

COA/CORS Preliminary Program
June 20-23, 2018, Fairmont Empress Hotel and Victoria Conference Centre
**All times are tentative, please check back often for updates!

Wednesday, June 20

COA Committee Day

(see Committee Schedule [HERE](#))

Canadian Orthopaedic Residents' Association (CORA) Annual Meeting

(See [HERE](#) for regular updates)

***Note the 12:00 start time to allow for same-day travel.**

11:00-12:00: Resident Registration and Poster Setup

12:00-12:10: Opening Remarks, Job Market Address by COA President Kevin Orrell

12:10-13:00: Residents' Paper Session 1

13:00-13:30: Lunch and Poster Viewing

13:30-15:10: Residents' Paper Session 2

15:10-15:30: Coffee Break and Poster Viewing

15:30-16:50: CORA Symposium

- Stuart L. Weinstein, University of Iowa
- Kelly Lefavre, University of British Columbia
- Danny Goel, University of British Columbia
- The EDUCATE Investigators, McMaster University

16:50-17:15: Bones and Phones Scholarship and CORA Best Paper Awards

17:30-19:00: COA Opening Ceremonies

19:00-21:00: COA President's Reception – an excellent networking opportunity for residents!

20:00: CORA Social Event – Bard & Banker Public House

- Tickets cost \$10/person, includes one drink and hors d'oeuvres.
- Cash bar available.

17:30- 19:00: Opening Ceremonies

Teamwork in Orthopedic Oncology - Guest Speaker-Franklin H. Sim, US

19:00-21:00: President's Welcome Reception

Carson Hall, Level 2, Victoria Conference Centre

Thursday, June 21

COA/CORS Scientific Program

8:00-9:30 Late Career Transitioning ICL

Moderators: Thomas Hupel, ON; Veronica Wadey, ON

Speakers:

- Exit Strategies: Patterns of Physician Retirement and Pre Retirement Activity - Lindsay Hedden, BC

Objectives:

1. To explore and compare mechanisms of identifying physician retirement in administrative data.
 2. To identify patterns of when and how physicians retire across specialties and demographic groups of physicians in BC.
 3. To identify and conceptualize patterns of activity in the years preceding retirement and explore of whether activity patterns vary by specialty or demographic factors.
- Late Career Transition: Curse or Cure - Robin Richards, ON

Objectives:

1. To determine the need for an organized approach to successfully plan for late career transition.
 2. to determine the parameters that need to be considered for successful late career transition.
 3. To define practical actions that the relevant stakeholders can use to ensure a constructive late career transition process.
- Paying it Forward: On with the Old, and More of the New, Growing a Practice with Maturity and Young Talent - Stefan Fletcher, BC

Objectives:

1. Learn how retired surgeons require guidance to be shown sustainable pathways of how to continue to add value without surgical privileges.
2. Learn how the use of data can illustrate a pathway of meaningful integration of a retired surgeon to add value to a community practice.
3. Learn how to find meaningful ways to ease out retired surgeons by adding a broader scope and how this practice leads to hiring more young surgeons.

8:00-9:50 CORS Paper Session: Bone, Ligament & Tendon/Joints & Arthritis

Moderators: Simon Kelley, ON; David Wilson, BC

9:15-10:45 CORS/COA Paper Session: Spine

Moderators: Fackson Mwale, QC; Philippe Phan, ON

9:15-10:45 COA Paper Session: Trauma 1

Moderators: Abdel Lawendy, ON; Stephen Hunt AB

9:15-10:45 Upper Extremity/Sports ICL: What Should We do With The Cuff?

Moderators: Peter Lapner, ON; Ivan Wong, NS

Objectives:

By the end of this session, attendees will be better able to:

1. Describe the treatment options for rotator cuff tears.
2. Educate patients on outcomes of different treatments for rotator cuff tears.
3. Determine the best treatment option for their patients with rotator cuff tears.

Speakers:

TBD

9:15-10:45 SunLife ICL: Tax Trauma (strategies for tax management under the new tax regime)

Moderator: Adam O'Neill, ON

Strategies to minimize tax in a new punitive environment for medical corporations.

