Early registration ends March 9, 2018

THE UNIVERSITY OF TEXAS

**MD Anderson
Cancer Center**

Making Cancer History®

Education Objectives

- Implement guidelines to assess and screen high-risk patients in daily practice
- Select and employ a referral screening tool in clinical practice to help identify at risk patients
- Evaluate analytical validity, clinical validity, and clinical utility of genetic testing options available to determine appropriate test choice
- Recognize key features associated with potential hereditary cancer predisposition adequately to refer at risk patients for cancer risk assessment
- Recognize surgical interventions, screening protocols, and systemic therapies appropriate for specific hereditary cancer predisposition syndromes/genes
- Describe fertility preservation and family planning options available
Recognize psychosocial implications of identifying a hereditary predisposition to cancer for both patient and family

Exhibitors

	Invitae, Quest Diagnostics
	Ambry Genetics, GeneDx
	Color Genomics, LabCorp Specialty Testing Group – Integrated Oncology/Integrated Genetics, Tesaro

Agenda

7:30am	Registration and Continental Breakfast
8:00am	Introduction and Welcome Remarks Banu Arun, MD
8:10am	Overview of Hereditary Cancer in Clinical Practice Molly Daniels, MS, CGC
8:40am	Genetic Test Evaluation and Comparison of Gene Impact Nadine Tung, MD
9:20am	Break
Evaluation and Management Series: Red Flags for a Hereditary Predisposition to Cancer and Patient Care	
9:40am	Breast Cancer Banu Arun, MD
10:05am	Gynecologic Cancers Karen Lu, MD
10:30am	Colorectal Cancer Y. Nancy You, MD
10:55am	Prostate Cancer Ashley Woodson, MS, CGC
11:20am	Hematologic Malignancies Sarah Bannon, MS, CGC
11:45am	Lunch (provided)
System Therapies for Hereditary Cancer Syndromes	
12:30pm	Ovarian and Breast Shannon Westin, MD
12:45pm	Colorectal and Pancreas Eduardo Vilar Sanchez MD
1:00pm	Family Outreach and Psychosocial Concerns Susan Peterson, PhD
1:20pm	Genetic Services Delivery Models: What to do When You Don't Have a Genetic Counselor Erica Bednar, MS, CGC
2:00pm	Fertility Preservation and Pre-Implantation Genetic Diagnosis Terri Woodard, MD
2:25pm	Case Review with Panel of Hereditary Cancer Experts Moderated by Rachel Webster, MMSc, CGC
3:10pm	Closing Remarks Y. Nancy You, MD
