

**Third Annual Aneurysms Inside and Out:
Cerebrovascular & Endovascular Residents & Fellows Course
October 20-21, 2017 | Seattle Science Foundation
AGENDA**

Friday, October 20, 2017 Endovascular Surgery

7am – 7:30am

Arrival & Breakfast (*change into scrubs*)

7:30am – 7:40am

Introduction & Welcome

Stephen Monteith, M.D., Cameron G. McDougall, M.D.

7:40am – 8:10am

Angiographic Anatomy Review

Yince Loh, M.D.

8:10am – 8:45am

Indications for Aneurysm Treatment

Cameron G. McDougall, M.D.

8:45am – 9:20am

Decision Making in Clipping vs. Coiling

Aaron Dumont, M.D., FACS, FAHA

9:20am – 10am

Aneurysms: Simple and Advanced Coiling Techniques

Stephen Monteith, M.D.

10am – 10:15am

Break & Exhibits

10:15am – 12:30pm

Bioskills Lab

Endovascular

All Faculty

12:30pm – 1pm (*working lunch*)

Case Discussions

All Faculty

1pm – 1:45pm

Anatomy of the Paraclinoid Carotid and Posterior Circulation

Shane Tubbs Ph.D., PA-C

1:45pm – 2:25pm

Aneurysms: Flow Diversion with Stents

Cameron G. McDougall, M.D.

2:25pm – 3pm

Intrasacular Flow Diversion and Novel Devices

Akshal Patel, M.D.

3pm – 3:30pm

Aneurysms: Salvage Treatment of Complex Open and Endovascular Cases

Ricardo Hanel, M.D., Ph.D.

3:30pm – 3:45pm

Break & Exhibits

3:45pm – 5:30pm

Endovascular vs. Open Surgery Case Discussion

Swedish Cerebrovascular Fellows: Akil Patel, M.D., Josh Bentley, M.D., Bill Wang, M.D.

All Faculty

5:30pm

Adjourn

7:00pm

Course Dinner

Location TBA

Saturday, October 21, 2017 Open Surgery
--

7:30am – 8am

Breakfast & Change into Scrubs

8am – 8:40am

Techniques to Performing a Cerebral Bypass

Stephen Monteith, M.D.

8:40am – 9:20am

Orbitozygomatic Craniotomy & Approach to Circle of Willis, Sylvian Fissure, & Basilar Tip

Ricardo Hanel, M.D., Ph.D.

9:20am – 10am

Case Discussions: Nuances in Aneurysm Clip Management

All Faculty

10am – 10:15am

Break & Exhibits

10:15am – 12:30pm

BioSkills Lab

Skull Based Approaches

All Faculty

- Orbitozygomatic Craniotomy
- Splitting of Sylvian Fissure
- Anterior and Posterior Clinoid Resection
- Dissection of Circle of Willis Including Basilar Tip

12:30pm – 1:30pm (*working lunch*)

Endovascular vs. Open Surgery Case Discussion

All Faculty

1:30pm – 2:30pm

BioSkills Lab

Cerebral Bypass

All Faculty

2:30pm – 3:15pm

Far Lateral Craniotomy for PICA Aneurysm, Vertebral Basilar Junction

Surgery Techniques for AVM Surgery

Aaron Dumont, M.D., FACS, FAHA

3:15pm – 5pm

BioSkills Lab

Far Lateral Craniotomy for PICA and Vertebral Basilar Junction

All Faculty

5pm

Adjourn

FACULTY

Cameron G. McDougall, M.D.

Course Co-Chairman
Interim Chair of Neurosurgery
Medical Director, Cerebrovascular Swedish
Neuroscience Institute
Seattle, Washington

Aaron Dumont, M.D., FACS, FAHA

Director, Center for Clinical Neurosciences
Tulane School of Medicine
New Orleans, Louisiana

Yince Loh, M.D.

Interventional Neuroradiologist & Neurointensivist
Swedish Neuroscience Institute
Seattle, Washington

Stephen Monteith, M.D.

Course Co-Chairman
Interim Chief of Neurosurgery
Cerebrovascular and Endovascular Neurosurgery
Swedish Neuroscience Institute
Seattle, Washington

Ricardo Hanel, M.D., Ph.D.

Cerebrovascular Neurosurgeon
Baptist Health
Jacksonville, Florida

Akshal Patel, M.D.

Neurosurgeon
Cerebrovascular and Endovascular Neurosurgery
Swedish Neuroscience Institute
Seattle, Washington

Shane Tubbs, Ph.D., PA-C

Chief Scientific Officer
Seattle Science Foundation
Seattle, Washington
