

INTERNATIONAL TRAUMA CONGRESS

15 - 17 FEBRUARY 2018

DAY 1			
8:00 Registration & Exhibition Opening			
Time	Session 1	Moderator:	Speaker
08:30 to 08:40	Hip Fracture & Reconstruction	Head femur fracture, replace or fix?	
08:40 to 08:50		Updates in fixation of neck femur fracture management	
08:50 to 09:00		Hip arthroplasty options in acute fracture	
09:00 to 09:10		THA, following fracture acetabulum	
09:10 to 09:20		THA, following failed neck femur fixations	
09:20 to 09:30		Failed trochanteric fracture fixation, re-do or replace?	
09:30 to 10:30			<i>Panel expert discussion, THA in Trauma cases</i>
10:30 to 11:00 Opening Ceremony & Coffee Break			
Time	Session 2	Moderator:	Speaker
11:00 to 11:10	Knee Fracture & Reconstruction	Current trends in plateau fracture managements	
11:10 to 11:20		TKA in failed plateau fixation	
11:20 to 11:30		TKA in secondary arthritis following plateau fracture	
11:30 to 11:40		TKA following HTO	
11:40 to 11:50		Conversion of Uni to TKA, challenges and results	
11:50 to 12:00		Fixation of peri-prosthetic fractures around the knee	
12:00 to 12:10		Extensor mechanism insufficiency in TKA	
12:10 to 12:40			<i>Case presentation and expert opinion</i>
12:40 to 14:00 Lunch Break			
Time	Session 3	Moderator:	Speaker
14:00 to 14:10	Ligaments Injury around the Knee	ACL tibial avulsion, fixation technical tips and tricks	
14:10 to 14:20		Acute ACL rupture in adults, when to fix it ?	
14:20 to 14:30		Posterolateral corner injury, diagnosis and reconstruction	
14:30 to 14:40		Traumatic PCL avulsion	
14:40 to 14:50		Acute MCL injury	
14:50 to 15:00		Patellar tendon rupture, how to fix it?	
15:00 to 15:40			<i>Expert opinion</i>
15:40 to 16:00 Coffee Break			
Time	Session 4	Moderator:	Speaker
16:00 to 16:10	Shoulder & Elbow Injury	4-parts fracture, indications of replacements?	
16:10 to 16:20		Reversed shoulder arthroplasty in fracture proximal humerus	
16:20 to 16:30		Traumatic Rotator cuff tear	
16:30 to 16:40		Acute AC joint separation, indications and methods of fixation	
16:40 to 16:50		Recurrent shoulder dislocation, choice of the procedure	
16:50 to 17:00		acute traumatic elbow dislocations in adults	
17:00 to 17:10		Radial head replacement, indications and technique	
17:10 to 17:20		Chronic elbow instability, ligaments reconstruction techniques	
17:20 to 17:40			<i>Q & A</i>
17:40 End of Day 1			