Objectives:

A discussion of what has changed in the tax laws and how this affects your personal and professional financial and tax planning, along with a more in depth discussion of the remaining tax strategies available to Canadian orthopaedic surgeons, their corporations, and their families.

Speakers:

- Adam O'Neill BSc, MBA, CHS, CLU
Financial Advisor, President COAplan
- Mark LeClaire CFP, CIM
Director Estate and Financial Planning Services for Sun Life Financial

10:25-11:15

CORA Board Meeting

10:45-11:15

Break in Exhibits

Showcase Theatre Poster Tour: Sports/Arthroscopy

Moderators: Laurie Hiemstra, AB; Olufemi Ayeni, ON

11:15-12:45 CORS Symposium and Ian Macnab Lecture

Biomarkers in Orthopaedics: The Next Revolution

Moderator: Paul Beaulé, ON

Objectives:

1. Provide an understanding on the development and validation of a biomarker.
2. Review current application of biomarkers in arthritis, joint replacement, spine and oncology.
3. Defining how to best integrate biomarkers into clinical practice.

Speakers:

- **Ian Macnab Lecture:** Principles and Development of Biomarkers for the Musculoskeletal System - David Hunter, Australia
- Total Joint Arthroplasty: Osteolysis/Infection - Alberto Carli, ON
- Advanced Cartilage Imaging for Osteoarthritis - David Wilson, BC
- Degenerative Disc Disease - Fackson Mwale, QC

11:15-12:45 Resident ICL: The Future of Orthopaedics in Canadian Healthcare

Moderators: Andrew Adamczyk, ON; Marcia Clark, AB

Objectives:

1. Appraise the possible challenges as a new surgeon transition from residency/fellowship to practice
2. Discuss associated evolution/adaptation required to set up one's practice
3. Review the different practice landscapes (community vs academics) and what this may mean for their future practice goals
4. Explain performance metrics and how it will impact a surgeon's practice.
5. Discuss the role and impact of administration on your practice
6. Consider how one can become involved and impact change in the orthopaedic community

Topics:

- Getting the Call from the Big Leagues - Alexandra Brooks-Hill, BC
- Performance Matters - TBD
- Impacting Change - Alastair Younger, BC
How to Walk the Walk and Not Just Talk the Talk?
Innovations in Orthopaedics, How Can you Contribute?

11:15-12:45 COA Paper Session: Critical Issues

Moderators: Markku Nousiainen, ON; Peter Lapner, ON

12:45-13:45

Lunch in Exhibits

Lunch & Learn Series: Education Through Exchange: Expert presentations by the Visiting ABC Fellows

Moderator: Kelly Lefavre, BC

12:45-14:00

CORS Business Meeting: SWOT Session and Election

13:45-15:15 COA Symposium: Acute Pain Management in Orthopaedics - Reducing the Role of Opioids

Moderators: Jeff Gollish, ON; Ted Tufescu, MB

13:45-15:15 COA Paper Session: Education

Moderators: Marcia Clark, AB; Glen Richardson, NS

1400-1530 CORS Paper Session: Arthroplasty

Moderators: Donald Garbuz, BC; Rajiv Gandhi, ON

15:30-16:20 COA/CORS Keynote Speakers

- **RI Harris Lecture:** Healthcare Reform USA; The Promise and the Reality - Stuart Weinstein, US
- **Founders' Research Update:** A Simplified Clinical Prediction Rule for Prognosticating Independent Walking after Spinal Cord Injury: A Prospective Study from a Canadian Multicentre Spinal Cord Injury Registry - Philippe Phan, ON
- **J. Edouard Samson Award Winner:** A Prospective, International Hip Dysplasia Registry with Follow-up to Skeletal Maturity: An Analysis of Risk Factors, Screening Practices and Treatment Outcomes - Kishore Mulpuri, BC
- **COAGS Norman Bethune Orthopaedic Travel Scholarship Update:** C. Vaughan Bowen, AB

