Jordan Newman, Stacy Gaither, Carrie Norwood, Sara Ewert, Autumn Layton, Carmen Tong, Christy Foster, John Bridges, Kara Huls, Michelle Morris	Global PEM Training In A Pandemic: Pivoting To Remote Simulation Ensures Curriculum Integrity During The COVID Era Jessica Bailey, Beech Burns, Melinda Hartenstein, Danielle Sullivan, Parit Plainkum, Pakorn Husen, Hathaitip Chaiprapa, Angsana Kityadhiguna, Uthen Pandee, Erin Burns, Surangkana Techapaitoon	AI in Simulation Design: Assessing the Effectiveness of ChatGPT-Generated Pediatric Medical Scenarios Kriti Gupta, Michael Hrdy
	Healthcare Simulation Research Within The Field Of Neonatology: A Scoping Review Timothy Elgin, Paul O'Connor, Angela O'Dea, Leslie Christensen, Anudeepa Sharma, Dara Byrnes, Sinéad Lydon	Transforming Patient and Family Education Through Outreach Simulation Maria Carmen G. Diaz, Jennifer Arnold, Carol Rosenberg, Normaliz Rodriguez	Usability Testing for an Extended Reality Education Platform for Parents of Technology-Dependent Children Keith Widmeier, Samuel Rosenblatt, Amanda Manzi
11:15 - 12:45	Workshops		
	Connecting the Vertices: From Polygons to Fully Interactive XR Simulations for Pediatric Healthcare Teams Keith Widmeier	Using Simulation To Initiate And Accelerate Change: How To Get QI Change From Concept To Implementation Faster Ashley Keilman, Kimberly Stone, Jennifer Reid	Debriefing 2.0 - Harnessing Multi-Disciplinary Experience to Advance Debriefing Skills Felina Mille, Roberta Hales, Kesi Yang, Laura Goldstein, Khoon-Yen Tay, Grace Good, Anne Ades

	20/5/2025 - Tuesday Continued		
12:45 - 14:00	Lunch in the Restaurant		
14:15 - 15:15	POSTER PRESENTATIONS		
	THEME: Simulation Design and Instruction	THEME: Outreach Simulation & New Approaches	THEME: Patient Safety
	Creating an Acute Care Paediatric Simulation Session for an Academic Program Based on a Training Needs Analysis Abi Sayed, Mohammed AbuZitoon	STEMventures: Immersive Simulation Experiences Inspiring Future STEM Professionals Erin Erlandson, Sunayna Vuppall, Emily Louca, Leah Shoemaker, Sydney Fair, Shannon Westacott	Room of Horrors - Identifying Patient Safety Threats In A Pediatric Emergency Department (PED) To Evaluate Healthcare Workers' (HCWs) Perceptions Of The Experience Tali Capua
	Impact Evaluation of Teaching Sudden Unexpected Death in Infancy And Childhood (SUDIC) Through Simulation Shoshana Layman, Catherine Beatty, Cath Williams, Alison Belfitt, Annabel Copeman	Enhancing Interest in Healthcare Careers for Underrepresented Minorities in Medicine (URM) Carmel Eiger, Maria Rivera, Sharon Alvarado	Pediatric Simulation On The Move: In Situ Simulation To Increase Safe Pediatric Care On Non-Pediatric Wards Laurence Pisvin, Birgit Vincke, Lisa Kerckhof
	Rehearsal to Premiere: Transfer of Chest Tube Skills from Simulation to the Clinical Context Lydia Healy, Jessica White, Briseida Mema	S(t)imulating Within Healthcare Through Simulation Education Lisa Kerckhof, Eveline Crevits, Birgit Vincke, Sofie Merlevede, Marjorie Maes, Goedele Baekelandt	Simulation PDSA Cycles in a Collaborative QI Project To Improve Transport Team Intubation Success Stephen Hancock, Luisa Cortellazzo Wiel, Justine Lister, Tina Graham, Sally Courtney
