

# Preliminary scientific program

## Basic course Sofia, Bulgaria 20-21/10/23

|                             |                                             |                                                |
|-----------------------------|---------------------------------------------|------------------------------------------------|
| <b>Day 1</b>                |                                             | Preliminary presenter                          |
| <b>08 00 - 08 20</b>        | Welcome and quizz                           |                                                |
| <b>Genitalia 1</b>          |                                             |                                                |
| <b>08 20 - 08 35</b>        | Basics female and male external genitalia * | Anja Lingnau                                   |
| <b>08 35 - 08 50</b>        | Undescended testis                          | Marcel Drlik                                   |
| <b>08 50 - 09 00</b>        | Varicocele                                  | Alfredo Berrittini                             |
| <b>09 00 - 09 10</b>        | Videos                                      | Open+lap orchidopexi                           |
| <b>09 10 - 09 30</b>        | Discussion                                  |                                                |
| <b>Coffee 09 30 - 10 00</b> |                                             |                                                |
| <b>Genitalia 2</b>          |                                             |                                                |
| <b>10 00 - 10 15</b>        | DSD workup                                  | Alex Springer                                  |
| <b>10 15 - 10 30</b>        | Male reconstruction - hypospadias           | Anne – Francoise Spinoit                       |
| <b>10 30 - 10 40</b>        | Female reconstruction                       | Gundela Holmdahl                               |
| <b>10 40 - 10 50</b>        | Videos                                      | TIP repair, Staged repair                      |
| <b>10 50 - 11 10</b>        | Discussion                                  |                                                |
| <b>Stones and tumors</b>    |                                             |                                                |
| <b>11 10 - 11 25</b>        | Stones                                      | Parviz Hajiye                                  |
| <b>11 25 - 11 35</b>        | Tumors                                      | Matthieu Peycelon                              |
| <b>11 35 - 11 45</b>        | Videos                                      | Mini PCNL, RIRS                                |
| <b>11 45 - 12 00</b>        | Discussion                                  |                                                |
| <b>12 00 - 12 30</b>        | Scenarios, case discussion                  | UDT, hypospadias                               |
| <b>Lunch 12 30 - 13 30</b>  |                                             |                                                |
| <b>Upper urinary tract</b>  |                                             |                                                |
| <b>13 30 - 13 50</b>        | PUJ obstruction                             | Anja Lingnau+ Emil Atanasov                    |
| <b>13 50 - 14 05</b>        | VUJ obstruction/megaureter                  | Anna Bujons                                    |
| <b>14 05 - 14 15</b>        | Videos                                      | Lap p-plasty, POM                              |
| <b>14 15 - 14 30</b>        | Discussion                                  |                                                |
| <b>14 30 - 14 45</b>        | Duplex systems                              | Alex Turner                                    |
| <b>14 45 - 15 05</b>        | Vesicoureteral reflux                       | Marcel Drlik                                   |
| <b>15 05 - 15 10</b>        | Videos                                      | Cele incision, injection therapy reflux, Cohen |
| <b>15 10 - 15 30</b>        | Discussion                                  |                                                |
| <b>Coffee 15 30 - 16 00</b> |                                             |                                                |
| <b>16 00 - 17 00</b>        | Scenarios, case discussion                  | PUJ, VUJ, duplex, VUR                          |

|                              |                                     |                                                              |
|------------------------------|-------------------------------------|--------------------------------------------------------------|
| <b>Day 2</b>                 |                                     |                                                              |
| <b>08 00 – 08 20</b>         | Welcome and quizz                   |                                                              |
| <b>Lower urinary tract 1</b> |                                     |                                                              |
| <b>08 20 – 08 30</b>         | Urodynamics                         | Parviz Hajiyev                                               |
| <b>08 30 – 08 45</b>         | Non-neurogenic bladder dysfunction  | Rafal Chrzan                                                 |
| <b>08 45 – 09 00</b>         | Neurogenic bladder dysfunction      | Alex Turner                                                  |
| <b>09 00 – 09 10</b>         | Videos                              | Botox injection                                              |
| <b>09 10 - 09 30</b>         | Discussion                          |                                                              |
| <b>Lower urinary tract 2</b> |                                     |                                                              |
| <b>09 30 – 09 45</b>         | PUV                                 | Gundela Holmdahl                                             |
| <b>09 45 - 10 00</b>         | BEEC complex and rare malformations | Matthieu Peycelon                                            |
| <b>10 00- 10 10</b>          | Videos                              | PUV, BEX                                                     |
| <b>10 10 – 10 30</b>         | Discussion                          |                                                              |
| <b>Coffee 10 30 – 11 00</b>  |                                     |                                                              |
| <b>11 00 – 11 10</b>         | Transitional urology                | Anne –Françoise Spinoit                                      |
| <b>11 10 - 12 00</b>         | Scenarios, case discussion          | Neurogenic bladder, PUV, rare diseases, transitional urology |
| <b>Closing remarks</b>       |                                     |                                                              |
| <b>12 00 – 12 15</b>         |                                     |                                                              |