16:30-17:30

COA Business Meeting

17:30-19:00

Poster Pub

Presentation Theatre Poster Tours:

Spine *Moderator:* Albert Yee, ON

Trauma *Moderator:* Abdel Lawendy, ON

18:30-22:00 Past Presidents' Dinner (*by invitation*)

Friday, June 22

COA Scientific Program

7:30-9:30 Canadian Paediatric Orthopaedic Group (CPOG) Research Meeting

8:00-9:30 COA Paper Session: Hip 1

Moderators: James Powell, AB; Richard Street, NZOA President

8:00-9:30 COA Paper Session: Knee

Moderators: Michèle Angers, QC; Glen Richardson, NS

8:00-9:30 COA Paper Session: Spine 1

Moderators: John Street, BC; Albert Yee, ON

8:00-9:30 COA Paper Session: Sports 1

Moderators: Jas Chahal, ON; Ross Outerbridge, BC

8:00-9:30 COA Paper Session: Upper Extremity 1

Moderators: Meaghan Rollins, ON; Danny Goel, BC

9:35-10:35

R5 Graduation Ceremony

President Elect Address

Transfer of Office Ceremony

10:35-11:15

Break in Exhibits

Presentation Theatre Poster Tour: Arthroplasty

11:15-12:45 Visiting Presidents' Carousel Symposium: What Innovation Has Most Influenced Your Practice Over the Last Decade?

Moderator: Kevin Orrell, NS

Speakers:

- Kevin Orrell - COA President
- William Malone - AAOS President
- Regis O'Keefe- AOA President
- Lawrence Malisano - AuOA President
- Anada Nanu - BOA President
- Pradeep Makan- SAOA President
- Richard Street - NZOA President

11:15-12:45 Symposium: Cradle to Grave: Options for Management of the Problem CP Hip

Moderator: TBD

11:15-12:45 Sports / Foot & Ankle ICL

Moderator: Monika Volesky, QC

11:15-12:45 COA Global Surgery (COAGS) SIGN IM Nail Workshop: Treating Fractures in Developing Countries

Moderator: Lew Zirkle, SIGN Fracture Care International, US

Objectives:

1. Discuss the treatment of long bone fractures in austere environment.
2. Understand the role of innovation as continual improvements and implants and instruments are made.
3. Participate in a sawbones workshop using the SIGN system.
4. Identify patterns of results noted after different stabilization of fractures.

Instructors:

- Lewis Zirkle, SIGN Founder, US
- Terry Smith, SIGN Engineering Manager, US
- Jeanne Dillner, CEO, Richland, US
- Joel Gillard, Sr. R&D Engineer, US
- Neil White, Orthopaedic Surgeon, Calgary, AB

12:45-13:45

Lunch in Exhibits

Lunch & Learn Series: Journal Club Session: OrthoEvidence's Must Read Papers of the Last Year

Moderator: Mohit Bhandari, ON

13:45-15:45 Indian Orthopaedic Association (IOA)/Canadian Orthopaedic (COA) Symposium: Trauma

Moderator: Brad Petrisor, ON

Speakers:

- Ram Prabhoo, India
- Mandeep Dhillon, India
- Mohit Bhandari, ON
- Brad Petrisor, ON

13:45-15:15 Spine Symposium: Degenerative Spine

Moderator: Joel Finkelstein, ON

Objectives:

1. To review the approaches used for deformity correction : anterior, posterior, lateral and combined.
2. To understand the spectrum of Surgery from open to less invasive to minimally invasive for deformity correction.
3. To review techniques for distal fixation.
4. Understand the risks involved with each technique.

Speakers:

- Management of Neurogenic Claudication in the Face of Thoracolumbar Deformity - Michael Goytan, MB
- Stopping Rules for Extent of Fusion in Adult Deformity and Techniques for Pelvic Fixation - Henry Ahn, ON
- 360° of Fusion: Front or Back First for Adult Degenerative Scoliosis - Shane Burch, US
- Laterals and Less-invasive Deformity Correction in Adult Scoliosis - Ganesh Swamy, AB
- MISS: Lateral Correction and Fusion with Percutaneous Posterior Stabilization to the Pelvis - Neil Manson, NB

1345- 14:00 EDUCATE Results: An Intimate Partner Violence Educational Program
The EDUCATE Investigators

Objectives:

1. To inform the orthopaedic community about the results of the EDUCATE study.
2. To raise awareness amongst the orthopaedic community about the importance of intimate partner violence education.