	Implementing Low Cost Practical Skills Day For Paediatric Residents To Provide Hands-on Learning Tanya Li, Emily Clifton, Aysha Rasheed, Kathryn Kimber, Eleanor Walder, James Stevens, Hena Salam	Longitudinal Learner Impacts Of A Simulation-Based Medical Education Program Focused On Inter-Professional Management Of Paediatric Pain Chitra Lalloo, Naiyi Sun, Sara Klein, Jennifer Allegro, Alison Dodds, Erin Lawson, Linda Nguyen, Lauren Harris, Kate Kim, Jennifer Stinson	Reinvigorating an Existing In-Situ Mock Code Program Carrie Norwood, Sara Ewert, Autumn Layton, Brittany Cameron, Kandi Wise, Stacy Gaither, Nancy Tofil, Chrystal Rutledge, Jordan Newman, Nicholas Rockwell
	The Development and Implementation of a Simulation-Based Surgical Curriculum for Pediatric Surgery Trainees Laquanda Knowlin, Branae Rollins, Rollins Spurrier, Todd Chang, Nehemie Jules	Training In The Face Of Low Resources: Lumbar Puncture Training Model Adeel Khatri, Saima Ali, Sama Mukhtar, Syed Ghazanfar Saleem, Jabeen Fayyaz, Mark Adler, Barbara Walsh	Systems Integration Simulations Guided by the SEIPS Framework Christine Bailey, Marjorie Hamburger
	A Diverse Approach to Utilizing Simulation-Based Education in the Medically Complex Pediatric Patient Molly Everhart, Pamela Wixted, Morganne Dougherty, Janessa Shainline	OR-ientation: Changing onboarding strategies to improve trainee knowledge of the location of emergency drugs and equipment in the operating room Mai O'Sullivan, Elaine Ng, Jason Denis Cyr	Impact of Gastric Tubes on Neonatal Mask Ventilation and Intubation Success: A Randomized Simulation Study Teresa Baar, Robyn Dvorsky, Michael Wagner, Katharina Bibl
15:30 - 17:00	Workshops		
	The Systems Simulation Is Over...Now What?: Transforming Issues Into Solutions Jennifer Reid, Mirette Dube, Jennifer Arnold, Ashley Keilman, Lennox Huang, David Kessler, Kimberly Stone, Lauren Van Wagner, Marjorie Lee White, Pavan Zaveri, Christine Maloney, Brian Burns	Debriefing strategies for Virtual Reality Simulations Michelle Aebersold, Todd Chang	Revolutionizing Medical Training with Artificial Intelligence (AI) Standardized Patients using ChatGPT Kenneth Wayman, Lisa Caplan
17:00 - 18:30	Happy Hour + Welcome Reception		

	21/5/2025- Wednesday		
7:15 - 17:15	Registration		
7:00 - 8:00	Breakfast		
8:00 - 9:15	Morning Announcements + Panel Discussion with Marc Auerbach, MD, FAAP; Erin Montgomery, BSN, RN; Geethanjali Ramachandra, MD; and Michael Wagner, PhD		
9:30 - 10:45	ORAL THEME		
	THEME: Debriefing & Faculty Development	THEME: Patient Safety	THEME: Training & Development
	Exploring a Large Language Model to Enhance Debriefing in Simulation: An Observational Simulation-based Pilot Study Eury Hong, Sundes Kazmir, Benjamin Dylik, Marc Auerbach, Matteo Rosati, Sofia Athanasopoulou, Russell Himmelstein, Travis Whitfill, Lindsay Johnston, Traci A. Wolbrink, Arielle Rosen, Isabel T Gross	3D-Printed Neonatal Thorax Models For Simulation And Skills Acquisition – A Pilot Project Hannah Schwarz, Gunpreet Oberoi, Vanessa Roth, Tobias Werther, Philipp Steinbauer, Moritz Haderer, Angelika Berger, Ewald Unger, Andrea Lorenz, Richard Kolonics, Laszlo Jaksa, Michael Wagner	A 5 Year Course Evaluation of Simulation Training in Paediatric Palliative Care Rebecca Ramsay, Sabah Hussain, Annabel Copeman, Stephanie Friedl, Ashley Holt, Ashish Patel
	SQUIRE-SIM Reporting Guidelines: Using These New Guidelines To Get Your Simulation-Based QI Project Published Kim Stone, Tensing Maa, Jennifer Reid, Ashley Keilman, Anita Thomas, David Kessler	Preparing for Complex Maternal-Fetal Surgical Procedures Using Simulation-Based Clinical Rehearsals Sarah Henderson, Brianna O'Connell, Michael Silver, Saja Traoui, Kyle Martin, Anne Fox, Oliva Oppel, Rebecca Ybarra, Alireza Shamshirsaz, Eyal Krispin, Jennifer Arnold	Team Reflexivity in ATLS Concepts & Knowledge in Pediatric Trauma (TRACK-Peds) Andrea Vo, Daniel Lemke, Cara Doughty, Sharon Won, Anthony Arredondo, Erin Henkel, Bram Welch-Horan
