

Interventional Musculoskeletal Ultrasound with Human Cadaver Lab August 16-17, 2018

Thursday, August 16, 2108		
7:30	Welcome and Continental Breakfast	
7:40	Interactive Polling Session	
7:50	“Snapping Tendons”: Utility of Dynamic Ultrasound	Jeff Strakowsky, MD
8:20	Break	
8:30	Advanced Musculoskeletal Ultrasound- Guided Procedures in Rehabilitative Medicine: What, When, Why, Where	David Wang, DO
9:30	Break	
9:40	Prolotherapy: General Principles/Practical Applications	David Wang, DO
10:40	5 minute stretch Break	
10:45	PRP: General Principles/Practical Applications	Craig Chappell, DO
11:30	Regulatory Guidelines for Regenerative Medicine	
12:00	Lunch (provided for regen med track participants)	
12:15	Lunch Lecture: Bone Marrow and Lipoaspirate: General Principles/Practical Applications (lunch provided)	
1:00	Break Out Groups	
1:15	HANDS-ON SCANNING: Interventional Cadaver Lab • UE & LE injection techniques • Bone Marrow/Lipoaspirate	All Faculty
2:45	Break	
2:55	HANDS-ON SCANNING: Interventional Cadaver Lab • UE & LE injection techniques • Bone Marrow/Lipoaspirate	All Faculty
4:20	Adjourn	
Friday, August 17, 2018		
7:30	Continental Breakfast	
7:45	Ultrasound Evaluation of the Spine: • Ultrasound anatomy and scan techniques • Treatment and interventional techniques	David Wang, DO
8:30	Break	
8:45	Advanced Peripheral Nerve Applications: Diagnosis & Treatment Options	Jeff Strakowski, MD
9:30	Stretch break	
9:35	Hands-On Scanning Live Models: Nerve & spine	All Faculty
11:00	Post-Op Shoulder, Knee & Beyond	Timothy J. Mazzola, MD, CAQSM, RMSK
11:45	Post Polling session	
12:00	Lunch (provided)	
12:15	Lunch Lecture: Unlocking Frozen Joints	Timothy J. Mazzola, MD, CAQSM, RMSK
1:00	Live Patient Regenerative Medicine Procedures Craig Chappell, DO, RMSK	
4:30	Adiourn
