PRELIMINARY SCIENTIFIC PROGRAM

LEGENDA	Plenary	Oral Communication	Symposium	Workshop	Poster Session
WEDNESDAY 20 JUNE 2018					
h. 08.00	Registration Opens				
h. 09.00	Inaugural Session				
h. 09:30	Plenary Session: Keynote Speaker - Inge F.H.M. Gerrits (Netherlands)				
h. 10:30	Plenary Session: Probation, parole, alternatives to imprisonment Keynote Speaker - Arne Popma (Netherlands)				
h. 11.30	Poster Session & Coffee Break				
h. 12.00	Plenary Session: Minor delinquency Keynote Speaker - Ricardo Barroso (Portugal)				
h. 13.00	Lunch				
h. 14.30 – 16.30	PARALLEL SESSIONS:				
	SESSION 1 Family and parental conflict	SESSION 2 Family and parental conflict	SESSION 3 Treatment	SESSION 4 Treatment and assessment	SESSION 5 Treatment and assessment
h. 14.30 - h. 15.30	Collaborative practice as a method to solve successfully family problems	Providing Family-centered Care in Secure Residential Institutions: Implications for Practice and Research Results	Compassion Focused Therapy for young offenders: rationale, treatment overview and outcome research design.	The (un)usefulness of neurobiological research in prevention and intervention strategies for antisocial behavior.	Jail Breakers redesigning treatment for youth at risk
	Chair:	Chairs: Mos Kee, Simons Inge	Chairs: Rijo Daniel, Barroso Ricardo	Chairs: Marhe Reshmi, van Lith Koen	Chair: Mulder Eva
	What is collaborative practice and why it's a challenging way to solve conflicts. <i>Rey C., Grilli A.</i> The role of the neutral coach. <i>Bassino B.</i> The role of the child specialist. <i>Marabino F.</i>	Experiences from Practice and Training of Family-centered care in secure juvenile institutions in the Netherlands. <i>Mos K.</i> Factors influencing parental participation during their child's detention: results of quantitative and qualitative research. <i>Simons I.</i> Family-centered Approach in Secure Residential Youth Care: Preliminary Results of a Quasi-Experimental Study. <i>Broekhoven L., Blanckestein A.</i>	Understanding psychopathy from an evolutionary perspective: The impact of shame and shame maladaptive coping strategies in the endorsement of psychopathic traits across a community and a forensic sample. <i>Vagos P.</i> Treating young offenders with psychopathic traits: A Compassion based intervention handbook. <i>Ribeiro da Silva D.</i> Testing the efficacy of Compassion Focused Therapy with young offenders: A clinical trial design. <i>Brazão N.</i>	Research on antisocial behavior: from neurobiological theory to clinical practice. <i>Zijlmans J.</i> Balancing the scale of Lady Justice: a plea for Biosocial Criminology. <i>Tielbeek J.</i> Effects of methylphenidate during fear learning and incentive processing in DBD male adolescents: a randomized controlled fMRI trail. <i>van Lith K.</i>	The treatment of serious juvenile offenders in the Netherlands. <i>Hillege S.</i> Redesigning the juvenile justice system in the Netherlands. <i>Souverein F.</i> School2Care; back on track through alternative education. <i>Pronk S.</i>
h. 15.30- h. 16.30	15.30 An Attachment-Based Model of Parental Alienation: Solutions for the Family Court. <i>Childress C.</i>	15.30 New approaches to divorce with children: a problem of public health. <i>Vezzetti V.</i>	15.30 The clinical relevance of the I-PACE-model in treating severe Internet related disorders in adolescents. <i>Bilke-Hentsch O.</i>	15.30 CU-traits and HPA-axis functioning during residential treatment of adolescents with antisocial behavior. <i>Jambroes T.</i>	Are there differences between males and females with conduct disorder? - Results from the European multicentre study FemNAT-CD
	15.45 Attachment problems in a forensic adolescent population. <i>Manetsch M.</i>	15.50 Criminal liability of the parent who psychologically abuses his/her child-practice of prosecutor's offices from Romania regarding to the suing of alienating parent. <i>Vladica S.M.</i>	15.45 Which children need secure services in England? <i>Hales H.</i>	15.50 A positive approach to juvenile justice: the institute of probation. <i>Rossi L.</i>	Chairs: Bernhard Anka, Popma Arne Hormonal patterns in females and males with conduct disorder: Results from the European multicentre study FemNAT-CD. <i>Bernhard A.</i>