	Debriefing For Narcissists Daniel J. Scherzer, Maria Carmen G. Diaz, Barbara Walsh, Bram Welch-Horan	Identifying Latent Safety Threats Through Varied Methods Across Varied Disciplines: A Comparative Analysis Mireille Gharib	Electrodermal Activity (EDA) Correlates With Reported Stress Levels In Residents During Simulation Michael Ferguson, Micheline Chipman, Anya Cutler, Erika Mayer, Leah Marie Seften, Michael Zubrow, Mary Ottolini
	Use Of Extended Reality (XR) as a Tool To Enhance Undergraduate Pediatric Neuroanatomy Education Brooke Nash, Darcey Atkinson, Rosie Nash, Anna Moore, Jack Sheppard, Latif Miah, Sameera Hettipathirannahelage, Owen Crawford	Systems Focused Simulation To Identify Safety Threats In Resuscitation Of A Sick Neonate: A Simulation Based Quality Improvement Study Venkateshan Sundaram, Arun Bansal, Praveen Kumar, Phanipriya Mandula, Siva Vyasam	Mental Effort Was Significantly Associated With Medical Student's Resuscitation Knowledge And Skill Acquisition In Transpacific Telesimulation Tatsuya Kubo, Mizue Kishida, Keigo Nishida, Kunio Ohta, Akira Nishisaki
	Mental Coaching In Emergency Management - What Emergency Medicine Can Learn From Professional Athletes Anthea Peters, Sven Dannemann, Katja Pröhl	ACE-ing it - One Approach to Implementing After Critical Event Reviews Jane Cichero, Renee Byrne, Nichola Concannon	Advancing AI Integration in Clinical Education: A Competency-Based Approach David Spiro, Rob Humbracht
10:45-11:15	Connection Break with Exhibitors		
11:15 - 12:45	ORAL THEME		
	THEME: Training and Development	THEME: Technology and Innovation	THEME: Patient Safety
	A 5-Year Course Evaluation For Paediatric Simulation Training In Child And Adolescent Mental Health Sabah Hussain, Rebecca Ramsay, Ashley Holt, Annabel Copeman, Toni Stafford	Supporting Operational Readiness in Healthcare Systems: An AI-Driven Approach Alison Dodds, Catharine Walsh, Jeanne Cloonan, Patrick Akkad, Lennox Huang, Tamara Skrisovska	Simulation Addressing Verbal Escalation (SAVE): Reducing Verbal Violence through Interprofessional Training Simranjeet Sran, Heather Walsh, Mallory Cordes, Ananya Datta, Ayushi Jain, Rosalyn Manuel, Laura Nicholson, Abigail Nolan, Haroon Shaukat, Gregory Yurasek, Simmy King, Pavan Zaveri
	A Paediatric Emergency Medicine Resuscitation Curriculum for Emergency Medicine Residents in a Low Resource Setting Nordia Thompson-Newell, Jabeen Fayyaz	TELEVENT: Neonatal Manual Ventilation Utilizing Telemedicine And Respiratory Function Monitoring In A Randomized Controlled Simulation Study Tereza Schedler, Robyn Dvorsky, Judith Rittenschöber-Böhm, Lorenz Sommer, Moritz Haderer, Lena Strasser, Vanessa Roth, Clemens Grubner, Katharina Bibl, Robin Peer, Andrea Lietz, Angelika Berger, Michael Wagner	Simulation For Workplace Culture Quality Improvement: Integration of Low Cost Technology Brittany Dahlen, Samreen Vora
	"Choose-Your-Own-Path" Distance Simulation for Pediatric Respiratory Emergencies in India Debayana Guha, Mallika Manyapu, Maninder Singh, Serkan Toy, Katherine Douglass, Tania Ahluwalia	CARE (Check, Act, React, Evaluate): Designing a Pediatric Emergency Medicine Safety Escape Room using immersive technology Elana Thau, Nordia Thompson-Newell, Jabeen Fayyaz, Olivia Ostrow, Erin Erlandson, Seona Dunbar, Tasuku Takadera, Shannon Westcott, Sunayna Vuppall	Leveraging Solutions for Emotional Safety in Pediatric High-Consequence Infectious Diseases Pooja Nawathe, Jennifer Cuzzolina, Katherine DeGolia, Jennifer Garland, Jonathan Grein
