5 CPD credits

"Anaesthetists as Educators: an Introduction" provides an introduction to post graduate medical education in anaesthesia. The course replaces an "Introduction to Teaching" and is suitable for trainees, SAS doctors and consultants who have had no previous training in teaching or medical education. This course provides the ground work for the "Anaesthetists as Educators: Teaching and Training in the Workplace" course, which is a natural follow on. This highly interactive workshop relies on you bringing your real-life experiences of teaching in the workplace in order to gain the most benefit.