	16.00 Pilot study of the family resilience from the perspective of families at risk. <i>Mirosavljevic A.</i>	16.10 Diagnoses associated with parental alienation syndrome in child custody dispute forensic investigations. <i>Walter-Menzinger M.</i>	16.00 An upsized child and youth mental health court liaison service: with added fitness and soundness reporting. <i>Harden S.</i>	16.10 Integration of youth parole and child protection services: the why and how of a new solution. <i>Busschers I.</i>	Psychophysiological indicators of emotion regulation in females with conduct disorder. Findings from the FemNAT-CD study. <i>Oldenhof H.</i> Longitudinal changes of emotion processing functions in female adolescents with conduct disorder. <i>Baumann S.</i>
	16.15 The Equality Principle: Splitting the Difference in Custody Disputes. <i>Ngaosuvan L.</i>		16:15 Mindfull behind bars. <i>Hillege S., Mulder E.</i>		
h. 16.30	Poster Session & Coffee Break				
h. 17.00	Plenary Session: Conduct Problems: Implications of neurocognitive and genetically informative findings for intervention Keynote Speaker - Essi Viding (United Kingdom)				
h. 18.00	Plenary Session: Child Affected by Parental Relationship Distress Keynote Speaker - William Bernet (USA)				

THURSDAY 21 JUNE 2018					
h. 09.00-11.00	PARALLEL SESSIONS:				
	SESSION 6 Intercultural studies and victims	SESSION 7 Good life models	SESSION 8 Prevention	SESSION 9 Juvenile delinquency and sex offenders	SESSION 10 Assessment
h. 09.00- h. 10.00	09.00 Radicalization in Adolescents – The needs of physicians and psychotherapists in preventing violence. <i>Allrogen M.</i>	From risks to needs: Quality of Life in juvenile offender rehabilitation	Harry Potter and the True Psychopath	The role of biological correlates of antisocial and prosocial behaviour in the development of conscience.	Does the brain response of males and females with conduct disorder differ? - fMRI results from the European multicentre study FemNAT-CD
		Chairs: Van Nieuwenhuizen Chijs, Barroso Ricardo	Chairs: Kaltiala-Heino Riittakerttu , Oshukova Svetlana	Chairs: Cima Maaike, Fragkaki Iro	Chairs: De Brito Stephane A., Stadler Christina
	09.15 Some once were warriors: adaptations required for a bicultural adolescent forensic service in New Zealand. <i>Delmage E .</i>	Quality of life, delinquency and psychosocial functioning of adolescents in secure residential care: Testing two assumptions of the Good Lives Model. <i>Barendregt C.</i>	Introduction. Two fates intertwined - what unites and separates Harry Potter and Lord Voldemort? <i>Kaltiala-Heino R.</i>	Introduction of a theoretical framework of morally relevant behaviour. <i>Cima M.</i>	Brain response to negative facial expressions in male and female youths with conduct disorder: Preliminary findings from the FemNAT-CD consortium. <i>De Brito S.</i>
	09.30 Describing juvenile delinquency in Kosovo. Fanaj N.	(Quality of) Life after incarceration: A follow-up study of former patients leaving psychiatric residential care. <i>Janssen-de Ruijter L.</i>	Psychopathic traits illustrated by Voldemort's character. <i>Oshukova S.</i>	Daily oxytocin rhythm in relation to psychopathy and trauma in residential youth. <i>Fragkaki I.</i>	Sex differences in neural activation during reward and punishment cue processing in adolescents with conduct disorder. <i>Sidlauskaite J.</i>
h. 10.00- h. 11.00	09.45 First look at psychosocial functioning, adversity and mentalization of delinquent adolescents assigned to behavior modification program in Lithuania. <i>Gervinskaite-Paulaitiene L.</i>	Involving patients in the development of a web-based quality of life instrument : the QoL-ME. <i>Buitenweg D.</i>	Voldermort in light of ethiological theories of psychopathy. <i>Kaltiala-Heino R.</i>	Identifying subgroups of detained juveniles from a biopsychosocial perspective. <i>De Ruigh E.</i>	Atypical neural correlates during explicit emotion regulation in female youths with conduct disorder. <i>Raschle N.M.</i>