	Ultrasound In Pediatric Emergency Medicine Simulation: Evaluation Of A Longitudinal Curriculum Laura Simone, Hadas Katz-Dana, Dana Singer, Elana Thau, Paul Olszynski, Jonathan Pirie, Maya Harel Sterling	Randomized Controlled Trial between 1- & 2-player Virtual Reality Training for Neonatal Resuscitation Todd Chang, Laquanda Knowlin, Branae Rollins, Jaeyun Jung, Joongwan Park, Nehemie Jules, Courtney Washington, Troy Zeier, Mauricio Escobar, Marcella Bernstein, Elmer David, Satchel Clendenin, Rebecca Martinez-Hannon	The Implementation of a Tele-Simulation Septic Shock Training Program in a Low-Resourced Setting Vanessa Denny, John Adabie Appiah, Justica Amisah, Charlotte Woods-Hill, Heather Wolfe, Gustav Nettey, Bingqing Zhang, Vinay Nadkarni

	21/5/2025- Wednesday Continued		
12:45 - 14:15	Lunch in the Restaurant		
14:15 - 15:15	POSTER PRESENTATIONS		
	THEME: Debriefing and Teaching Methodologies	THEME: Patient Safety	THEME: Training & Development
	Reviewing Pediatric Resuscitation Curriculum: RCDP 10 Years On Camille Anderson, Sean Tackett, Justin Jeffers	Healthcare Providers' Comfort Level During High-Risk Procedures At A NICU: A Mixed-Methods Study Lena Strasser, Tereza Schedler, Michael Wagner, Katharina Bibl	Low-Cost Methods For Re-location Simulation of A High-Volume Tertiary Care Emergency Department In A Low Resource Setup In Pakistan Adeel Khatri, Saima Ali, Syed Ghazanfar Saleem, Sama Mukhtar, Maryam Saleem, Jabeen Fayyaz, Mark Adler, Barbara Walsh
	Pediatric "Clinical Case Discussion" In The Acquiring of The Competence of Clinical Reasoning Nataliia Bogutska, Xenia Rudan	Testing Travel Paths in a new Tower Using Simulation & Healthcare Failure Mode and Effects Analysis Dani Bruno, Leah Mallory, Marissa Perry, Micheline Chipman, Sophia Martens, Lauren Weller	An LGBTQ+ Simulation Curriculum for Neonatal Providers Russell Himmelstein, Isabel Gross, Lindsay Johnston, Andres Martin, Olivia Kachingwe, Margret Jäger
	End-of-Life Simulation in the Paediatric Intensive Care Unit Laura Buckley, Sophie Joseph, Karen Dryden-Palmer, Alison Dodds	Bringing Attending Physicians Back to the Simulation Lab Heidi Greening	Delivering A Novel Paediatric Ear, Nose and Throat And Ophthalmology Emergency Medicine Simulation Day Lucine Nahabedian, Shoshana Layman
	The Procedure Pop-up: A Novel Approach To Simulation Education Brian Costello	Development of a Low-Cost POCUS Task Trainer for Skull Fracture Identification in Infants Tasuku Takadera, Danielle Sweetnam-Holmes, Patrick Akkad, Maya Harel-Sterling	Medical Simulation for The Introduction of A New Profession- Israel's First PICU Nurse Practitioners Tal Sadeh-Vered, Rina Sela, Oleg Gololobov, Itai M. Pessach
	Debriefing on Demand: Exploring the Pause Button in Simulation Laura Simone, Mireille Gharib, Jonathan Pirie, Tasuku Takadera, Abdullah Alsaleh, Noa Kvatsinsky	SIMPACT: Simulation Impacting Communication and Child-Family Centered Care with Novice Learners Jennifer Allegro, Susan Hu, Kaspars Mikelsteins, Jabeen Fayyaz	Assessing PEM Physician Comfort and Skill of Umbilical Vein Catheterization Through Simulation Jillian Nickerson, Lakshmi Sridhar, Simranjeet Sran, Eiman Abdulrahman, Rosalyn Manuel, Lamia Soghier, Haroon Shaukat