The Impact of an Intimate Partner Violence Educational Program Delivered in the Fracture Clinic Setting: Results from the EDUCATE Study

1400-1530 Intimate Partner Violence (IPV) Champion Training Workshop: The EDUCATE Program
The EDUCATE Investigators

Objectives:

1. To provide attendees with the knowledge required to deliver the EDUCATE intimate partner violence training program to individuals at their fracture clinic.
2. To provide information to attendees about how to successfully identify and assist victims of intimate partner violence within their clinical practice.

This workshop is open to individuals who are interested in becoming champions for the McMaster Centre for Evidence-Based Orthopaedics EDUCATE IPV Training Program. During this training, social worker Diana Tikasz, along with other members of

EDUCATE team, will provide information on IPV within the orthopaedic context and review the EDUCATE program curriculum in detail.

16:00-17:00 Fireside Chats

- Hand & Wrist *Moderator*: Ruby Grewal, ON
- Hip
- Knee
- Trauma *Moderators*: Rudy Reindl, QC; Abdel Lawendy, ON

16:00-17:30 COA Workshop- Comprehensive Treatment of Paediatric Tibial Fractures: Why You Need a Hexapod Frame in Your Tool Kit

Moderator: Simon Kelley, ON

Objectives:

1. Understand the indications for hexapod stabilisation of paediatric tibial fractures.
2. Learn to apply a basic two-ring hexapod circular fixator to a midshaft tibial fracture model.
3. Experience the wonder of achieving anatomic fracture reduction through total residual correction using web-based software.
4. Develop an confident approach to post-operative management.

This workshop is intended for paediatric orthopaedic or general orthopaedic surgeons who manage children's fractures. Frequently used techniques such as casting, plating or flexible nails have significant drawbacks, such as difficulty in retaining reduction, limited ability to weight bear, or risk of infection. A modern hexapod circular fixator system can offer a powerful alternative for managing children's tibial fractures, with the benefit of achieving anatomic reduction, early range of motion, immediate weight bearing whilst respecting the soft tissue envelope and growth plates. This workshop pulls together Canada's new generation of cutting-edge paediatric limb reconstructors who are itching to share all their tips on hexpod management of paediatric tibial fractures to give you another tool in your box of tricks.

Instructors:

- Maryse Bouchard, US
- Anthony Cooper, BC
- Marcel Abouassaly, AB
- Carrie Kollias, AB
- Mitchell Bernstein, QC

Saturday, June 23

COA Subspecialty Day

COA Hip & Knee and Canadian Arthroplasty Society (CAS)

7:30-9:00 COA Paper Session: Hip 2

Moderators: Arno Smit, BC; Nelson Greidanus, BC

9:00-10:30 COA Paper Session: Hip/Knee

Moderators: Colleen Weeks, AB; William Maloney, AAOS President

9:00-10:30 CAS/Tumour ICL Managing Surgical Site Infection

Moderator : Michael Monument, AB

Objectives:

1. Discuss established and novel strategies geared towards the prevention of surgical site infection of total joint arthroplasties.
2. Review current standards and emerging technologies used to diagnose acute and chronic infections of peri-prosthetic joint infections.
3. To review the management of acute and chronic peri-prosthetic joint infections.
4. To discuss challenging clinical cases of peri-periprosthetic joint infections.

Speakers:

- Strategies for Prevention of SSI - TBD
- Diagnosis of SSI - Nelson Greidanus, BC
- Acute and Chronic SSI - Thomas Turgeon, MB
- Managing the impossible - Norbert Dion, QC

10:30-11:00 Break

11:00-12:30: COA/CAS Symposium: Minimizing adverse Events in Primary TKA

Moderator: David Backstein, ON

Objectives:

The purpose in this symposium is to highlight methods to avoid common post-operative TKA complications which adversely affect outcomes.