	10.00 Families at risk – perception of professionals working in public and civil sector. <i>Jedud Boric I.</i>	10.00 Young women out of residential care speaking of their needs: empirical support for the relevance of The Good Lives Model. <i>Lanctote N.</i>	10.00 Proximity and distance in juvenile residential care- the Bündner Standard approach. <i>Bilke-Hentsch O.</i>	Above and beyond risk factors	10.00 Immaturity as a mitigating factor in judicial decision-making. <i>Barendregt C.</i>
	10.15 Incarcerated youth mental and physical health: parity of esteem. <i>Kasinathan J.</i>	10.15 The eleven primary goods of the Good Lives Model as determinants for well-being in adolescents:preliminary results of a systematic literature review. <i>Serie C.</i>	10.15 Stress and well-being in juvenile facilities: clues for prevention and intervention with young offenders and professionals. <i>Vale-Dias M.</i>	Chair: De Vries Robbé Michiel	10.15 A meta-analytical evaluation of the dual-hormone hypothesis: Does cortisol moderate the relationship between testosterone and status-relevant behavior? <i>Dekkers T.</i>
	10.30 Need and Understanding – Young Victims’ Experiences of Processing Victimization. <i>Thunberg S.</i>	10.30 The Good Lives Model:A strenght-based approach for detained female adolescents. <i>Van Damme L.</i>	10.30 Affective empathy, cognitive empathy and social attention in children at high risk of criminal behaviour. <i>Zonneveld Van L.</i>	The added value of neurobiological factors in the prediction of recidivism in juvenile offenders. <i>De Ruigh E.</i>	10.30 Assessing Psychopathic Traits early in development: Testing potential associations with behavioural, affective, and contextual Factors. <i>Demetriou C.</i>
h. 11.00	10.45 Screening for the detection of potential risk of sexual abuse in babies between 8 and 30 months. <i>Amigo C.</i>	10.45 Adolescents’ experiences of strengths in the transition from detention back to community. <i>Van Hecke N.</i>	10.45 The perception of social safeness in community and forensic boys. <i>Rijo D.</i>	Risk and protective factors for offending behaviour in former residential care youths. <i>Boonmann C.</i>	10.45 Identifying variants of psychopathy among incarcerated youth: differences in psychopathic traits, negative affect, trauma abuse or neglect, aggression and psychopathology. <i>Van den Burg A.</i>
	Poster Session & Coffee Break				

h. 11.30	Plenary Session: How neuroscience is helping to motivate a preventative psychiatry approach: Latent vulnerability and the impact of childhood maltreatment Keynote Speaker - Eamon McCrory (United Kingdom)				
h. 12.30	Plenary Session: Bullying from the schoolyard to social media: Negative outcomes and the search for promising interventions Keynote Speaker - Emilio Viano (USA)				
h. 13.30	Lunch				
	SESSION 11 Assessment	SESSION 12 Assessment	SESSION 13 Assessment and juvenile delinquency	SESSION 14 Juvenile delinquency and sex offenders	SESSION 5 Jailbreakers
h. 15.00- h. 16.00	Introduction to the SAPROF-Youth Version: Assessment of protective factors for violence risk in juveniles	Chances to improve forensic care for youth in a changing juvenile justice system	Understanding of and intervening in emotion problems in children with antisocial behaviour	Subtypes, Courses, and Criminal Outcomes of ADHD and Conduct Disorder in Youth	JailBreakers
	de Vries Robbé Michiel Kleeven Anneke Hilterman Ed	Chairs: Doreleijers Theo, Mulder Eva	Chairs: Swaab Hanna, van Goozen Stephanie	Chairs: Aebi Marcel	
		Juvenile criminal law in Switzerland. <i>Boonmann C.</i>	Recognition of facial emotion and affective prosody in children at high risk of criminal behaviour. <i>Van Zonneveld L.</i>	Neuro-physiological biomarkers associated with distinct conduct problem subtypes. Fanti K.	