	Implementation of a National Neonatal Bootcamp Curriculum: Lessons Learned Kesi Yang, Suma Hoffman, Nayef Chahin, Amy Sloane, Anne Ades, Heather French, Christie Bruno, Lindsay Johnston, Vilmaris Quinones Cardona	Using Simulation to Evaluate the Clinical Practice of Healthcare Support Staff Marjorie Hamburger, Taylor Dansky, Maureen Rose, Bitterman Julia	Description of Gaps in Neonatal-Perinatal Medicine (NPM) Fellow Procedural Experience Mark Castera, Mary Crume, Riti Chokshi, Bailey Zeiler, Shoshana Sojourner Newman-Lindsay, Amanda Wanous, Abdul Wasay Khan, Aashika Janwadkar, Megan Gray, Heather French
15:30 - 17:00	Workshops		
	SPARK: Simulations Powered by AI for Realistic Knowledge-building Jabeen Fayyaz, Devin Singh, David Rodgers, Lennox Huang	We Are Only Human: Integrating Human Factors Skills Into Paediatric Simulation-Based Training Elizabeth Vincent, Joanna O'Sullivan, Emma Broughton, Gabrielle Simpson, Alasdair Ross, Linda Chigaru, Cristine Sortica da Costa	The Ripple Effect, Applying Positive Psychology Principles in Debriefing to Transform Team Culture David Kessler, Rachel Elkin, Jennifer Reid, Lennox Huang
19:30 - 23:00	IPSS Party		

	22/5/2025 - Thursday		
7:30 - 17:00	Registration		
7:00- 8:15	Breakfast		
8:15 - 8:45	Membership Annual Business Meeting		
8:45 - 9:30	Lightning Session		
	Defying Gravity: Cultivating Psychological Safety in Pediatric Simulations for Team Success Francesco Severi, Annette Imprescia, Ekaterini Bakolis, Donata Dini, Marco de Luca	A Joint Effort: Crafting Our Finger Dislocation Trainer Aiden McLuckie, Robert Schremmer, Yui-Yee Raymond Chan	A Role For Plan, Do, Study, Act Cycles And Translational Simulation In Planning Service Re-Location Rebecca Qin, Josephine Goodyer, Renee Byrne
	Reducing Psychological Stress Among Trainees And Young Professionals By Strengthening Psychological Safety Sven Dannemann, Anthea Peters	AI-Integrated Video Laryngoscopy To Teach Neonatal Intubation: A Randomized-Controlled Simulation Trial Robyn Dvorsky, Clemens Grubner, Tereza Schedler, Lena Strasser, Katharina Bibl, Angelika Berger, Michael Wagner	Improving Medication Safety in a Low Resource Country through Simulation Vijayanand Jamalpuri, Faisal Nahdi, Anupama Yerra, Dinesh Chirla, Nalinikanta Panigrahy, Narsimhulu Gaddala, Shirisha Gudapati, Sulekha John, Geethanjali Ramachandra, Mark Adler, Vinay Nadkarni
	Revolutionizing Quality Improvement: Harnessing the Power of Tabletop Simulations. Practical Skills and Insights for Real-World Application Jennifer Allegro, Alison Dodds	Evaluating the Impact of PEARLS Debriefing: A Case Study on Its Application in Escape Room Learning Environments Erin Erlandson, Sunayna Vuppall, Shannon Westacott, Elana Thau, Olivia Ostrow, Nordia Thompson, Seona Dunbar, Tasuku Takadera, Jabeen Fayyaz	A Single-Blinded-Controlled Baby Abduction Simulation On The Neonatal Unit Christina Trigg, Meghann Jones, Rebecca Bradley, Sarah Ellis, Katie Wood, Catherine Powell, Matt Nash
	Using Human Factors and Systems Simulation to Identify and Mitigate Safety Threats in a Hybrid OR David Lieber, Rebecca Williams, Brianna O'Connell, Mirette Dubé, Myrna Chan MacRae	Simming Together: Virtual Interprofessional Simulation Across the Globe! Cecilia St. George-Hyslop, Carrie Morgan, Oshri Zaulan	Streamlining CPR Coach Training via Rapid Cycle Deliberate Practice and Multimedia Education Hunter Daigle, Ada Earp, Amanda Puro, Holli Stanford, Erin Truty, Becca Mielke
	Strengthening Partnerships Between Pediatric and Community Emergency Departments through Simulation Christine Maloney, Ashley Keilman, Kendra Powell, Jennifer Reid, Neil Usal	Sharing Our Development And Innovative Uses Of Patient Simulators To Create Physiological Events Detectable On Patient Diagnostic Equipment Gabrielle Simpson, Daniel Carter, Dheeraj Lokesh, Matthew Davies, Kylie Russo, Francois Abel, Ansel Godinho	Innovative Top Tips To Increase The Psychological Safety Of Your Simulation Participants: The Next Level Khang Hee Gan, Jo Hegarty