DAY 2

DAY 2				
Time	Session 1	Moderator:	Speaker	
08:30 to 08:40	Acetabulum Fractures	Rule of 3D planning and printing in acetabular surgery		
08:40 to 08:50		Kocher-Langenbeck approach—indications and techniques of reduction and fixation		
08:50 to 09:00		Primary hip arthroplasty with or without reconstruction in geriatric acetabulum		
09:00 to 09:10		Posterior lesions— anterior or posterior approaches for local plates		
09:10 to 09:20		Acetabular fractures with concomitant pelvic ring injuries—planning of approaches and sequences for reduction and fixation		
09:20 to 09:30		Reconstruction in geriatric acetabulum		
09:30 to 09:40		Salvage, late reconstruction of nonunion and malunion of Acetabulum fractures		
09:40 to 10:00			Q & A	
10:00 to 10:30 Coffee Break				
Time	Session 2	Moderator:	Speaker	
10:30 to 10:40	Pelvis Fracture	Acute management of pelvic ring disruption—hemorrhage control, role of angiography, and packing		
10:40 to 10:50		Anterior lesions (symphysis, pubic body, and rami)		
10:50 to 11:00		Gibson approach with trochanteric flip osteotomy and dislocation— indications and technique		
11:00 to 11:10		Pararectus approach—indications, technique and differences to the modified Stoppa		
11:10 to 11:20		Indications and technique of iliosacral screws		
11:20 to 11:30		Periprosthetic acetabular fractures: treatment concepts		
11:30 to 11:40		Management of early complications (secondary dislocation, nerve palsy, infection)		
11:40 to 11:50		Indications and techniques of lumbopelvic fixation		
11:50 to 12:00		Navigation use in Pelvis surgery		
12:00 to 12:10		Management of early and late failures of Pelvis reconstruction		
12:10 to 12:30			Panel Discussion	
12:30 to 14:00 Lunch & Prayer Break				
Time	Session 3	Moderator:	Speaker	
14:00 to 14:10	Cervical Spine	Combined C1 and C2 fracture		
14:10 to 14:20		C2 traumatic listhesis (hangman’s fracture with displacement)		
14:20 to 14:30		Non-union odontoid fracture		
14:30 to 14:40		Cervical spondylotic radiculopathy		
14:40 to 14:50		Management of intraoperative vertebral artery injury		
14:50 to 15:00		C5 nerve root palsy after cervical spine correction surgery		
15:00 to 15:10		Cervical fixed kyphosis needing correction and stabilization		
15:10 to 15:35			Q & A	
15:35 to 16:00 Coffee Break				
Time	Session 4	Moderator:	Speaker	
16:00 to 16:10	Thoraco-Lumbar Spine	L4 degenerative spondylolisthesis		
16:10 to 16:20		Lumbar degenerative scoliosis needing fixation down to pelvis		
16:20 to 16:30		Implant loosening with pseudarthrosis in the lumbar spine		
16:30 to 16:40		Surgical site infection after lumbar spine surgery using spinal instrumentation		
16:40 to 16:50		Multi-level TL fractures		
16:50 to 17:00		Post-Traumatic TL kyphosis		
17:00 to 17:10		Sacral insufficiency fracture		
17:10 to 17:20		Sagittal correction of the L-Spine: from front or back?		
17:20 to 17:30		Timing of surgery for disc herniation with motor deficit		
17:30 to 17:40		Short segment surgery for stenosis within a deformity		
17:40 to 18:00			Q & A	
18:00 End of Day 2				

DAY 3				
Time	Session 1	Moderator:	Speaker	
08:30 to 08:40	Hand & Wrist Trauma	Vascularized versus conventional bone graft		
08:40 to 08:50		Carpal fracture dislocations		
08:50 to 09:00		proximal row carpectomy (prc) versus four corner fusion		
09:00 to 09:10		Bridging plate versus Ex-Fix in distal radius fracture		
09:10 to 09:20		DRUJ salvage for traumatic disruption		
09:20 to 09:30		mangled hand, salvage versus amputation		
09:30 to 09:40		Wrist arthroscopy any update?		
09:40 to 10:00			Q & A	
10:00 to 10:30 Coffee Break				
Time	Session 2	Moderator:	Speaker	
10:30 to 10:40	Ankle & Foot Trauma	Ct evaluation of syndesmotic fixation		
10:40 to 10:50		Role of joint replacement in severe ankle fracture		
10:50 to 11:00		Charcot ankle any solution		
11:00 to 11:10		Minimal invasive in Talus fixation		
11:10 to 11:20		Plating Talus technique and results		
11:20 to 11:30		Lisfranc injury ways of fixation		
11:30 to 11:40		Minimal invasive in Calcaneum fixation		
11:40 to 11:50		Chopart Joint Injuries management		
11:50 to 12:00		Minimal invasive in Tendo-Achillus repair		
12:00 to 12:10		5TH MTS Base fracture when to fix?		
12:10 to 12:30			Panel Discussion	
12:30 to 14:00 Lunch & Break				
Time	Session 3	Moderator:	Speaker	
14:00 to 14:10	Polytrauma – team management	Early total care anything new?		
14:10 to 14:20		Damage Control in Orthopedics		
14:20 to 14:30		Early Appropriate Care		
14:30 to 14:40		PR.I.S.M (Prompt-Individualized-Safe-management)		
14:40 to 14:50		Update in poly trauma Imaging		
14:50 to 15:00		Mangled extremity approach		
15:00 to 15:10		Multiple fractures from where to start?		
15:10 to 15:25			Q & A	
15:25 to 16:25 Free Paper Session – 6 sessions x 10 minutes each session				
16:25 End of Day 3				

Venue:

Le Méridien Dubai Hotel & Conference Centre