1. Review surgical features which may lead to post-operative TKA stiffness and discuss methods which may improve range of motion.

2. Discuss the clinical features of mid-flexion instability as well as surgical methods to avoid and treat this problem.
3. Discuss management approaches for the recalcitrant TKA periprosthetic infection.
4. Discuss new technology which is available and effective at improving TKA outcomes.

Speakers:

- Avoiding a Stiff Knee - Paul Kuzyk, ON
- Mid Flexion Instability - Brent Lanting, ON
- Can New Technology Help? - Glen Richardson, NS
- Treating Recalcitrant Infections - Michael Zywielski, ON

12:30-13:15 Lunch

13:15-14:45 COA/CAS ICL: Arthroplasty Solutions in Complex Geriatric Fractures

Moderator: Emil Schemitsch, ON

Objectives: TBD

Speakers:

- Geriatric Patient Optimization for Surgery - Bob Herman, AB
- The Case for Cemented Femoral Stems in Hip Fractures - James Howard, ON
- Megaprosthesis in Supracondylar Femoral Fractures - David Backstein, ON
- When Pelvic ORIF and THA is Indicated? - Hans Kreder, ON

14:45-15:45 COA/CAS ICL: Ambulatory TJA

Moderator: Paul Beaulé, ON

Objectives:

1. Defining how to develop and implement an outpatient surgical total joint program.
2. Defining the best candidate for outpatient hip and knee replacement.
3. Understanding the socio-economic benefits of performing outpatient joint replacement.

Speakers:

- Preparing your team for ambulatory surgery—Pascal-André Vendittoli, QC
- How to do outpatient THA - Brent Lanting, ON
- How to do outpatient TKA - Geoff Dervin, ON
- Medico economics of ambulatory TJI - Rajiv Gandhi, ON

16:00-17:30 COA/CAS Symposium: Update in Trunnionosis

Moderator: James Powell, AB

Objectives:

1. To understand Trunnion design.
2. To understand Mechanically Assisted Crevice Corrosion.
3. How to diagnose hip pain related to trunnion wear.
4. How to manage a worn trunnion.

Speakers:

- The role of Metal Ion Testing in Diagnosis - Pascal-André Vendittoli, QC
- The evolution of Trunnion Design- Is there a flaw? - TBD
- Can Bearing Choice Influence MACC? - Paul Beaulé, ON
- How to manage ARMD - Nelson Greidanus, BC

COA Foot & Ankle and Canadian Orthopaedic Foot & Ankle Society (COFAS)

8:00-9:30 COA Paper session: Foot & Ankle

Moderators: Andrea Veljkovic, BC; Warren Latham, ON

9:30-10:30 COFAS Guest Lecturer and Cases

Moderator: TBD

Guest Lecturer: Peter Lam, Australia

10:30-11:00: break

11:00-12:30 Round Table Case-based Discussion

Moderator: TBD

- Topic 1 – 2 leaders
- Topic 2 – 2 leaders
- Topic 3 – 2 leaders
- Topic 4 – 2 leaders

12:30-13:15: lunch

13:15-14:45 COFAS Business Meeting/ Research Meeting/Advocacy and Innovation Discussion

15:00-16:30 COA Trauma/COFAS Combined Symposium: Severe Injuries to Foot and Ankle - This Came in When I was On Call : What Do I Do!

Moderator: David Stephen, ON

Objectives:

This will be a 90 minute, case based, interactive discussion between faculty and participants leading to improved understanding of:

1. Assessment and principles in the management of talar body fractures.
2. Principles of initial and definitive management of high energy pilon fractures.
3. Strategies for assessment and management of open injuries of the foot and ankle.
4. Decision making related to amputations following high energy injuries of the foot and ankle.