9:45 - 10:45	POSTER PRESENTATIONS		
	THEME: Human Factors & Crisis Resource Management	THEME: Interprofessional	THEME: Assessment, Validation, and Certification
	Simulation and Healthcare Failure Mode Effects Analysis to Improve System Child Abduction Response Jamie Fey, Leah Mallory, Dani Bruno, Brian Richardson, Frank Harris, Marissa Perry, Noel Poirier, Madison Doane, Micheline Chipman	Multidisciplinary Neonatal Emergencies Simulation Team-Training (NEST) Improves Participant's Confidence in Dealing With Simulated Neonatal Emergencies Abhishek Paul	Analysis of Novice and Expert Rater Reliability for a Neonatal Resuscitation Program Adherence Assessment Tool Leah Mallory, Sophie Martens, Misty Melendi, Anya Cutler, Lauren Weller, Leah Marie Seften, Tara Palnitkar, Allison Zanno
	Enhancing Electronic Health Record Implementation: The Role of Human Factors and Systems Design Myrna Chan-MacRae, Mirette Dubé, Susan Biesbroek, Jonathan Hron, Jennifer Arnold, Melanie Swenson	Using in Situ Simulation To Examine And Address Challenges with ECMO Initiation in the Pediatric Intensive Care Unit Maia Siedlikowski, Mark Kapusta, Reese Kapusta, Atheer Abdulrahman Alhaidar, Ilana Bank	Cognitive Aid to Improve Team Performance in Simulated Toxicology Scenarios: A Pilot Study Vaishali Jha, Samreen Vora, Manu Madhok
	Evaluation of Simulation-Based Training Program at One of the Academic Hospitals in Qatar: A Multi-Phase Design Study Dr. Ronald Tyron dela Rosa, Bassem Tarhini	Under the Influence: An Innovative Approach to Identifying Substance Use in colleagues Youstina Sawires, Oscar Zamorano	Impact of Pediatric Emergency Triage Assessment in Morocco: Comparative Analysis of Pre/Post Training Results Salma Lamhadqi, Hafsa Elhassani, Nicole Shilkofski
	Deliberate Practice in Pediatric Simulation at a Community Hospital Azadeh Fayazi, Siobhan Hopkins, Toran Hansen	Training In The Face Of Low Resources: Lumbar Puncture Training Model Adeel Khatri, Saima Ali, Sama Mukhtar, Syed Ghazanfar Saleem, Jabeen Fayyaz, Mark Adler, Barbara Walsh	Deep Understanding of Positioning For Midwives Using Modern Technologies AR/VR (PROGRESSION) Selina Kim, Julia Schrader-Reichling, Jennifer Tempfli, Hoffjan Nadine, Marc Lazarovici, Friederike Aulenbacher
	Deep Understanding of Positioning For Midwives Using Modern Technologies AR/VR (PROGRESSION) Selina Kim, Julia Schrader-Reichling, Jennifer Tempfli, Hoffjan Nadine, Marc Lazarovici, Friederike Aulenbacher	SimCRT – a Simulated Capillary Refill Time Trainer Christina Jaki, Christian Menzel	A Free Trauma Curriculum For Pediatric Trainees With Videos, Simulation Scenarios & Debriefing Guide Sofia Grigoria Athanasopoulou, James Dodington, Isabel Gross, Marc Auerbach
	Experience Report: Implementation of Low-Cost Equipment in Pediatric Emergency Education – The Effectiveness of Realistic Simulation in Medical Student Training and Cost Reduction Catarina Pires, Juliana Lana, Guilherme Brandão, Carla Raquel Santos	Implementation and Evaluation of a Clinical Simulation Program in Pediatric Ward Isabel Sanjurjo Jiménez, Alba Pablo Puchal, Saray Álvarez Román, Laura Montfort Carretero, Silvia Ricart Campos, Laura Alias Rodríguez, Librada Rozas Quesada, Aina Martínez Planas	Immersive Virtual Reality: Development and Testing of Multi-patient Scenarios Michelle Aebersold, Cynthia Bradley

