

Advanced and Interventional Musculoskeletal Ultrasound

August 19 – 20, 2021

Thursday, August 19, 2021		
7:30	Welcome and Continental Breakfast	
7:45	Interactive Polling Session	
8:00	Tendinopathy and Ultrasound-Guided Tenotomy	Jon Jacobson, MD, RMSK
8:30	Other Ultrasound-Guided Interventions: carpal Tunnel release, A1 Pulley release, Hydrodissections & More	Craig Chappell, DO, CAQSM, RMSK
9:00	Break	
9:10	Advanced Musculoskeletal Ultrasound- Guided Procedures in Rehabilitative Medicine: What, When, Why, Where	Timothy J. Mazzola, MD, CAQSM, RMSK
9:50	5-minute stretch break	
9:55	Prolotherapy: General Principles/Practical Applications	David Wang, DO
10:45	5-minute stretch Break	
10:50	PRP: General Principles/Practical Applications	Craig Chappell, DO, CAQSM, RMSK
11:50	Lunch (on your own)	
1:00	Break Out Groups: Gown for Cadaver Lab	
1:15	HANDS-ON SCANNING: Interventional Cadaver Lab	
4:30	Adjourn	
Friday, August 20, 2021		
7:30	Continental Breakfast	
7:45	Introduction to Spine Ultrasound: SI Joints & Facets • Ultrasound anatomy and scan techniques	David Wang, DO
8:25	Break	
8:35	Advanced Peripheral Nerve Applications: Diagnosis & Treatment Options	Jeffrey Strakowski, MD
9:20	Break	
9:30	Break-Out Groups: Group A: Advanced: Lecture Group B: Regen Med: Scan Live Models (nerve & spine)	
9:30	Advanced Foot & Ankle	Timothy J. Mazzola, MD, CAQSM, RMSK
10:15	Interactive Challenging Case Studies	Jeffrey Strakowski, MD
11:00	Advanced & Regenerative Medicine Case Studies	All Faculty
11:45	Post Polling session	
12:00	Lunch (on own)	
1:15	Break- Out Groups	
	Group A (Advanced)	Group B (Regen Med)
1:15	Hands-On Scanning Live Models: Nerve, spine or choice	Live patient Procedures Craig Chappell, DO, CAQSM, RMSK
4:30	Adjourn	

This is a tentative course itinerary. Lecture faculty/times/dates may be subject to change.

Advanced and Interventional Musculoskeletal Ultrasound

August 19 – 20, 2021

The Gulfcoast Ultrasound Institute is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The Gulfcoast Ultrasound Institute designates this live educational activity for a maximum of 16.0 *AMA PRA Category 1 Credits*™. Physicians should claim only credit commensurate with the extent of their participation in the educational activity.

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 16.0 Medical Knowledge MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC credit.

This course also meets CME / CEU requirements for ARDMS. Note: While offering the CME credit hours noted above, activities are not intended to provide extensive training or certification for exam performance or interpretation.

NEEDS STATEMENT:

The planning committee has determined a need for the following educational activity based on request from the medical community, expanded utilization of ultrasound, and lab accreditation requirements.

COURSE OBJECTIVES:

At the completion of the program the participant should be able to:

1. Increase the participant's knowledge to better perform and / or interpret MSK ultrasound exams.
2. Outline the biology and evidence for use of various regenerative substances.
3. State when, why, and how to integrate regenerative medicine as a practical treatment option.
4. Interpret complex musculoskeletal ultrasound images and list treatment options and patient management strategies.
5. List protocols for ultrasound evaluation and treatment options of the spine.
6. Outline new ultrasound guided procedures for ligament, tendon injuries.
7. State the role of ultrasound in nerve entrapment syndromes.
8. Demonstrate the principals of injection techniques for the performance of upper and lower extremity MSK interventions on cadaver models.
9. Increase confidence to incorporate protocols, scan techniques, and interpretation criteria to improve diagnostic/treatment accuracy.

While offering CME credits this activity is not intended to provide extensive training or certification for performing or interpreting musculoskeletal examinations. We recommend working under supervised conditions until an accepted level of proficiency has been achieved.

Special thanks to the following ultrasound equipment manufacturers who have provided various (in kind) educational grants to help make this program possible:

Advanced and Interventional Musculoskeletal Ultrasound

August 19 – 20, 2021

Disclosure of Relevant Financial Relationships With Commercial Companies/Organizations

Gulfcoast Ultrasound Institute, Inc. endorses the standards and essentials of the Accreditation Council for Continuing Medical Education for activities and the speakers at these activities disclose significant relationships with commercial companies.

Speakers having relevant relationships include receiving from a commercial company research grants, consultancies, honoraria and travel, or having a self-managed equity interest in a company.

LECTURING FACULTY:

Jon Jacobson, MD, RMSK

(GUI QI Task Force Subcommittee)

Professor of Radiology
Director, Div. of Musculoskeletal Radiology
University of Michigan Medical Center
Ann Arbor, MI

No relevant financial relationships to disclose

Timothy J. Mazzola, MD, CAQSM, RMSK

(GUI QI Task Force Subcommittee)

Regenerative Orthopedics and Sports Medicine
Boulder, CO

No relevant financial relationships to disclose

David Wang, DO

Regenerative Orthopedics and Sports Medicine
Director of Training and Education
Silver Spring, MD

No relevant financial relationships to disclose

Jeffrey Strakowski, MD

(GUI QI Task Force Subcommittee)

Clinical Professor, Department of PM & R
The Ohio State University
Associate Director of Medical Education, Department of PM & R
Ohio Health Riverside Methodist Hospital
Columbus, OH

No relevant financial relationships to disclose

Craig Chappell, DO, CAQSM, RMSK

(GUI QI Task Force Subcommittee)

President and Owner of In2it Medical
Salt Lake City, UT

No relevant financial relationships to disclose

All presentations for this CME activity were reviewed and approved by member(s) of the GUI staff to determine content validity and ensure that no conflicts of interest exist prior to final course material compilation and printing.