Speakers:

- Talar Body Fractures- Abdel Lawendy, ON
- The Severe Pilon Fracture - David Stephen, ON
- Open Injuries to The Foot And Ankle - Alastair Younger, BC
- When to Say When - Indications for Amputation in Isolated Foot and Ankle Trauma - Karl Lalonde, ON

16:30-17:30 COA/COFAS Fireside Chat - Bring Your Tough Cases!

Moderator Karl Lalonde, ON

COA Hand & Wrist

8:00-9:00: Hand and Wrist Study Group Research Meeting

9:00-10:30 COA Hand and Wrist Symposium: Wrist Arthritis - PRC, Partial Fusion, Total Fusion, Arthroplasty: What is The Evidence?

Moderator: Thomas Goetz, BC

Objectives:

TBD

Speakers:

- PRC - Vaughan Bowen, AB
- 4-Corner Fusion - Thomas Goetz, BC
- Total Wrist Fusion - Robert Chan, AB
- Total Wrist Arthroplasty - Braden Gammon, ON
- Save vs. Salvage - Ruby Grewal, ON

10:30-11:00 Break

11:00-12:30 COA Hand and Wrist Symposium: Think Outside the Box - Which Distal Radius Fractures Require Unique Treatment. A Case-based Discussion

Moderator: Ruby Grewal, ON

Objectives:

1. Recognize distal radius fracture patterns, understand indications for surgical and non-operative treatment.
2. Apply an appropriate treatment algorithm to find the optimal surgical approach for these injuries.
3. Evaluate and implement strategies for fixation of distal radius fractures based on underlying fracture pattern.
4. Understand strategies for avoiding complications.

Speakers:

- Dorsal Bartons and Dorso-Ulnar Corner Fractures: Farhad Moola, QC
- Volar Bartons, Volar Shear and Volar Instability: Neil White, QC
- Radial Styloid and Acute (vs Chronic) SL Injury: Dominique Rouleau, AC
- Die Punch Fractures and C3 Type Injuries: Ruby Grewal, ON

12:30-13:15 Lunch

13:15-15:15 COA Paper session Hand & Wrist, and Anic Bitenc Fellow Palibrk Tomislav, Serbia

Moderators: TBD

COA Paediatrics

7:20-9:30 COA Paper Session: Paediatrics

Moderators: TBD

9:30-10:30 CPOG Annual General Meeting

10:30-11:00 Break

11:00-12:30 COA ICL: Paediatrics/Spine - Paediatric Spinal Deformity Update

Moderator: Stefan Parent, QC

12:30-13:15 Lunch

13:15-14:45 COA ICL: Paediatrics - Update on the Orthopedic Management of Skeletal Dysplasias

Moderator: TBD

Guest Panelist: William Mackenzie, US

15:00-16:00 Fireside Chat: Challenging Cases- Comparing and Contrasting the Approach of Senior and Junior Surgeons

Moderator: TBD

Guest Panelist: William Mackenzie, US

COA Spine

7:50-9:30 COA Paper Session: Spine

Moderators: TBD

9:30-10:30: COA Symposium: The Importance of Considering Concurrent Spine/Hip Disease When Planning Surgery

Moderator: Albert Yee, ON

Objectives:

1. To learn practical approaches in the treatment of patients with concurrent spine and hip degenerative disease.
2. To learn about the outcomes of patients receiving total hip arthroplasty surgery who have had prior lumbar spinal fusion surgery.
3. To learn about what spino-pelvic-hip parameters are important to consider in related spine/hip treatment.

Speakers:

- Case Vignette – Ken Thomas, AB
- Spino-Pelvic Hypermobility is Associated with Inferior Outcome Post THA: Examining the Effect of Spinal Arthrodesis - Paul Beaulé, ON
- Understanding Pelvic Parameters and Spinal Pathologies in The Setting of Hip Arthroplasty: An Approach to Concomitant Pathologies – Philippe Phan, ON

10:30-11:00 Break

11:00-12:30 COA ICL: Paediatrics/Spine - Paediatric Spinal Deformity Update

Moderator: Stefan Parent, QC

12:30-13:15 Lunch

13:15-14:45 COA Symposium: From Bench Towards Clinic: Emerging Biologic and Biomaterial Approaches in the Treatment of Spinal Disease

Moderator: Albert Yee, ON

Objectives:

1. To review promising molecular therapeutic targets aimed towards enhancing intervertebral disc health.
2. To highlight promising biomaterial tissue engineered constructs in treating spinal disease.
3. To highlight patient considerations in translating pre-clinical research towards clinical therapeutics.