	22/5/2025 - Thursday Continued		
10:45-11:15	Connection Break with Exhibitors		
11:15 - 12:30	ORAL THEME		
	THEME: Training & Development	THEME: Outreach Simulation	THEME: Patient Safety
	Pathway to Success: Driving Educational Growth with a Strategic Charter to Achieve Department Goals Christine Bailey, Roberta Hales	Developing In-Situ Large Scale Simulation Strategies for Enhanced Patient Safety: the DILSS Study Hadas Katz-Dana, Jabeen Fayyaz, Ehud Rosenbloom	No Call is a Wrong Call! Innovating Rapid Response Systems That Work Erin Kritz, Anne Jeffers
	Seven Years of National Simulation Curriculum For Training and Assessment in Pediatric Critical Care Medicine - TACTICS. Lydia Healy, Briseida Mema	Simulation as an Integral Tool for Improving Paediatric Research Delivery and Safety Ella Dzora, Hannah Hilton, Michael Kershaw, Mohammed Adbalhady, James Neale, Kate Parmenter, Daniel Roberts, Rachel Harrison	School Nurse Preparedness for Critical Events: A Multi-Modal Training Barbara Walsh, Marcie Gawel, Samuel Gowen
	Utilizing an in-Unit Simulation Station for Low Fidelity High Frequency Training Audrey Moore, Nicole Yamada, Louis Halamek, Rodrigo Galindo	Building Bridges: Developing a Simulation-based Outreach Center for Pediatric Emergency Readiness and Training Khoon-Yen Tay, Megan Lavoie, Mary Haggerty, Theresa Walls, Grace Good, John Erbayri	Integrating CPR Coach Using Translational Simulation to Improve CPR Quality at the Bedside Kiran Hebbar, Megan Difiore, Katie O'Dekirk, Hui Huang, Scott Gillespie, Jason Thornberry, Nicole Edwards, Nora Colman
	Effectiveness of a Train the Trainer Program for Simulation Implementation in Community Emergency Departments using SimBox: A Multi-Center Study Erin Montgomery, Cam Brandt, Sofia Athanasopoulou, Sally Snow, Cage Cochran, Elizabeth Sanseau, Maybelle Kou, Marc Auerbach	Implementation of Team STEPPS through Deliberate Practice Simulation in the PICU Jordan Newman, Leah Bittles, Vicki Shinick, Kristen Waddell, Caleb Watson, Carrie Norwood, Sara Ewert, Nicholas Rockwell	Broselow Tape vs the PediSTAT App: A Simulation-Based Comparison of Accuracy and Efficiency of Medication Administration in Pediatric Emergency Resuscitation Amani Sanchez, Robert Vezzetti, Sai Surapa Raju, Matthew Wilkinson, Ada Earp
	AI-Driven Just-In-Time Training for Handling Difficult Conversations Vinod Havalad, Benjamin Conway, Lauren Rissman, Gillian Brennan	Improving Equity in Pediatric Care via Outreach Simulation: Expanding Impact to Offices, Schools, EMS Lauren Robinson, Sarah Bingham, Stacy Gaither, Carrie Norwood, Marjorie Lee White, Chrystal Rutledge	Using In Situ Simulation In Response To Real-Life Child Safety Events In The Hematology-Oncology Unit Maia Siedlikowski, Mark Kapusta, Christine Durand, Ilana Bank
12:30 - 13:30	Lunch (Committee Meetings)		
13:30 - 16:30	Exhibit Hall Breakdown		
13:30 - 15:00	Workshops		
	Promoting Transfer From Simulation To Clinical Context Through Theory-Founded Simulation Design And Debriefing Models Briseida Mema, Lydia Healy, Liron Talmi, Tamara Skrisovska	Holistically Embedding Psychological Safety In Simulation Experiences Anne Ades, Felina Mille, Kesi Yang, Kristen Gerhardt, Christine Bailey, Khoonyen Tay, Laura Goldstein	Educational Scholarship in Simulation: Disseminating Your Work and Building your CV Rebekah Burns, Christine Maloney, Ashley Keilman, Kimberly Stone, Jennifer Reid, Elizabeth Sanseau, Anita Thomas
15:15 - 16:15	Keynote - Dr. Devin Singh		
16:15 - 16:45	Awards + Closing Remarks
