WHO SHOULD ATTEND:

Healthcare professionals responsible for managing people with diabetes including:

- Medical and Surgical Specialists
- General Physicians and Surgeons
- Primary Care Physicians
- General Practitioners
- Medical and Health Officers
- Trainee Lecturers
- Pharmacists
- Nutritionists and Dietitians
- Researchers (Clinical & Basic Sciences) in Diabetes
- Health Education Officers
- Diabetes Educators
- Other healthcare professionals involved in diabetes care

The 'Diabetes Asia 2025' Conference will emphasise on recent advances in the understanding and care of diabetes, its complications and related diseases.

OBJECTIVES OF THE CONFERENCE:

The Continuing Professional Development (CPD) Series as "Diabetes Asia 2025" Conference aims to help improve management of diabetes with emphasis on recent advances and practical aspects of diabetes care. Participants are expected to be able to:

- Appreciate recent advances and practical aspects of diabetes care
- Understand ways of ensuring early diagnosis and optimal management for good control of diabetes, its complications and associated diseases
- Apply knowledge gained during the Conference to further improve care for persons with diabetes in the community

SCIENTIFIC PROGRAMME*

International speakers will be delivering lectures IN-PERSON on subjects of current interest relevant to diabetes care during Plenary and Symposium Sessions. They may also be the resource persons for Meet-the Professor Sessions. Local experts will participate in-person in symposiums and case discussion sessions

- PLENARY:**
1. MASLD in Diabetics: Clinical implications and Prevention
 2. Applying International Best-practice Guidelines for People in Developing Countries: The Ideal and The Practical.
 3. Cardio-Renal-Metabolic (CRM) Disease: Implications in Management
 4. Predicting and Preventing Diabetes Complications
 5. Personalised Medicine for T2DM: What is Doable Currently to Improve Care
 6. Prevention or Delay of Diabetes - Clinical Challenges

Main Symposium 1A THEME: ADVANCES IN DIABETES MANAGEMENT

- Topics:
1. The Many Drugs for Diabetes: Navigating which Drug(s) for Whom.
 2. Strategies in Achieving Diabetes Remission
 3. Newer Diabetes Drugs in the Pipeline

Main Symposium 3A THEME: NEW APPROACH IN THE MANAGEMENT OF MICROVASCULAR COMPLICATIONS

- Topics:
1. Early Detection and Management of Proliferative Diabetic Retinopathy and Maculopathy
 2. Advances in Clinical Management of Diabetic Nephropathy: from Microalbuminuric to End-stage Renal Failure
 3. New Approaches in The Management of Diabetic Peripheral Neuropathy with Emphasis on Painful Neuropathy

Main Symposium 4A THEME: TYPE 1 DIABETES IN CHILDREN & ADOLESCENTS

- Topics:
1. Prevention of T1DM: Current Status
 2. Challenges in Managing Adolescent T1DM
 3. Wearable Devices for Continuous Glucose Delivery and Monitoring

Main Symposium 5A THEME: MANAGING DIABETES IN SPECIAL GROUPS

- Topics:
1. Challenges in Managing Diabetes in Pregnancy in Primary Care Setting
 2. Pre-diabetes: Significance and Targets in Management
 3. Overcoming Polypharmacy in Elderly Diabetics: A Serious, Often Overlooked Problem.

Main Symposium 2A THEME: ADVANCES IN MANAGING COMORBIDITIES OF DIABETES

- Topics:
1. Current BP Targets and Medications for Diabetics
 2. Obesity and Diabetes: Advances in Management
 3. An Update on LDL-C: Targets and Strategies