Speakers:

- The Link-N Opportunity for Treating Degenerative Spine Disease - Fackson Mwale, QC
- Biological Intervertebral Disc Replacement: A New Approach to Degenerative Spine Disease - Rita Kandel, ON
- Considering the Patient: A Systematic Approach in Spinal Metastatic Care in 2018 - Michael Weber, QC

14:45-16:15 COA Symposium: Valued-based and Timely Surgery (i.e. Cervical Myelopathy, Traumatic SCI)

Moderator: John Street, BC

Objectives: TBD

Speakers:

- MAP and Decompression timing in SCI - Sean Christie, NS
- Complications associated with SCI surgery - John Street, BC
- Cost-effectiveness of Degenerative Cervical Myelopathy Surgery - Michael Fehlings, ON; Jeff Wilson, ON
- TBD - Nicolas Dea, BC

COA Sports and Arthroscopy Association of Canada (AAC)

8:00-9:30 COA Paper Session: Sports 2

Moderators: Benjamin Smith, ON

9:30-10:30 Guest Speaker and AAC Position Paper Discussion

Guest Speaker

My Experiences at The Winter Olympics - Robert McCormack, BC

AAC Position Statement - Brendan Sheehan, NB

10:30-11:00 Break

11:00-12:30 COA Sports Tips & Tricks: Practical applications (Arthroscopic All Joints)

Moderator: Cole Beavis, SK; Daniel Whelan, ON

Objectives: TBD

Speakers: TBD

12:30-13:15 Lunch

13:15-14:45 COA Sports Symposium: How do I deal with this case? Case-based/Evidence-based Approach to Problems Across all Joints Arthroscopically

Moderator: Mark Heard, AB; Olufemi Ayeni, ON

Objectives: TBD

Speakers: TBD

15:00-16:00: COA Sports Debates

Moderators: Laurie Hiemstra, AB; Ivan Wong, NS

Objectives: TBD

Speakers: TBD

COA Trauma

8:00-9:00 COA Trauma ICL: Thromboprophylaxis in Trauma Patients: Is There a Consensus?

Moderator: Henry Broekhuysen, BC

Objectives:

1. Review what is known about the risk of thromboembolic disease following injury to the pelvis, hip, and lower extremities
2. Review indications and recommendations for thromboprophylaxis following injury to the pelvis, hip, and lower extremities
3. Discuss the perioperative management of patients on anticoagulants pre-injury

Speakers:

- Current practice - A Survey of COA Members - Steven Papp, ON
- Thromboprophylaxis for Patients with Pelvis and Acetabular Trauma - Bill Ristevski, ON
- Thromboprophylaxis for Patients with Hip Fractures - Henry Broekhuysen, BC
- Thromboprophylaxis for Patients with Injury Below the Hip and Knee - Chad Coles, NS
- Perioperative Management of Patients on Anticoagulants Pre-injury - Neil White, AB

9:00-10:30 COA Paper Session Trauma 2

Moderators: Prism Schneder, AB; Jeremy Hall, ON

10:30-11:00 Break

11:00-12:30: PostOp Fracture Care - Issues in My Plaster Room!

Moderators: Ross Leighton, NS; Pierre Guy, BC

Objectives:

1. Understand the difficulties in smoking cessation around fracture healing.
2. Understand restrictions put on patients after fracture surgery.
3. How to maximize efficiency in a busy fracture clinic.