		Exploring experimental small, inner-city youth detention centers with low security in addition to the existing juvenile justice system in The Netherlands. <i>Adriaanse M.</i>	Improving emotion recognition in children and adolescents with behavioural and emotional difficulties. <i>Hunnikin L.</i>	Identifying Children With Severe Conduct Problems: The Importance of the DSM-5 Limited Prosocial Emotions and Other Proposed Specifiers. <i>Colins O.F.</i>	
		The development and implementation of an orientation center for Youth Detention Centers in Flanders (Belgium), guided by forensic theoretical frameworks. <i>Van Damme L.</i>	The effect of the Cardiff Emotion Recognition Training on behaviour and Theory of Mind in children at risk of future criminal behaviour. <i>Wells A.</i>	Attention-Deficit Hyperactivity Disorder in Childhood and Adolescence and the Risk of Crime in Young Adulthood in a Danish Nationwide Study. <i>Steinhausen H.C.</i>	
h. 16.00 h. 17.00	16.00 Callous unemotional and autistic traits: Investigating differences on empathy. <i>Georgiou G.</i>	16.00 Risk assessment of juveniles who sexually offended against children vs. juveniles who sexually offended against peers: Clinical implications. <i>Krause C.</i>	16.00 Online Sexual Predators: Does the age of child victim matter in online grooming process? <i>Celik D.</i>		
	16.15 The validity of conduct disorder symptom-profiles in high risk youth. <i>Aebi M.</i>	16.15 Transition of care among young offenders moving from forensic adolescent mental health services to adult services: A national qualitative study. Livanou M.	16.15 Playing football is more than just running around. Evaluation of a football intervention for juvenile delinquents. <i>Bongers I.</i>		
	16.30 Risk-need assessment trajectories of violent young women. <i>Hilterman E.</i>	16.30 Title to be advised <i>Steppan M.</i>	16.30 The "bad girls". Female antisociality in Italy. <i>Sabatello U.</i>		
	16.45 Violence risk in young adult offenders. <i>Kleeven A.</i>	16.45 Examining the causal relationship between emotion recognition deficits and Conduct Disorder: A longitudinal follow-up of the FemNAT-CD study. Guy A.	16.45 Treatment Effect on Recidivism for Juveniles Who Have Sexually Offended: a Multilevel Meta-Analysis. <i>Ter Beek E.</i>		
h. 17.00	Poster Session & Coffee Break				
h. 17.30	Plenary Session: Minor delinquency Keynote Speaker - Georgia Zara (Italy)				

FRIDAY 22 JUNE 2018					
h. 09.00	Plenary Session: Child Witness Evaluation in CSA Cases: Memory, Interviewing and Assessment Keynote Speaker - Giuliana Mazzoni (United Kingdom)				
h. 10.00-h. 12.00	PARALLEL SESSIONS:				
	SESSION 16 Treatment	SESSION 17 Treatment	SESSION 18 Treatment	SESSION 19 Juvenile delinquency and sex offenders	SESSION 20 Jailbreakers
	No treatment as usual: the use of neurobiology in treatment practice	Group-based Innovations on the Pedagogical Climate in Residential Youth Care	Improving residential mental health care: do not forget to ask the opinions of youngsters!	Teacher-targeted aggression by students: Results from a multi-country project	JailBreakers