Advanced and Interventional Musculoskeletal Ultrasound

August 19 – 20, 2021

Disclosure of Individuals in Control of Content

In addition to the faculty listed on the previous page the following individuals are recognized by GUI as being in control of content of this program:

James Mateer, MD, RDMS (Medical Director-planner & QI Task Force)

Medical Director, Gulfcoast Ultrasound Institute
Milwaukee, WI

No relevant financial relationships to disclose

Charlotte Derr, MD, RDMS, FACEP (Co-Medical Director-planner & QI Task Force)

Assistant Professor of Emergency Medicine &
Fellowship Director of Emergency Medicine
Ultrasound Fellowship Program
University of South Florida Medical School
Tampa, FL

No relevant financial relationships to disclose

Andreas Dewitz, MD, RDMS (Member of Advisory Board & QI Task Force Subcommittee)

Associate Professor of Emergency Medicine
Vice Chair of Ultrasound Education
Boston Medical Center
Boston, MA

No relevant financial relationships to disclose

Lori Green, BA, RT, RDMS, RDCS, RVT (Program Director-planner, Content Reviewer, QI Task Force)

Gulfcoast Ultrasound Institute, Inc.
St. Petersburg, FL

No relevant financial relationships to disclose

Trisha Reo, AAS, RDMS, RVT (Program Coordinator-planner, Content Reviewer, QI Task Force)

Gulfcoast Ultrasound Institute, Inc.
St. Petersburg, FL

No relevant financial relationships to disclose

Content:

All content for this CME activity were reviewed and approved by member(s) of the GUI staff to determine content validity and ensure that no conflicts of interest exist prior to final course material compilation and printing.

Reviewed & approved: 07/19/2021

Lori Green BA, RT, RDMS, RDCS, RVT

Trisha Reo AAS, RDMS, RVT

HANDS-ON INSTRUCTORS:

At the time of printing **all hands-on instructors for this program have signed disclosure forms and have no relevant financial relationships to disclose.** A verbal disclosure will be made during opening remarks. All scanning sessions are monitored by the program director and/or the program manager to ensure education objectives are met and no commercial bias occurs.

Advanced and Interventional Musculoskeletal Ultrasound August 19 – 20, 2021

Welcome!!

The entire staff at Gulfcoast Ultrasound Institute would like to welcome you to our educational facility.

Our goal is to provide the highest quality continuing education possible in a relaxed and personal atmosphere. The content of each program has been carefully planned to provide you with the information needed to obtain a firm foundation to begin gaining the experience to perform and/or interpret ultrasound examinations in the specialty of your choice. The program will be structured with lectures in the morning and hands-on sessions during the afternoon to allow more individualized attention the program participants will be divided into groups for the hands-on workshops based on your experience level and type of equipment you work with.

To help you get the most out of this program we would like to make the following recommendations:

1. Attend the lectures and scheduled hands-on sessions.
2. When you are not involved in a scheduled afternoon session, take advantage of the SUPPLEMENTAL SCANNING WORKSHOP or check out a DVD from our library.
3. If you do not understand a particular concept, ASK FOR HELP!
4. Study your course workbook during the evening.
5. Remember excellence is not achieved overnight. Becoming proficient in any ultrasound specialty requires the commitment to continually study and perform multiple (at least 100) exams before an initial level of confidence is achieved. The AIUM guidelines suggest competency for interpretation requires a minimum of 500 exams per specialty.
6. Begin scanning immediately upon return to the ultrasound departments even if it's on a volunteer. We recommend scanning/interpretations under supervised conditions until an accepted level of proficiency has been obtained.

All of our instructors, guest speakers and office staff are here to serve you! If you have any questions of any kind, please do not hesitate to ask.

Advanced and Interventional Musculoskeletal Ultrasound August 19 – 20, 2021

Gulfcoast Ultrasound Institute **EQUIPMENT RECOMMENDATIONS**

Throughout the past 35 years Gulfcoast Ultrasound Institute has taken great pride in our ability to provide quality continuing education programs while remaining unbiased regarding the recommendation of ultrasound equipment.

Our programs are supported by most of the major equipment manufacturers by providing their systems for use during the hands-on sessions. These companies have learned their products will be used and demonstrated to the best of our abilities in an educational setting and that no selling or promotion is done on our premises.

We realize that some of the course participants may currently be in the process of evaluating equipment for purchase and would like the opinions of our staff to determine the “best” system for your department. Everyone has a “favorite” ultrasound system (usually because it is the one they have worked with the most and are comfortable with) however, Gulfcoast Ultrasound must take an unbiased position in regards to equipment recommendations.

If you are currently evaluating equipment for purchase, we suggest you invite the equipment manufacturers to your facility for a private demonstration to determine image quality, ease of use, over-all capabilities etc. on an individual basis.

Thank you!