Speakers:

- How Do I Get my Patient to Quit Smoking - Andrew Pipe, ON
- Can I let my Patient Drive - Aaron Nauth, ON
- Can I Let my Patient Weight Bear - Mike McKee
- How Do I Get Out of Plaster Room Early! - Darius Viskontas, BC

12:30-13:15 Lunch

13:15-14:45 COA Trauma Debate: Distal Femur Fracture - A Problem Not Yet Solved

Moderator: Allan Liew, ON

Objectives: TBD

Speakers:

This Fracture should be Fixed/This Fracture should be Replaced

Ted Tufescu, MB vs. Paul Duffy, AB

IM Nailing is Better vs. Plating is Better

Chad Coles, NS vs. Allan Liew, ON

More Difficult Cases/Technical Tricks - Discussion

15:00-16:30 COA Trauma/COFAS Combined Symposium: Severe Injuries to Foot and Ankle - This came in when I was on call - What do I do!

Moderator: David Stephen, ON

Objectives:

This will be a 90 minute, case based, interactive discussion between faculty and participants leading to improved understanding of:

1. Assessment and principles in the management of talar body fractures.
2. Principles of initial and definitive management of high energy pilon fractures.
3. Strategies for assessment and management of open injuries of the foot and ankle.

Decision making related to amputations following high energy injuries of the foot and ankle

Speakers:

- Talar Body Fractures- Abdel Lawendy, ON
- The Severe Pilon Fracture - TBD
- Open Injuries to The Foot And Ankle - Alastair Younger, BC
- When to say When - Indications for Amputation in Isolated Foot and Ankle Trauma - Karl Lalonde, ON

COA Tumour

7:30-9:00 COA Paper Session: Tumour

Moderators: Michael Monument, AB; Franklin Sim, US

9:00-10:30 Combined Canadian Arthroplasty Society/Tumour ICL: Managing Surgical Site Infection

Moderator : Michael Monument, AB

Objectives:

1. Discuss established and novel strategies geared towards the prevention of surgical site infection of total joint arthroplasties.
2. Review current standards and emerging technologies used to diagnose acute and chronic infections of peri-prosthetic joint infections.
3. To review the management of acute and chronic peri-prosthetic joint infections.
4. To discuss challenging clinical cases of peri-periprosthetic joint infections.

Speakers:

- Strategies for Prevention of SSI - TBD
- Diagnosis of SSI - Nelson Greidanus, BC
- Acute and Chronic SSI - Thomas Turgeon, MB
- Managing the impossible - Norbert Dion, QC

10:30-11:00 Break

11:00-12:30 CANOOS Business Meeting

COA Upper Extremity and Canadian Shoulder & Elbow Society (CSES)

7:30-9:00 COA Paper Session: Upper Extremity 2 - Shoulder and Elbow

Moderators: William Regan, BC; Parham Daneshvar, ON

9:00-10:30 COA/CSES Video Tips & Tricks: Shoulder Instability

Moderator: Danny Goel, BC

All video vignettes 5 minutes with 5 minutes for discussion

Objectives: TBD

Speakers:

- SLAP Repair Indications/Technique - William Regan, BC
- Arthroscopic Posterior Stabilization/Soft Tissue - Jeffrey Pike, BC
- Arthroscopic Posterior Stabilization/Bone - Ivan Wong, NS
- Latarjet Procedure (open) - Martin Bouliane, AB
- Arthroscopic Anterior Glenoid Bone Grafting (allograft) - Ivan Wong, NS

- Arthroscopic Glenoid Bone Grafting (Iatarjet) - Dave Saliken, AB
- Arthroscopic Remplissage - Robert Litchfield, ON

10:30-11:00 Break

11:00-12:30 COA/CSES Elbow Symposium: Elbow Fractures – Current Concepts and Complications

Moderator: Graham King, ON

Objectives:

1. To learn the current indications, technique and outcomes for the management of radial head fractures, distal humeral fractures and terrible triad injuries of the elbow.
2. To provide the attendees with an interactive learning experience using case-based examples of common elbow fractures.

Speakers:

- Radial Head Fractures - J Pollock, ON
- Distal Humerus Fractures - Parham Daneshvar, ON
Questions/Discussion
- Terrible, Terrible Triads – Graham King, ON
Cases/Panel Discussion

12:30-13:15 Lunch