h. 10.00-h. 11.00	Chair: Nauta-Jansen Lucres Gameful Mindfulness-based Relaxation Therapy for Traumatized Youths: A Pilot Study Testing Three Interventions. <i>Nijhof K.</i> Biofeedback in treatment of aggression: a promising intervention. <i>Swinkels L.</i> Neurocognitive an assessment to prevent criminal behaviour in Aggressive children. <i>Swaab H.</i>	Chairs: Nijhof Karin, Van Domburgh Lieke Gender sensitivity in secured residential youth care. <i>Nijhof K.</i> Non-Violent Resistance in a residential setting, with explicit attention for juveniles with mild intellectual disabilities (MID). <i>Visser K.</i> Reducing and preventing depressive symptoms among adolescents in residential treatment by a cognitive behavior therapy program: An initial Cluster Randomized Trial. <i>Vermaes I.</i>	Chairs: Van Nieuwenhuizen Chijs, Bongers Ilja Which youngsters benefit the most? The evaluation of treatment progress with Patient Reported Outcome Measures (PROMs). <i>Leenderts E.</i> 'I need to know': developing an e-health application together with youngsters. <i>Van Kuijk R.</i> Project Life: A recovery-based intervention developed by youngsters. <i>Gerrits I.</i>	Chairs: Ttofi Maria M., Eisner Manuel Bidirectional association between teacher-child bond and oppositional behaviour against teachers in adolescence: A longitudinal analysis from ages 11 to 15. <i>Valdebenito S.</i> Predictors of teacher-targeted aggression: Results from a systematic review and meta-analysis. <i>Ttofi M.</i> Teacher-victimization in Swedish Schools: Identification of Risk Factors. <i>Hellfeldt K.</i> The relationships between students victimization of teachers, and student victization by teachers. Benbenishty R.	
h. 11.00-h. 12.00	Results of T.H.E. Study on Multi-Problem Young Adults: Psychological, social, neurobiological mechanisms, and service use trajectories Chairs: Van Domburgh Lieke, Marhe Reshmi Psychological and social characteristics of Multi-problem Young Adults. <i>Bevaart F.</i> Child Protection Service interference in childhood and the relation with mental health problems and delinquency in young adulthood: a latent class analysis study. <i>Van Duin L.</i> Neurobiological characteristics of multi-problem young adults: error processing, morality, and their relation with psychopathic traits. <i>Zijlmans J.</i>	New methods to overcome challenges in diagnostic and treatment in adolescents with deviant behaviour Chair: Van Nieuwenhuizen Chijs The usefulness of the Autism Quotient in diagnosing Autism Spectrum Disorder in boys with and without delinquent behaviour. <i>Rutten A.</i> Development of externalizing behavior of male adolescents in psychiatric residential care: you better think thrice. <i>Janssen-de Ruijter L.</i> Youth and staff working together to reach alliance. A N=3 study in a hospital for youth forensic psychiatry. <i>Bongers I.</i> Adolescent and adult persistent offenders: Dealing with recidivism and their needs. <i>Roeg D.</i>	No treatment as usual: investigating the opportunities of informal care in forensic outpatient treatment Chairs: Swinkels Lise, Nauta-Jansen Lucres Youth Initiated Mentoring: a natural paradox. <i>Van Dam L.</i> @ease with headspace. <i>Rosema S.</i> Forensic Network Coaching: improving social networks among a forensic psychiatric outpatient population. <i>Swinkels L.</i>	11.00 Psychosocial Implication of Children's Exposure to Animal Cruelty. <i>Sorcinelli F.</i> 11.15 The link between strain, negative emotions and delinquency: gender differences in a longitudinal study. <i>Vale-Dias M.</i> 11.30 Adolescents and cybercrimes (sexting, hacking, cyberbullying, online threat): the associations with individual, parental and other developmental outcome variables. <i>Wissink I.</i> 11.45 Dimensions of the compassion towards others in adolescents: Testing for differences between boys from the community and from a forensic sample. <i>Brazão N.</i>	
h. 12.00	Poster Session & Coffee Break				
h. 12.30	Plenary Session: Therapeutic disclosure revisited Keynote Speaker - Chijs van Nieuwenhuizen (Netherlands)				
h. 13.30	End of sessions and take home messages				
h. 14.00	Lunch
